Welcome to the learning community known as Pacific Union College.

The idea of a “learning community” suggests that our college is about a family learning together in mutual respect as we prepare for productive lives of useful service and uncompromising integrity. We are a Christ-centered community of learners committed to exploring and finding truth together in our quest for deeper knowledge of our chosen fields.

This quest, not an easy task, is the most exciting adventure anyone can engage in. More than the additional income a college graduate can expect to earn, beyond the earning of those without such an education, are the eternal values learned through studying in a community of like-minded students, professors, and staff members.

Part of the duty of each member of the learning community is to have time to engage in habits of lifelong learning. James Sire, former editor of InterVarsity Press, emphasizes this intellectual role for each of us: “...one who loves ideas, is dedicated to clarifying them, developing them, criticizing them, turning them over and over, seeing their implications, stacking them atop one another, arranging them, sitting silent while new ideas pop up and old ones seem to rearrange themselves, playing with them, punning with their terminology, laughing at them, watching them clash, picking up the pieces, starting over, judging them, withholding judgment about them, changing them, bringing them into contact with their counterparts in other systems of thought, inviting them to dine and have a ball but also suiting them for service in a workaday life. A Christian intellectual is all of the above to the glory of God.”

Christian professors and staff members are here to help you engage in this exciting process. Sometimes Christians are said to have an anti-intellectual fear of allowing people to use their minds. After reviewing the lives of Moses, Solomon, Daniel, and Paul, however, Arthur Holmes comments, “...there is clearly no incompatibility between vital faith and deep, disciplined, wide-ranging learning, between piety and hard thinking, between the life of faith and the life of the mind... Biblical faith had no room for anti-intellectualism; instead, faith and learning were mutually supportive and mutually enriching.”

At Pacific Union College we invite you to join in this journey.

The Psalmist wrote, “Send forth your light and your truth, let them guide me; let them bring me to your holy mountain, to the place where you dwell” (Psalms 43:3).

Our college on Howell Mountain is at the holy mountain where God dwells. We are here to help create a learning climate characterized by faculty, staff, administrators, and students who put on the shield of faith, the helmet of salvation, the sword of the Spirit, the breastplate of righteousness, and the belt of truth as we serve others with humility in our chosen professions (Ephesians 6:10-20).

—Richard C. Osborn

Using This Catalog

Unlike some textbooks used in a course but perhaps never consulted again, this catalog is important throughout your college career because it describes the academic program of the College and defines the requirements you must meet to achieve your academic goals. You should become acquainted with the catalog before you register at PUC.

Even if you have not yet decided on a major, you may become familiar with the general-education program and plan a schedule of courses based on its requirements. Though an adviser will help you work out your course of study, you have the ultimate responsibility for meeting the requirements of the program you choose. The catalog will serve as your constant personal adviser in the continuing process of planning and managing your college career.

Every effort has been made to ensure that the information in this catalog is correct at the time of publication. Altered circumstances and policy changes, however, may affect the accuracy of the information it contains. Consequently, should any regulations or program requirements be in conflict with information in this catalog, current regulations and requirements govern.

The catalog presents only an overview of College policies and regulations. Other existing requirements are equally binding, though not published in this catalog.
History

The Seventh-day Adventist Church has a heritage of strong commitment to education. Its members expressed this commitment during the late 1800s and early 1900s by establishing schools and colleges near major population centers across North America. In 1874 the Church founded its first college in Battle Creek, Michigan. A few years later the rapidly growing California church began looking for a good location for a school in Northern California.

In the vineyards of Healdsburg, fifteen miles north of Santa Rosa, the searchers found an ideal property. Total cost of the imposing brick structure and its furnishings, just off Healdsburg’s main street, was thirty gold coins. The new school, to which Pacific Union College traces its roots, opened April 11, 1882, with two teachers and twenty-six students. In 1899, to reflect more accurately the school’s purpose and its expanding curriculum, the school’s name was changed to Healdsburg College; it became Pacific Union College in 1906.

When the Angwin Resort on Howell Mountain, above Napa Valley’s St. Helena, became available, the College Board sensed the opportunity to secure more adequate space for the growing school and the associated businesses that had been established to provide student employment. They bought the buildings and land for $60,000. On September 29, 1909, Pacific Union College was dedicated at its present Angwin site. The resort’s hotel, bowling alleys, and cottages became dormitories, classrooms, and faculty homes. Students and faculty worked together building other structures, often using lumber harvested from College property.

The Campus

Today the institution occupies a 200-acre main campus surrounded by approximately 1800 acres of College-owned agricultural and forested land. The school’s estate includes 60 major structures as well as faculty homes, necessary utilities, and other buildings. Fifteen academic buildings house the library, classrooms, laboratories, and offices. West Hall, the oldest, dates from 1917. The newest, Chan Shun Hall, is a modern science complex, in use since 1986. Recently completed, it includes 55,000 square feet of classroom, laboratory, and office space. Four women’s residence halls can accommodate approximately 700 students; three men’s halls, approximately 600.

The Area

The College is located on Rancho La Jota, whose title is based on an old Mexican land grant. It is surrounded by places of historic significance in the development of the American West: Sonoma, the northernmost Spanish mission in California and the scene of the Bear Flag Revolution; Fort Ross, the southernmost Russian outpost on the continent; Sutter’s Fort and the California gold diggings; and the routes of early explorers, traders, and immigrant groups.

Howell Mountain, the school’s site, is a junction point for the life zones of north and south, coast and interior, and is recognized as an unusually rich area for studying plant and animal life. About one hundred miles from the campus, at Albion in Mendocino County, the College owns fourteen acres where it operates the Albion Field Station. This primitive region, where the Albion River empties into the Pacific Ocean, presents unusual opportunities to study marine biology and botany.

The San Francisco, Oakland, and Sacramento International Airports are within a two-hour drive from the campus. Bus service from St. Helena to Napa, Berkeley, Oakland, San Francisco, and other cities brings the cultural opportunities of large urban communities within reach of the student body.
Blank page
Pacific Union College is a Christian liberal arts college sponsored by the Seventh-day Adventist Church. Its mission is to prepare its students for fellowship with God and service to Him through service to humanity. To achieve its mission, the College offers an excellent education, informed by a distinctive Seventh-day Adventist Christian point of view, to all who appreciate the school’s unique values and its integration of faith and learning. Paying special attention to Christianity’s role in civilization, the College considers liberal arts study with a Christian perspective to be uniquely valuable not only for its own sake, but also as a basis for career training and professional life.

**Christian Liberal Education**

Liberal arts education with a Christian perspective prepares one to live in responsible human freedom. Such study promotes a balanced self-development. It frees one from the confines of personal experience and immediate interests and encourages entering with understanding into the experience of others. It advocates at once a tolerance of differing views, the respect those views deserve, and vigorous engagement with them. It fosters those lifelong habits of curiosity and serious inquiry that sustain the growth of the human spirit. It develops creative self-expression, including the ability to speak and write articulately. It provides breadth and flexibility for coping and adapting in a changing world.

**The Major**

As an essential part of their liberal arts education, students choose majors for specialized study in harmony with their personal interests and as preparation for successful entry into their chosen careers or into graduate study. The College regularly reviews all programs to maintain their quality and to ensure that they respond to current student demand and to the changing needs of the Church and the larger community.

**General Education Core**

The structured general-education core gives scope of knowledge. The liberal arts emphasis in both the major and the general-education core promotes quality of understanding. The graduate should therefore have a growing knowledge and an enlightened appreciation of the major areas and modes of learning. A personally appropriated Christian view of the origin and purpose of human life should give this knowledge coherence for each student.

**Independent, Critical Thinking**

Beyond giving information, the disciplines of the liberal arts create the environment for students to develop their abilities to think analytically, critically, and independently. Students are challenged to find original solutions for a variety of problems. Such study teaches not only the different modes of inquiry and their valid uses, but also their limitations.

**Faith and Learning**

In a church-related college, tensions may sometimes occur between the claims of a religious belief system and those of academic pursuits. But because faith without thought is not an acceptable alternative to thought without faith, such unresolved tensions should never force the sacrifice of one to protect the other. Ideally, they should energize creative study of the valid claims of both faith and learning and of their interrelationships. A foundation of knowledge and understanding strengthens faith. Because the challenge of resolving ambiguities and uncertainties often produces the most valuable new insights, such study should both preserve...
intellectual honesty and enhance a faith worth holding. Knowing truth does indeed bring freedom.

**Responsible Freedom**

Students are urged through their total college experience to evaluate their own convictions and to inform them with enduring cultural values and essential Christian principles. They are invited to recognize that changing times require fresh statement of this heritage, but not its compromise. They are challenged to blend these timeless values and principles in a distinctive lifestyle that includes responding helpfully to human need, wherever encountered, in a natural expression of their own Christian calling. As Jesus showed, the finest incarnation of responsible freedom is in compassionate human service.

**The Mission Realized**

The mission of the College is therefore partly realized when its students leave the campus well prepared for advanced study and for selfless service to humanity in productive careers marked by uncompromising personal integrity. The mission is more perfectly realized when these same students are set on their way free to approach their potential as persons restored in the image of God and as agents of His grace in the world.
Student Housing

Pacific Union College affirms the values to be gained from being primarily a residential college. By accepting admission, unmarried students aged 22 or younger agree to live in a residence hall—unless they apply for and are granted an exception. For students in good standing, requests for off-campus housing may be approved according to the following criteria:

1. applicants 23 or older
2. applicants 22 and turning 23 during the current academic year
3. fifth-year seniors (Student Missionary and Taskforce years may count as one year)
4. holders of earned bachelor’s degrees
5. applicants living with parents or other immediate relatives (grandparents, aunts, uncles, siblings at least 25 years old) and in their primary residence
6. part-time students enrolled for six or fewer credits
7. applicants 22 or younger with significant financial need who are offered room and board at substantial savings (required to live in the host family’s home)
8. divorced and widowed applicants
9. single parents

All housing must be registered in the Office of Student Services. Residence halls are available to students currently enrolled at Pacific Union College who meet eligibility requirements. Students 24 and older may live in residence halls on a “space-available” basis upon application.

Requests for off-campus housing are considered and acted upon annually. Students are to secure approval before signing a lease for off-campus housing.

Single community students are not to live in “coed” groups.

These policies also apply to students enrolled in summer sessions or working full or part time on campus during summer sessions.

Dining

The Food Service provides a selective menu and a variety of services to satisfy the needs and tastes of a cosmopolitan campus community. The College provides a lacto-ovo-vegetarian menu on the à la carte plan. If you have any special dietary needs, you should visit the Food Service Director to make any necessary special arrangements.

Residence-hall students are expected to take their meals in the Food Service and are charged a minimum fee each quarter. For details, see the FINANCIAL INFORMATION section of this catalog.

The College Food Service caters for small-group activities, picnics, and banquets. For special occasions, small groups and organizations may reserve four auxiliary dining rooms in the Dining Commons (all food is to be prepared by the Food Service). Reservations are made at the Food Service office.

Health Service

The Health Service has a well-qualified staff to provide basic health care for students and emergency care for the campus community.

If you are a new student, you must present, before admission, documentation of a current physical examination, a complete summary of all immunizations, and proof of health insurance. The necessary forms are included in the application materials sent to you by the Office of Enrollment Services.

Orientation for New Students

Prior to autumn-quarter registration the College provides an orientation program to acquaint new students with various aspects of campus life. Activities include aptitude and placement tests to assist in planning one’s academic program, familiarization with the use of campus facilities and services, and social gatherings to provide opportunity for becoming acquainted with other students and with faculty members.

Library Services

The W. E. Nels on Memorial Library provides both print and nonprint educational materials and electronic databases for the use of students and faculty. Library holdings include 324,868 items and a current subscription list of 879 periodicals. The 37,444-item media
collection includes slides, tapes, filmstrips, motion-picture films, videotapes, transparencies, recordings, musical scores, and other media. The building provides seating for 206 patrons.

Special collections include the Pitcairn Islands Study Center (one of the most comprehensive collections of material about the Pitcairn Islands) and the E. G. White Seventh-day Adventist Study Center. This latter collection is housed in the Elmshaven Room, named for the last home of Ellen White, which is located only a few miles from the College. The Center is operated in affiliation with the White Estate and in cooperation with its work at Elmshaven.

The Learning Resource Center

The Learning Resource Center (LRC), located on the main floor of the Nelson Memorial Library, is dedicated to helping students develop their abilities for a successful college experience. LRC services include free tutoring in many subjects, a computer lab, and College Success Skills, a course designed to help students develop effective learning strategies.

Career and Counseling Center

An important resource for personal and academic success is the Career and Counseling Center. It offers programs and professional assistance designed to help you achieve maximum growth in your personal, interpersonal, academic, and spiritual life and in your occupational choice and placement. You may make appointments for personal, occupational, or academic counseling through the Center coordinator. Referral service to other professionals in the immediate vicinity is also available through the Center.

The Center provides the following services:

Testing Services

Available for minimal fees: personality tests and occupational interest inventories. The Center is an official non-Saturday test site for professional school admissions. Test application forms and national testing dates and deadlines are available from the Center. CLEP and other institutional testing is also coordinated through the testing service.

Psychological Services

Professional emotional and psychological support in a confidential setting, on an individual or group basis. Counselors want to help you deal with any anxiety, depression, stress, personal situational difficulties, or other personal problems that might interfere with your academic performance and seriously compromise your quality of life.

Career Services

Career counselors are available with whom you are invited to discuss career options, self-assessment, skills, interests, values, goals, and job-seeking strategies. The Center provides career testing and personality testing. The Center also helps graduating students in developing effective interview skills and in writing résumés and application letters.

The following resources are available:

- The Career Information Library: An assortment of self-assessment and career planning guides, graduate school bulletins and directories, general resource books, an occupational information file, company literature, video tapes, and current job announcements useful for occupation research and job search preparation.
- The Job Opportunities Board: Lists of current employment opportunities.
- On-Campus Recruitment: Recruiters from professional schools, businesses, industries, technological firms, human services, educational organizations, and government agencies visit PUC to interview graduating seniors for local, regional, and national positions. There are career opportunities for all majors. Interviews are conducted on campus, usually in the Career and Counseling Center.

Disability Support Services

Policy for Students with Disabilities

Pacific Union College complies with Section 504 of the 1973 Rehabilitation Act, the Americans with Disabilities Act of 1990, and the applicable state and local regulations regarding students with disabilities. The College is committed to promoting and achieving equitable learning opportunities and participation for students with documented disabilities.

Accommodations for Students with Disabilities

Students who have formal documentation of a disability and who are registered at Pacific Union College are responsible for notifying the Learning Disabilities Coordinator for academic accommodation and the Office of Student Services for any physical accommodation required. Prompt contact with the appropriate person or office is important for the College to be able adequately to assist the student. Those who do not provide valid disability documentation, who self-prescribe their condition, or who have not requested accommodation are not eligible to receive disability accommodations from the College.

Religious Life

In keeping with the special character of this Christian College, you are expected
to attend regularly a specified number of daily and weekly worship services, chap-

els and vesper services, all of which are planned to stimulate growth and maturity in Christian living.

You may participate in a variety of other religious activities: small group meetings, Children’s Church, the Student Missionary program, short-term mission opportunities, off- and on-campus service groups, and retreats. These activities provide opportunities for full-time students to be active in service to humanity and God.

**Concert and Lecture Series**

Cultural activities include a Fine Arts Series featuring guest artists and members of the faculty in classical music concerts; an Adventure Series, including ten to twelve travelogue programs during the school year; and a Forum Lecture Series, which presents outstanding lectures, usually by distinguished guest speakers, each school term. The general admission charge for programs in these series is included in your tuition.

**Recreational Facilities**

College recreational facilities include a lounge and game room in the Campus Center (Dining Commons, first floor); a gymnasium where basketball, volleyball, badminton, table tennis, gymnastics, and shuffleboard are available; an Olympic-size swimming pool; lighted outdoor tennis courts; and athletic fields for softball, soccer, volleyball, flagball, and track and field activities. Recreational areas near the College offer skiing, golfing, scuba diving, and boating.

**Student Association**

All students are voting members of the Student Association. Responsible for promoting and conveying the ideals and objectives of the College, the Association coordinates a number of social and religious activities and other services on campus. These include producing the campus newspaper (*Campus Chronicle*), the student-faculty directory (*Funnybook*), the yearbook (*Diogenes Lantern*), and the annual video yearbook.

The main purpose of the Student Association is to serve as a liaison with College administrators. The SA Senate is an additional forum for addressing relevant campus issues.

You are invited and encouraged to participate in the various opportunities the Association provides for activities and leadership. A detailed description of the organization of the Student Association appears in the Association’s Constitution and Bylaws.

**College Standards**

Pacific Union College is a conservative, independent, coeducational institution, operated in harmony with the beliefs, practices, and educational philosophy of the Seventh-day Adventist Church. In keeping with the special character of the College, you are encouraged to relate your academic study to your understanding of the Christian faith.

The College emphasizes the development of sound Christian character and makes a continuous effort to maintain an atmosphere that encourages commitment and growth in a personal relationship with Jesus Christ. Thus faith and learning may combine to prepare students for lives of Christian usefulness.

In harmony with that purpose, students are expected to consistently avoid all forms of personal conduct that are scholastically deleterious or spiritually or morally destructive. They are expected to refrain from the use of drugs, alcoholic beverages, tobacco, and improper conduct between the sexes, and to respect the facilities of the College and the property of others.

Applicants unwilling to pledge compliance with these standards will not knowingly be accepted or retained at Pacific Union College. Students who later find themselves out of harmony with these standards and social policies, or whose conduct and attitude show evidence of a negative or noncooperative influence, may expect dismissal.

**Student Conduct**

The Office of Student Services publishes the *Student Handbook*, which presents in more detail the standards of conduct referred to above. Application to and enrollment in the College are viewed as evidence that you have chosen to abide by the practices and regulations that appear in official College publications.

**Family Rights and Privacy**

In maintaining student records, the College complies with the Family Educational Rights and Privacy Act of 1974. Except as noted below, the College will give no information about you to any third party without your consent.

The law provides, however, that the College may disclose certain information without requiring your consent. This includes the following:

1. Information to faculty, administrators, and employees within the College system with a legitimate educational need to know your record.

2. Information to other universities, colleges or schools in which you seek to enroll.

3. Information requested by certain federal, state, and local officials and/or authorities as set forth in the law.

4. Information to persons or organizations providing financial aid.

5. Information required in an emergency to protect your health and safety or that of others.

6. Information to certain organizations conducting educational studies.
7. Information to accrediting bodies.
8. Information to your parents if you are a financial dependent according to IRS standards.
9. Directory or public information consisting of your name, address, telephone number, date of birth, major, minor, year in college, dates of attendance, date of graduation, degrees and awards received.

You have the right to refuse the disclosure of directory information about yourself except for information about your degree status. To exercise this right of refusal, you must notify the Registrar in writing, while you are enrolled, of your request.

You have the right to inspect and review official records, files, and data directly related to yourself that are kept by any office of the College. There is one exception: Students applying for admission to the College may not review their application files.

Requests to review any records should be made in writing to the administrator responsible for the record. Requests will be processed within forty-five days from the date the request is filed.

Grievance Policies and Procedures
The College has developed grievance policies and procedures to ensure that members of its constituent groups are not being treated in an unjust, unethical, or discriminatory manner. Statements detailing these policies and procedures are in the Student Handbook.

Telephone Information
One telephone line is provided in each dormitory room for on-campus calling. You are to provide your own telephone—either touch-tone or pulse. Optional local calling and direct-dial long distance calling are available through the Telecommunications department. These services operate on a prepaid system that is accessed via a Personal Security Code (PSC) given you at your request. To arrange for telephone service, you request and obtain your PSC from the Telecommunications department and, at the Cashier’s office, make a deposit of $1.00 or more on your PSC account. When the deposit is exhausted, local and long-distance calls are discontinued until you make a further deposit.

Telephone service does not permit you to accept collect calls. If you do accept a collect call, you must pay for the call plus a $500 per-call service charge. Any damage to or misuse of the telephone system or equipment will result in a $500 fee per violation.

Charges for collect calls accepted and/or inappropriate telephone behavior are added to your College account.
Pacific Union College will accept your application for admission regardless of your race, age, sex, color or national origin so long as your attitudes and behavior are in harmony with the goals and traditions of this Seventh-day Adventist College and your abilities and preparation indicate the probability of a successful academic experience.

Although church affiliation is not required for admission, you are expected to abide by the policies outlined in this catalog and the Student Guide. To qualify for admission, you must give evidence of intellectual competence, high moral character, satisfactory health, and a genuine desire to learn.

**Application Procedures**

1. Request the PUC Application for Admissions form, available from the Office of Admissions.
2. Send the completed application, with a $30 nonrefundable application fee, to the Office of Admissions.
3. Alternative to 1 and 2 above: Apply online at www.puc.edu. There is no fee for online applications.
4. Request the registrar of the academy or high school you graduated from, or college you previously attended, to send a transcript directly from that school to PUC’s Admissions office.

   Applicants are responsible for the transfer of transcripts of all high-school and college work attempted. Anyone who willfully refrains from transferring all scholastic records, or does not give full and truthful information concerning previous attendance at other educational institutions, will not knowingly be accepted or retained as a student. The transcripts become the property of the College and are kept on permanent file.

5. Arrange for necessary recommendations. This requirement is automatically met if you apply directly from a constituent Seventh-day Adventist academy in the Northern or Central California Conference or from Hawaiian Mission Academy. Bachelor of Science in Nursing students need to provide only the references required as part of their application to the nursing program. All others must have three recommendation forms completed and sent to the Admissions office.

6. Wait for a decision letter. When all pertinent documents are on file—application form, transcripts, and recommendations—the application will be processed and you will be promptly notified in writing of the action taken.

   No student should at any time come to the College for the purpose of registering without having first received a formal notification of acceptance.
Acceptance Follow-Up Procedures

The letter of acceptance outlines further steps necessary before registration:

1. If you will be a residence hall student, complete the room reservation form and send it, together with a $100 room deposit, to the Office of Admissions. This room/cleaning/damage deposit is refundable if your notice of cancellation is received by September 1. No refunds are made for cancellations after September 1 or for failure to appear for registration.

2. Take the required college entrance examination and be sure that scores are on file in the Office of Admissions. Pacific Union College participates in the American College Testing Program (ACT) as an essential element in academic advising. Each first-year and transfer applicant with fewer than 30 quarter credits must provide ACT (or SAT) scores. You may be accepted without these test scores, but you must take the test before you register for courses.

All Seventh-day Adventist senior academies in the Central California, Northern California, and Hawaiian Conferences are designated Sunday ACT testing centers, providing test services to persons not enrolled at these academies. Upon request, guidance counselors at these academies provide information about college entrance testing to those who write, telephone or visit them.

3. Provide necessary medical information. The College’s Student Health Service, in order to administer efficient care, requires all students to provide documentation of a recent physical examination (within the last twelve months), an immunization record, and a form verifying health insurance. Return these completed forms to the Office of Admissions.

Reapplication Procedures

1. Students in residence, students in Adventist Colleges Abroad (ACA), and PUC Student Missionaries and Taskforce Workers should submit reapplications for the following year before the close of winter quarter.

2. Students who have withdrawn for at least three quarters must follow regular application procedures.

3. Students in residence may specify room preferences for the following year before the end of the current school year. Questions about this policy should be directed to the Office of Student Services.

Admission to Regular Undergraduate Standing

You will have regular admission status if you have acceptable recommendations and qualify in one of the following categories:

1. Students having secondary-school graduation, or its equivalent, and a grade-point average of at least 2.3 (C+) in “solid” subjects. You are expected to have completed the following:

   Minimum Requirements

   - 4 years of English
   - 2 years of Mathematics, including Algebra
   - 1 year of Science
   - 1 year of History

   Strongly Recommended

   - 3 years of Mathematics, including Algebra II and Geometry
   - 3 years of Science, including Biology, Physics, and Chemistry
   - 2 years of History, including U.S. and World History
   - 2 years of Foreign Language
   - Computer Literacy

   * If you have completed the strongly recommended courses, you will probably have fewer requirements in your general-education program. See “General Education Requirements for the Baccalaureate Degree.”

If you have not completed all the above minimum requirements, you may be admitted on a provisional basis (see “Admission on Provisional Status”). Any remedial work must be completed within a maximum of three quarters.

2. Students lacking secondary-school graduation who have passed the Test of General Educational Development (GED) with a standard score of 40 or above on each of the five tests and an average standard score of 50 for all five tests. (To be eligible to write the GED examination, one must be 18 years old, an exception being made for a seventeen-year-old who will have reached 18 by the time of enrollment in college, or whose class will have graduated by that time.)

3. Students seeking early entrance to college and lacking secondary-school graduation but having passed the California High School Proficiency Examination are considered for admission when the following requirements have been met:

   a) Successful completion of a minimum of two years of secondary school.
   b) A personal interview of applicant and parents by an admissions officer of the College or a designated representative.
   c) A letter from the applicant stating the rationale for early entrance into college.
   d) Recommendation by the faculty of the secondary school last attended, including an evaluation of social and academic readiness for college.

4. Transfer students who have attended other accredited institutions of higher education, completing a minimum of 45 quarter hours, and who have on file in the Office of Admissions transcripts showing a minimum cumulative grade-point average of 2.0 on all course work
taken. A maximum of 108 quarter hours of transfer credit is accepted from community or junior colleges.

5. Reapplicants who have a minimum cumulative grade-point average of 2.0 on course work taken at Pacific Union College and have maintained an acceptable citizenship record.

Admission on Academic Probation

Applicants for admission as first-year students who meet the requirements of one of the categories above, but whose grade-point average in solid subjects is between 2.0 and 2.3, may be admitted on academic probation. Also admitted on academic probation are those applicants who have taken the GED test with standard scores of not less than 35 on each of the five tests and an average standard score of at least 45 for all five tests.

If you are admitted on academic probation, you may take up to 15 hours each quarter, including any required remedial courses, until you achieve regular enrollment status. You must complete any required remedial courses within three quarters of admission.

Transfer students admitted on academic probation should read the sections of this catalog entitled “Academic Probation” and “Academic Renewal” in ACADEMIC INFORMATION AND POLICIES.

Admission on Provisional Status

If you have graduated from secondary school but have not completed all courses required for admission, you may be admitted on provisional status. Not more than three quarters are allowed for removing secondary-school deficiencies.

If you transfer from an unaccredited institution, you may also be admitted on provisional status. When you complete 16 quarter hours of course work in residence at Pacific Union College with a minimum grade-point average of 2.0, your transcript from the unaccredited institution will be analyzed on a course-by-course basis and credit awarded for those courses which appropriately apply toward your PUC program.

Admission by Advanced Enrollment

Advanced Enrollment status is for secondary-school students of superior ability who wish to enroll in some college courses while completing requirements for secondary-school graduation. For admission to this status, you must meet the following criteria:

1. Completion of your sophomore year with a grade-point average of at least 3.5.
2. Recommendation from the secondary-school faculty supporting your ability to benefit from early college enrollment and specifying your remaining requirements for graduation and the method of fulfilling them.
3. Written rationale for early entrance into the college program and evidence of superior motivation.

Students in this category are admitted tentatively, subject to secondary-school graduation.

Admission as a Special Non-Degree or Audit Student

If you do not meet college entrance requirements or do not wish to qualify for a degree, but do wish to take certain courses at the college level on either a credit or an audit basis, you may apply for admission as a special nondegree student. On this basis you are permitted to select courses for study without reference to the requirements of any prescribed curriculum. Enrollment in any particular course is subject to the approval of the instructor and to your meeting any course prerequisites.

Applicants for admission as special students are expected to follow the same procedures for application and registration as regular applicants. Ordinarily, a special student may register for one to six quarter hours at any one time.

Admission as a Guest Student for Transfer Credit

If you have been accepted for study in another accredited college or university and wish to earn credit at Pacific Union College for transfer, you are not required to follow regular admission procedures. You need only apply to Enrollment Services at least one month prior to the beginning of the quarter for which you expect to register at PUC.

As a guest applicant you must provide evidence of good and regular standing, including a statement from the college or university to which you have been admitted stating that the credits you earn at Pacific Union College will be accepted as transfer credit.

