

## PARKING PERMITS PROCEDURE

If you are taking summer school classes you must register your vehicle with Public Safety. This applies to day use as well as overnight use. As the permits are only good for two weeks at a time, at the time of registration you must request a permit for each session you are enrolled. This is a quick procedure that should only take 5 minutes of your time. You will need to know the following information when you register:

- Dates of your stay
- Vehicle state and license number
- Color/make/model/year of vehicle
- Dorm name and number
- Contact phone number

The Public Safety office is located on College Avenue. When you come into Angwin, keep going past the college until you come to the only stop sign in town. Turn right, and continue up the hill until you see the cream colored Public Safety building on your left. They are open continuously from 8 - 4. If for some reason you can't make it there during regular offices hours, you can call them ahead of time at 707/965-6551 and they will arrange to meet with you after hours.

**PLEASE NOTE:** if you park in the blue handicapped, red fire zone, or in the Health Services staff parking area you will be ticketed whether or not you have a permit.