Admission of International Students

International students will be considered for admission when they have:

1. met all regular requirements for admission;
2. provided certified English translations of transcripts;
3. provided the required recommendations, written in English;
4. presented evidence of ability to meet all financial obligations to the College (see also the section of this catalog entitled “International Students” under FINANCIAL INFORMATION); and
5. demonstrated ability to pursue studies in the English language by presenting a minimum score of 525 on the Test of
English as a Foreign Language (TOEFL). This score must be based on a recently taken TOEFL and be dated no more than six months prior to the student’s application for admission.

International students who have not met the above language requirement, but who have scores between 450 and 525 on the TOEFL, or who present other evidence that they can succeed at PUC, should apply for admission to the English Language Program of the College. This program is designed to develop and enhance the English language skills of students whose primary language is not English so that they may qualify for college-level educational programs taught in English and may participate effectively in them.

International students with a TOEFL score between 500 and 524 may be admitted to a combined program consisting of both ESL courses and regular academic courses. Students in this category are required to participate in a special advising program in which they work with two advisers (ESL and academic major); take prescribed ESL support courses; take the TOEFL at the beginning and end of each quarter in residence; and may take selected regular courses as approved by both the ESL and academic major advisers.

Information on this program is provided in the section of this catalog entitled “English Language Program” under English. Interested persons may also contact the Director, English Language Program, Pacific Union College, Angwin, CA 94508.
Pacific Union College is a Christian liberal arts institution of higher education offering studies and activities designed to promote the harmonious development of each student—spiritually, mentally, socially, and physically.

Through religious services, classroom instruction, and a varied program of social and cultural activities, the College seeks to assist in the development of both character and intellect. A sincere attempt is made to create an environment in which you may freely arrive at a realistic and satisfying concept of human nature and of humanity’s relation to the universe.

Character as a code of moral and spiritual values, and intellect as the tool of reason, are integrated in the learning experience in order to provide a firm base for effective, ongoing contributions to the church and society.

In essence, the College seeks to

- promote the development of a sense of values and a personal philosophy of life as an outgrowth of commitment to the Christian faith;
- stimulate intellectual curiosity essential to the discovery of truth;
- encourage creativity in thought and expression;
- demonstrate that learning is both discipline and pleasure and that meaningful, lasting benefits accrue to those who throughout life continue to experience the satisfaction of learning;
- introduce you to the great body of knowledge by which people understand and relate to their physical and social environments; and
- develop certain basic skills and abilities that contribute to satisfactory social and occupational relationships.

### Degrees and Curricula

#### Degrees Offered

- **Baccalaureate Degrees:**
  - Bachelor of Arts (B.A.)
  - Bachelor of Science (B.S.)
- **Professional Baccalaureate Degrees:**
  - Bachelor of Business Administration (B.B.A.) See Department of Business Administration and Economics.
  - Bachelor of Science in Medical Technology (B.S.M.T.) See Department of Biology.
  - Bachelor of Music (B.Mus.) See Department of Music.
  - Bachelor of Social Work (B.S.W.) See Department of Behavioral Science.
- **Graduate Degree:**
  - Master of Education (M.Ed.)
- **Associate Degree**
  - Associate of Science (A.S.)

While Pacific Union College is primarily a four-year liberal arts institution, it also offers a graduate program in Elementary Education, professional and preprofessional programs, and two-year programs leading to associate degrees.

The general requirements for the degrees follow, except for the professional baccalaureate degrees, which are detailed in the departments offering the programs and in the Degree-Completion/Adult Education section.

### The Associate Degree Program

#### Plan of Study

The two-year associate degree program is designed for students interested in occupations requiring a limited amount of training. Except for nursing, which requires 105 quarter hours, the degree consists of 90 quarter hours of course work distributed among the major, general education, and electives. (Those interested in nursing should refer to the Nursing section of this catalog for specific requirements.)
The Academic Program

Graduation Requirements for the Associate Degree

All candidates for an associate degree must complete the following requirements:

1. A minimum of 24 quarter hours must be completed in residence.
2. The last 12 hours of the major must be taken in residence.

General Education Requirements for the Associate of Science Degree

General-education requirements for Associate of Science degree programs total approximately 32 hours. Selections are to be made from courses that meet baccalaureate degree general education requirements (see pages 24-27).

I. Foundations of Learning

- ENGL 101**
- MATH 019 or equivalent (MATH 096 or equivalent beginning in 2003-2004)
- COMM 105 or 226

II. Revelation, Belief, and Action

A minimum of 9 hours, with at least 4 hours selected from courses carrying the prefix RELB. Students who transfer from public institutions of higher education for the second year of this degree must take five hours of religion.

III. Health and Fitness

One health course; two physical education activity courses, taken during two different quarters, one course being from the aerobics area.

IV. Electives

From at least two of the three areas listed below, three courses are to be chosen that also apply to baccalaureate-degree general education.

1. Literature, Visual Art, Music
2. Natural World/Sciences/Mathematics
3. Foreign Language, History, Philosophy, Social Sciences

* Note: If you wish to take course work at another college during the quarter prior to graduation, you must obtain prior permission from the Office of the Registrar. One week before graduation, a sealed envelope must be delivered to the Records office containing either an transcript or a letter from the registrar of the college where you have taken the out-of-residence work reporting course number and title, hours of credit, and course grade, together with a statement that an transcript will follow as soon as possible.

6. Completion of any correspondence work and filing of all transfer credit* with the Records office at least a full quarter before expected graduation.

For further information regarding graduation, see the section entitled "Graduation Information."

The Baccalaureate Degree Program

Plan of Study

Preparation for a career involves both general and specialized education. Courses of study leading to a baccalaureate degree are designed to give a general understanding of the major academic disciplines and to provide for specialization in the field of your major interest.

In most programs the first two years are primarily devoted to general education, but you should also take certain elementary and intermediate courses in your proposed major during these years. If you have not yet selected a major, you may pursue a general program of education while exploring several fields of knowledge. One can usually do this without loss of time or credit if the program is carefully planned in consultation with a faculty adviser. A faculty curriculum adviser is available for counsel throughout your college career.

Graduation Requirements for the Baccalaureate Degree

It is your responsibility to become acquainted with all graduation requirements published in this catalog and to plan a program of studies that will fulfill them. Candidates for baccalaureate degrees must complete the residence and general requirements that follow.

1. 36 of the last 48 quarter hours immediately preceding conferral of your degree.

** See page 44 for a list of prefixes and the subjects they represent.
2. 30 quarter hours of upper-division course work.
3. One-half the upper-division hours in your major field.
4. For students taking a minor, 6 hours of upper-division course work in the minor field.

General Requirements:
1. A minimum of 192 quarter hours including 60 hours at the upper-division level with a resident and cumulative grade-point average of 2.0 (C) or above.
2. Completion of the general-education requirement specified for the degree sought.
3. Completion of a major specialization as defined in the department of your choice. No course with a grade below C- may apply toward a major or minor.
4. Application for Graduation and Senior Contract specifying the complete program of the senior year. You must file these two documents with the Records office at least three quarters before the expected conferring of your degree.
5. Completion of any correspondence work and filing of all transfer credit with the Records office at least a full quarter before expected graduation.*

Senior Comprehensive Examination
Before graduation, you are required to take a comprehensive examination covering your major field of study. In some departments, because of the nature of certain disciplines, this requirement may be satisfied by an assessment of competence other than an examination.

For further information regarding graduation, see the section entitled “Graduation Information.”

General Education Requirements for the Baccalaureate Degree

The general-education requirements for the Bachelor of Arts and Bachelor of Science degrees are the same except that foreign language is not required for the Bachelor of Science degree. The general-education requirements for the degrees of Bachelor of Business Administration, Bachelor of Music, Bachelor of Science in Nursing and Bachelor of Social Work will be found in the respective departmental sections.

The number of courses and credits you will take to satisfy general education requirements will depend on your secondary-school preparation and your choice of degree program.

Regulations Governing General Education
1. Unless expressly excluded by a statement in the departmental course listings, a general-education course in the field of your major may both satisfy the general-education requirement and apply toward your major.
2. Credit hours from any given course may be applied only once in fulfilling the general-education requirement.
3. Besides satisfying the requirements of the major and of general education, most students will find, within the 192 hours required for a baccalaureate degree, room for elective courses that will also enrich their general preparation.

The Purpose of General Education at PUC

The principal goal of the general-education program is to enable graduates to make a distinctively Christian difference in the world. Such a preparation requires the ability to understand oneself, others, and the various ideas human societies use to define themselves. It also includes the disposition to act effectively in the world.

Understanding, skills, and dispositions are learned in communities. As a community of liberal learning, the Seventh-day Adventist College is called to be one of God’s agents in a fallen world. Through the experience of this community, both student and teacher may find the freedom to confront the claims of Christianity. The general education program seeks to cultivate a community of learners at PUC in order that all may be inspired by a sense of Christian mission to invigorate the Church and to enlighten the world.

The PUC community affirms the ideals of liberal education. A hallmark of liberal education is that it calls us to submit our actions and beliefs to critical analysis in order to clarify or to transform our perceptions of the world. In response to this call, the general education program seeks to provide a forum in which we may judge which understandings of the world are better, may practice the skills of appropriate persuasion, and may cultivate the disposition to do the good we see.

A Note to Transfer Students

The main objective of the general-education program is not so much to require a prescribed list of courses as it is for students to achieve the goals of general education. These goals are stated in the introduction to each section. The courses listed below are those by which Pacific Union College students achieve the goals of the program. Acceptable transfer courses for meeting general-education requirements may not in every case be identical, but they must achieve the purposes of each section.

*See footnote, page 22, first column.
General Education Course Requirements

I. Foundations of Learning

The essential basis for participating in the community of learning includes the ability to do critical analysis of presentations in various forms. It includes the ability to make clear, accurate, and forceful presentations, both written and spoken, including those that employ statistical methods.

A. Rhetoric

1. COLLEGE WRITING: The uses of written language, with emphasis on the skills of critical reading and competent college-level writing, including development of these skills in research.
ENGL 101-102* College English

The general-education requirement in College English should be completed by the end of the freshman year and must be completed by the end of the sophomore year. Students exiting the English Language Program (ESL courses) are required to transfer into regular English (ENGL) courses immediately after completion of the intensive English Language Program.

2. ORAL COMMUNICATION: The public, spoken presentation of ideas, with emphasis on oral argument. This requirement may be met during the freshman or sophomore year by one of the following courses:
COMM 105 Speech Communication
COMM 225 Oral Interpretation

The requirement may be met during the junior or senior year by one of the following courses:
COMM 225 Oral Interpretation
COMM 226 Public Speaking
COMM 326 Advanced Public Speaking
COMM 327 Argumentation
COMM 427 Persuasive Communication

B. Reasoning from Data: Emphasis on the critical reasoning skills necessary for accurately understanding and appropriately using statistical data.
MATH 222 Introduction to Statistics

II. Human Identity in Cultural Contexts

Insights into the identities of individuals, peoples, and cultures are gained through courses that describe and explain philosophical and historical developments, social contexts, and psychological conditions. These courses explore the methods of inquiry used by the sciences and the humanities and the tensions between them. The study of foreign languages provides not only extended communication skills, but also enhanced cultural understanding.

A. Historical Context: Emphasis on major developments in the civilizations of the world, on the perennial questions that have challenged humankind, and on historical methodology.
Required: the sequence HIST 101-102 or the sequence HIST 134-135.
HIST 101-102 History of World Civilizations
HIST 134-135 History of the United States

B. Philosophy: Emphasis on philosophy as a means of thinking about the enduring questions of human experience.
One course from the following:
PHIL 101 Introduction to Philosophy
PLSC 274 Introduction to Political Thought
RELT 320 Philosophy of Religion
PLSC 334 History of Political Thought I
PLSC 335 History of Political Thought II
PLSC 336 History of Political Thought III
HIST 390 History and Philosophy of Science
PHIL 451 History of Western Thought

C. Social Sciences: Emphasis on how humans interact, on why they interact as they do, and on how their interaction creates social and political structures and shapes individual behavior.
Two courses from the following: one selection from anthropology (ANTH), psychology (PSYC), or sociology (SOCI); a second course with a prefix different from that of the first course chosen:
ANTH 124 Cultural Anthropology
ECON 261 Principles of Economics–Macroeconomics
ECON 265 Principles of Economics–Microeconomics
GEOG 301 World Regional Geography
PLSC 124 Introduction to American Government
PLSC 274 Introduction to Political Thought
PLSC 328 Critical World Issues
PSYC 121 General Psychology
PSYC 390 Gender Issues
SOCI 121 Introduction to Sociology
SOCI 214 The Family
SOCI 232 American Social Problems
SOCI 355 Racial and Ethnic Relations

D. Foreign Language: Emphasis on developing the ability to read and to communicate in a foreign language and on the educational enrichment that derives from the study of foreign language and culture. (Required of all Bachelor of Arts students; recommended for students in other curricula.)
1. Prerequisite: Satisfactory completion of two years of a foreign language at the secondary level or of a 10-12 hour
college sequence in a beginning foreign language course.
FREN 111-112-113 Beginning French
GRMN 111-112-113 Beginning German
SPAN 111-112-113 Beginning Spanish
RELL 225-226/325-326 Beginning/Intermediate Greek
RELL 337-338/445 Biblical Hebrew/
RELB 445 Hebrew Prophets
2. Requirement: A basic language-cultural experience in a foreign language through one of the following options:
a) Satisfactory completion of an intermediate-level college sequence in a foreign language.
b) Satisfactory completion of an elementary-level sequence in a new language.
c) Satisfactory completion of the reading-knowledge sequence in a new language.
d) This requirement is waived for students who have completed four or more years of formal schooling, with a C average or better, in a school conducted in a language other than English and located in a country where English is not the native tongue. No college credit is awarded for the proficiency gained through such an educational experience. The student is responsible for documenting such learning. The Academic Standards and General Education Committee determines waiver of the requirement on the basis of the committee’s review of supporting evidence.

III. Insights of the Imagination
Courses in this category explore the artistic expression of ideas, values, and emotions. They seek to cultivate the ability to understand, to evaluate, and to respond to such expressions. They seek to develop enhanced awareness of aesthetic qualities.
A. Literature: Emphasis on understanding people and culture through literature.
   ENGL 301 Great Books (Prerequisite: Enrollment is limited to juniors and seniors)
B. Visual Arts: Emphasis on the visual arts as communication about ourselves and our surroundings and on the qualities used to identify aesthetic value in works of art.
   One course from the following:
   ART 105 History of Western Art
   ART 107 American Art
   ART 108 History of Far Eastern Art
   ART 278 Women Artists
C. Music: Emphasis on music as the expression of ideas, values, and emotion and on criteria that define aesthetic value in music.

IV. The Natural World
Faculty and students inquire into the nature of science, exploring relationships between the sciences and other realms of human thought, including culture, philosophy, history, and ethics. They consider both the benefits and the limitations of science and technology.
A. Introductory-Level Mathematics and Science
1. Algebra: A full year of algebra (Algebra II beginning in 2003-2004) with a grade of C- or better at the secondary level or the following:
   MATH 096 Intermediate Algebra
   The algebra requirement should be completed by the end of the freshman year and must be completed by the end of the sophomore year.
2. Life Science: A full year of biology with a grade of C- or better at the secondary level or the following:
   BIOL 105 Man and the Natural World
3. Chemistry: A full year of chemistry with a grade of C- or better at the secondary level or the following:
   CHEM 101 Introductory Chemistry
4. Physics: A full year of physics with a grade of C- or better at the secondary level or the following:
   PHYS 105 Introduction to Physics
B. Scientific Inquiry: An interdisciplinary approach to the major ideas of science.
   GSCI 205 Scientific Revolutions
C. Insight Through Investigation: A four-hour laboratory course in natural science.
   One course from the following:
   ASTR 115 Astronomy
   BIOL 101 Human Anatomy
   BIOL 102 Human Physiology
   BIOL 111 Biological Foundations
   or 112 or 113
   BIOL 227 Natural History of California
   BIOL 335 Marine Science
   CHEM 102 Survey of Organic Chemistry
   CHEM 103 Survey of Biochemistry
   CHEM 111 General Chemistry
   GEOL 233 Geology

One course from the following:
MUHL 105 Survey of Music
MUHL 331, 332, 333 Music History sequence (any quarter)
MUHL 336 Popular Music in the Twentieth Century
The Academic Program

MICR 134  General Microbiology
PHYS 111  General Physics
PHYS 131  Physics with Calculus

Note: Completion of any of the following sequences will satisfy both requirements B and C above:

BIOL 101-102- Human Anatomy/Human Physiology/
MICRO 134  General Microbiology
BIOL 111-112-113 Biological Foundations
CHEM 111-112-113 General Chemistry
PHYS 111-112-113 General Physics
PHYS 131-132-133 Physics with Calculus

D. Science, Technology, and Culture: Emphasis on the interactions and relationship of science and technology with culture or society.

One course from the following:

BIOL 345  Environmental Science
BIOL 355  Philosophy of Biology
BIOL 450  Philosophy of Origins
HIST 390  History and Philosophy of Science
PHIL 485  Issues in Science and Religion
TECH 493  Technology, Society, and Culture

V. Revelation, Belief, and Action

Courses in this section explore the nature, forms, and uses of belief; the relationship between Christian belief and revelation; and the applications of belief to life, emphasizing Christian expression of faith in service. Since the Bible records selected revelations of God through centuries of human experience, it is the central text of study for approaching an understanding of God’s will and of the Christian tradition. (Minimum of 18 hours. Up to 9 hours of credit in religion may be lower division for all students, including transfer students.)

A. Studies in Religion: (16-18 hours)

RELB, RELH, RELL, RELP, and RELT prefixes: all courses (a minimum of 6 hours from RELB courses)

B. Religious Issues in Other Disciplines: (0-2 hours)

One course from the following list may be elected; 2 hours of credit will apply to the Section V requirement:

BIOL 355  Philosophy of Biology
BIOL 450  Philosophy of Origins
HIST 490  Seminar in Philosophy of History
PHIL 485  Issues in Science and Religion
PSYC 435  Psychology of Religion
PSYC 490  Issues in Religion, Ethics, and the Human Sciences
SOCI 435  The Sacred and Profane in Society

C. Requirements in Religion for Transfer Students: The minimum requirement in religion for students who transfer from public colleges and universities is as follows:

1. Freshmen (0-44 hours) must take the 18 hours required of students in baccalaureate degree programs.
2. Sophomores (45-89 hours), juniors (90-134 hours), and seniors (135 hours and up) are required to take 14, 10, and 6 hours respectively.
3. For sophomores and juniors, at least 6 hours are to be selected from courses carrying the prefix RELB. Seniors are required to take one course carrying the prefix RELB.

VI. Health and Fitness

Comprehensive, balanced education includes acquiring and using the accurate knowledge and developing the skills and habits that help to sustain a sound mind in a sound body.

A. Health: Consideration of such major health issues as nutrition, stress management, substance abuse, and SDA health principles and their application.

One course from the following:

FDNT 175  Personal Nutrition
FDNT 235  Nutrition
HLED 162  Fitness for Life
HLED 166  Health Education
HLED 169  Current Health Concerns

B. Fitness: Emphasis on exercise and physical activity. One activity course for each year in residence, with a maximum of four courses. Students transferring in as sophomores (45-89 hours), juniors (90-134 hours), and seniors (135 and more hours) are required to take three, two, and one course respectively. One must be an aerobics course.

ESAC  All courses

VII. Skills for Daily Living

A holistic education recognizes that to lead a productive life a variety of skills are necessary for one to be truly effective in society. These skills connect the mind and the hand for effective decision-making and action. They acknowledge the importance of improving one’s ability to cope with the demands and opportunities of everyday living in a complex and demanding world.

While many other General Education courses develop important skills, the additional courses in this section are particularly suited for broadening one’s life skills. Students are encouraged to select courses that will add new skills and abilities to those they already possess.

Requirement: 4 hours. These hours are to be selected from two or more of the following skill categories:
A. Practical Arts: Courses in which physical “hands-on” experiences lead to useful skills and techniques for dealing with common needs.

AGRI 211: Home Fruit Growing (3)
AGRI 212: Home Greenhouse Gardening (3)
AGRI 213: Home Vegetable Gardening (3)
ART 141: Ceramics I (2)
ART 241: Photography I (3)
AUTO 101: Auto Mechanics for Women (2)
AUTO 171: Auto Mechanics Fundamentals (3)
AUTO 172: Automotive Electronics and Fuel Systems (3)
ELEC 141: Applied Electronics (3)
FDNT 134: Creative Cuisine (2)
FDNT 135: Food Science (3)
FDNT 136: Gourmet Entertaining (3)
FDNT 230: Food, Culture, and Society (2)
FDNT 335: Nutritious Lifestyles (1)
FDNT 336: Nutrition Throughout the Lifecycle (3)

B. Information Management: Courses that provide basic knowledge and skills for using computers to manage information.

CPTR 105: Introduction to Computers (3)
CPTR 115: Computers and Computer Programming (4)
GRPH 153: Introduction to Macintosh (2)
GRPH 155: Introduction to Graphics Technology (1)
INFS 144: PC Operating Systems (1)
INFS 148: PC Spreadsheets (1)
INFS 149: PC Databases (1)
OFAD 201: Word Processing–Microsoft Word (2)
OFAD 203: Word Processing–Word Perfect (2)

C. Management of Personal Finance: Courses that provide skills for managing personal financial resources.

ACCT 121: Principles of Accounting I (3)
BUAD 118: Personal Money Management (3)
BUAD 223: Personal Law (2)
BUAD 335: Real Estate (4)

D. Personal Skills: Courses that develop skills for dealing with personal relationships and life crises

COMM 223: Interpersonal Communication (3)
PSYC 126: Assertive Behavior (2)
PSYC 227: Conflict Resolution and Relationship Skills (3)

---

The Honors Program

The Honors Program offers an alternative general-education program for academically motivated students. It is built around a series of “great books,” or central texts, illustrating significant themes in the liberal arts. These works are supplemented by selected contemporary works, including films.

Students who complete the Honors Program have no other general education requirements. Students fulfilling the Honors Program requirements graduate “With Honors,” a designation that appears in the graduation program and the transcript.

If you have the following qualifications, you may apply for admission to the Honors Program: a strong academic record in high school, including four years of English, two years of history, three years of mathematics, a year each of biology, chemistry, and physics, and a C.P.I. of at least 3.5. In addition, you must score at the 80th percentile or higher on the ACT examination (or its equivalent).

If you are a nonfreshman transfer student at least five quarters from graduation, you may be admitted to the program if you meet the entrance requirements given above and provide two letters of recommendation from college teachers supporting your ability to do superior academic work. Sophomores must complete eight of the eleven required seminars; juniors take four seminars. All students, including transfer students, are required to complete an honors project.

All of the following courses are interdisciplinary, and some are team-taught. The themes and texts are chosen by the Honors Director in consultation with other teachers in the Honors Program. (Course credits are listed in parentheses.)

Freshman Seminars:
HNRS 101 Heroes (5)
HNRS 102 Order and Liberty (5)
HNRS 103 Scripture I (5)

First-Year Language:
New Testament Greek (6)

Sophomore Seminars:
HNRS 251 Cosmos (5)
HNRS 252 America (5)
HNRS 253 Virtue (5)

Second-Year Language:
New Testament Greek (6)

Summer Term Abroad:
HNRS 330 Christianity (5)
HNRS 331 Scripture II (5)

Junior Seminars:
Two of the following courses:
HNRS 360 Beauty (4)
HNRS 361 Self and Society (4)
HNRS 363 East (4)
The Academic Program

Senior Seminar:
HNRS 485 Progress (4)

Senior Project:
HNRS 498 Honors Project (3)

The number of general education hours in the Honors Program is 67. This total includes 12 hours of New Testament Greek in the first two years of the program, required as a means of studying the Bible, the central text in the Honors Program. (With the approval of the Honors Director, students who successfully complete a year at a college or university in which English is not the medium of instruction may substitute a modern language for New Testament Greek.)

You should be aware of several additional features of the Honors Program. The freshman year seminars have a particularly strong writing component. The Cosmos seminar includes a laboratory. The Summer Term Abroad involves two months of study outside the United States.

If you have passing grades, you may, if you wish, transfer out of the Honors Program into the regular general-education program. Consult with the Honors Director for specific details.

The Honors Project allows you to examine an issue or problem of your own choosing. In consultation with a faculty adviser and the Honors Director, you will submit an Honors Proposal by the end of your junior year. No later than the fourth week before graduation, you will make a public presentation of your research or creative work.

The goal of the Honors courses is to create an atmosphere in which you feel free to experiment with ideas and to test them in open debate with classmates and teachers. The program is designed to engage significant books, films, art, and music in a Christian context. We encourage each student, regardless of vocational goals, to seek truth and to act upon it.

Honors Courses

Note: For each of the following courses, core texts are listed. These lists may be supplemented each year with two or three other texts. (Supplemental texts in recent years have included Stegner, Angle of Repose; Brookhiser, Founding Father: Rediscovering George Washington; Atwood, The Handmaid’s Tale; and Johnson, Darwin on Trial; and the film Ghandi.)

Freshman Courses:

HNRS 101 5 A
Heroes
Homer, The Odyssey
Sophocles, Antigone
The Bible, David narratives
David (selected sculptures)
Plato, Apology of Socrates
Shakespeare, Henry V
Beethoven, Eroica (symphony)
Shaw, Saint Joan
The Passion of St. Joan (film)
Jacobs, Incidents in the Life of a Slave Girl

HNRS 102 5 W
Order and Liberty
Plato, The Republic
St. Augustine, City of God (selections)
Machiavelli, The Prince
Shakespeare, Macbeth
Locke, Second Treatise on Government
Bronte, Wuthering Heights
Mill, On Liberty
Marx and Engels, The Communist Manifesto
David, selected paintings

HNRS 103 5 S
Scripture I
Genesis
Job
Ruth
Isaiah

HNRS 104 5 S
Scripture II
Mendelssohn, Elijah (oratorio)
Blake, engravings of Job and Genesis
Michelangelo, Sistine Chapel paintings

HNRS 251 5 A
Cosmos
Bacon, Novum Organum
Galileo, Dialogues
Darwin, The Origin of Species
Lewis, The Discarded Image
Kuhn, The Structure of Scientific Revolutions
2001: A Space Odyssey (film)
Holst, The Planets (symphony)

HNRS 252 5 W
America
Declaration of Independence
Tocqueville, Democracy in America
Hawthorne, The Blithedale Romance
Lincoln, selected speeches
Whitman, Leaves of Grass
Dickinson, selected poems
Twain, The Adventures of Huckleberry Finn
Winslow Homer, selected paintings

HNRS 253 5 S
Virtue
Lewis, The Abolition of Man
Aristotle, Nicomachean Ethics
The Koran
Aquinas, Summa Theologica (selections)
Shakespeare, Richard III
Stevenson, Dr. Jekyll and Mr. Hyde
Crimes and Misdemeanors (film)

HNRS 330 5 Su
Christianity
(Summer term abroad: London Site)
The Virgin Mary in the National Gallery, selected artists
Dante, The Divine Comedy
Julian of Norwich, Showings
Selected stained glass
Milton, Paradise Lost
St. Paul’s Cathedral
Law, A Serious Call
Mozart, Requiem
Dostoevsky, The Brothers Karamazov
The Mission (film)

**HNRS 331**
5 Su
**Scripture II**
(Summer term abroad continued)
Mark
Acts
Romans
I John
The Gospel According to St. Matthew (film)

**RELL 325-326**
3-3 S-A
**Intermediate Greek**

**Junior Courses (two required):**
**HNRS 360**
4 A
**Beauty**
Aristotle, Poetics
Burke, A Philosophical Inquiry into the
Origin of Our Ideas of the Sublime
and the Beautiful
Shelley, Defense of Poetry
Coleridge and Wordsworth, Lyrical
Ballads
Dewey, Art as Experience
Barzun, The Use and Abuse of Art
Amadeus (film)
Pollack (film)
Stravinsky, The Rite of Spring (ballet)

**HNRS 361**
4 W
**Self and Society**
St. Augustine, Confessions
Rousseau, Confessions;
Smith, The Wealth of Nations
White, Life Sketches
Freud, The Futility of an Illusion
James, Varieties of Religious Experience
Woolf, A Room of One’s Own

**HNRS 363**
4 S
**East**
Confucius, Analects
Lao-tzu, Tao Te Ching
Bhagavad Gita
Lady Murasaki, Tale of Genji
Marco Polo, Travels
Hesse, Siddhartha
Hokusai, selected prints
Van Gogh, selected paintings

**Senior Course:**
**HNRS 485**
4 A
**Progress**
Voltaire, Candide
Gibbon, Decline and Fall of the Roman
Empire (selections)
Malthus, Essay on the Principle of
Population
M. Shelley, Frankenstein
Darwin, The Descent of Man
Achebe, Things Fall Apart
The Bounty (film)

**HNRS 498**
3 W, S
**Honors Project**
Preparation and evaluation of the Honors Project. In Progress (IP) grading.

---

**The Major and the Minor**

The specific requirements for majors and minors are given under the departmental listings in COURSES OF INSTRUCTION.

Though no course with a grade below C- may apply toward the major or minor, all work taken in these areas must be included in computing the grade-point average for the major or minor.

**The Major**

A major consists of 45 quarter hours or more in your chosen area of specialization, of which you must complete at least one-half of the upper-division hours in residence. You must maintain a minimum grade-point average of 2.0 (C) in the major. Some departments may have additional requirements. You should consult with your departmental or major adviser to determine whether such additional requirements are in force.

You may earn more than one major concurrently, provided that you complete all courses and cognates required for each major. Some courses may apply to both majors, but a minimum of 30 hours in the second major must not overlap those in the first.

**The Minor**

A minor is not required for graduation. You should, however, consult with your academic adviser about a minor if you plan to teach, if you desire California and/or SDA teaching credentials, or if you anticipate attending a graduate or professional school that requires a concentration in a discipline other than the major.

A minor generally requires 30 quarter hours in a departmental specialization, of which you must complete at least six upper-division hours in residence with a minimum grade-point average of 2.0 (C).

In departments embracing more than one discipline (e.g., Behavioral Science), one may earn both a major and a minor having different names. While some courses may apply to both the major and the minor, a minimum of 20 hours in the minor must not overlap those in the major.

---

**Education: The Master’s Degree Program**

**Plan of Study**

The four-quarter graduate program at Pacific Union College leads to a Master of Education (M.Ed.) degree in Instructional Leadership. This degree meets the requirements for the SDA Professional Credential and may lead to a California
The Academic Program

Professional Clear Credential if additional requirements are met.
A nondegree fifth-year program is also available. You may obtain information about these programs from the Education department.

Admission to the Master of Education Degree Program

One applies for admission both to the College and to the master’s degree program. The application is considered when official college transcripts and other requested materials have been filed with the Education department.

Admission is determined by the Education department faculty on the basis of credentials held, recommendations, former academic performance, and background. The Department Chair must approve credit for coursework taken prior to admission to the program.

Requirements for Admission

1. A baccalaureate degree from an accredited college or university.
2. A California credential or SDA credential, or eligibility for these credentials.
3. Admission to the College.
4. Submission of a graduate application to the Education department that includes the following:
   a) two recommendations
   b) transcripts
   c) interview with Department Chair and one other Education faculty member
   d) essay discussing interests and goals
5. A minimum grade-point average of 3.0 in each of the following areas:
   a) Undergraduate upper-division major
   b) Education courses
   c) Overall college work, or the last 96 quarter hours
6. Acceptable scores in the Graduate Record Examination (GRE) General Test.
7. A proposed program of studies appropriate to your strengths, interests, and professional goals.

Admission of Former Students

If you previously attended Pacific Union College, you are required to apply for readmission (no application fee).

Admission of Transfer Students

If you are a student in good standing in another accredited graduate program, you are welcome to apply for admission to the master’s program at Pacific Union College. A maximum of 12 quarter hours of approved transfer credits may be accepted toward the degree.

In addition to the regular application forms, as a transfer candidate you are required to file official postsecondary transcripts with Enrollment Services.

Admission of Guest Applicants

If you have been accepted for graduate study in another accredited institution of higher education and if you wish to earn credit at Pacific Union College for transfer, you are not required to follow the regular admission procedures outlined above. Refer to the section of this catalog entitled “Admission as a Guest Student for Transfer Credit.”

Notification of Admissions Action

When application documents for admission to the College have been received, the Enrollment Services office will inform you of your status. The Education department staff will consider the master’s degree application and notify you of the action taken.

Cancellation of Acceptance

The College reserves the right to cancel the acceptance of any person for graduate study should further evidence indicate that he or she does not adequately meet requirements for admission to the master’s program.

Reserved Graduate Credit

If you have completed 135 hours toward a baccalaureate degree and if you will be eligible to apply for admission to the master’s program after graduation, you may request to reserve a maximum of 12 quarter hours of approved upper-division or 500-level courses for graduate credit provided that they are not needed to fulfill requirements for your bachelor’s degree. Make arrangements with the Education department and the Records office.

Program of Studies

Committee on Studies

The Department of Education faculty will monitor your progress during the period of your graduate study and will work with you in constructing an acceptable Program of Studies.

Provisions of an Approved Program of Studies

Your Program of Studies must provide for the following:
1. removal of any undergraduate deficiencies,
2. a logical and orderly sequence of course work so that you may complete all educational objectives within the seven-year limit,
3. completion of all departmental and College requirements for the degree,
4. completion of all professional education core courses at PUC (exceptions: PSYC 359/L, EDUC 538/L, which may be transferred from other State-approved teacher education programs).

Credit earned by correspondence, examination, student teaching or continuing education is not applicable for graduate degree course requirements.

Course Requirements for the Master of Education Degree

Requirements for the Master of Education degree include a minimum of 45
quarter hours of upper-division and graduate courses (at least 24 hours must be 500-level courses). Specific requirements include 26 hours of professional education core courses, 12 hours of approved support area, and 7 hours of graduate project.

**Professional Education Core Requirements (26 hours)**

**Support Area (12 hours)**

Coursework is based on the student’s professional goals and is determined by the student’s adviser. For example, a student could take courses leading to an emphasis in reading/language arts including 6 hours of 500-level reading coursework. Or a student could develop a support area that emphasizes his or her major subject matter.

**Reading/Language Arts Emphasis (6 hours)**

</tbody>
</table>

**Subject-Matter Emphasis (6 hours)**

(Examples: Science, Mathematics, English, History)

A student electing the content-area emphasis develops the program of studies in consultation with advisers in Education and a content major department. Course selections must relate to a well-defined goal with a minimum of 6 hours of 500-level (or differentiated upper-division) courses.

**Approved Electives (6 hours)**

**Graduate Project (Thesis) (7 hours)**

**Graduation Requirements**

You have the option of fulfilling requirements under the catalog of your first enrollment or any subsequent catalog during the time of continuous enrollment. Requirements include the following:

1. Satisfactory completion of coursework for the degree as outlined in your approved Program of Studies.
2. A minimum overall graduate grade-point average of 3.0 with no grade lower than B- (2.7).
3. Satisfactory completion of examinations and projects as determined by your Committee on Studies.
4. Completion of requirements within seven calendar years beginning with your first enrollment in courses counting toward your master’s degree, or date of acceptance into the program, whichever comes first. If you take these courses at any time during the seven-year period, you are considered to have continuous enrollment status. A time extension requires Education department approval.

**Other Curricula**

**Teacher Education Program**

Teacher education at Pacific Union College is a two-step, five-year program involving preparation in subject-matter areas and professional education courses required for Seventh-day Adventist and California State teaching credentials.

Although provision is made for you to obtain both a baccalaureate degree and a preliminary teaching credential at the end of four years, a fifth year of study is necessary to meet professional credential requirements for both the State of California and the Seventh-day Adventist denomination. The Education section of this catalog provides further information.

**Preprofessional Curricula**

Preprofessional and pretechnical programs in a wide variety of fields are offered to prepare students for admission to professional schools or for entry into technical careers. Below are listed the preprofessional curricula most frequently chosen by Pacific Union College students.

- Architecture
- Dental Hygiene
- Dentistry
- Dietetic Technology
- Dietetics (Registered Dietitian)
- Education
- Engineering
- Health Information Administration
- Law
- Medical Radiography
- Medical Technology
- Medicine
- Nursing
- Occupational Therapy
- Optometry
- Osteopathy
- Pharmacy

*Required fifth-year program for Professional Clear Credential. Information on credential requirements is available from the Credential Analyst.
Physical Therapist Assisting
Physical Therapy
Respiratory Therapy
Speech Pathology and Audiology
Veterinary Medicine

**Cooperative Education**

In selected programs, you may add the experience of career-related, paid employment in government, industry, or business to your classroom experience.

Placements are arranged through your efforts combined with those of the Cooperative Education office and the participating department. Appointments are typically full time while you are on leave from the College, but part-time appointments are also available. Placement is usually off campus for one academic quarter or summer, but may be extended.

Evaluation and supervision of students in the program are the joint responsibility of the Director of Cooperative Education, a professor from the student’s major field of study, and the employment supervisor.

*Guidelines for Cooperative Education:*

1. Some Cooperative Education programs may be available on a noncredit basis only. To have such a Cooperative Education experience recorded on your transcript for 0 credit, you must complete at least 30 hours of approved activity.
2. For each hour of Cooperative Education credit earned and recorded on your transcript, you must complete a minimum of 30 hours of approved activity.
3. Cooperative Education experience and credit are limited to the major.
4. In addition to completing Cooperative Education contract forms, you present to the major department a written or oral report on the experience.

---

**Center for Continuing and Professional Education**

To meet the needs and interests of adult learners who did not complete their education at the traditional college age, Pacific Union College offers degree-completion programs leading to professional baccalaureate degrees. Currently available are the Bachelor of Science in Management (B.S.M.); the Bachelor of Science in Early Childhood Education (B.S.E.C.E.); and a third curriculum leading to the Preliminary Multiple Subject Teaching Credential or the Preliminary Single Subject Teaching Credential.

Program outlines and course descriptions for these curricula appear in the section of this catalog titled Center for Continuing and Professional Education (CAPE). Course descriptions also appear in the academic departmental sections in which the various disciplines are housed.

**Internet-Based Courses**

On-line courses are available in a variety of disciplines. Enrollment is open to all interested persons. For further information see the CyberCourses section of this catalog; or visit the Website at http://cybercourses.puc.edu.
Changes in academic policies made and announced during the school year have the same force as if they were published in this catalog. Policies may not be waived or amended except by petition to and approval by the Academic Standards and General Education Committee. If you desire an exception to an academic policy, complete a Special Request form (available at the Records office), ask your academic adviser to endorse your petition, and return it to the Records office.

**Registration**

You are expected to register online through Lantern (accessible from PUC’s web site) for all your courses during the registration periods as announced in this catalog. You have the option of registering for the entire school year prior to the last date to add courses for each quarter.

**Late Registration**

You must complete registration for each quarter before the first day of class meetings. If, at the end of the first day of classes, you have not received financial clearance, your registration will be cancelled. Failure to complete registration before the first day of class meetings will result in a late registration fee of $25 cash payable at the Records office or $35 charged to your account.

Even if emergency circumstances make it impossible to complete your registration as described above, you may not under any conditions continue attending class after the fifth week of the quarter unless you are officially enrolled. No grade is issued or recorded on the transcript, or credit awarded, for any course for which you are not officially enrolled by the end of the fifth week of the quarter. (For summer quarter and other courses scheduled for durations other than the standard ten-week quarter, this policy applies with the phrase “fifth week of the quarter” replaced by the phrase “midpoint of the quarter.”)

**Changes in Registration**

To avoid changes in registration, you should plan your program carefully. You may add courses or withdraw from them, however, before the last date to enter or withdraw. You are responsible for checking your schedule on Lantern to make sure that your schedule is correct.

You are responsible for following the program for which you have registered. You may not attend or receive credit for a course for which you have not registered. Failure to attend a course for which you have registered will result in an “F” in that course.

**Audited Courses**

If you wish to attend a course but do not wish to complete all regular assignments, you may, with the consent of the instructor, register on an audit basis. Applications to change registration from “Audit” to “Credit” or from “Credit” to “Audit” are not approved after the third week of the quarter. Fees for audited courses are charged at half the regular tuition rate, except for private music lessons, ensembles, and other participation-type courses, which are charged at the full tuition rate. On the transcript, audited courses carry the notation “AU.”

**Withdrawal from Courses**

To withdraw from a course any time before the last date to withdraw, you must go through Lantern. A course from which you withdraw within the first two weeks of the quarter will be deleted from your record.
Withdrawal from the College

To withdraw from the College, complete a Notice of Withdrawal form (available at the Records office). The completed form must be signed by your adviser, your College employer (if you are employed on campus), the Coordinator of Retention, the residence-hall dean (for residence-hall students), the Vice President for Academic Administration, the Vice President for Student Life Administration, and the Director of Student Finance. Withdrawal is official when the form with the signatures has been filed in the Records office.

The date of official withdrawal from the College will appear on your transcript. If you choose to withdraw after the eighth week of the quarter, a grade of “F” will be recorded for all courses in which you are registered.

Advisory Services

The Advising Program

Your academic advising program begins at orientation when you first enroll. An adviser will work with you in planning an academic schedule. You are required to consult with your adviser at least once each quarter.

In planning your studies, you should carefully follow the recommended sequence outlined in this catalog. At the end of your sophomore year, you should ask the Records office for a degree analysis. With your adviser, you should then plan your studies for the final two years. Such planning helps to ensure that you meet all graduation requirements in an orderly, logical, and timely sequence.

Approximately four quarters before graduation you must file at the Records office your application to graduate. Approximately three quarters before graduation you file a senior contract.

Teaching Credential Advising

If you have chosen a career in teaching, you should consult with the Chair of the Education department as early as possible in your curriculum planning. You should discuss requirements for both Seventh-day Adventist and California State teaching credentials. Early identification with the elementary or secondary teaching profession as a career is essential for structuring an orderly academic program. If you are a candidate for elementary teaching, you should register your intention after one quarter in residence.

If you are a transfer student, you should register your intention upon enrollment. You will be admitted to the teacher education program after your application has been approved by the Education department. Further information is available at the Education department office.

Counseling Services

The College provides career counselors who can administer and interpret interest and personality inventories. These professionals can advise about appropriate majors to pursue in preparation for certain careers. It is crucial, however, to meet with your academic adviser for specific career and degree requirements. (See also STUDENT LIFE AND SERVICES in this catalog.)

Veterans Services

The Veterans Coordinator in the Records office maintains liaison between enrolled veterans and the Veterans Administration. The Coordinator provides advice about special provisions of the law relating to veterans as college students and information about current developments of significance to veterans.

Education Benefits for Veterans

If you are a veteran, you should get in touch with the Veterans Coordinator in the Records office at least two months prior to the date you expect to enroll to arrange to receive the benefits to which you are entitled. The Coordinator will supply the necessary forms and advise you of current monthly benefit rates.

To qualify for maximum benefits, you must enroll for at least 12 credit hours each quarter. Adjusted payments are made for three-quarter (9 to 11.5 quarter hours) and half-time (6 to 8.5 hours) enrollment. During the summer session, maximum benefits are paid for 9 quarter hours and above, three-quarter benefits for 6.5 to 8.5 quarter hours, and half benefits for 4.5 to 6.0 quarter hours.

Experience has shown that it may take longer than eight weeks to process all the necessary forms from the date of application to the receipt of the first check.

VA Standards of Progress

According to Veterans Administration policy, veterans’ educational benefits are discontinued for a veteran (or eligible person) who remains on academic probation for more than three quarters because of grade-point deficiency. If your academic record should come into this category, there will be no further certification for benefits until your academic standing reflects improvement to a cumulative 2.0 grade-point average. (See “Academic Probation,” “Academic Renewal,” and “Repeating Courses” for an explanation of conditions under which you might be able to continue your studies if your grade-point average drops below 2.0.)

Under VA policy, the conditions for re-entrance after dismissal for unsatisfactory academic progress are also subject to the above standards of progress for veteran students.

Other Benefits for Veterans

If you qualify for other benefits provided by previous benefit bills for veterans (for example, war orphans and appli-
cants for vocational rehabilitation), you should get in touch with the VA.

**Armed Forces Credit**

Although “blanket” credit is not awarded for military service, some training courses provided by the armed forces may be the equivalent of college courses. You may obtain credit for such courses by presenting certificates describing the training. Credit is awarded for college-level courses sponsored by the United States Armed Forces Institute that are completed with a satisfactory end-of-course examination.

Credit is awarded for military training in accordance with the American Council on Education’s Guide to the Evaluation of Education Experiences in the Armed Services. No credit is granted for the General Education Development Test, but satisfactory scores on the high-school-level GED Test may be used as a basis for admission to the College.

**Transfer Credit**

If you have attended other institutions of higher education, you must provide complete official transcripts from each college or university attended, even where you earned no credit. Such transcripts should be filed before you register for the quarter following the completion of the work. This policy applies also if you are regularly enrolled at Pacific Union College but take summer work, correspondence, or other work elsewhere. Failure to file all transcripts may result in delay of registration until the transcripts are received.

Transcripts from institutions accredited by recognized accrediting associations are evaluated to allow equivalent courses from the transfer institution to satisfy specific course requirements at Pacific Union College. Transfer credit is accepted only for courses with a grade of C- or higher.

The College reserves the right to require repetition of courses that have become outdated.

Transcripts from unaccredited institutions are given provisional evaluation. After you have completed 16 quarter hours in residence at Pacific Union College with at least a 2.0 grade-point average, the transcript from the unaccredited institution will be analyzed on a course-by-course basis and credit established for those courses that appropriately apply to your program at Pacific Union College.

Credit is allowed for college course work completed before secondary-school graduation if such work has been taken in an accredited college and is shown by transcript as college credit.

The maximum credit transferable from a recognized junior (community) college is 108 quarter hours (72 semester hours). Upper-division credit is not allowed for junior college courses or for courses numbered as lower-division credit at another senior college or university. Pacific Union College reserves the right to accept or reject credit earned or attempted at other institutions. (See also “Concurrent Enrollment.”)

### Cancellation of Scheduled Courses

The College administration, in consultation with the respective department chair, reserves the right to cancel any course listed in the course schedule if enrollment is five students or fewer or if a qualified instructor is not available because of unavoidable changes in personnel.

**Course Load**

The academic study load is described in terms of quarter hours (credits). One quarter hour (credit) normally represents one fifty-minute class period per week for one quarter. Two-hour courses normally convene twice a week and three-hour courses three times a week. For three clock-hours of laboratory experience per week, students normally receive one hour of credit per quarter. (See also “Credit Hours.”)

If you have regular academic standing, a full course load is 17 quarter hours per quarter during the school year and 15 quarter hours during the summer session. To enroll for a course load in excess of these totals, you must have approval by your academic adviser and the registrar. First-year students may register for upper-division courses (numbered 300-499) only with special permission of the registrar and with the approval of the academic adviser and the course instructor.

If you are on Academic Probation, your maximum course load is reduced to 15 quarter hours during the school year and 10 during the summer session.

**Study-Work Program**

If you are employed either on or off campus, you are expected to adjust your course load in harmony with the following schedule to achieve a reasonable balance in study and work:

<table>
<thead>
<tr>
<th>Course Load</th>
<th>Maximum Work Load per Week</th>
</tr>
</thead>
<tbody>
<tr>
<td>16 quarter hours</td>
<td>16 hours</td>
</tr>
<tr>
<td>14 quarter hours</td>
<td>20 hours</td>
</tr>
<tr>
<td>12 quarter hours</td>
<td>26 hours</td>
</tr>
<tr>
<td>10 quarter hours</td>
<td>32 hours</td>
</tr>
</tbody>
</table>

If you have a record of average scholastic achievement, you should plan a study-work program involving less than the maximum labor load suggested.

**Class Absences**

You are responsible for all material and assignments presented in class, and you are expected to maintain regular attendance at all class sessions of the courses in which you are enrolled. While there is no general College attendance requirement, each instructor has the right to establish
specific policies best suited to a given course.

Academic Integrity

Academic integrity is highly valued and is expected. Academic dishonesty is an extremely serious offense and is cause for disciplinary action. Students involved in cheating, plagiarizing, fabrication, multiple submissions, abuse of academic materials, deception, misrepresentation, electronic dishonesty, and other types of academic dishonesty, including production of materials for other students, are ordinarily subject to dismissal from the course with a failing grade.

Situations involving academic dishonesty are dealt with by the instructor of the course in consultation with the department chair. A record of any verified instance of dishonesty is forwarded to the Academic Dean and is kept in the student’s personal file. Whenever such filing occurs, the student involved is notified. (A student feeling he or she has been treated unfairly has the right of appeal through established grievance procedures.) A pattern of serious or habitual dishonesty is dealt with by the Academic Dean and may result in dismissal from the College. (For further details, see “Appendix: Code of Academic Integrity” in this catalog.)

Ownership of Written Work

Written work you present in fulfillment of course requirements becomes the property of the College. The teacher or the College, however, may not publish the written work for any reason without your permission. The original copy is returned to you at the discretion of the teacher. When it is not returned, you have the right to request and be given a copy of work turned in. You should request a copy not later than the end of the quarter following that during which you took the course.

Grading System

Grade reports are issued at the end of each quarter. These reports are not valid for transfer or certification purposes.

Any corrections and grade changes must be made within two weeks after the grade reports have been issued. After this date all grades become final. To raise a grade once it has been recorded, you must repeat the course.

Grades

Grades are recorded by letters and are assigned point values as follows:

- **A** 4.0
- **A-** 3.7
- **B+** 3.3
- **B** 3.0
- **B-** 2.7
- **C+** 2.3
- **C** 2.0
- **C-** 1.7
- **D+** 1.3
- **D** 1.0
- **D-** 0.7
- **F** 0.0
- **IP** Not computed
- **NR** 0.0
- **W** Not computed
- **AU** Not computed

The grade-point average is computed by dividing the total number of points earned by the total number of hours attempted.

Failure

A grade of “F” is assigned to a course for which you do not meet the minimum standards set for a passing grade. “F” is also recorded if you earn the equivalent of “F” in a course offered only on a Satisfactory/Fail (S/F) basis. An “F” carries 0 grade points and is computed in the grade-point average.

Satisfactory

A grade of “S” signifies that you earned the equivalent of “C-” or higher in a course available only on a Satisfactory/Fail basis. An “S” is not computed in the grade-point average.

Audit

The grade “AU” is assigned to a course taken on an audit basis. You may change registration from audit to credit, or from credit to audit, before the end of the third week of instruction. A course for which you register for audit but do not attend regularly is assigned a “W.”

Withdrawal

Courses from which you withdraw before the end of the second week of the quarter are deleted from the record. A “W” is assigned to a course from which you officially withdraw between the beginning of the fourth week and the end of the eighth week. A “W” is not computed in the grade-point average. You may not withdraw from a course after the eighth week.

You will be considered registered for a course until you file a Change of Program Request Form with the Records office.

Incomplete

A grade of “I” is assigned in exceptional situations when unavoidable circumstances prevent completion of a course. An “I” carries no grade points and is not computed in your grade-point average.

 You must remove an Incomplete by the time your instructor specifies, but no later than six calendar weeks from the time it is incurred. An Incomplete not removed reverts to the grade computed without the missing work. This grade is specified at the time the Incomplete is granted.

At least six weeks before graduation, prospective graduates must have made up all outstanding Incompletes.

IP—In Progress

The “IP” grade is available when the requirements of a course may extend beyond the quarter for which you are registered. For such courses, the IP grade is available only when specified in the course description. Unless otherwise
Academic Information and Policies

stated, the IP must be completed within three quarters.

Grade Not Reported
The grade “NR” is assigned to a course for which no grade is reported. The grade “NR” carries no grade points and is not computed in the grade-point average. An “NR” not removed by the end of the second week of the following quarter becomes an “F.”

Dean’s List
When you complete a minimum of 12 credits with a grade-point average of at least 3.85, you are honored as a member of the Dean’s List for that term.

Academic Probation
You will be placed on academic probation at the end of any quarter when your grade-point average for that quarter, or your cumulative grade-point average in residence, falls below 2.0 (C).

New and transfer students admitted with a cumulative grade-point average lower than 2.0 are automatically placed on academic probation. If you are a transfer student admitted on this basis, you will return to regular standing at the end of one quarter of course work (minimum of 12 quarter hours) in which you achieve a grade-point average of 2.0 or higher.

While on academic probation, you may enroll in a maximum of 15 quarter hours of course work. You will not, however, be eligible for any office in student activities, and you will be required to meet regularly with the Retention Coordinator. You will return to regular standing when you achieve a quarter of at least 12 hours with both a quarter and a PUC cumulative GPA of at least 2.0.

Academic Suspension
If you have three consecutive quarters with a quarter grade-point average below 2.0, and/or a Pacific Union College cumulative grade-point average below 2.0, you will be placed on academic suspension. The quarters to be evaluated are your most recent three quarters at Pacific Union College, whether or not that period of three quarters was interrupted for any reason by one or more breaks in enrollment.

While on academic suspension, you may not continue your studies at Pacific Union College. You may reapply after you complete at least ten quarter hours of course work (transferable credit) at another accredited college or university for which you earn a grade-point average of at least 2.25.

Academic suspension is recorded on the transcript.

Academic Dismissal
If you are readmitted to Pacific Union College following academic suspension and then earn a grade-point average below 2.0 (C) during either of the next two quarters, you will be placed on academic dismissal. After academic dismissal, you may apply for readmission after completing at least 45 hours of course work at another accredited college or university with a grade-point average of at least 2.25. Academic dismissal is recorded on the transcript.

Academic Renewal
Option 1: If at the end of three quarters (at least 36 hours) of course work you maintain a grade-point average of 2.0 (C) or better, you as a transfer student admitted on probation may apply to the Records office to have excluded from your transfer record sufficient course work to bring the transfer grade-point average to 2.0. Former students who have failed to maintain a grade-point average of 2.0 or higher may, after a break in residence of at least one year, be readmitted on the same basis as transfer students.

If you have not reached the minimum required grade-point average (2.0) by the end of the third quarter, you may request readmission on the basis of a revised curriculum plan prepared in consultation with an academic adviser. If the Admissions Committee approves the request for readmission, you must then maintain an average of 2.0 quarter by quarter, and by the end of the sixth quarter in residence must have established an overall grade-point average of 2.0 to qualify for readmission.

Option 2: Under certain circumstances, the College may disregard up to three quarters or two semesters of previous undergraduate course work, taken at any college or university, from all considerations associated with requirements for the baccalaureate. These circumstances are the following:
1. You have formally requested the action; and
2. You have presented evidence that work completed in the terms under consideration is substandard and not representative of your current academic ability and level of performance.

The final decision that one or more terms are to be disregarded in determining eligibility for graduation is based upon careful review of evidence by the Academic Standards and General Education Committee and is made when
1. At least one year has elapsed since the most recent work to be disregarded was completed; and
2. You have completed at PUC at least 15 quarter units with at least a 3.0 GPA.

When such action is taken, your permanent record is annotated so that it is readily evident to all users of the record that no work taken during the disregarded terms, even if satisfactory, may apply toward baccalaureate requirements. All work must remain legible on the record, ensuring a true and complete academic history.

Option 3: If you have accumulated a grade-point average lower than 2.0, you
may petition the Academic Standards and General Education Committee to be admitted to a degree program with no prior college credit and no grade-point average. To qualify, you must
1. be at least 25 years of age;
2. have been out of a degree program of college studies for at least four years; and
3. demonstrate ability to progress in college work.

If the petition is approved, all prior college courses and grades are retained on the transcript and the notation “admitted without credits or grades by committee action” is recorded. When implemented, this policy waives all previous credits and grades except for any credits and grades earned in a special nondegree-bound status.

Repeating Courses

You may repeat a course in which you have earned a grade of C- or above only if you have not taken a more advanced course in the same subject.

If you have a D or F in a major, minor, cognate, or other required course, you may, on the advice of your major adviser, take another course in the same general area, or you may repeat the course if you have not taken a more advanced course in the same subject.

When repeating a course, you must repeat all the class work; and, if the course includes a laboratory, you may be required to repeat all laboratory requirements as well. At your request, your Pacific Union College grade-point average will be recomputed on the basis of the second grade received if you repeated the course at Pacific Union College.

Your permanent record includes a complete account of all courses attempted, and all transcripts are issued on this basis. A course you have repeated to improve your grade-point average is not counted toward the total credit hours earned, and the original course grade is not included in the grade-point calculation.

Restriction on Lower-Level Courses After Upper-Level

You may not take lower-level courses after you have earned credit in a more advanced course in the same area. Each department will identify those advanced courses that preempt lower-level courses in its area.

Correspondence Courses

You may apply a maximum of eighteen quarter hours of correspondence credit toward the requirements for a baccalaureate degree and twelve toward those of a two-year associate degree. Credit by correspondence may apply toward the requirements for the major only if approved by the major professor; it cannot be used to raise a grade.

If you are working toward a California teaching credential, you should obtain from the Credential Analyst specific current information about the acceptance of credit for correspondence courses.

While in residence, you may pursue correspondence work only with approval, in advance, of Academic Administration. All transcripts for correspondence courses applying toward the requirements of any degree must be on file in the Records office one quarter before graduation.

Correspondence courses are not accepted in first-year language or in speech.

Concurrent Enrollment

While you are registered at Pacific Union College, you may not earn credit toward graduation from PUC through concurrent enrollment in another college unless you have the prior approval of the Registrar. Transfer credit will not be accepted for any course taken concurrently elsewhere without your having secured approval before the course began. (See also “Transfer Credit.”)

Reserving Courses for Post-Degree or Graduate Credit

You may request that certain upper-division courses be reserved for post-baccalaureate or graduate credit by making arrangements with the Education department and the Records office. To be fully credentialed by California and the SDA denomination, one must complete an approved fifth year or master’s degree of 45 quarter hours beyond a bachelor’s degree.

Independent Study

Independent Study refers to advanced study or research you may do on an individual basis under the direction of a faculty member with regular appointment. You may use Independent Study for your major, minor, free electives or cognates, but not to meet general-education requirements. Cross-disciplinary studies earn split credit in the disciplines represented. You may earn up to twelve hours in Independent Study.

To be eligible for Independent Study in any department, you must have reached junior or senior standing, have met all departmental prerequisites, and have earned a minimum grade-point average of 3.0 in the proposed area of study. Before registering for the course, you must have negotiated a contract with the instructor and the chair of the supervising department, specifying the number of hours of credit to be earned, the detailed requirements of the course, the grading criteria, and a schedule of meetings to be specified.

Independent Study should not take the place of courses regularly available. It should not be confused with courses
offered through Directed Study. Extended Learning credit is not accepted as Independent Study.

Credit for Student Missionaries and Taskforce Volunteers

Through PUC’s Extended Learning office, you may earn academic credit in connection with field experience during appointment as a Student Missionary or Task Force volunteer. To qualify, you must have previously taken courses at Pacific Union College, and you must arrange for credit with Extended Learning before the experience begins. Credit—elective only—is available on a Satisfactory/Fail basis. You may earn up to 6 hours per quarter to a maximum of 18 hours.

More detailed information about credit for field experience is available from Extended Learning.

Assessment of Outcomes

The College seeks through various means to measure its success in fulfilling its mission. A part of that effort involves an examination program to assess outcomes in general education and in each student’s major field. Examinations are given to entering freshmen and to students completing their sophomore and senior years. All students are required to participate in this examination program.

Pre-Examination Week

No off-campus field trips, major examinations, or extracurricular activities requiring student participation may be scheduled during the week prior to the first day of final examinations (“dead week”) in order that you may devote full time to completing course projects and preparing for final examinations.

Examinations

You must take the final examination in each course in which you are enrolled at the time listed in the official examination schedule or you will receive the grade earned without the final examination. You should expect no exceptions to the published schedule unless you can provide proof to the Academic Dean of an emergency situation beyond your control.

Course-Waiver Examinations

You may waive certain course requirements provided that you fulfill one of the following conditions:

1. Present credit in courses substantially equivalent in purpose, scope, context, and credit value to the required course from which you request exemption.

2. Pass a proficiency examination. The examination is administered by the department concerned and approved by the Records office.

Qualifying for course exemption through waiver examination does not involve the awarding of credit, nor does it reduce the total number of hours to be earned for a degree. Its only effect is to increase the number of elective hours available as part of your degree program. (See the FINANCIAL INFORMATION section of this catalog for examination fees.)

Credit by Examination

You may earn academic credit by successfully writing CLEP (College Level Examination Program), DANTES (Defense Activity for Nontraditional Educational Support), Regents, and College-prepared tests. Further details are available at the Records office and academic departmental offices.

No credit by examination is available for remedial (0-level) courses.

AP, CLEP and Other Tests

Maximum credit applicable to a four-year degree is 45 hours; maximum credit applicable to a two-year degree is 24 hours.

1. AP Tests: Prepared and administered by the College Entrance Examination Board, Advanced Placement Examinations are currently available in several subject-matter areas.

2. CLEP Tests: CLEP (College-Level Equivalency Program) tests are intended as a means of establishing academic credit for persons who through extensive independent study, specialized training, etc., have gained knowledge equivalent to that gained by regular study in formal college courses. There are two kinds of College-Level Examinations: General Examinations and Subject Examinations. Pacific Union College awards credit for selected Subject Examinations only. (You may get further information at the Records office about which PUC courses may be satisfied by AP and CLEP tests.)

3. Regulations governing the administration of the CLEP tests:
   a) The examinations are open to all classifications of students, but are directed toward freshmen and sophomores.
   b) You may use credit earned by Subject Examinations to meet either general-education or major requirements.
   c) To earn credit, you must achieve a score at or above the 50th percentile on each CLEP test and at the third level or above on each AP test.
   d) Credit earned by CLEP or AP will be placed on your transcript with the credit hours earned and a grade of “S” (satisfactory).
   e) Except by special permission of the department involved, you may take any one CLEP examination only once.

4. Fees for CLEP and AP are paid to the testing company at the time you register for the test. If supplementary departmental examinations are required, additional
Academic Information and Policies

fees are charged. (See the FINANCIAL INFORMATION section of this catalog for examination and recording fees.)

**College-Prepared Tests**
(Maximum applicable to a four-year degree is 18 hours; maximum applicable to a two-year degree is nine hours). The following regulations apply:

1. An application for permission to attempt credit by examination requires, on the appropriate form available from the Records office, the signatures of the course instructor, the department chair, and the Registrar.

2. A course for which credit may be earned by examination is normally a lower-division course in a four-year curriculum or a first-year course in a two-year curriculum. Its content is such that it can be measured by a written, oral, or manipulative test.

3. To be eligible for credit by examination, you must demonstrate superior competence by such evidence as the following:
   a) a grade-point average of at least 3.0 in similar courses;
   b) a percentile score of at least 75 on an ACT test in the same area;
   c) similar course work in a non-academic institution; and
   d) work experience sufficient to develop course competencies.

4. You may not earn credit by examination if you have previously taken a similar course or if the course in question is a prerequisite to one in which you have already earned credit.

5. If you have taken or attempted a course, you may not raise the grade for that course by examination.

6. Examinations for credit may not be repeated.

7. Examinations for credit are recorded on a Satisfactory/Fail basis. For Satisfactory to be recorded, achievement equivalent to C+ or better on a graded examination is required.

8. If you have audited a course, you may earn credit by examination for the course by paying one half the regular tuition fee. (See the FINANCIAL INFORMATION section of this catalog for examination and recording fees.)

**Credit by Life-Learning Portfolio Assessment**
You may earn up to 18 hours of credit through assessment of documentation provided in a Life-Learning Portfolio. The General Academic Standards and Policies Committee administers this program in harmony with established Pacific Union College guidelines and standards.

**Classification of Students**

- **Regular Student**: A student who has completed all of the entrance requirements and who has definitely enrolled in a degree program.
- **Freshman**: A beginning first-year student or one who has completed fewer than 18 quarter hours of credit.
- **Second-Year Freshman**: A second-year student who has completed at least 18 quarter hours.
- **Sophomore**: A student who has completed at least 45 quarter hours.
- **Junior**: A student who has completed at least 90 quarter hours of credit.
- **Senior**: A student who has completed 135 quarter hours of credit.
- **M.Ed. Degree Student**: A student who has been accepted into the Master of Education degree program.
- **Uncoded**: A student who does not meet College entrance requirements and/or does not wish to qualify for a degree, but who wishes to take certain courses on either a credit or an audit basis.

**Requirements for Undergraduate Degree Graduation**
You normally meet the graduation, general education, and major course requirements of the catalog current the year you first enter Pacific Union College. You have the option, however, of qualifying under any catalog in effect during the time you are in continuous residence.

If you wish to do so, you may choose the requirements for your major and for general education from separate qualifying catalogs. If you are a transfer student, you may also graduate under the catalog of your admission.

If your residence as a student at Pacific Union College is broken by a period of more than three consecutive quarters (excluding summer quarter), you must meet the requirements of the catalog under which you are reaccepted to the College, or of a subsequent catalog.

**Degree Candidacy**
You may become a degree candidate when you begin the academic year during which it will be possible to complete all requirements for graduation.

Four quarters before your expected graduation, you must formally apply for graduation at the Records office. Transfer students planning to meet graduation requirements during the current academic year must file a request at registration.

It is the responsibility of each student to satisfy degree requirements. You are expected to acquaint yourself with the various policies and requirements pub-
lished in the catalog and, in consultation with your adviser, to plan your course of study accordingly.

**Residence Requirements for Denominational Teachers**

If you have earned 96 quarter hours toward a baccalaureate degree and have established residence at PUC, you may, if continuously employed as a teacher in the Seventh-day Adventist denominational school system, be considered as not having broken residence provided that you complete the work for the degree within seven consecutive summer quarters and provided that you have not during this period enrolled as a student in any other institution of higher education without the authorization of the General Academic Standards and Policies Committee.

**Graduation Information**

At the end of spring quarter, Commencement is held for all students who have completed all requirements for a degree. If you complete your requirements during an autumn or winter quarter, you will receive your degree at the following spring commencement. The date of graduation appearing on the diploma, however, is that of the last day of the quarter during which you actually completed the degree requirements.

**Graduation In Absentia**

You are expected to participate in Commencement services unless you notify the Records office in advance that you plan to be graduated in absentia. You should make written application for exemption not later than one week prior to Commencement. A fee of $25 is assessed if you are absent from graduation without having given prior notice.

**Graduation Recognition for Nurses**

All nursing students are expected to participate in the recognition service unless excused, in writing, by the Chair of the Nursing department. Requests for exemption should be presented in writing during the first week of spring quarter.

**Baccalaureate Degree Graduation Recognition**

**Graduation with Academic Distinction**

Students who, one quarter before graduation, have earned both a Pacific Union College and an over-all grade-point average of 3.5-3.749 will be graduated cum laude; those with 3.75-3.899, magna cum laude; and those with 3.9-4.0, summa cum laude.

**Honors Program Graduation**

The Honors Program is designed to enrich the studies of exceptionally well-prepared students. Only students fulfilling requirements of the Honors Program will graduate “With Honors,” a designation that appears on the graduation program and on the student’s transcript. (See “The Honors Program.”)

**Second Degree**

Two degrees may be conferred concurrently or subsequently if you have met all the major and general-education requirements for both degrees and the requirements for more than one major. (See “The Major and the Minor.”)

**Transcripts**

At your written and signed request, the Records office will provide transcripts of your credits. (See the FINANCIAL INFORMATION section of this catalog for transcript fees.)

The College reserves the right to withhold all information concerning your record if you are in arrears in payment of accounts or other charges, including student loans. No transcripts are issued until all of your financial obligations to the College have been met.

You should allow two weeks for processing your request and mailing the transcript.

Transcripts from other institutions which have been presented for admission and evaluation of credit become the property of the College and are not reissued or copied for release.
Quarter System

Each quarter has approximately 11 weeks. Quarters are designated as Autumn A; Winter, W; Spring, S; and Summer, Su.

Credit Hours

“One quarter hour” normally represents one fifty-minute class per week throughout an academic quarter and approximately two hours of preparation for each one-hour session. One laboratory period of approximately three hours is considered equal in credit value to one lecture/discussion period and the expected preparation.

Variations may include independent study, directed study, research laboratory courses, individualized studio instruction, music lessons, special workshops, and perhaps other “nontraditional” academic events.

Prefix

The three- or four-letter prefix to each course number indicates the department or subject area (see page 44).

Numbering and Classification of Courses

Courses are numbered and classified as follows:

001-099 Remedial Courses

For students with inadequate academic skills. No remedial course work may apply toward any degree.

100-299 Lower-division Courses

Normally taken by freshmen and sophomores.

300-499 Upper-division Courses

Normally taken by juniors and seniors. You may not register for upper-division courses unless you have completed any prerequisites. First-year students may register for these courses only with special permission of the registrar and with the approval of the academic adviser and the course instructor.

Some upper-division courses serve the purpose of extending the scholarly background of a graduate student. When approved by the student’s Committee on Studies, such courses may apply toward the graduate degree.

500-599 Graduate Courses

Primarily for graduate students. With the approval of the major professor, a senior whose preparation is adequate may take graduate courses for undergraduate credit.

Alternating Courses

The year is defined in terms of the graduating year.

Odd year—2002-2003

Even year—2003-2004

Hyphenated Courses

Course numbers separated by hyphens indicate an integrated sequence. Though they are generally taken consecutively, a student may receive credit for any quarter or quarters without the others provided that any prerequisites have been met.

Directed Group Study

A course is offered under the title Directed Group Study when a department chooses to

1. experiment with a course before it is listed in the catalog, or

2. offer the course, on a one-time basis, for enrichment purposes when sufficient student interest is indicated.

A specific title is assigned when the course is offered, and the course is listed as follows:

1. Alpha prefix of the course

2. Course number 096, 296 or 496

3. The title Directed Group Study

4. The credit hours of the course

5. The name of the course as subtitle

Directed Study

You may take a catalog-listed course on an individual basis only under the most unusual circumstances and at the discretion of the instructor and department chair. Any such course will be offered only for the number of hours listed in the catalog and will adhere to the catalog description and standard course syllabus. Consult with the Records office for request forms and applicable criteria.

When Directed Study is approved, the course will be listed as follows:

1. Alpha prefix of the course

2. Course number 097, 297 or 497

3. The title Directed Study

4. The credit hours of the course

5. The name of the course as subtitle

Honors Project

Although not listed in each department, Honors Projects carry the following course designation:

1. Alpha prefix of the course

2. Course number 498

3. The title Honors Project

4. The credit hours of the project

5. A subtitle, identifying the nature of the project

Courses of Instruction

Art and Design

The Rasmussen Art Gallery

The Rasmussen Art Gallery, located in the heart of the campus mall, offers students and community a stimulating and enriching cultural dimension in the visual arts. The gallery’s exhibitions provide an opportunity to explore contemporary art as well as its historically significant art.

Fine Art

Lower-division courses:

ART 115 Stained-Glass Design
An introduction to stained-glass design, including copper foiling and leading techniques. One lecture and three hours laboratory weekly.

ART 121-122 Drawing Fundamentals I-II
A foundation course developing the student’s ability to communicate and express creative ideas using line, shape, value, and texture. One lecture and two hours laboratory weekly. Courses must be taken in sequence.

ART 125-126 Design and Composition I-II
The basic principles and elements of naturalistic and nonrepresentational design. Stresses creative use of line, color, shape, texture, and space. Courses must be taken in sequence.

ART 137 Three-Dimensional Design
The perceptual, spatial, and structural principles of well-organized three-dimensional forms. Includes assignments introducing techniques of modeling and assemblage.

ART 138 Acrylic Painting
Introduction to painting with acrylics. Exploration of color and brush techniques through a variety of subjects and styles. One lecture and three hours of laboratory weekly. Even years.

ART 141 Ceramics I
Introduction to materials and techniques in creating hand-built and wheelthrown ceramic forms. One lecture and three hours laboratory weekly. Odd years.

ART 142 Ceramics II
Exploration of ceramics techniques and processes in the intermediate level. One lecture and three hours laboratory weekly. Even years.

ART 151 Printmaking
An introduction to printing techniques. One lecture and two hours laboratory weekly. Odd years.

ART 152 Oil Painting
Introduces the technical and aesthetic principles of oil painting. One lecture and three hours laboratory weekly. Even years.

ART 299 Associate
An index of all associated with a work for the Art Gallery or that can be found in the Rasmussen Art Gallery. 

ART 214 Art for Children
(See also 100-299)
A course designed for children, enabling the instructor to provide

The art of printing techniques. One lecture and two hours laboratory weekly. Even years.

General Courses

Nondepartmental courses.

**GNRL 104**  
1 Su  
Young Scholars Program  
A week-long program of course work, projects, and investigations in science, mathematics, humanities and the arts. Graded on a Satisfactory/Fail basis. May be repeated for credit. Prerequisite: Admission to the PacificQuest summer program for talented and gifted students.

**GNRL 204**  
2 S  
Introduction to Dentistry  
Dental anatomy, morphology, and related aspects of dentistry as a career. One lecture and one laboratory weekly.

**GNRL 350**  
2, 6  
Field Experience  
Students in the PUC Student Missionary and Task Force programs may arrange to do extra academic work in connection with their service appointments and thereby to earn credit applicable toward degree requirements. Credit is available on both a 6.0-unit per quarter basis and a 2.0-unit per three-week period of service. Registration qualifies students to maintain enrolled status at PUC while off campus in these programs. Further information is available at the Extended Learning office. Graded S/F.

In the Department of Art and Design, the student has the opportunity to study art either as a vocation or as a means of increasing cultural awareness. The department is keenly interested in students who choose art as their occupation and who want to devote themselves to the period of intensive training necessary for their profession. It is also concerned with those whose interests may be avocational rather than professional, who recognize the cultural advantages to be obtained from the study of art, or who find in artistic experience a high degree of personal enjoyment and satisfaction.

**Required Cognate Courses:**
- GRPH 153 Introduction to Macintosh 2 (or Macintosh competency)
- MGMT 160 Small Business Management 3
- JOUR 242 Photojournalism 2
- JOUR 434 Media Law and Ethics 3

**Associate Degree in Graphic Design, A.S.**

- A minimum of 48 hours including the following:
  - ART 121-122 Drawing Fundamentals I-II 2-2
  - ART 124-125 Design and Composition I-II 3-3
  - ART 127 Three-Dimensional Design 2
  - ART 131 Watercolor Painting 2
    (or ART 151 Acrylic Painting (2))
  - ART 241 Photography I 3
  - ART 261-262 Graphic Design I-II 3 -3
  - ART 263 Typography I 3
  - ART 266 Preprint Production I 3
  - ART 268 Illustration I 3
  - ART 299 Associate Degree Project 3
  - ART 370 Modern Art 4
  - ART 394 Professional Practices in Art 2
  - ART 421 Life Drawing I 2
  - ART 426 Design and Composition III 2
  - ART 446 Digital Photo Imaging 3

- Required Cognate Course:
  - GRPH 352 Digital Image Technology 3

- Recommended Cognate Courses:
  - GRPH 153 Introduction to Macintosh (2)
  - GRPH 253 Publication Technology I (3)
  - GRPH 354 Color Imaging (3)
  - MGMT 160 Small Business Management (3)
  - MKTG 360 Consumer Behavior (3)
  - MKTG 374 Advertising Management (3)

**Associate Degree in Photography, A.S.**

- A minimum of 41 hours including the following:
  - ART 124-125 Design and Composition I-II 3-3
  - ART 241-242 Photography I-II 3-3
  - ART 243 Color Photography I 3
  - ART 277 History of Photography 3
  - ART 299 Associate Degree Project 3
  - ART 370 Modern Art 4
  - ART 394 Professional Practices in Art 2
  - ART 426 Design and Composition III 2
  - ART 441 Portrait Photography 3
  - ART 443 Commercial Photography 3
  - ART 444 Color Photography II 3
  - ART 446 Digital Photo Imaging 3

- Required Cognate Course:
  - GRPH 153 Introduction to Macintosh (2)

- Recommended Cognate Courses:
  - JOUR 242 Photojournalism (2)
  - JOUR 434 Media Law and Ethics (3)
  - MGMT 160 Small Business Management (3)

**Minor in Art**

- A minimum of 34 hours (8 upper division) including the following:
  - ART 105 History of Western Art 4
  - ART 121-122 Drawing Fundamentals I-II 2-2
  - ART 124-125 Design and Composition I-II 3-3
  - ART 127 Three-Dimensional Design 2
  - Select two:
    - ART 115 Stained Glass (2)
    - ART 141 Ceramics I (2)
    - ART 144 Clay Sculpture (2)
    - ART 226 Collage and Assemblage (2)
  - Select two:
    - ART 131 Watercolor Painting (2)
    - ART 133 Encaustic Painting (2)
    - ART 151 Acrylic Painting (2)
    - ART 152 Oil Painting (2)
    - ART 235 Printmaking–Woodcuts and Etchings 2
      (or ART 325 Printmaking–Silkscreen (2))
    - ART 370 Modern Art 4
    - ART 421 Life Drawing I 2
    - ART 426 Design and Composition III 2

**Minor in Art History**

- A minimum of 30 hours (6 upper division) including the following:
  - ART 105 History of Western Art 4
  - ART 107 American Art 3
  - ART 108 History of Far Eastern Art 3
  - ART 124-125 Design and Composition I-II 3-3
  - ART 267 History of Graphic Design 2
  - ART 277 History of Photography 3
  - ART 278 Women Artists 3
  - ART 370 Modern Art 4
  - ART 426 Design and Composition III 2
The Rasmussen Art Gallery

The Rasmussen Art Gallery, located in the heart of the campus mall, offers students and community a stimulating and enriching cultural dimension in the visual arts. The gallery’s exhibitions provide exposure to contemporary work as well as to historically significant art.

Fine Art

Lower-division courses:

ART 115
Stained-Glass Design
An introduction to stained-glass design, including copper foiling and leading techniques. One lecture and three hours laboratory weekly.

ART 121-122
Drawing Fundamentals I-II
A foundation course developing the student’s ability to communicate and express creative ideas using line, shape, value, and texture. One lecture and two hours laboratory weekly. Courses must be taken in sequence.

ART 124-125
Design and Composition I-II
The basic principles and elements of naturalistic and nonrepresentational design. Stresses creative use of line, color, shape, texture, and space. Courses must be taken in sequence.

ART 127
Three-Dimensional Design
The perceptual, spatial, and structural principles of well-ordered three-dimensional forms. Includes assignments introducing techniques of modeling and assemblage.

ART 131
Watercolor Painting
Fundamentals of watercolor in landscape, still-life, and nonrepresentational painting. Includes work both in studio and on location. One lecture and three hours laboratory weekly. Odd years.

ART 133
Encaustic Painting
Introduction to pigmented wax as a painting medium on wood, canvas and other supports. Emphasis on exploring and inventing techniques, including layering and collage. One lecture and three hours laboratory weekly. Odd years.

ART 141
Ceramics I
Introduction to materials and techniques in creating hand-built and wheel-thrown ceramic forms. One lecture and three hours laboratory weekly. Odd years.

ART 142
Ceramics II
Exploration of ceramics techniques and processes at the intermediate level. One lecture and three hours laboratory weekly. Odd years.

ART 144
Clay Sculpture
A basic study in creating sculptural forms in clay with additive and subtractive techniques. Figurative and abstracted subject matter. One lecture and three hours of laboratory weekly. Odd years.

ART 147
Three-Dimensional Design
The perceptual, spatial, and structural principles of well-ordered three-dimensional forms. Includes assignments introducing techniques of modeling and assemblage.

ART 151
Acrylic Painting
Introduction to painting with acrylics. Exploration of color and brush techniques through a variety of subjects and styles. One lecture and three hours of laboratory weekly. Even years.

ART 152
Oil Painting
Introduction to painting with oils. Transparent and opaque techniques are studied in rendering still-lifes and landscapes. One lecture and three hours laboratory weekly. Even years.

ART 226
Collage and Assemblage
The artistic use of papers, found objects, and other nontraditional media; historical examples and the creation of two- and three-dimensional projects. One lecture and three hours laboratory weekly. Odd years.

ART 235
Printmaking–Woodcuts and Etchings
An introduction to the creation of prints through the relief process of woodcuts and the intaglio process of etchings. One lecture and three hours laboratory weekly. Prerequisites: ART 121-122. Odd years.

ART 299
Associate Degree Project
An individual-project course required of all associate-degree art majors. Creation of a unified, accomplished body of work for exhibition in the Rasmussen Art Gallery or at another predetermined location on campus. Students completing more than one degree do a separate project for each degree earned. In Progress (“IP”) grading system.

Upper-division courses:

ART 314
Art for Children
(See also ECED 314.) A course that provides an understanding of children’s art, a knowledge of art materials, and teaching techniques applicable to their levels of learning. Designed to provide in the life of the child the thrill
of the visual and tactile uses of line, shape, value, color, and texture.

**ART 325**  
2 W  
**Printmaking—Silkscreen**  
The techniques of silkscreen printing including cut stencil and photostencil. One lecture and three hours laboratory weekly. Prerequisites: ART 121-122.

**ART 332**  
2 S  
**Monotype**  
A combination of painting and printmaking techniques by painting images on metal and plexiglass plates, then transferring them to paper with a hand-operated printing press. One lecture and three hours laboratory weekly. Prerequisites: two quarters of painting or ART 235. Odd years.

**ART 341**  
2 S  
**Ceramics III**  
Advanced study in creating ceramic forms, formulating glazes, and firing the kiln. One lecture and three hours laboratory weekly. Prerequisites: ART 141, 142. Even years.

**ART 346**  
2 S  
**Plaster and Stone Sculpture**  
Continued study in creating three-dimensional forms, using subtractive methods in stone and plaster. One lecture and three hours laboratory weekly. Prerequisite: ART 144. Odd years.

**ART 394**  
2 W  
**Professional Practices in Art**  
Focus is on issues that graduating art majors will face whether practicing in the field of art or applying to graduate programs. Each student compiles a portfolio of artworks. This team-taught course features guest speakers.

**ART 421**  
2 S  
**Life Drawing I**  
A course to improve visual skills and accurate portrayal while drawing the human figure. One lecture and two hours laboratory weekly. Prerequisites: ART 121-122.

**ART 422**  
2 W  
**Life Drawing II**  
Advanced study in drawing the human figure. Emphasis on anatomy, expression, and development of a personal rendering style. One lecture and two hours laboratory weekly. Prerequisite: Art 421. Odd years.

**ART 423**  
2 S  
**Portrait Drawing**  
Advanced drawing course in realistic rendering of the human head and features. One lecture and two hours laboratory weekly. Prerequisites: ART 121, 122. Even years.

**ART 426**  
2 S  
**Design and Composition III**  
Integration and application of basic design principles through a series of comprehensive projects. Prerequisites: ART 124-125.

**ART 427-428**  
2-2 A-W  
**Fourth Year Studio I-II**  
Development of personal artistic expression through extended, focused work in a selected medium. Intended for fine art majors in their senior year. Includes individualized discussion and evaluation by art faculty. Four hours laboratory weekly.

**ART 447**  
2 S  
**Metal Sculpture**  
The materials and techniques of welded metal to create sculptural forms, both representational and nonobjective. One lecture and three hours laboratory weekly. Prerequisite: ART 144. Even years.

**ART 461**  
2 S  
**Figure Painting**  
Advanced study of color and composition with the human figure as subject matter. Emphasis on communicating expression and vitality. One lecture and three hours laboratory weekly. Prerequisite: two quarters of painting or ART 421. Even years.

**ART 491**  
1-3 A, W, S  
**Cooperative Education in Art**  
An individualized contract agreement involving selected students, faculty, and employers to provide practical experience in art, art history, and graphic design in a professional setting. Approval of the department chair required in advance. Thirty clock hours of experience required for each hour of credit. May be repeated.

**ART 495**  
1-3 A, W, S  
**Independent Study**  
Available in any area where additional study is desired. Approval of department chair and major adviser is required. Maximum of three hours permitted in any one quarter, for a total of six in any major.

**ART 498**  
3 A, W, S  
**Honors Project**  
Required of baccalaureate degree art majors in the Honors Program in place of ART 499. (See ART 499 for course description.) In-Progress (“IP”) grading system.
ART 499 3 A, W, S
Baccalaureate Degree Project
An individual-project course required of all baccalaureate degree art majors. Students create a unified, original, and professional body of work for exhibition either in the Rasmussen Art Gallery or at another predetermined location on campus. Students completing more than one art degree do a separate degree project for each degree earned. In-Progress (“IP”) grading system.

Graphic Design

Lower-division courses:

ART 261 3 A
Graphic Design I
A basic overview of the design process from conceptualization and visualization to the preparation of advertising and collateral materials for print.

ART 262 3 A
Graphic Design II
A foundation course emphasizing conceptual problem-solving in the design of corporate identity and collateral materials. Prerequisites: ART 124-125, 261, 266.

ART 263 3 W
Typography I
Study of letter forms with emphasis on typesetting and preparation of copy for typesetting and design. Prerequisite: ART 261.

ART 266 3 W
Preprint Production I
Preprint production techniques applied to advertising and collateral materials. Emphasis on presentation and technical skills. Prerequisite: ART 261.

ART 268 3 W
Illustration I
To cultivate the process, resources, and skills needed to create fundamental illustrations in association with graphic design. Applied rendering and illustrations using Adobe Illustrator® to create illustrations and graphics for print and web media. Prerequisites: ART 121-122; Macintosh competency.

Upper-division courses:

ART 317 2 A
Design: Online
The process, resources, and skills needed to create a visual presence on the World Wide Web: personal home pages, Websites for clients, use of the Web as a delivery platform. Beyond development of a properly functioning site, the course emphasizes creation of visually attractive and coherent presentations. For general students and art majors. Prerequisite: CPTR 105 or GRPH 153 or computer competency (PC or Mac). Recommended prior courses: ART 124-125, 261.

ART 361 3 S
Graphic Design III
An advanced course in design and presentation as applied to advertising and collateral materials. Prerequisites: ART 262, 263, 266. Odd years.

ART 463 3 S
Typography II
Type styles, character, arrangement, and usage in the design of printed materials. Practical experience in preparation of type for print production. Prerequisites: ART 262, 263, 266; GRPH 253. Odd years.

ART 464 3 S
Preprint Production II
Explores the preparation of digital files and desktop design. For advanced graphic design majors who understand the basic elements of design, typography, and print and who have good Macintosh competency. Prerequisites: ART 262, 266; GRPH 253.

ART 466 3 S
Illustration III
Research on contemporary illustrators and exploration of several selected techniques or styles, followed by a concentration in one. Prerequisites: ART 268, 421. Even years.

ART 468 2 A
Design: Publication
An advanced course in digital preprint, layout and design techniques. For advanced graphic design majors who understand the basic elements of digital file preparation, layout and design. Prerequisites: ART 262, 363, 464; GRPH 253. Odd years.
Photography

Lower-division courses:

**ART 241-** 3 A, W
**ART 242** 3 W

**Photography I-II**
The basic equipment, experimental manipulations, and photographic skills involved in producing black and white negatives, contact prints, and enlargements; the proper use of various films, papers, and chemicals. Ninety minutes lecture and three hours laboratory weekly. Must be taken in sequence.

**ART 243** 3 S

**Color Photography I**
An introduction to color theory and practice; color toners, photo oils, slide developing, and color printing. Ninety minutes lecture and three hours laboratory weekly.

Upper-division courses:

**ART 441** 3 A

**Portrait Photography**
Development of fine art and commercial skills in black-and-white and color portraiture, including executive and group portraits, both in studio and outdoors. A 2 1/4 format camera is used. One and one-half hours lecture and three hours laboratory weekly. Prerequisite: ART 243.

**ART 443** 3 W

**Commercial Photography**
Use of 2 1/4 and 4 x 5 format cameras with studio lighting for product still life, architectural, and industrial applications. Ninety minutes lecture and three hours laboratory weekly. Prerequisite: ART 243.

**ART 444** 3 S

**Color Photography II**
Professionalism in color photography. Includes use of filters, business of photography, creating publishable photographs, transfers and cross processing. Teaching style is slide critiques. Prerequisite: ART 243.

**ART 446** 3 S

**Digital Photo Imaging**
Use of computer software tools and techniques to scan, alter and enhance photographs. Emphasis on artistic manipulation of digital images for graphic design and photographic applications. Prerequisites: GRPH 153 (or Macintosh competency), 352, and ART 241.

**ART 452** 3 A

**The Fine Print I**
An advanced photography printing course using large format camera. Refined printing using cold-light enlargers and archival treatments. Ninety minutes lecture and three hours laboratory weekly. Even years.

**ART 453** 3 W

**The Fine Print II**
Second stage of refined printing with large format negatives. Ninety minutes lecture and three hours laboratory weekly. Even years.

**ART 455** 3 W

**Architectural Photography**
Use of 2 1/4 and 4 x 5 cameras to record interior and exteriors of architectural subjects. Lighting techniques blend natural light and flash. Ninety minutes lecture and three hours laboratory/field work weekly. Odd years.

**ART 456** 3 A

**Special Effects Photography**
Advanced studio techniques producing varied special effects for studio and commercial applications. Ninety minutes lecture and three hours laboratory weekly. Prerequisite: ART 443. Odd years.

History of Art

Lower-division courses:

**ART 105** 4 A, S

**History of Western Art**
Designed to further appreciation of art as an expression of human experience. Major artists and monuments in Western Civilization from its origins to the present, with particular emphasis on the relationship between art and the epoch during which it was created.

**ART 107** 3 W

**American Art**
A study of architecture, graphic art, painting, photography, and sculpture in the United States from the colonial period to the present. Odd years.

**ART 108** 3 W

**History of Far Eastern Art**
An overview of art and architecture created in China, Japan, India, and Southeast Asia. Even years.

**ART 264** 2 A

**History of Graphic Design**
The history of graphic design and visual communications from the development of ancient writing of the Sumerians progressing through twentieth-century advances in graphic design: major trends, developments, influences, and directions. Students completing this course will be able to recognize, analyze, and understand important historical and worldwide cultural influences found in graphic design and visual communication. Even years.
**Art and Design**

**ART 277**  
**3 A**

**History of Photography**  
Analysis of theories and techniques of major photographers in America and Europe from the inception of photography to the present.

**ART 278**  
**3 W**

**Women Artists**  
Female artists in the Western World from the Renaissance to the present, with particular focus on the Nineteenth and Twentieth centuries. Even years.

**Upper-division courses:**

**ART 370**  
**4 S**

**Modern Art**  
The Avant-garde in European and American art from Manet to the present. Includes architecture, graphic art, painting, performance, photography, and sculpture. Prerequisite: Art 105.

Degrees and Programs
Behavioral Science, B.S. ....................................................... 55
Psychology, B.A., B.S. .......................................................... 56
Social Work, B.S.W.............................................................. 56

The Department of Behavioral Science offers three majors: Behavioral Science, Psychology, and Social Work. The goals of the department are as follows:
• To encourage purposeful living in the service of God and humanity by helping students understand and apply principles of human behavior in personal and professional relationships.
• To provide a general background for a wide range of careers that involve working with people, such as law, medicine, nursing, education, business, and the ministry.
• To prepare students at the baccalaureate level in the generalist framework for employment in the profession of social work.
• To prepare students adequately for graduate study in psychology and social work.

Major in Behavioral Science, B.S.
➤ A minimum of 60 hours in behavioral science (30 upper division) including the following core courses plus an emphasis of 16 hours from psychology or sociology:

- PSYC 499 Systematic Issues in Psychology 4

* PSYC 122 must be taken before the junior year.
** PSYC 394 is required each quarter of the sophomore and junior years.

Recommended Course:

- PSYC 457 Psychological Testing (4)

Required Cognate Courses:

- ANTH 124 Cultural Anthropology 4
- MATH 322 Statistical Methods 3
- SOCI 121 Introduction to Sociology 4

Bachelor of Social Work, B.S.W.

A minimum of 65 hours in social work (54 upper division)

The baccalaureate degree program in social work is fully accredited by the Council on Social Work Education. It is designed to prepare students at the baccalaureate level to enter the profession as generalist social work practitioners.

The objectives of the social work program support its mission and goals to train students as competent generalist social workers, ready for beginning professional practice in accord with the standards of the Council on Social Work Education. These objectives provide the standard by which the quality of education and professional competencies of students may be assessed. The major objectives include the following:

1. To prepare students for beginning generalist professional social work practice. This includes work with individuals, small groups, families, organizations, communities, and administrative and legislative systems.

2. To provide students with an appreciation for the relevance to today’s practice of the history and philosophy of the social work profession and an understanding of the current issues and social welfare policies that affect client systems and generalist practitioners.

3. To provide students a strong knowledge base, from an ecological perspective, of the bio-psycho-social, spiritual, and cultural factors that affect human behavior throughout life.

4. To prepare students with a working knowledge of quantitative and qualitative research methodologies at the micro and macro levels of practice, with emphasis on incorporating techniques for systematic evaluation of practice and awareness of technological advances.

5. To guide students in developing values, ethics, standards, and conduct vital to the social work profession and to provide supervised field practicum experiences that allow opportunity for continued growth and application of practice knowledge and skills.

6. To provide social work resources to the community (Napa and Sonoma Valleys, Lake County, the college environment, and the church at large) needing social services, consultation, and practice skills from social work faculty and students.

7. To provide students with a greater appreciation of human diversity, with special attention to the practice knowledge and skills related to the specific populations-at-risk in surrounding communities.

8. To provide students with an understanding of social and economic injustice, including oppression and discrimination, and the skills to promote social change effectively.

9. To prepare students for lifetime learning and critical thinking through an educational process that combines a liberal-arts foundation with professional social work education.

Students interested in social work as a profession should make an advisement appointment with the Social Work Program Director. The Social Work Student Handbook contains detailed information on the admissions process.

1. Complete the program admissions packet, including admissions application, personal statement, and reference letters.
2. Complete the personal admissions interview.

The Program Admissions Committee applies the following criteria in evaluating applications:

- Successful completion of required prerequisite courses
- Satisfactory academic record
- Effective oral-communication skills
- Effective written-communication skills
- Attitudes, behaviors, and ethics appropriate to the social work profession
The Admissions Committee notifies each candidate of the action taken on his or her application. To remain in the program, students must continue to meet the same academic, ethical, and behavioral standards. (The Social Work Student Handbook contains further information on criteria for admission to the program, continuance in it, and the appeal process.)

**Elective Courses (8 hours):**

Electives must be selected in consultation with the Social Work adviser.

**General Education Requirements:**

The same as for the B.S. degree except that the health requirement (VI-A) is fulfilled by the major.

**Recommended Course:**

Students who intend to seek employment in California are strongly urged to include Spanish as a second language. See especially SPAN 111-112 Beginning Spanish.

**Minor in Psychology**

- **A minimum of 30 hours in psychology (12 hours upper division) including the following:**
  - PSYC 121 General Psychology 4
  - PSYC 122 Psychology Seminar 3

**Minor in Sociology**

- **A minimum of 30 hours in sociology (17 hours upper division) including the following:**
  - SOCI 121 Introduction to Sociology 4
  - SOCI 232 American Social Problems 4

---

*SOWK 394 is required each quarter of the sophomore and junior years.*
Anthropology

Lower-division course:

**ANTH 124**  
*Cultural Anthropology*  
The nature and concept of culture, the learning and growth of culture, and the development of cultural patterns. Survey of economics, kinship, gender, political structures, languages, and religion in technologically simple and complex societies.

Psychology

(PSYC 121 is prerequisite to all other courses in Psychology except PSYC 126, 227 and 390.)

Service Course:  
*(May not apply to a major or minor in the department)*

**PSYC 234**  
Human Development  
Theory and research in developmental psychology, including an overview of the mental, emotional, physical, social, and moral development of the individual from conception to senescence.

Lower-division courses:

**PSYC 121**  
*General Psychology*  
Survey of the field of psychology: social processes, biological psychology, learning, development, motivation, stress, personality, psychopathology, and therapies.

**PSYC 122**  
*Psychology Seminar*  
An introductory seminar emphasizing the exploration and discussion of psychological issues. Topics include critical analysis of psychological research, professional and occupational roles, and religious, ethical, and social implications of psychological theory and data.

**PSYC 126**  
*Assertive Behavior*  
(See SOWK 126.)

**PSYC 130**  
*Introduction to the Psychology Major*  
Introduction to the basic skills needed for success in major courses and an overview of career and graduate school options. Includes PsychINFO, APA style, critical evaluation of research, research ethics, internet tools, and academic and professional options in psychology. Should be completed during the freshman or sophomore year.

Upper-division courses:

**PSYC 227**  
*Conflict Resolution and Relationship Skills*  
(See SOWK 227.)

**PSYC 322**  
*Research Design*  
(See also SOCI 322.)  
Methods of inquiry in the behavioral sciences from conception of idea to analysis of data. Includes the experiment, survey research, observational methods, and program evaluation. Requires a laboratory that introduces the student to the Statistical Package for the Social Sciences (SPSS). Prerequisite: MATH 222.

**PSYC 323**  
*Introduction to Experimental Psychology*  
Research design and procedures in the psychological laboratory. Requires a major research project and laboratory. Prerequisites: MATH 222, PSYC 322.

**PSYC 334**  
*Child Development*  
(See also ECED 334.)  
Theory and research in developmental psychology; their application in understanding and relating to children. Focus on learning, perception, and identification and on the development of intelligence, motivation, language, play, personality, self-concept, moral principles, and sex roles. Emphasis on interaction between innate development and environmental influences. Covers infancy through adolescence.

**PSYC 335**  
*Adolescent Development*  
Theory and research in adolescent development. Focuses on the unique tasks and conflicts of adolescence, the role and function of adolescence in modern society, and the social and psychological problems and opportunities associated with adolescence.

**PSYC 336**  
*Adult and Geriatric Development*  
(See also SOWK/SOCI 336.)  
A developmental exploration of early adulthood through the elder years. Focus on the main tasks, milestones, life events, problems, and fulfillments of this aging process. Emphasis on the impact of societal, cultural, racial, and ethnic influences.

**PSYC 344**  
*Psychology of Personality*  
Survey and analysis of major theoretical models of personality, personality classification systems, and empirical research.

**PSYC 358**  
*Abnormal Psychology*  
Overview of psychological disorders: description of symptoms, course of the disorder, etiology, and treatment. Includes survey of current biological and
behavioral research in psychopathology and behavioral disorders. Recommended prior course: PSYC 344.

**PSYC 359**

**Psychology of Exceptional Children**
(See also ECED 359, EDUC 359.)

The major variations in intellectual, sensory, and physiological functioning. The causes, psychological impact, and unique problems associated with mental retardation, giftedness, emotional disturbance, speech, visual and hearing problems, orthopedic handicap, and specific learning disability; the legal mandates making educational, equal access, and civil rights provisions for the exceptional person. Three lectures and one laboratory weekly (see PSYC 359L). Required for California Professional Clear teaching credential.

**PSYC 359L**

**Psychology of Exceptional Children Laboratory**
(See also ECED 359L, EDUC 359L.)

Required for California Professional Clear Teaching Credential. One laboratory to be taken concurrently with PSYC 359.

**PSYC 360**

**Psychopharmacology**

The drugs that affect behavior through action on the nervous system. Major psychoactive drug groups include antianxiety, antidepressant, antipsychotic, stimulant, and drugs of abuse. Related issues of drug distribution, administration, dosage, absorption and fate.

**PSYC 364**

**Social Psychology**
(See also SOCI 364.)

The psychological principles underlying group behavior and the effects of the group on individual behavior; attitude change, conformity, aggression, prejudice; and interpersonal attraction, altruism and attribution theory. Three lectures and one laboratory weekly.

**PSYC 368**

**Principles of Counseling**
(See also SOWK 368.)

This prepractice course offers an introduction to the work, ethical issues, and theories of counseling. Emphasis on beginning to develop basic helping relationship skills, evaluation of one’s personal strengths and weaknesses and establishing a beginning personal philosophy of counseling. Recommended prior course: PSYC 344 or 358; or permission of the instructor.

**PSYC 390**

**Gender Issues**
(See also SOWK 390.)

Historical, biological, sociological, cultural, and psychological impacts on gender issues, both male and female. Significant emphasis on the effects on the individual, family, workplace, community, and society. Breaking stereotypes and barriers.

**PSYC 394**

**Colloquium**
(See also SOWK 394.)

Topics of current interest in social work and psychology. Includes guest speakers, progress reports on student and faculty research, and presentations on current professional issues. Required of all sophomore and junior majors. Students register once (fall) for the entire year. In-Progress (“IP”) grading system.

**PSYC 399**

**Research Seminar**

For students completing a research project under supervision by a research mentor. Emphasis on revision and submission of an APA-style manuscript for professional presentation. In-Progress (“IP”) grading. Prerequisite: Approval of the instructor.
Behavioral Science

PSYC 490  4 W  
Issues in Religion, Ethics, and the Human Sciences

Explorations of tensions in belief, conduct, and identity that arise from being both a Christian and a person changed through contact with the human sciences. Special attention to issues for Christians entering professions in psychology and social work. Open to senior majors in the Behavioral Science department and to others by permission of the instructor.

PSYC 491  2-3 W, S  
Field Work in Psychology

Placement in a local human service agency (for 3-6 clock hours per week) and participation in a weekly seminar focusing on ethical and professional issues in psychology; case presentations. Prerequisites: Completion of a Field Work Application by the last Friday before Thanksgiving recess; completion of 60 quarter hours of college credit; a grade of C- or higher in PSYC 122, 130, and one of the following: PSYC 344, 358, or 368 (concurrent registration is acceptable); and permission of the instructor. With approval of the instructor, may be repeated spring quarter to a maximum of 6 credits.

PSYC 495  1-3 A, W, S  
Independent Study

Limited to department majors wishing to pursue independent investigations in psychology under the direction of the Behavioral Science faculty. Maximum of three hours applicable toward major.

PSYC 499  4 A  
Systematic Issues in Psychology

A review of the psychology major, including an in-depth analysis of the experimental foundations of general psychology; orientation to the graduate school application process and preparation for the psychology GRE. Limited to senior psychology majors.

Social Work

Lower-division courses:

SOWK 121  4 A, S  
Introduction to Social Work

Introduction to the profession of social work and social interventions. Fields of practice, practice methods, and the knowledge, values, ethics, and skills of the profession. Focus on social work and populations-at-risk and issues of human diversity. Open to all students interested in the profession of social work and social interventions. Requires community involvement.

SOWK 126  2 A  
Assertive Behavior

(See also PSYC 126.)

Emphasis on developing basic skills and confidence in clarifying one’s desires or needs and communicating them to others in socially acceptable and effective ways. Learning through role playing, discussion, and setting personal goals.

SOWK 214  4 S  
The Family

(See also SOCI 214.)

Exploration of the meaning and functions of family systems. The adjustments of premarriage, marriage, and family living viewed as a system, with focus on skills designed to establish and maintain the family institution.

SOWK 227  3 A, W  
Conflict Resolution and Relationship Skills

(See also PSYC 227.)

Skill development in self-understanding and in relating effectively with others. Provides tools for effective communication and conflict resolution. Applicable to personal, work, and social relationships.

SOWK 232  4 A, W  
American Social Problems

(See also SOCI 232.)

An introduction to major social problems in current American society. Causality, current dynamics, and projections on the future climate of social change related to crime, violence, population, environment, family issues, discrimination, social and economic justice, and health care.

SOWK 275  3 A  
History and Philosophy of Social Welfare Institutions

Based upon changing value systems and philosophies, the attempts of society and social welfare institutions to meet human needs. Examination from both historical and current perspectives. Prerequisites: SOWK 121, PLSC 124, HIST 101-102 or permission of the instructor.

Upper-division courses:

SOWK 336  4 S  
Adult and Geriatric Development

(See PSYC 336.)

SOWK 368  4 A, W  
Principles of Counseling

(See PSYC 368.)

SOWK 376  3 A  
Human Behavior in the Social Environment I

The bio-psycho-social factors that impact or influence behavior from infancy through young adulthood from the person-in-environment perspective. Focus on the assessment process in generalist practice, with special attention to cultural awareness and factors of human diversity. Emphasis on research relevant to social work practice. Prerequisites: SOWK 275, BIOL 102, PSYC 121.
**SOWK 377** 3 W  
**Human Behavior in the Social Environment II**  
The bio-psycho-social factors that influence behaviors of individuals from young adulthood through the elder years from the person-in-environment perspective. Focus on the assessment process in generalist practice, with special attention to cultural awareness and factors of human diversity. Emphasis on research relevant to social work practice. Prerequisite: SOWK 376.

**SOWK 382** 4 S  
**Practice Theory I**  
Emphasis on the generalist model of practice with focus on work with individuals. The micro level of intervention as it relates to client engagement, problem assessment, data collection, goals, strategies, action, and evaluation to help the client or client system resolve problems. Three lectures and one laboratory weekly. Prerequisites: SOWK 368, 376, 377 or permission of the instructor. Limited to B.S.W. majors.

**SOWK 383** 4 A  
**Practice Theory II**  
Emphasis on the generalist model of practice with small groups and family systems. The micro level of intervention as it relates to group goals, structure, dynamics and processes. Focus on development of basic group work skills and techniques in working with groups of various composition and age. Prerequisites: SOWK 368, 376, 377 or permission of the instructor. Enrollment limited to B.S.W. majors.

**SOWK 390** 3 A  
**Gender Issues**  
(See PSYC 390.)

**SOWK 394** 1 A, W, S  
**Colloquium**  
(See PSYC 394.)

**SOWK 465** 4 A  
**Practice Theory III**  
Basic knowledge at the macro level necessary for functioning effectively in generalist social work roles. Focus on problem-solving methods for desired change within generalist practice; organizations and communities as they promote, restore, maintain, and enhance social functioning. Emphasis on community organization with diverse populations and on research techniques. Prerequisite: SOWK 382 and 383 or permission of the instructor. Enrollment limited to B.S.W. majors.

**SOWK 468** 4 W  
**Social Welfare Policy and Contemporary Social Issues**  
Emphasis on the philosophical and historical development of welfare policy. Analysis and formulation of policy. Contemporary social issues in relationship to policy and its effects upon the people for whom it is intended. The role of the generalist social worker in this process. Prerequisite: SOWK 275, ECON 261 or permission of the instructor.

**SOWK 470** 3 W  
**Introduction to Field Experience**  
Provides five hours of practicum per week in community agencies. One seminar session per week to facilitate the transition from theory to practice. Prerequisite: SOWK 382, 383, 465. Enrollment limited to B.S.W. majors with full acceptance into the Social Work Program.

**SOWK 471** 14 S  
**Field Experience**  
A block placement of 420 clock hours in a social agency with emphasis on integration and active use of content from all areas of the curriculum. Includes agency-based research project. Prerequisite: SOWK 470. Limited to senior B.S.W. majors.

**SOWK 475** 2 S  
**Integrative Field Seminar**  
A seminar experience designed to provide opportunity for practicum students to exchange learning from their field settings. Emphasis on continuing integration of theory and practice issues. Taken concurrently with SOWK 471.

**SOWK 495** 1-3 A, W, S  
**Independent Study**  
Limited to advanced students wishing to do independent research on a specific topic of current social work interest and its implication for integrative practice.

**Sociology**

**Lower-division courses:**

**SOCI 121** 4 A, S  
**Introduction to Sociology**  
The relationship of sociology to the total behavioral science field; orientation to the structure and functioning of society; development and social nature of personality; background and development of culture; basic social institutions.

**SOCI 214** 4 S  
**The Family**  
(See SOWK 214.)

**SOCI 232** 4 A, W  
**American Social Problems**  
(See SOWK 232.)
Upper-division courses:

**SOCl 322** 4 W
Research Design
(See PSYC 322.)

**SOCl 336** 4 S
Adult and Geriatric Development
(See PSYC 336.)

**SOCl 355** 3 W
"Racial" and Ethnic Relations
History of ethnic groups in the United States. Ethnic groups studied include African Americans, Jewish Americans, American Indians, Asian Americans, Latin Americans, and European Americans. The nature of prejudice and discrimination, especially as evidenced in contemporary American racial problems; possible solutions of group conflict.

**SOCl 364** 4 A
Social Psychology
(See PSYC 364.)

**SOCl 435** 3 A
The Sacred and Profane in Society
Examination of the social-religious nature of humankind; description and use of concepts in the sociological study of religion; consideration of mainstream and marginal religious organizations and movements. Two hours may apply toward the general-education requirement in religion. Even years.

**SOCl 495** 1-3 A, W, S
Independent Study
Limited to advanced students wishing to do independent research under direction of the Behavioral Science faculty.
Faculty
Terrence Trivett, chair; Earl Aagaard, John Duncan, Gilbert Muth, Bryan Ness, Robin Vance
Departmental Office: 121 Clark Hall; 965-6635, 965-6633

Degrees and Programs
- Biology, B.S. ................................................................. 63
- Biology, B.A. ................................................................. 64
- Premedical Technology Option, B.S. ....................... 64
- Natural Science, B.S. ....................................................... 64
- Teaching Credential ..................................................... 65
- Medical Technology, B.S.M.T. ........................................ 68

Biology majors seek to understand the complexity of the living world through observation and experiment. By offering course work and laboratory experience concerning microorganisms, plants, animals (including humans), and the interrelationships among these living things, the Department of Biology encourages the student to consider the study of life an exciting and continuing challenge, whether at the level of molecules, cells, organisms, populations, or ecosystems.

The biology major prepares students for careers in the practice or teaching of the life sciences, for graduate study, or for entering professional schools in dentistry, medicine, law, and veterinary medicine.

On-campus studies may be enriched by field experiences at the Albion Field Station on the Mendocino Coast.

Major in Biology, B.S.
- A minimum of 60 hours (30 upper division) including the following:
- Required Core Courses:
  - BIOL 111-112-113 Biological Foundations 5-5-5
  - BIOL 222 Introduction to Research Methods 2
  - BIOL 320 Cellular and Molecular Biology 4
  - BIOL 333 Principles of Ecology 4
  - BIOL 348 Systems Physiology 5
  - BIOL 354 Genetics 4
  - BIOL 396 Seminar (4 quarters) 2
  - BIOL 450 Philosophy of Origins 3

  - Electives: At least 21 hours from the following: 21
    - BIOL 321 Ornithology (3)
    - BIOL 323 Vertebrate Natural History (3)
    - BIOL 325 Flowering Plants (3)
    - BIOL 331 Marine Science (4)
    - BIOL 345 Environmental Science (3)
    - BIOL 412 Research in Biology (1-3)
    - BIOL 419 Developmental Biology (3)
    - BIOL 422 Advanced Human Anatomy (4)
    - BIOL 426 Histology (5)
    - BIOL 430 Neurobiology (4)
    - BIOL 445 Biotechnology (3)
    - BIOL 469 Immunology (4)
    - MICR 366 Medical Microbiology (5)

- Required Cognate Courses:
  - CHEM 111-112-113 General Chemistry 5-5-5
  - CHEM 371-372-373 Organic Chemistry 4-4-4
  - PHYS 111-112-113 General Physics 4-4-4

- Recommended Cognate Courses:
  - CHEM 381 Biochemistry I (4)
  - MATH 131 Calculus I (4)

- Premedical and predental students:
  - The B.S. degree curriculum exceeds all undergraduate science requirements for premedical and predental students.
Biology

Major in Biology, B.A.
➤ A minimum of 48 hours (24 upper division)
Core and cognate requirements are the same as those for the B.S. degree. Electives in the major: 9 hours in biology from those listed above for the B.S. degree. BIOL 412 is not applicable toward the B.A. degree.

Premedical Technology Option for Biology Major, B.S.
The following electives must be added to the core and cognate requirements of the biology major for eligibility to apply to a clinical program in Medical Technology (12 months) that is State of California and Registry approved:

BIOL 330 Introduction to Hematology 1
BIOL 469 Immunology 4
CHEM 324 Analytical Chemistry I 3
CHEM 324L Analytical Chemistry I Laboratory 2
CHEM 381 Biochemistry 4
MICR 366 Medical Microbiology 5
One of the following:
MATH 106 College Algebra (4)
MATH 130 Precalculus (4)
MATH 131 Calculus (4)

For further academic or career information, please consult the Medical Technology adviser.

Major in Natural Science, B.S.
This major satisfies the preconditions for science program subject-matter approval by the California Commission on Teacher Credentialing. The core requirement of 64 quarter hours of course work corresponds to science subjects commonly taught in California public schools, and the concentrations available treat the subject matter at a depth more than adequate for teaching the higher secondary science courses in biology, chemistry, and physics.

➤ Required Core Courses:
ASTR 115 Astronomy 5
ASTR 173 Meteorology 1
BIOL 111-112-113 Biological Foundations 5-5-5
BIOL 331 Marine Science 4
BIOL 345 Environmental Science 3
BIOL 450 Philosophy of Origins 3
CHEM 111-112-113 General Chemistry 5-5-5
GEOL 233 Geology 4
HIST 390 History and Philosophy of Science 3
PHYS 111-112-113 General Physics 4-4-4
(or PHYS 131-132-133*)

➤ Emphases (choose one):
1. Biology Emphasis (35-36 hours)
BIOL 320 Cellular and Molecular Biology 4
BIOL 333 Principles of Ecology 4
BIOL 348 Systems Physiology 5
(or BIOL 102 Human Physiology (5))
BIOL 354 Genetics 4
BIOL 396 Seminar (4 quarters) 2
MICR 134 General Microbiology 5
One of the following courses:
BIOL 321 Ornithology (3)
BIOL 323 Vertebrate Natural History (3)
BIOL 325 Flowering Plants (3)

Required Cognate Courses:
CHEM 102 Survey of Organic Chemistry (4)
CHEM 103 Survey of Biochemistry (4)
2. Chemistry Emphasis (33 hours)
CHEM 324 Analytical Chemistry 3
CHEM 324L Analytical Chemistry Laboratory 2
CHEM 351 Physical Chemistry for Life Sciences 3
(or CHEM 451 Physical Chemistry)
CHEM 371-372-373 Organic Chemistry 4-4-4
CHEM 373L Advanced Organic Chemistry Laboratory 1
CHEM 381 Biochemistry 4

Required Cognate Course:
MATH 131-132 Calculus 4-4
3. Physics Emphasis* (35 hours)
ELEC 141 Applied Electronics 3
MATH 131-132-133 Calculus 4-4-4
PHYS 234 Elementary Modern Physics 4
One of the following courses:
ENGR 217 Engineering Electronics 4
PHYS 256 Applied Optics 4

Additional hours (at least 12 upper division) selected from physics courses that carry credit toward a major in physics and from the following two courses:

*Students electing the physics emphasis must take PHYS 131-2-3.
Teaching Credential

Students desiring to enter a program of studies leading to a California teaching credential in science with a concentration in biology should take the B.S. degree in Natural Science. This program meets the newly established standards of quality and effectiveness and has been approved by the State of California Commission on Teacher Credentialing. A brochure describing the new program and its requirements is available in the Biology department office. Students are invited to discuss the program with the Teacher Education Adviser in the Biology department.

Those who plan to teach on the secondary level should consult with the Credential Analyst in the Department of Education and should become acquainted with the specific requirements for admission to and successful completion of the Teacher Education Program as outlined in the Education section of this catalog.

Minor in Biology

A minimum of 30 hours (12 upper division) including the following:

- BIOL 111-112-113 Biological Foundations 5-5-5
- BIOL 345 Environmental Science 3
- BIOL 450 Philosophy of Origins 3

Summer Field Study

The following course is offered on demand during the summer:

- BIOL 331 Marine Science 4
BIOL 227  4 S  
**Natural History of California**  
The plants and animals of California as they relate to its diverse topography and geography. Three lectures and one laboratory weekly.

BIOL 355  3 A  
**Philosophy of Biology**  
Current theories regarding the origin, age, and change of the earth and its life. Methods of interpreting Scripture, theories of origin and age-dating of the earth and its layers, biological problems of evolution, geological history, glaciation, and fossil hominids. Special reference to the bearing of scientific data on evolutionist and creationist philosophies. Two credits applicable toward the general-education requirement in religion.

MICR 134  5 A, S  
**General Microbiology**  
An introduction to microorganisms—the bacteria, viruses, and fungi; the usefulness of microorganisms in nature and manufacturing; pathogenesis and immunity. Consideration of each major infectious disease with respect to its causative agent, characteristics, diagnosis, transmission, and prevention. Four lectures and one laboratory weekly.

**Lower-division courses:**

BIOL 111-112-113  5-5-5 A-W-S  
**Biological Foundations**  
An integrated foundation in life science principles for biology majors and preprofessional students in the biomedical sciences. Prerequisite to most biology courses with higher numbers. Should be taken in sequence. Four lectures and one laboratory weekly.

BIOL 110: The cell as the structural and functional unit of life; organelles and their functions; structure and function of essential biomolecules; and an introduction to molecular genetics.

BIOL 112: Mendelian genetics, biodiversity, ecology, and evolution.

BIOL 113: The form and function of plants and animals.

BIOL 222  2 W  
**Introduction to Research Methods**  
The tools of biological research, including the choice of a model system, statistical tests, data recording and analysis, interpretation and presentation of experimental results, and the writing of research proposals. One lecture and one laboratory weekly. Prerequisites: BIOL 111-112-113 and MATH 222.

Upper-division courses:

BIOL 320  4 W  
**Cellular and Molecular Biology**  
Composition, structure, and function of the cell and its organelles; emphasis on intracellular and intercellular communication and control principles. Prerequisites: BIOL 111-112-113; CHEM 371.

BIOL 321  3 A  
**Ornithology**  
Field and laboratory studies of the avifauna of the Pacific States in particular, with general attention to the distribution of birds in North America as a whole. Two lectures and one laboratory weekly. Prerequisite: BIOL 113 or BIOL 227. Odd years.

BIOL 323  3 W  
**Vertebrate Natural History**  
A comprehensive look at the natural history of the vertebrates, including their relationship to the physical environment and to other species and their social and reproductive patterns. Laboratory surveys vertebrate groups, especially their northern California representatives. Two lectures and one laboratory weekly. Prerequisite: BIOL 113 or BIOL 227.

BIOL 325  3 S  
**Flowering Plants**  
Structure of typical flowers; methods of analyzing, collecting, identifying, and preserving representative specimens. Two lectures and one laboratory weekly. Prerequisite: BIOL 113 or BIOL 227.

BIOL 330  1 W  
**Introduction to Hematology**  
Morphology and physiology of the cells of the bone marrow and peripheral blood. Hematopoiesis. Survey of anemias and leukemias. One lecture or one laboratory weekly. Offered on demand for Medical Technology majors accepted for the clinical year.

BIOL 331  4 A  
**Marine Science**  
Introduction to oceanography, marine life, and humanity’s impact on the marine environment. Lecture, laboratory, and project. Prerequisites: BIOL 111-112-113 or consent of the instructor.

BIOL 333  4 A  
**Principles of Ecology**  
The interaction of physical and biological factors in maintaining balance within the ecosystem. Survey of world biomes and aquatic ecosystems. Laboratories examine and compare biotic communities and their structure on Howell Mountain. Three lectures and one laboratory weekly. Prerequisite: BIOL 111-112-113.

BIOL 345  3 A, W, S  
**Environmental Science**  
The relationship of human beings to their environment, including such current issues as food and population, air and water quality, energy, land use, housing, transportation, waste disposal, and community health.
BIOL 348  5 A  Systems Physiology
Functions of the nervous, muscular, endocrine, cardiovascular, respiratory, renal, and reproductive systems with emphasis on regulatory mechanisms and integration. Examines processes used by animals in adjusting to their external environment and controlling their internal environment. Laboratories involve firsthand analysis of selected aspects of the major functional systems. Four lectures and one laboratory weekly. Prerequisites: BIOL 111-112-113.

BIOL 354  4 S  Genetics
The genetics of bacteria, plants, and animals. Chromosome mapping, population and evolutionary genetics, prokaryotic and eukaryotic genetic control, and molecular genetics. Emphasis on the study of modern molecular genetic techniques and concepts. Three lectures and one laboratory weekly. Prerequisites: BIOL 111-112-113, 222, 320.

BIOL 395  1-3 A, W, S, Su  Special Topics in Biology
Additional laboratory or library studies correlated with biology courses.

BIOL 396  .5 A, W, S  Seminar
(See also CHEM 396, PHYS 396)
Single topics of current interest in mathematics and natural science are presented by guest lecturers. The course is graded S/F. To pass, a student must be on time and attend five course appointments. Biology majors are required to enroll in the course two out of three quarters in each of their junior and senior years. Credit earned only during the junior and senior years counts toward the Seminar requirement for a degree in biology.

BIOL 412  1-3 A, W, S  Research in Biology
Original investigation in selected areas of biology. The research topic is selected and the work done under direction of a faculty adviser. Scholarly presentation of research results is encouraged. May be repeated for up to 6 hours applied to the Biology major. Prerequisites: BIOL 111-112-113, 222 and approval of the Biology faculty.

BIOL 419  3 S  Developmental Biology

BIOL 422  4 S  Advanced Human Anatomy
An intensive study of the structure of the human body. The laboratory requires extensive cadaver dissection. Two lectures and two laboratories weekly. Limited to eight students. Prerequisite: BIOL 101 with a grade of B or better.

BIOL 426  5 W  Histology
Microscopic structure of the fundamental tissues and organs of humans and other mammals with functional correlations. Three lectures and two laboratories weekly. Prerequisite: BIOL 320.

BIOL 430  4 W  Neurobiology
The neural basis of behavior with emphasis on the human nervous system. Includes cellular approaches to neural function, neuroanatomy, development of neurons and circuits, and neuroendocrine mechanisms. Three lectures and one laboratory weekly. Prerequisite: BIOL 348.

BIOL 445  3 A  Biotechnology
Advanced molecular genetics techniques, including isolation of DNA, cloning, PC and DNA sequencing. Ethics and politics of genetic testing, cloning, gene therapy, stem cell research, and transgenic organisms. Two lectures and one laboratory weekly. Prerequisite: BIOL 354.

BIOL 450  3 W  Philosophy of Origins
Historical and current issues relating to creation and evolution models of origins. Data and interpretations from anthropology, geology, biology, and radiometric dating with their philosophical, theological, and scientific implications and interactions. Prerequisite: BIOL 111-112-113.

BIOL 469  4 A  Immunology
The lymphoid system and its response to foreign substances by humoral or cellular mechanisms that may protect or injure the host. Immunogens, immunoglobulins, complement, antigen-antibody reactions, phagocytosis, inflammation, immediate and delayed allergy, autoimmunity, and the immunology of transplantation, cancer and tolerance. Three lectures and one laboratory weekly. Prerequisite: BIOL 111-112-113.

BIOL 495  1-3 A, W, S, Su  Independent Study
Properly qualified students in biology whose scholarship is of outstanding quality may undertake a limited amount of individual investigation. Maximum of three hours permitted in any quarter, or six hours total.
Microbiology

Upper-division course:

MICR 366 5 S
Medical Microbiology
The major groups of bacteria, viruses, and fungi that are pathogens or normal flora of humans. Laboratory work emphasizes the culture, characterization, and identification of unknown bacteria of medical importance. Three lectures and two laboratories weekly. Prerequisite: BIOL 111-112-113 or MICR 134.

Bachelor of Science in Medical Technology, B.S.M.T.

To include the following:

Preclinical:
BIOL 111 Biological Foundations 5
BIOL 112 Biological Foundations 5
BIOL 113 Biological Foundations 5
BIOL 320 Cellular and Molecular Biology 4
(or BIOL 354 Genetics (4))
BIOL 330 Introduction to Hematology 1
BIOL 348 Systems Physiology 5
(or BIOL 102 Human Physiology)
BIOL 469 Immunology 4
MICR 366 Medical Microbiology 5
CHEM 111-112-113 General Chemistry 5-5-5
CHEM 324 Analytical Chemistry I 3
CHEM 324L Analytical Chemistry I Laboratory 2
CHEM 371-372,373 Organic Chemistry 4-4-4
CHEM 381 Biochemistry I 4
PHYS 111-112-113 General Physics 4-4-4

One of the following mathematics courses:
MATH 106 College Algebra (4)
MATH 130 Precalculus (4)
MATH 131 Calculus (4)

General education courses as required for other B.S. degrees, except for Skills for Daily Living and Health.

Clinical (Florida Hospital):
MTCH 402 Blood Collection 1
MTCH 404 Hematology 8
MTCH 406 Immunology and Serology 3
MTCH 408 Bacteriology 8
MTCH 410 Immunohematology 8

MTCH 412 Clinical Chemistry 10
MTCH 414 Urinalysis and Clinical Microscopy 3
MTCH 416 Parasitology 3
MTCH 418 Mycology 2
MTCH 420 Coagulation 2
MTCH 422 Administration, Management, and Computer Applications in the Clinical Laboratory 1
MTCH 424 Principles of Education 1
MTCH 426 Project 2

General Information
The medical technology major includes three years of preclinical education at Pacific Union College and twelve months of education in the clinical laboratory. The clinical curriculum is offered by the School of Medical Technology at Florida Hospital (Orlando, FL). The preclinical education includes a variety of courses and experiences to fulfill the basic objectives of a liberal arts education and to provide a scientific foundation for the clinical year.

The clinical curriculum is a blend of theory and practice. The principles of this science learned from lectures and extensive reading assignments are reinforced by actual bench experience with human material. Each student spends forty hours each week in this learning environment.

Licensure
Pacific Union College confers a Bachelor of Science in Medical Technology (B.S.M.T.) degree upon a student who successfully completes all program requirements, including the clinical year. This degree makes the student eligible to take the national licensure examination given by the Registry of Medical Technologists of the American Society of Clinical Pathologists and the state licensure examination given by the State of California Department of Health. The degree is conferred regardless of performance on the licensure examination.
Clinical Curriculum

Florida Hospital (1 year–12 months)

MTCH 402
Blood Collection
1
Techniques of capillary and venous blood collection and proper specimen handling.

MTCH 404
Hematology
8
The structure, function, and formation of blood cells in health and disease. Performance and significance of routine and special tests for blood and bone marrow. Pathogenesis of hematologic disease such as anemia and leukemia.

MTCH 406
Immunology and Serology
3
Normal immune response to infection and the hypersensitivity or deficiency seen in disease. Antigen-antibody reactions, and the performance, interpretation, and clinical significance of in-vitro tests that monitor immune functions.

MTCH 408
Bacteriology
8
The bacteria encountered in the clinical laboratory—both normal flora and common and unusual pathogens. Isolation and identification of bacteria, including rapid methods. Culture, antibiotic sensitivity, staining, sterilization, and disinfection. Introduction to viruses, including their isolation and identification by serological and other techniques.

MTCH 410
Immunohematology
8
Blood group antigens and antibodies and their significance in disease and to transfusion therapy. Antigen and antibody detection. Transfusion compatibility testing. Preparation and administration of component fractions from whole blood. Donor selection and screening. HLA typing for transplantation.

MTCH 412
Clinical Chemistry
10
Theory, methodology, and clinical significance of the most common procedures for the nitrogenous substances, enzymes, carbohydrates, lipids, electrolytes and acid-base balance, renal function, liver function, pancreatic function, endocrine function, porphyrins and hemoglobin, toxicology, body fluids such as the CSF, urine and amniotic fluid, and tumor markers. Sample collection and processing; operation/maintenance/calibration of specific instrumentation; and quality control. Principles and evaluation of new procedures.

MTCH 414
Urinalysis and Clinical Microscopy
3
Composition and physiology of the body fluids. Examination of these fluids by macroscopic, microscopic and chemical means, and the significance of the findings to disease processes.

MTCH 416
Parasitology
3
The host-parasite relationship between humans and the animals living in and on them. Life cycles, modes of transmission, and treatment of the infection. Techniques for concentrating, staining, and identifying the common human parasites.
MTCH 418 2
Mycology
The fungi pathogenic to humans, with emphasis on their isolation and identification by cultural characteristics, microscopic morphology, and special tests. Lectures supplemented by Kodachromes and case studies.

MTCH 420 2
Coagulation
Mechanisms of hemostasis and thrombosis and their relation to health and disease. Tests and assays to aid in diagnosing and treating patients.

MTCH 422 1
Administration, Management, and Computer Applications in the Clinical Laboratory
Managing the clinical laboratory for effective delivery of service to physicians and their patients. Topics include problem solving, motivation, communication, leadership styles, interviewing and employee selection, standards and appraisal of laboratory performance, staffing and scheduling, and quality control. Special emphasis on laboratory accreditation, licensure, and regulations. Special projects explore the principles of laboratory finance. Computer use and applications, including systems analysis/design/acquisition and hands-on instruction.

MTCH 424 1
Principles of Education
Introduction to teaching methods, including the preparation, administration, and grading of a quiz with evaluation of the results. Taught as a one-day workshop with lectures and projects.

MTCH 426 3
Project
Research into both the theoretical and clinical aspects of a laboratory procedure. A documented, written report is presented orally to laboratory personnel as part of a series of continuing education topics.
The Department of Business Administration and Economics offers several programs for students majoring in business. As part of a Seventh-day Adventist college, the Department intends not only to prepare students successfully to meet the everyday challenges of a career in business, but also to prepare its graduates to give effective Christian influence in their communities. To meet these goals, the Department offers several programs of study:

The B.B.A. (Bachelor of Business Administration) is a professional degree designed for the student who intends to enter the job market upon completing the four-year program or to be well prepared for graduate studies. This program offers the following emphases: Accounting, Finance, General Business, Information Systems, International Business, Management, and Marketing.

The B.S. (Bachelor of Science) in Business Administration is designed for those who plan to enter a postgraduate or graduate program, specifically, in medicine, law, dentistry, or business. Since most graduates of such professional programs will ultimately have their own business, this degree is for them particularly useful.

The B.A. (Bachelor of Arts) program in Business Administration is a traditional curriculum for those interested in taking a program that includes study of a foreign language. This major affords more flexibility than do the B.B.A. and the B.S.

The Department also offers a two-year A.S. (Associate of Science) degree in Office Administration. The A.S. curriculum is structured so that a student may continue to complete the four-year B.B.A. program in Business Administration with emphasis in Administrative Services.

The preparation offered in the four-year programs (B.B.A., B.S., and B.A.) differs considerably. The first two years of the college program are similar enough, however, that in the process of choosing a field for concentration students have ample time to explore a variety of professions in consultation with departmental faculty and others. Many opportunities and avenues for service are thus available to students majoring in business.

Degree-Completion Program

Pacific Union College also offers an off-campus degree-completion program leading to the Bachelor of Science in Management. See the Center for Continuing and Professional Education (CAPE) section of this catalog.
Bachelor of Business Administration, B.B.A.

- A minimum of 104 hours (45 upper division–35 for Administrative Services and 27 for Fashion Marketing) in the core and emphasis:

  - **Required Core Courses** (64 hours):
    ACCT 121 Principles of Accounting I 3
    ACCT 122 Principles of Accounting II 4
    ACCT 123 Principles of Accounting III 3
    ACCT 391 Accounting Systems in Small Businesses 2
    BUAD 279 Business Communication/Data Presentation 3
    BUAD 325 Business Law I 3
    BUAD 326 Business Law II 3
    BUAD 490 Seminar in Business 1
    ECON 261 Principles of Economics–Macroeconomics 4
    ECON 265 Principles of Economics–Microeconomics 4
    FIN 341 Finance 5
    MGMT 361 Management 4
    MGMT 465 Organizational Behavior 3
    MGMT 491 Strategic Management 3
    MKTG 351 Marketing 4
    MATH 106 College Algebra 4
    (or Math 131 Calculus I)
    MATH 222 Introduction to Statistics 4
    MATH 322 Statistical Methods 3
    OFAD 111 Personal/Beginning Keyboarding 0-2
    (This requirement may be met by completion of a course or satisfactory performance on a departmental waiver examination. The waiver option is available only to students with fewer than 75 credit hours and to transfer students if taken within their first year at PUC.)

  - A minimum of 4 hours from the following: 4
    INFS 144 PC Operating Systems (1)
    INFS 148 PC Spreadsheets (1)
    INFS 149 PC Databases (1)
    OFAD 301 Word Processing (2 hours maximum)

  - **Recommended supporting courses**:
    BUAD 118 Personal Money Management (3)
    BUAD 223 Personal Law (2)
    OFAD 116 Calculating Machines (1)

  - **Emphases** (choose one):
    1. **Accounting Emphasis** (40 hours)
      ACCT 307 Government & Nonprofit Accounting 3
      ACCT 311-312-313 Intermediate Accounting 3-3-3
      ACCT 321 Cost Accounting I 3
      ACCT 322 Cost Accounting II 3
      ACCT 341 Taxation for Individuals 4
      ACCT 461 Accounting Theory 4
      A minimum of 7 hours from the following: 7*
      ACCT 343 Taxation for Corporations/Partnerships (4)
      ACCT 345 Estate Planning, Gifts & Trust Taxation (3)
      ACCT 451 Advanced Accounting (3)
      ACCT 453 Auditing (5)
      Additional hours (3 upper division) selected from ACCT, BUAD, ECON, FIN, INFS, MGMT, and MKTG courses to total at least 104 hours in the major (core courses and emphasis).*

    2. **Finance Emphasis** (40 hours)
      ACCT 311- Intermediate Accounting 3-3-3
      FIN 380 Capital Markets and Financial Institutions 3
      FIN 444 Investments 3
      FIN 463 Financial Planning and Forecasting 3
      FIN 488 Problems in Finance 3
      MGMT 466 Business and Society 3
      A minimum of 12 hours from the following: 12*
      BUAD 335 Real Estate (4)
      BUAD 371 Insurance and Risk Management (3)
      ECON 371 Money and Banking (3)
      ECON 457 International Economics (3)
      FIN 319 Personal Financial Planning (3)
      FIN 436 Real Estate Finance (3)
      FIN 457 International Finance (3)
      Additional hours (3 upper division) from ACCT, BUAD, ECON, FIN, INFS, MGMT, and MKTG courses to total at least 104 hours in the major (core courses and emphasis).*

    3. **General Business Emphasis** (40 hours)
      MGMT 466 Business and Society 3
      BUAD 434 Entrepreneurship 3
      INFS 377 Electronic Commerce 3
      A minimum of 22 hours (9 upper division) with a minimum of 6 hours in at least three of the following areas:
      ACCT, BUAD, ECON, FIN, INFS, MGMT, and MKTG. 28
      A minimum of 9 hours from the following: 9
      ACCT 311-312 Intermediate Accounting (3-3-3)
      -313
      ACCT 321 Cost Accounting I (3)
      ACCT 322 Cost Accounting II (3)
      OFAD 111 Personal/Beginning Keyboarding 0-2
      (This requirement may be met by completion of a course or satisfactory performance on a departmental waiver examination. The waiver option is available only to students with fewer than 75 credit hours and to transfer students if taken within their first year at PUC.)

* Note: Courses used to fulfill requirements in these sections may not also fulfill requirements in another emphasis or business program.

Competence at the intermediate level in a language other than English.

This requirement may be met by one of the following options:

1. One-year sequence in college intermediate language course.
2. Study for a minimum of one quarter in a college abroad where classes are conducted in a foreign language. Successful completion of at least 12 quarter units with a grade equal to or higher than C.
3. Passing a competency test in a foreign language.
4. Graduation from a high school in a non-English-speaking country in which classes were conducted in the language of that country.

Additional hours (6 upper division) selected from ACCT, BUAD, ECON, FIN, INFS, MGMT, and MKTG courses to total at least 104 hours in the major (core courses and emphasis).*
## 7. Marketing Emphasis (40 hours)

- **MKTG 360** Consumer Behavior 3
- **MKTG 371** Marketing Research 3
- **MKTG 374** Advertising 3
- **MKTG 481** Marketing Problems 3
- **MGMT 466** Business and Society 3

A minimum of 9 hours from the following:

- **INF 380** Electronic Commerce 3
- **MKTG 372** Retailing Management (3)
- **MKTG 377** Sales Management (3)
- **MKTG 417** Services Marketing (3)
- **MKTG 458** International Marketing (3)

A minimum of 6 hours from the following:

- **ACCT 311-312-313** Intermediate Accounting (3-3-3)
- **ACCT 321** Cost Accounting I (3)
- **ACCT 322** Cost Accounting II (3)
- **ACCT 341** Taxation for Individuals (4)
- **ACCT 343** Taxation for Corporations/Partnerships (3)
- **ACCT 345** Estate Planning, Gifts and Trust Taxation (3)

Additional hours (4 upper division) from ACCT, BUAD, ECON, FIN, INF, MGMT, and MKTG courses to total at least 104 hours in the major (core courses and emphasis).

➤ **General-Education Requirements:** The general-education requirements for the B.B.A. are the same as for the B.S. degree except for the changes described in this paragraph. II-B (Philosophy) is not required. In III, take III-A (Great Books) and choose either III-B (Visual Arts) or III-C (Music). The introductory science requirements in life science, chemistry, and physics (IV-A-2, 3, 4) may be satisfied by one secondary school year-long course in life science and one secondary school year-long course in either chemistry or physics. IV-B (Scientific Inquiry) is not required. All B.B.A. students take IV-C (a 4-hour laboratory science course). IV-D (Science, Technology, and Culture) is satisfied by the major.

### Major in Business Administration, B.A.

➤ **A minimum of 67 hours (24 upper division) including the following:**

<table>
<thead>
<tr>

* Note: Courses used to fulfill requirements in these sections may not also fulfill requirements in another emphasis or business program.
MGMT 361  Management                4
MGMT 465  Organizational Behavior     3
MGMT 491  Strategic Management        3
MKTG 351  Marketing                    4
MATH 131**  Calculus**                 4
MATH 222  Introduction to Statistics   4
MATH 322  Statistical Methods          3
OFAD 111  Personal/Beginning Keyboarding 0-2

(This requirement may be met by completion of course or satisfactory performance on departmental waiver examination. The waiver option is available only to students with fewer than 75 credit hours or to transfer students if taken within their first year at PUC.)

A minimum of one course from the following:            3-4
BUAD 335  Real Estate (4)
BUAD 434  Entrepreneurship (3)
FIN 419  Personal Financial Planning (3)
FIN 444  Investments (3)
INFS 470  Management Science (4)
MGMT 457  International Management (3)
MKTG 417  Services Marketing (3)
MKTG 458  International Marketing (4)

A minimum of 6 hours from the following:                6
ACCT 311-313  Intermediate Accounting (3-3-3)
ACCT 321  Cost Accounting I (3)
ACCT 322  Cost Accounting II (3)
ACCT 341  Taxation for Individuals (4)
ACCT 343  Taxation for Corporations/Partnerships (4)
ACCT 345  Estate Planning, Gifts and Trust Taxation (3)

A minimum of 4 hours from the following:                4
INFS 144  PC Operating Systems (1)
INFS 148  PC Spreadsheets (1)
INFS 149  PC Databases (1)
OFAD 301  Word Processing (2 hours maximum)

Additional hours selected from ACCT, BUAD, ECON, FIN, INFS, MGMT, and MKTG courses to total at least 74 hours in the major.

Recommended Supporting Courses:
BUAD 118  Personal Money Management (3)
BUAD 223  Personal Law (2)
OFAD 116  Calculating Machines (1)

Teaching Credential
Students interested in teaching business-related subjects at the secondary level should consult with their adviser in the Business department and with the Credential Analyst in the Education department. They may generally take any bachelor’s degree program in business and the specific education courses required. They will then need to pass the PRAXIS and SSAT competency examinations to obtain the secondary teaching credential.

Associate Degree in Office Administration, A.S.

A minimum of 90 quarter hours in the major, general-education, and electives, 56 hours in the major.

Required Courses (38 hours):
ACCT 114  Small Business Accounting  3
ACCT 121  Principles of Accounting I  3
ACCT 122  Principles of Accounting II  4
ACCT 123  Principles of Accounting III  3
BUAD 223  Personal Law  2
BUAD 279  Business Communication/Data Presentation  3
ECON 261  Principles of Economics–Macroeconomics  4
ECON 265  Principles of Economics–Microeconomics  4
ENGL 134  Review of English Syntax  1
GRPH 253  Publication Technology  3
INFS 144  PC Operating Systems  1
INFS 145  PC Database  1
INFS 148  PC Spreadsheets  1
MATH 096  Intermediate Algebra  4
MGMT 160  Small Business Management  3
MGMT 261  Introduction to Management  3
MGMT 328  Management Information Systems  3
OFAD 116  Calculating Machines  1
OFAD 121  Intermediate Keyboarding  2
OFAD 201  Word Processing - Microsoft  2
OFAD 203  Word Processing - Word Perfect  2

Courses selected from OFAD, ACCT, BUAD, ECON, FIN, INFS, MGMT, MKTG, and OFAD to total at least 56 hours in the major.

**Note: Students completing six additional hours from the following may substitute MATH 106 College Algebra for MATH 131 Calculus:
ENGL 405  Advanced Expository Writing (3)
COMM 327  Argumentation (3)
PLSC 444  Constitutional Development of England (3)
SOCI 232  American Social Problems (4)
PSYC 368  Principles of Counseling (4)

Note: Students completing six additional hours from the following may substitute MATH 106 College Algebra for MATH 131 Calculus:
ENGL 405  Advanced Expository Writing (3)
COMM 327  Argumentation (3)
PLSC 444  Constitutional Development of England (3)
SOCI 232  American Social Problems (4)
PSYC 368  Principles of Counseling (4)
Accounting

Lower-division courses:

**ACCT 114** 3 W  
**Small Business Accounting**  
The accounting procedures and practices necessary for efficient and effective small business operation. Not applicable toward a baccalaureate major in the department. Credit may not be earned in both ACCT 114 and ACCT 391.

**ACCT 121** 3 A, W, S  
**Principles of Accounting I**  
Accounting practices and procedures needed in various types of ownership entities for financial reporting. Assumes no prior accounting knowledge. Credit may not be earned in both ACCT 111 and 121.

**ACCT 122** 4 W, S  
**Principles of Accounting II**  
A continuation of ACCT 121 with particular emphasis on the partnership and on the corporate form of organization; income statement and balance sheet analysis. Three lectures and a three-hour computer laboratory weekly. Prerequisites: ACCT 111 or 121.

**ACCT 123** 3 S  
**Principles of Accounting III**  
Use of accounting data for managerial planning, control, and decision-making. Particular emphasis on entities which produce a product. Prerequisite: ACCT 111 or 121.

Upper-division courses:

**ACCT 307** 3 A  
**Government and Nonprofit Accounting**  
Accounting principles and practices unique to state and local units, educational, health care, charity, religious, and other not-for-profit organizations. Financial reporting and record keeping. Prerequisite: ACCT 121 or 122. Even years.

**ACCT 311-312-313** 3-3-3 A-W-S  
**Intermediate Accounting**  
Accounting theory and practice relating to the valuation and presentation of assets, liabilities, net worth, revenue, and expense accounts. Prerequisites: ACCT 121, 122.

**ACCT 321** 3 A  
**Cost Accounting I**  
Analysis of accounting cost data for management planning, control, and decision-making. Cost behavior concepts, variable and relevant costing, inventory planning and control, budgeting, performance measurement and evaluation, transfer pricing, capital budgeting, and quality control. Prerequisites: ACCT 121, 122, 123; MATH 222, 322.

**ACCT 322** 3 W  
**Cost Accounting II**  
Theories and practices of cost accumulation and analysis for management planning and control. Job order and process costing, activity-based cost systems, indirect-cost allocation, standard costs, variance analysis, direct vs. full costing, joint and by-product, and quality issues. Prerequisite: ACCT 121, 122, 123.

**ACCT 341** 4 W  
**Taxation for Individuals**  
Federal income taxation and tax planning for individuals. Course is designed for nonmajors as well as for business majors and minors.

**ACCT 343** 4 S  
**Taxation for Corporations and Partnerships**  
Federal taxation and tax planning in relationship to corporations and partnerships. Even years.

**ACCT 345** 3 A  
**Estate Planning, Gifts and Trust Taxation**  
Federal taxation and tax planning for gifts, estates, and trusts. Odd years.

---

**Minor in Business Administration**

A minimum of 30 hours (9 upper division) from ACCT, BUAD, ECON, FIN, INFS, MGMT, and MKTG including the following:

- **ACCT 121** Principles of Accounting I 3
- **ACCT 122** Principles of Accounting II 4
- **ACCT 123** Principles of Accounting III 3
- **ECON 261** Principles of Economics–Macroeconomics 4
- **ECON 265** Principles of Economics–Microeconomics 4
ACCT 391  2 S  
Accounting Systems in Small Businesses
Setting up and maintaining accounting records for a variety of unincorporated businesses. Practice sets illustrate single-entry, double-entry, cash-basis, and hybrid cash-accrual-basis accounting systems; periodic financial statements, payroll, sales, and income-tax returns. Prerequisites: ACCT 121, 122.

ACCT 451  3 S  
Advanced Accounting
Specialized topics including partnerships, branches, consolidated statements, segment reporting. Recommended prior courses: ACCT 311-312.

ACCT 453  5 W  
Auditing
The internal independent auditor’s functions; pronouncements of the American Institute of Certified Public Accountants. Prerequisites: ACCT 311-312-313; MATH 222, 322.

ACCT 461  4 A  
Accounting Theory
Survey of contemporary financial accounting theory. Emphasis on both current literature and official pronouncements. Prerequisites: ACCT 311-312-313, 451.

ACCT 495  1-3 A, W, S  
Independent Study
A course designed for students qualified to undertake an advanced and independent project. (Advanced is to be understood as being beyond specific courses offered in the department.) The project must be approved by the chair of the department. Maximum of three hours.

BUSINESS ADMINISTRATION

LOWER-DIVISION COURSES:

BUAD 118  3 A, S  
Personal Money Management
Financial decisions facing individuals in society, including installment buying and borrowing, insurance, home ownership, saving, budgeting expenditures, investments, and trusts. Not available to business majors for business credit during the junior or senior year.

BUAD 223  2 A, S  
Personal Law
Topics include dealing with an attorney, the court systems, crimes, torts, minors and the law, consumer law, landlord/tenant relationships, the legal responsibilities of owning a motor vehicle, employment relationships, and planning an estate. Not available to business majors for business credit during the junior or senior year.

BUAD 279  3 W, S  
Business Communication and Data Presentation
Integrates preparation of charts, graphs, font selection, and computer presentation software with techniques of communicating in speech and writing. Emphasis on effective presentation of documents.

UPPER-DIVISION COURSES:

BUAD 325  3 A  
Business Law I
A study of the legal system, with emphasis on common-law contracts, sales under Article II of the Uniform Commercial Code, secured transactions, personal property, and bailments.

BUAD 326  3 W  
Business Law II
The legal system in the United States, emphasizing agency relationships, partnerships, corporations, commercial paper under Articles III and IV of the Uniform Commercial Code.

BUAD 335  4 A  
Real Estate
An introduction to the various aspects of real-estate principles, practices, and ownership. Preparation for the California licensing examination. Designed for the general student.

BUAD 371  3 A  
Insurance and Risk Management
Recognition and evaluation of property, liability, and personal insurable risks facing a business firm, family, or other economic unit. Basic tools of risk management, loss prevention; selecting and dealing with an insurer; fire, marine, casualty, liability, life, and health insurance. Odd years.

BUAD 434  3 S  
Entrepreneurship
A survey of what it takes to start and operate a business. Legal, managerial, accounting, marketing and financial aspects of getting a business up and running. Development of a business plan for startup. Prerequisites: ACCT 121, 122, 123; BUAD 326; ECON 261, 265; FIN 341; INFS 148; MATH 222, 322; MGMT 361; MKTG 351.

BUAD 490  1 A  
Seminar in Business
Preparing to meet the demands of the job market: résumé development, interviewing approaches, cover letters. Should be taken during the student’s last autumn quarter at PUC before graduation.
BUAD 491  0-2  
**Business Internship**
An individualized contract agreement involving student, faculty, and employer to provide practical experience in business in a professional off-campus setting. Limited to upper division majors in business. Prerequisite: Approval of the department chair. Graded S/F.

BUAD 493  1-3 A, W, S  
**Special Topics**
An enrichment course treating specific topics not normally covered in the department’s Accounting, Business Administration, Economics, Finance, Information Systems, Management, Marketing, and Office Administration courses. A specific title is given to the course when it is taught.

BUAD 495  1-3 A, W, S  
**Independent Study**
Designed for students who are qualified to undertake an advanced and independent project. (Advanced is understood as being beyond specific courses offered in the department.) The project must be approved by the chair of the department. Maximum of three hours.

**Economics**

**Lower-division courses:**

**ECON 265  4 W, S**  
**Principles of Economics—Microeconomics**
An economic analysis of the workings of the market system in the United States. The factors that determine prices, costs, elasticity, utility, demand, supply, and the factors of production (land, labor, capital) when monopoly and pure competition exist and when conditions between these two models of competition exist.

**Upper-division courses:**

**ECON 321  3 S**  
**Managerial Economics**
Uses of primarily microeconomic theory in managerial decision-making. Prerequisite: ECON 265. Odd years.

**ECON 322  3 S**  
**Government and Business**
Government policies, regulations, and legislation that attempt to maintain competition in the economy and that affect the decisions and the operations of business organizations. Even years.

**ECON 371  3 W**  
**Money and Banking**
Money and the way it affects and is affected by central and commercial banking. Emphasis on the monetary policy of the Federal Reserve System. Prerequisite: ECON 261. Odd years.

**Finance**

**Upper-division courses:**

**FIN 341  5 A**  
**Finance**
Financial policies of corporations in the management of assets, liabilities, and owners’ equity. Major topics include risk and return, time value of money, present value, capital budgeting, cost of capital, valuation, leverage, long-term financing, and working capital management. Prerequisites: ACCT 121, 122, 123; ECON 261, 265; INFS 148; MATH 222, 322.

**FIN 380  3 A**  
**Capital Markets and Financial Institutions**
Evolution, structure, role, regulation and deregulation of financial institutions in the U.S. economy. Prerequisites: ECON 261, 265; FIN 341. Even years.

**FIN 319  3 A**  
**Persona Financial Planning**
Introduction to personal financial planning and its role in the financial services industry. Emphasis on developing, implementing, and monitoring personal financial plans. Credit may not be earned in BUAD 118 after FIN 419 is taken. Prerequisites: ACCT 341 and FIN 341, or permission of the instructor. Odd years.
FIN 436 3 S
Real Estate Finance
Principles and methods of investing and financing in real estate. Sources of funds, qualifications of investors, property analysis, and settlement procedures. Prerequisites: BUAD 335, ECON 261 or permission of instructor. Even years.

FIN 444 3 W
Investments
Investment alternatives and the development of rational objectives and investment philosophies. Topics include risks, returns, evaluation concepts, technical approaches, portfolio development, the efficient market hypothesis, and decisions relating to different types of investments. Recommended prior courses: ECON 261, FIN 241 or 341. Even years.

FIN 457 3 S
International Finance
Financial management in the international environment. Includes coverage of the IMS, foreign exchange, futures and options markets, managing exposure, banking, direct foreign investment, political risk, import/export operations, and working capital management. Prerequisite: FIN 341 or permission of instructor. Odd years.

FIN 463 3 W
Financial Planning and Forecasting
Planning and forecasting in financial management for business, government, and nonprofit organizations. Construction, analysis, and interpretation of financial plans. Prerequisite: FIN 341 or permission of instructor. Even years.

FIN 488 3 S
Problems in Finance
Study and discussion of selected topics in finance through readings and case studies. Topics include working capital management, capital budgeting, financing decisions, dividend policy, cost of capital, and capital structure decisions. Prerequisite: FIN 341. Even years.

FIN 495 1-3 A, W, S
Independent Study
Designed for students qualified to undertake an advanced and independent project. (Advanced is understood as being beyond specific courses offered in the department.) The project must be approved by the chair of the department. Maximum of three hours.

Information Systems

LOWER-DIVISION COURSES:

INFS 128 3 S
COBOL
Data processing using COBOL and stressing business applications. A significant portion of the course involves programming projects illustrating ideas presented in the lectures. Odd years.

INFS 144 1 W, S
PC Operating Systems
An introduction to the operating systems for PCs using MS-DOS and Microsoft Windows. System commands, terminology, printer operation, basic network commands, and other routine computer work functions.

INFS 148 1 A, W
PC Spreadsheets
Class/laboratory instruction in Microsoft Excel software for microcomputers, combining an electronic spread-sheet with graphics and a database system. Installing, creating, and modifying worksheets, graphs and macros.

INFS 149 1 A, S
PC Databases
Class/laboratory instruction in Microsoft Access database management software for microcomputers. Topics include creating, maintaining, modifying and querying a database, and generating reports and labels.

UPPER-DIVISION COURSES:

INFS 377 3 A
Electronic Commerce

INFS 380 3 S
Database Analysis and Design

INFS 465 3 A
Fundamentals of Data Communication
Various methods of data communication: networking, telephony, communications hardware and software. Odd years.
INFS 470 4 A
Management Science
Formal modeling approaches in managerial decision-making. Topics include linear programming, integer programming, decision-making under uncertainty, utility theory, queuing theory, Markov processes, network diagrams, and inventory models. Prerequisites: MATH 106 or 131. Even years.

INFS 482 4 A
Systems Development Life Cycle
Concepts, skills, methodologies, techniques, tools, and perspectives essential for systems analysts to successfully develop information systems. Even years.

Management

LOWER-DIVISION COURSES:

MGMT 160 3 W
Small Business Management
Managerial considerations in owning and operating a small business. Not applicable toward a baccalaureate major or minor in the department.

MGMT 261 3 S
Introduction to Management
Introduction to management in profit and nonprofit institutions. Emphasis on the role of the manager. Not applicable toward a baccalaureate major or minor in the department.

UPPER-DIVISION COURSES:

MGMT 328 3 W
Management Information Systems
Basic concepts of using information systems in organizations; the role of data processing; fundamental design considerations. Odd years.

MGMT 361 4 W, S
Management
The basic concepts and theory of management with particular emphasis on planning, organizing, staffing, leading, and controlling.

MGMT 457 3 S
International Management
An analysis of problems encountered in operating businesses across national boundaries. Odd years.

MGMT 465 3 W
Organizational Behavior
Emphasis on the human aspects in organizations, including motivation, power, job enrichment, interpersonal and intergroup processes and relationships, perception, leadership, and organizational change and design.

MGMT 466 3 A
Business and Society
The environmental setting of business and its interdependence with other elements of the social order. An assessment of business involvement in urban, community, consumer, and environmental affairs.

MGMT 472 3 A
Human Resources Management
Contemporary objectives and problems relating to personnel management in organizations. Recruitment, selection, performance appraisal, training and development, supervision, compensation, pensions, grievances, and disciplinary actions. Odd years.

MGMT 473 3 A
Labor Law and Legislation
History and development of labor legislation, including analysis of leading court decisions. Historical background of labor-management relations, unfair labor practices of management and unions, collective bargaining, strikes and lockouts, the National Labor Relations Board, and labor legislation. Even years.

MGMT 481 3 W
Production Management
Optimal approaches to the production of goods and services. Planning, scheduling, plant layout, production standards, quality, and cost controls. Even years.

MGMT 486 3 A
Purchasing and Inventory Control
Practices, problems and approaches related to purchasing in profit and nonprofit institutions. Sources of supply, market information, product specifications, inspection, control records, legal aspects of purchasing, and the interrelationships among purchasing, prices, quality control, and inventory control. Even years.

MGMT 491 3 S
Strategic Management
A capstone course integrating various functional areas of business and applying this knowledge to a study of business and institutional problems primarily through the case method. Should be taken during the senior year. Prerequisites: ACCT 121, 122, 123; ECON 261, 265; FIN 341; INFS 148; MATH 222, 322; MGMT 361; MKTG 351.

MGMT 495 1-3 A, W, S
Independent Study
Designed for students qualified to undertake an advanced and independent project. (Advanced is understood as being beyond specific courses offered in the department.) Required: project approval by the department chair. Maximum of three hours.
Marketing

Upper-division courses:

**MKTG 351**  
*Marketing*  
Marketing institutions and marketing decisions in relationship to the achievement of institutional goals. Management issues relating to product, price, promotion, and distribution; effects of marketing decisions on the environment and of the environment on marketing decisions.

**MKTG 360**  
*Consumer Behavior*  
The application of research findings and concepts from such academic disciplines as psychology, anthropology, sociology, economics, and marketing to consumer buying behavior. Even years.

**MKTG 371**  
*Marketing Research*  
Introduction to basic research concepts and techniques useful for determining information needs, conducting research, and making appropriate reports of research findings. Prerequisites: MATH 106, 222, 322. Odd years.

**MKTG 372**  
*Retailing Management*  
The structure and environment in which retailing management occurs. Areas of special emphasis include operations of stores, merchandise decisions, layout, pricing, and promotion decisions. Even years.

**MKTG 374**  
*Advertising*  
The advertising function in profit and nonprofit enterprises from management's point of view. The purpose of advertising, media planning, budgeting for advertising, and an evaluation of the effectiveness of advertising.

**MKTG 377**  
*Sales Management*  
The role of the sales manager in planning, organizing, developing, directing, controlling, and evaluating the sales force. Personal selling is also emphasized. Odd years.

**MKTG 417**  
*Services Marketing*  
Application of marketing concepts and principles in service and nonprofit institutions. Identification and study of various constraints, clients, and publics; the special requirements, needs, and desires of those associated with and affected by the organization. Prerequisite: MKTG 351. Odd years.

**MKTG 458**  
*International Marketing*  
Problems and perspectives when marketing across national boundaries. Differences caused by cultural, social, institutional, political, and economic factors. Managerial emphasis on market entry strategies, monitoring and controlling marketing management functions in the international arena. Prerequisite: MKTG 351. Even years.

**MKTG 481**  
*Marketing Problems*  
Selected areas in marketing, illustrating practical solutions to situations likely to confront marketing managers. Emphasis on developing an understanding of marketing problems and developing approaches to effective decision-making in marketing. Should be taken during the senior year. Prerequisite: MKTG 351.

**MKTG 495**  
*Independent Study*  
Designed for students who are qualified to undertake an advanced and independent project. (Advanced is understood as being beyond specific courses offered in the department.) The project must be approved by the chair of the department. Maximum of three hours.

Office Administration

Lower-division courses:

**OFAD 111**  
*Personal/Beginning Keyboarding*  
For beginners and reviewers. For those with little or no keyboarding skill, covers touch-typing on the keyboard and document processing. For reviewers, emphasis on development of speed in both straight-copy and production work. Placement by waiver examination or first-week testing in class.

**OFAD 116**  
*Calculating Machines*  
Instruction and practice in improving speed and accuracy in the use of electronic display and printing calculators for business applications.

**OFAD 121**  
*Intermediate Keyboarding*  
Designed to develop and enhance the typewriting skills of speed, accuracy and proofreading for personal and vocational uses. Prerequisite: Keyboarding placement test with a speed of at least forty words per minute or OFAD 111. Offered on sufficient demand.
OFAD 201 2 A, S
Microsoft Word
Applications designed to increase knowledge of word processing concepts and working skills with the Microsoft Word software. One lecture and one three-hour laboratory weekly.

OFAD 203 2 W
Word Perfect
Applications designed to increase knowledge of word processing concepts and working skills with the Word Perfect software. One lecture and one three-hour laboratory weekly.

OFAD 495 1-3 A, W, S
Independent Study
Designed for students qualified to undertake an advanced and independent project. (Advanced is understood as being beyond specific courses offered.) Projects must be approved by the department chair. Maximum of three hours.
Faculty
William Hemmerlin, chair; Richard Clark, David Duran, Marie Pak, James Van Hise
Departmental Office: 355 Chan Shun Hall; 965-7597

Degrees and Programs
Chemistry, B.S. .................................................................... 83
Chemistry, B.A. ..................................................................... 84
Chemistry, with an Emphasis in Biochemistry, B.S. .............. 84
Natural Science, B.S. ............................................................ 84
Teaching Credential ............................................................. 85

The Department of Chemistry serves students who have an interest in chemical sciences and those planning careers in various medical areas. The department has the following objectives:

• To give a thorough grounding in the principles of chemistry, both in theory and in practical experience within instrumentation currently in use.
• To help the student develop problem-solving abilities through a careful analysis of problems and the application of chemical principles.
• To provide an atmosphere where Christian values are cherished and the use of the intellect is integrated into the learning experience.

The department offers several degree options. The B.S. with a major in chemistry should be selected by the student intending to enter chemistry as a profession. The chemistry major with an emphasis in biochemistry is appropriate for those who intend to enter a professional program in one of the medical sciences.

Students more interested in the liberal arts and languages may choose the B.A. program in chemistry. Those interested in a primary- or secondary-school teaching career may choose the B.S. with a major in natural science.

Major in Chemistry, B.S.

A minimum of 60 hours (40 upper division) including the following:

CHEM 351-352 Physical Chemistry for Life Sciences 3-3
CHEM 371-372-373 Organic Chemistry 4-4-4
CHEM 373L Advanced Organic Chemistry Lab 1
CHEM 381 Biochemistry I 4
CHEM 396 Seminar .5-.5-.5-.5
CHEM 482 Biochemistry II 4
CHEM 482L Biochemistry II Laboratory 1
1 hour from the following: 1
CHEM 325L, 344L, 451L

Additional hours may be selected from BIOL 320 and upper-division chemistry courses in consultation with the major adviser.

➤ Required Cognate Courses:
BIOL 111-112-113 Biological Foundations 5-5-5
BIOL 333 Principles of Ecology 4
BIOL 348 Animal Physiology (5)
BIOL 102 Human Physiology (5)
BIOL 354 Genetics 4
BIOL 396 Seminar (4 quarters) 2
MICR 134 General Microbiology 5

One of the following courses:
BIOL 321 Ornithology (3)
BIOL 323 Vertebrate Natural History (3)
BIOL 325 Flowering Plants (3)

Required Cognate Courses:
CHEM 102 Survey of Organic Chemistry (4)
CHEM 103 Survey of Biochemistry (4)

2. Chemistry Emphasis (33 hours)
CHEM 324 Analytical Chemistry 3
CHEM 324L Analytical Chemistry Laboratory 2

Major in Natural Science, B.S.

This major satisfies the preconditions for science program subject-matter approval by the California Commission on Teacher Credentialing. The core requirement of 64 quarter hours of course work corresponds to science subjects commonly taught in California public schools, and the concentrations available treat the subject matter at a depth more than adequate for teaching the higher secondary science courses in biology, chemistry, and physics.

➤ Required Core Courses:
ASTR 115 Astronomy 5
ASTR 173 Meterology 1
BIOL 111-112-113 Biological Foundations 5-5-5
BIOL 331 Marine Science 4
BIOL 345 Environmental Science 3
BIOL 450 Philosophy of Origins 3
CHEM 111-112-113 General Chemistry 5-5-5
GEOL 233 Geology 4
HIST 390 History and Philosophy of Science 3
PHYS 111-112-113 General Physics 4-4-4
PHYS 131-132-133* (or PHYS 131-132-133*)

➤ Emphases (choose one):

1. Biology Emphasis (35-36 hours)
BIOL 320 Cellular and Molecular Biology 4
BIOL 333 Principles of Ecology 4
BIOL 348 Animal Physiology (5)
(BIOL 102 Human Physiology (5))
BIOL 354 Genetics 4
BIOL 396 Seminar (4 quarters) 2
MICR 134 General Microbiology 5

Required Cognate Courses:
CHEM 102 Survey of Organic Chemistry (4)
CHEM 103 Survey of Biochemistry (4)

2. Chemistry Emphasis (33 hours)
CHEM 324 Analytical Chemistry 3
CHEM 324L Analytical Chemistry Laboratory 2

➤ Premedical and predental students: See adviser for recommended cognates.
CHEM 351  Physical Chemistry for Life Sciences  3
(or CHEM 451 Physical Chemistry (3))
CHEM 371-372-373  Organic Chemistry  4-4-4
CHEM 373L  Advanced Organic Chemistry Laboratory  1
CHEM 381  Biochemistry  4
CHEM 396  Seminar  .5-.5-.5-.5

Required Cognate Course:
MATH 131-132 Calculus  4-4

3. Physics Emphasis* (35 hours)
ELEC 141  Applied Electronics  3
MATH 131-132-133  Calculus  4-4-4
PHYS 234  Elementary Modern Physics  4
One of the following courses:
ENGR 217  Engineering Electronics  4
PHYS 256  Applied Optics  4
Additional hours (at least 12 upper division) selected from physics courses that carry credit toward a major in physics and from the following course:
CHEM 344  Nuclear Physics and Chemistry  3

Teaching Credential
Students desiring to enter a program of studies leading to a California teaching credential in science with a concentration in chemistry should take the B.S. degree in Natural Science. This program is approved by the State of California Commission on Teacher Credentialing. Students are invited to discuss the program with the Teacher Education Adviser in the Chemistry department.

Those who plan to teach on the secondary level should consult with the Credential Analyst in the Department of Education and should become acquainted with the specific requirements for admission to and successful completion of the Teacher Education Program as outlined in the Education section of this catalog.

Minor in Chemistry:
A minimum of 30 hours (15 upper division) including the following:
CHEM 111-112-113  General Chemistry  5-5-5
CHEM 324  Analytical Chemistry I  3
CHEM 324L  Analytical Chemistry I Laboratory  2

Service courses:
(May not be used for major or minor in this department)

CHEM 101 4 A
Introductory Chemistry
An elementary course designed to give an introduction to fundamental principles of general inorganic chemistry. Primarily for students preparing to enter an allied health or related field and/or to enroll in CHEM 102 and 111. Three lectures and one laboratory weekly. Prerequisite: Algebra I, MATH 019 or permission of the instructor.

CHEM 102 4 W
Survey of Organic Chemistry
A survey of the important classes of organic compounds. Emphasis is given to topics related to the health sciences and biochemistry. Intended for students not majoring in chemistry. Three lectures and one laboratory weekly. Prerequisite: Secondary-school chemistry or CHEM 101. Credit cannot be earned in both CHEM 102 and 371.

CHEM 103 4 S
Survey of Biochemistry
A survey of the chemistry of living organisms emphasizing the normal processes occurring in the human body. Three lectures and one laboratory weekly. Prerequisite: CHEM 102.

CHEM 105 4 W
Chemistry for the Consumer
An introduction to chemistry with practical applications; a course for students with no previous experience in physical science. Not applicable toward a major or minor in any life-science or physical-science curriculum.

* Students who elect the emphasis in physics must take PHYS 131-132-133.
Lower-division course:

**CHEM 111-112-113 5-5-5 A-W-S**
**General Chemistry**
A complete introduction to the fundamental principles of general inorganic chemistry. Includes the following topics: atomic and molecular orbital theory, stoichiometry, gas laws, thermodynamics, kinetics, chemical equilibrium, acid-base theory, pH and introductions to nuclear and organic chemistry. Intended for chemistry majors and preprofessional students in medicine, dentistry and other technical fields. Must be taken in sequence. Four lectures and one laboratory weekly. Prerequisites: Algebra II or MATH 106. A score of 19 on the mathematics section of the ACT (or 500 on the SAT) is expected. High school chemistry (or CHEM 101) and physics are highly recommended. A grade of C- or above is required for continuing in general chemistry each quarter.

Upper-division courses:

**CHEM 324 3 A**
**Analytical Chemistry I**
An introduction to the quantitative study of chemical reactions occurring in the aqueous phase, including solubility, acid base equilibria and complex formation. Methods of data recording and manipulation, error analysis and statistical treatment of data are also included. Prerequisite: CHEM 113.

**CHEM 324L 2 W**
**Analytical Chemistry I Laboratory**
A series of laboratory experiments to determine unknown quantities of selected chemical substances. The chemical principles in CHEM 324 are reiterated; course emphasis, however, is on laboratory technique. Six hours of laboratories weekly. Prerequisite: CHEM 324.

**CHEM 325 3 S**
**Analytical Chemistry II**
The theoretical basis of chemical analysis using electrochemical, spectrophotometric and chromatographic methods. Introduction to principles of operation of current analytical instrumentation. Concurrent enrollment in CHEM 325L strongly recommended. Prerequisites: CHEM 324L, 373, MATH 132 or permission of the instructor. Odd years.

**CHEM 325L 1 S**
**Analytical Chemistry II Laboratory**
A series of laboratory experiments coordinated with CHEM 325. Prerequisite or corequisite: CHEM 325. Odd years.

**CHEM 344 3 S**
**Nuclear Physics and Chemistry**
Properties of radioactive nuclei, nuclear structure, nuclear reactions, nuclear fission, interactions of radiations with matter and the Mossbauer effect with applications to chemistry and the cosmos. Prerequisites: MATH 131, PHYS 111-112-113. Concurrent enrollment in CHEM 344L strongly recommended. Even years.

**CHEM 344L 1 S**
**Nuclear Physics and Chemistry Laboratory**
A series of laboratory activities coordinated with CHEM 344. Even years.

**CHEM 351-352 3-3 A-W**
**Physical Chemistry for the Life Sciences**
The laws of thermodynamics, physical equilibria, and transport phenomena. Applications of Gibbs' free energy, chemical equilibria, and electrochemistry to biochemical systems; chemical and enzyme kinetics and mechanisms; quantum biochemistry. Prerequisites: CHEM 324, PHYS 113, MATH 132 or equivalent. Credit may not be earned in both CHEM 351-352 and CHEM 451-452.

**CHEM 371-372 4-4 A-W**
**Organic Chemistry**
An introduction to the physical and chemical properties of compounds of carbon. A mechanistic approach to the study of organic reactions with an emphasis on spectroscopic methods of analysis. Must be taken in sequence. Three lectures and one four-hour laboratory weekly. Prerequisite: CHEM 113.

**CHEM 373 4 S**
**Organic Chemistry**
A continuation of CHEM 372 and an introduction to biochemistry (carbohydrates, proteins, and lipids). Four lectures weekly. Concurrent enrollment in CHEM 373L required of all chemistry majors. Prerequisite: CHEM 372.

**CHEM 373L 1 S**
**Advanced Organic Chemistry Laboratory**
A series of lab activities coordinated with CHEM 373. Required of all chemistry majors.

**CHEM 381 4 A**
**Biochemistry I**
An introduction to the chemistry of biologically-relevant molecules. Includes attention to biological oxidations, energy relationships, and enzyme kinetics. Prerequisite: CHEM 373.

**CHEM 396 .5 A, W, S**
**Seminar** *(See BIOL 396)*
Single topics of current interest in mathematics and natural sciences are presented by guest lecturers. The course is graded S/F. To pass, a student must be on time and attend four of five course sessions. Prerequisite: CHEM 373. Enrollment limited to upper-division students.
CHEM 414 3 S
Inorganic Chemistry
A systematic study of inorganic chemistry with emphasis on chemical theory and bonding, the descriptive chemistry of the elements, and transition-metal chemistry. Three lectures weekly. Prerequisite: CHEM 372 and MATH 132. Even years.

CHEM 431 1 W
Recombinant DNA
Introduction to the principles and practices in use in creating recombinant DNA molecules, including screening DNA libraries and the insertion of genes into various types of cells. Prerequisite: CHEM 381.

CHEM 451-452 3-3 A-W
Physical Chemistry
An integrated approach to the statistical and quantum properties of matter with applications to chemical systems. Thermodynamics, kinetic theory of gases, colligative properties, electrochemistry, diffusion, molecular spectroscopy, and chemical kinetics. Prerequisites: CHEM 113, MATH 133, and PHYS 133 or 113. Credit available in either CHEM 351-352 or CHEM 451-452, but not both.

CHEM 451L 1 A
Physical Chemistry Laboratory
A series of laboratory activities coordinated with CHEM 451.

CHEM 453 3 S
Physical Chemistry
An introduction to the Schroedinger wave equation with applications to chemical systems. Prerequisite: CHEM 452. Odd years.

CHEM 470 3 S
Natural Products
A web-based course that reviews the historical “named reactions” of organic chemistry followed by strategic planning in approaching the synthesis of complex molecules focusing primarily on retrosynthetic analysis, stereochemical control, and modern synthetic methods. Prerequisite: CHEM 373.

CHEM 474 3 W
Organic Theory and Reaction Mechanisms
A mechanistic approach to the study of selected topics in organic chemistry, such as orbital symmetry, molecular rearrangements, linear free energy relationships, and photochemistry. Prerequisite: CHEM 373.

CHEM 482 4 S
Biochemistry II
The intermediary metabolism of carbohydrates, lipids and proteins, and an introduction to the replication and transmission of genetic information. Concurrent enrollment in CHEM 482L required of students taking the biochemistry emphasis. Prerequisite: CHEM 381.

CHEM 482L 1 S
Biochemistry II Laboratory
A series of laboratory activities coordinated with CHEM 482.

CHEM 491 0-2
Cooperative Education in Chemistry
An individualized contract agreement involving student, faculty, and employer to provide practical experience in chemistry in a professional off-campus setting. Normally limited to upper division majors in chemistry. Prerequisites: CHEM 373, 324L, and permission of the department chair. Graded S/F.

CHEM 499 1-2 A, W, S
Introduction to Research
A directed research project intended to acquaint students with research problems of current interest. A suitable problem is undertaken with the direction of the fac-
Communication

Faculty

Degrees and Programs
Communication, B.S. ........................................................... 89
Public Relations/Journalism, B.S. ......................................... 89
International Communication, B.A. ..................................... 90
Speech Pathology ................................................................. 91

The Department of Communication serves the communication needs of students in every department, offering instruction in a variety of communication skills and principles that apply in mass media, public speaking, small group, and interpersonal settings. The department also provides curricula leading to a variety of communication-related careers, with specific preparation for careers in public relations, journalism, international communication and speech pathology. The curriculum in communication is of value to those preparing for careers in business, law, medicine, pastoral or evangelistic ministry, broadcasting, and others.

Major in Communication, B.S.

- A minimum of 60 hours (30 upper division) including the following:
  - COMM 134 Media Communication Careers 3
  - COMM 223 Interpersonal Communication 3
  - COMM 225 Oral Interpretation 3
  - COMM 226 Public Speaking 3
  - COMM 327 Argumentation 3
  - COMM 328 Small Group Communication 3
  - COMM 329 Organizational Communication 3
  - COMM 330 Intercultural Communication 3
  - COMM 340 Visual Communication and Semiotics 3
  - COMM 423 Communication Theory 2
  - COMM 424 Communication Research I 2
  - COMM 425 Communication Research II 2
  - COMM 427 Persuasive Communication 3
  - COMM 450 Senior Seminar in Communication Disciplines 2
  - COMM 494 Communication Internship 3
  - JOUR 141 Newswriting and Reporting I 3
  - JOUR 244 Copyediting 2
  - JOUR 434 Media Law and Ethics 3
  - PREL 231 Public Relations: Introduction 3
  - PREL 337 Fund Raising 3

To complete the major, select five credit hours from courses designated COMM, PREL, or JOUR.

- Required Cognate Courses:
  - GRPH 253 Publication Technology 3
  - MDIA 158 Media Production Concepts 2

Major in Public Relations/Journalism, B.S.

- A minimum of 60 hours (30 upper division) including the following:
  - COMM 134 Media Communication Careers 3
  - COMM 223 Interpersonal Communication 3
  - COMM 226 Public Speaking 3
  - COMM 329 Organizational Communication 3
  - COMM 330 Intercultural Communication 3
**Major in International Communication, B.A.**

A minimum of 48 hours (24 upper division) including the following:

**Required Core Courses:**
- COMM 134 Media Communication Careers 3
- COMM 226 Public Speaking 3
- COMM 328 Small Group Communication 3
- COMM 330 Intercultural Communication 3
- COMM 450 Senior Seminar in Communication Disciplines 2
- JOUR 141 Newswriting and Reporting I 3
- PREL 231 Public Relations I: Introduction 3
- PREL 232 Public Relations II: Applications and Crises 3
- PREL 337 Public Relations III: Campaigns and Practices 3
- PREL 350 Media Uses and Applications 3
- PREL 494 PR Internship 3

(or JOUR 494 Journalism Internship)

**Required Cognate Courses:**
- GRPH 253 Publication Technology 3
- MDIA 158 Media Production Concepts 2

1. **French Emphasis**

(21 hours including 12 upper-division hours):

A minimum of 12 hours of advanced-level French (courses numbered 300 and above) at Séminaire Adventiste du Salève, Collonges, France.

**Required PUC Courses:**
- FREN 385 Business French 4
- FREN 441 Readings in 19th Century French Literature 4
  or FREN 442 Readings in 20th Century French Literature (4)
  or FREN 443 Contemporary Francophone Literature (4)

**Required Cognate Course:**
- FREN 367 French Culture and Civilization 4

2. **Spanish Emphasis**

(21 hours including 12 upper-division hours):

A minimum of 12 hours of advanced-level Spanish (courses numbered 300 and above) at Colegio Adventista de Sagunto, Spain; or at Universidad Adventista del Plata, Villa Libertador St. Martin, Argentina.

**Required PUC Courses:**
- SPAN 385 Business Spanish 4
- SPAN 441 or Readings in Latin-American Literature I 4
  or 442 or 443 or II or III

**Required Cognate Course:**
- SPAN 367 Spanish and Latin-American Culture and Civilization 4

3. **German Emphasis**

(21 hours including 12 upper-division hours):

A minimum of 21 hours of intermediate- and advanced-level German at Seminar Schloss Bogenhofen, Austria.

**Required Cognate Courses for International Communication Major:**
- ANTH 124** Cultural Anthropology 4
- CPTR 105** Introduction to Computers 3
  (or OFAD 301 Word Processing)

---

* Students whose dominant cultural heritage is Spanish or French and who can pass an advanced-level language examination offered by the Department of Modern Languages may, upon written approval of the faculty of the Department of Communication, elect not to spend one full academic year abroad. Such students must, however, (a) complete all Pacific Union College language and cognate requirements and (b) complete a total of 48 hours of coursework offered by the Department of Communication (23 required plus 25 elective credits). Students whose dominant cultural heritage is German and who can pass an intermediate level German examination offered by the Department of Modern Languages may, upon written approval of the faculty of the Department of Communication, elect to complete a minimum of one academic semester at Seminar Schloss Bogenhofen, Austria, and complete a minimum of 12 upper-division hours of German while there.

**Courses marked with a double asterisk also fulfill general-education requirements.**
Minor in Public Relations/Journalism

Speech Pathology

A preprofessional program in Speech Pathology is offered for those beginning their study of Speech Pathology at Pacific Union College. This program is affiliated with the School of Allied Health at Loma Linda University. The Speech Pathology faculty at LLU provide regular assistance and counseling to the PUC Communication department and to students interested in this program.

The first two years of a baccalaureate degree in Speech Pathology, taken on the Pacific Union College campus, include the following course:

- SPPA 164 Introduction to Speech Pathology 4

Approved courses in general education complete the preprofessional curriculum.
## Communication

**Service Course:**  
(May not be used for major or minor in this department)

**COMM 105**  
3 A, W, S, Su  
**Speech Communication**  
A general-education course that develops skill in oral communication, surveys the human communication process, and encourages responsible speaking and listening. Focuses on intrapersonal, interpersonal, small group, and public communication. Required in the freshman or sophomore year to fulfill the general-education requirement in Communication.

### Lower-Division Courses:

**COMM 134**  
3 A  
**Media Communication Careers**  
Survey of print and broadcast media in contemporary society: the roles of radio, television, newspapers, magazines, books, and emerging mass media technologies.

**COMM 223**  
3 A  
**Interpersonal Communication**  
Transactional nature of interpersonal communication, including the roles of both verbal and nonverbal communication, empathic listening, and self-disclosure as means of building trusting relationships and developing rhetorical sensitivities.

**COMM 225**  
3 A, W  
**Oral Interpretation**  
Development of skills in reading aloud from prose, poetry, plays, and expository material. Emphasis on developing the ability to create and sustain mood and on learning the various methods of creating meaning through vocal expression.

**COMM 226**  
3 A, W, S  
**Public Speaking**  
Instruction and skill development in composing speeches and delivering them before groups. Fulfills general-education requirement in communication for juniors and seniors. (Freshmen and sophomores take COMM 105.)

**COMM 229**  
3 A  
**Fundamentals of Dramatic Performance**  
(See DRMA 229.)

### Upper-Division Courses:

**COMM 327**  
3 A  
**Argumentation**  
Logical reasoning, fallacies in reasoning, the structure of arguments, and methods of analyzing and evaluating arguments. Examination of classical and contemporary models; application in preparing persuasive messages, advertising strategies, and public speeches.

**COMM 328**  
3 S  
**Small Group Communication**  
Effective use of communication in small groups; analysis of the nature of group productivity, cohesiveness, and organization; experience in group discussion and problem-solving.

**COMM 329**  
3 A  
**Organizational Communication**  
Study of and practice in communication in the work setting, emphasizing leadership, decision-making, conflict resolution, and the management of behavior in human organizations. Focuses on communication problems and variables unique to the organizational environment, and reviewing traditional and current theories.

**COMM 330**  
3 S  
**Intercultural Communication**  
Variables and effects of both verbal and nonverbal communication between cultures. Practical applications for careers in education, mission service, international business, social work, and foreign relations.

**COMM 340**  
3 S  
**Visual Communication and Semiotics**  
Examination of the visual, symbolic, classificatory, and meaning-making practices at the heart of all cultural production, consumption, and communication.

**COMM 423**  
2 A  
**Communication Theory**  
Conceptual foundation for studying the human communication process. Includes types of theories and models used in communication research. Explores variables relevant to human communication behavior. Applies theory to the scientific method in communication research.

**COMM 424**  
2 W  
**Communication Research I**  
Development of skills in planning communication research and designing research instruments. Includes overview of current research topics, procedures, and findings.

**COMM 425**  
2 S  
**Communication Research II**  
Implementing a communication research plan. Survey techniques, content analysis, tabulation procedures, and reporting of findings. Prerequisite: COMM 424.

**COMM 427**  
3 S  
**Persuasive Communication**  
Rhetorical principles of ethical persuasion in public speaking, interpersonal relationships, public relations, and advertising. Development of skills in logical
argument, emotive influence, and psychological appeal and in achieving source credibility.

COMM 450 2 W
Senior Seminar in Communication Disciplines
Capstone course emphasizing professional skills, ethics, creation of portfolio, and career planning.

COMM 480 3 Su
Classroom Communication
Effective teacher-student interaction in both verbal and nonverbal areas. Communication research findings applied to such topics as student motivation, self-concept, sequencing of instruction, small group processes, classroom environments, and parent/student conferences.

COMM 490 1-3 A, W, S, Su
Issues in Communication
(See also JOUR 490, PREL 490.) Specific issues in various areas of communication research. Such areas may include, though are not limited to, rhetoric and public address, small group communication, interpersonal communication, intercultural communication, organizational communication, journalism, and public relations.

COMM 492 1-3 A, W, S, Su
Practicum in Communication
Supervised experience in speech, drama, or broadcasting. Thirty clock hours of experience required for each hour of credit. Advance approval of the department required. May be repeated to a maximum of 3 hours. In-Progress ("IP") grading system.

COMM 494 3 A, W, S, Su
Communication Internship
Supervised work experience in a communication-related environment. Skills in the practice of communication are used.

Enrollment limited to department majors. Advance approval of the department required. May not be taken before the end of the sophomore year. Prerequisites: COMM 134, 226; JOUR 141; PREL 231.

COMM 495 1-3 A, W, S, Su
Independent Study
Opportunity for the advanced student to investigate special interests under the direction of departmental faculty.

JOUR 256 2 W
Publications: Design Techniques
Practice in designing and preparing camera-ready materials for newspapers, magazines, brochures, and posters. Two sessions weekly. Prerequisite: GRPH 253.

Upper-division courses:

JOUR 346 4
Creative Writing
(See ENGL 346.)

JOUR 405 3
Advanced Expository Writing
(See ENGL 405.)

JOUR 434 3 A
Media Law and Ethics
Current issues involving personal rights and corporate responsibilities as related to concepts of free speech and responsible journalism.

JOUR 443 3 A
Investigative Reporting and Writing
Tools, techniques, and skills for conducting ethical journalistic investigations. Emphasis on using public records and “the paper trail” to document complex issues. Prerequisite: JOUR 141, 244.

JOUR 490 1-3 A, W, S, Su
Issues in Communication
(See COMM 490.)

JOUR 492 1-3 A, W, S, Su
Practicum in Journalism
Supervised experience under the direction of a journalism professional, usually involving work on a specific project. Approval of the department required in advance. May be repeated to a total of three hours. Thirty clock hours of experience required for each hour of credit. In-Progress ("IP") grading system.

JOUR 494 3 A, W, S, Su
Communication Internship
Supervised work experience in a communication-related environment. Skills in the practice of communication are used.
Communication

JOUR 494 3 A, W, S, Su
Journalism Internship
Supervised experience in journalism. The student accrues direct experience in a professional journalistic setting as approved by the department. Enrollment restricted to department majors. Prerequisites: JOUR 141, 244; PREL 231, 232.

JOUR 495 1-3 A, W, S, Su
Independent Study
Offers the advanced student opportunity to pursue investigation in fields of special interest under the direction of departmental faculty.

Public Relations

Lower-division courses:

PREL 231 3 W
Public Relations I: Introduction
Fundamental values and procedures of the public-relations profession. Research techniques, communication theory, public relations management, writing, and media relations.

PREL 232 3 S
Public Relations II: Applications and Crises
Applications of public relations to specific publics including employees, multicultural communities, consumers, and government. Management of public relations in crises; exploiting PR opportunities created by crisis situations. Prerequisites: PREL 231.

PREL 337 3 W
Fund-Raising
Philosophy of philanthropic giving and the techniques that lead to successful fund-raising, particularly as applied to the Seventh-day Adventist denomination. Fund-raising executives are guest lecturers for the course.

PREL 339 3 A
Public Relations III: Campaigns and Practices
The media of public relations and their incorporation into a public-relations plan. The elements, development, and structuring of a public-relations plan. Prerequisite: PREL 232.

PREL 350 3 S
Media Uses and Applications
Principles of and practice in journalistic writing for the electronic and printed media. Exploration of principles guiding appropriate media selection and usage. Consideration given to media scheduling, marketing analysis, and demographic research. Prerequisites: JOUR 141, 244; PREL 231, 232; or permission of the instructor.

PREL 490 1-3 A, W, S, Su
Issues in Communication
(See COMM 490.)

PREL 492 1-3 A, W, S, Su
Practicum in Public Relations
Supervised experience under the direction of a public-relations professional, usually involving work on a specific project. Approval of the department required in advance. May be repeated to a total of three hours. Thirty clock hours of experience required for each hour of credit. In-Progress (“IP”) grading system.

Speech Pathology and Audiology

Lower-division courses:

SPPA 164 4 A
Introduction to Speech Pathology
Introduction to the major types of speech disorders and their etiology and treatment. A survey course for majors in speech pathology and audiology and for those entering professions in education, behavioral science, social welfare, and related fields who may encounter persons with speech disorders.

SPPA 250 3 S
Speech and Language of Young Children
(See also ECED 250.)
Degrees and Programs

Computer Science, B.S. ...................................................... 95
Computer Science, B.A. .................................................... 96

Computer science is the study of solving problems with
the aid of computers. It deals with the design of algorithms (i.e.,
effective procedures) for the solution of problems, with the struc-
tures of languages for the efficient expression of these algorithms,
and with computer systems, both hardware and software, for
implementing these languages.

Two degree options are offered. Students whose main interest
is the discipline of computer science, perhaps leading to graduate
study, choose the B.S. in Computer Science. This degree is also
appropriate for those wanting careers in systems or application
programming. The B.A. in Computer Science prepares students
for careers applying computers to other fields of interest. The
department also offers a minor in computer science.

The curriculum is modeled on the guidelines of the Association
for Computing Machinery.

Major in Computer Science, B.S.

- A minimum of 60 hours (36 upper division) including the following:

*See footnote, next page.
The B.S. program described above is designed to prepare the student for graduate study in computer science or for a career in scientific computation or software development.

**Major in Computer Science, B.A.**

- A minimum of 45 hours (22 upper division) including the following:
  - CPTR 131-132 Computer Science 4-4
  - CPTR 224 Assembler 3
  - CPTR 236 Microprocessor Systems 3
  - CPTR 326 Computer Languages 4
  - CPTR 346 Data Structures and Algorithms 4
  - CPTR 396 Seminar (2 quarters) .5-.5
  - CPTR 447 Operating Systems 3
  - MATH 355 Discrete Methods 4

The remaining hours may be selected from the following:

Other CPTR or INFS courses
  - MATH 265 Elementary Linear Algebra (4)
  - MATH 331 Probability and Statistical Theory I (3)
  - MATH 351-352 Introduction to Abstract Algebra I-II (3-3)
  - MATH 354 Number Theory (3)
  - MATH 375 Numerical Analysis (4)

No more than eighteen hours from the MATH selections may apply.

- **Required Cognate Courses:**
  - ENGR 117 Electronics 4
  - MATH 131 Calculus I 4
  - OFAD 111 Personal/Beginning Keyboarding* 0-2

- **Recommended Cognate Courses:**
  - MATH 132-133 Calculus II-III (4-4)
  - PHYS 111-112-113 General Physics (4-4-4)

French or German is recommended for meeting the language requirement.

This program permits an emphasis in the computer-science field and is designed to prepare one to be a knowledgeable user of computers in business or other applications.

An alternative for a business major is to include a minor in computer science. For continuing with graduate studies, or for a greater emphasis in computer science, a student should choose one of the B.S. options.

**Minor in Computer Science**

- A minimum of 30 hours (15 upper division) including the following:
  - CPTR 131-132 Computer Science 4-4

The remaining hours may be selected from the following:

Other CPTR or INFS courses
  - MATH 265 Elementary Linear Algebra (4)
  - MATH 275 Logic and Sets (4)
  - MATH 331 Probability and Statistical Theory I (3)
  - MATH 351-352 Introduction to Abstract Algebra I-II (3-3)
  - MATH 355 Discrete Methods (4)
  - MATH 375 Numerical Analysis (4)

A maximum of nine hours from the MATH selections may apply.

- **Required Cognate Courses:**
  - OFAD 111 Personal/Beginning Keyboarding* 0-2

- **Recommended Cognate Courses:**
  - ENGR 117 Electronics (4)
  - MATH 131 Calculus (4)

*This requirement may be met by completion of a course or satisfactory performance on a departmental waiver examination. The waiver option is available only to students with fewer than 75 credit hours and to transfer students if taken during their first quarter at PUC.*
**Computer Science**

**Service Course:**
(May not be used for major or minor in this department)

**CPTR 105 3 A, S**
Introduction to Computers
An introductory course for the liberal arts student explaining computers and their history and use. Includes a survey of and practice with simple applications typically used with microcomputers, such as word processing, spreadsheets, and business graphics. No prerequisites; but a knowledge of mathematics equivalent to high-school algebra is assumed. Two lectures and one laboratory per week.

**Lower-division courses:**

**CPTR 115 4 A**
Computers and Computer Programming
An introduction to computer systems, problem solving with computers, and computer programming using a suitable high-level language. Emphasis on program design, structured programming techniques, elementary data structures and their applications, and standard algorithms of note. Problem solving and program implementation on the computer are required throughout the quarter. No previous programming experience is assumed. Three lectures and one laboratory per week.

**CPTR 131-132 4-4 W-S**
Computer Science
A first course for computer science majors and others seriously interested in the foundation principles of computer science. Topics include an introduction to the study of algorithms, structure, and functions of computer hardware components, operating systems, data structures, sorting, computer languages, and computer programming. Three lectures and one laboratory per week. Prerequisite: CPTR 115 or equivalent programming experience and MATH 106.

**CPTR 224 3 W**
Assembler
Techniques of assembly language programming; low-level program interaction with an operating system. Emphasis: low-level data manipulation and implementation of structured programming forms in assembly language. Prerequisite: CPTR 115 or equivalent programming experience.

**CPTR 234 3 A**
Programming in C++
Structure of the C++ programming language, including data abstraction, classes, constructors and destructors, overloading, inheritance and polymorphism, templates, exceptions, and iostream methods. Two lectures and one laboratory per week. Prerequisites: CPTR 131-132.

**CPTR 236 3 S**
Microprocessor Systems
Introduction to the architecture of microprocessors and the organization and functioning of a microcomputer. The operation of each functional block of the system (timing, logic, decoding, I/O, and memory); the instruction set, stack operation, and programming of a single-board computer at the machine-instruction level. Two lectures and one laboratory per week. Prerequisites: CPTR 224; ENGR 117.

**CPTR 299 1 Arr.**
Mini-Course
A short course on a selected computer science-related topic of interest to the general student. Course format depends on the particular topic selected but usually consists of several lectures over approximately two or three weeks on a subject of current interest. With approval of the department chair, credit may apply toward a computer-science major.

**Upper-division courses:**

**CPTR 326 4 A**
Computer Languages
Significant features of existing programming languages, with particular emphasis on the underlying concepts embodied in these languages. The student should expect to obtain at least a reading knowledge of current major programming languages. Prerequisites: CPTR 131-132, 224. Odd years.

**CPTR 346 4 S**
Data Structures and Algorithms
Basic concepts of data and the representation of data in a computer system. Linear lists, strings, arrays, trees, and other data structures in programming languages; applications in database management. Detailed study of techniques for sorting and searching; analysis of algorithms to determine their efficiencies in given situations. Prerequisites: CPTR 131-132; MATH 355. Even years.
CPT 347  3 S  
Database Systems
Objectives and methods of organizing files into databases. Facilities for extraction of information from a database; hierarchal, network, and relational models; data description, internal file organization, and security. Prerequisites: CPT 131-132. Odd years.

CPT 396  0.5 A
Seminar
This course for computer science majors includes general-interest topics, presentations from current literature, guest speakers, progress reports on student projects, and attendance at professional meetings. Maximum of two hours. Graded S/F.

CPT 356  4 A  
Digital Logic
Number systems and coding, Boolean algebra, gates and switching circuits, analysis of networks using canonical forms. Implementation of combinational logic: gates, decoding, arithmetic functions. Systematic synthesis of functions (Karnaugh, Quine-McClusky). Sequential circuits: analysis, synthesis, implementation. Three lectures and one laboratory per week. Prerequisite: ENGR 117. Even years.

CPT 398  1-3
Individual Programming Language Study
Supervised individual study of a particular programming language not normally taught in an existing course. The study typically consists of developing solutions to a series of programming problems that are then implemented in the selected language. Languages suitable for this course include, but are not limited to, LISP, SCHEME, Ada, Smalltalk, Prolog, and Database programming languages. A minimum of 30 hours of programming activity is expected for each unit of credit. May be repeated for additional credit. Prerequisites: CPT 131-132, 224.

CPT 357  3 W  
Computer Architecture

CPT 367  3 A  
Communications and Networking

CPT 368  3 S  
Software Engineering
Principles of organization and execution of a multiperson programming project including issues in managing and organizing people, and the tools and language features available to aid the development of large projects. Ethics in the software area. A suitable project is undertaken by the class as a whole. The project varies from year to year depending upon class size, background, and interest. Prerequisite: CPT 131-132, 246. Even years.

CPT 426  3 S  
Theory of Computing
Theoretical concepts in computer science, including languages, automata, Turing machines, the Church-Turing thesis and computability. Prerequisite: MATH 355 and senior standing.

CPT 446  4 W  
Compiler Construction
Techniques of analyzing source language and generating efficient object code. Although some theoretical topics are considered, the course has the practical objective of teaching how to construct assemblers, interpreters, and compilers. Prerequisite: CPT 326 (MATH 355 recommended). Odd years.

CPT 447  3 A  
Operating Systems
Multiprogramming and time-sharing system-design principles. Topics include processes and process communication, control of input-output, memory management, scheduling, file systems, protection, and resource allocation. Prerequisites: CPT 131-132, 224; MATH 131 (MATH 331 recommended). Odd years.

CPT 455  3 W  
Theory of Computing
Theoretical concepts in computer science, including languages, grammars, automata, Turing machines, the Church-Turing thesis and computability. Prerequisite: MATH 355 and senior standing.

CPT 491  0-2  
Cooperative Education
An individual contract arrangement involving students, faculty, and industry to gain practical computer science experience in an off-campus setting. Prerequisite: Permission of the department chair. Graded S/F.
**CPTR 495**  \(1-3\)  A, W, S

*Independent Study*

With the approval of the department chair, qualified students majoring in computer science may undertake independent, directed study of a problem suited to their background and experience. Maximum of three hours.

**CPTR 499**  \(1-3\)  A, W, S

*Independent Research*

With the approval of the department chair, qualified students majoring in computer science may undertake a research problem suited to their background and experience. Maximum of nine hours permitted.

**Computer Science-Related Courses Offered by Other Departments:**

*Business Administration and Economics:*

INFS 128    COBOL

*Mathematics:*

MATH 355    Discrete Methods
MATH 375    Numerical Analysis
MATH 385    Mathematical Modeling

*Technology:*

GRPH 153    Introduction to Macintosh

Degrees and Programs
Early Childhood Education, B.S. 102
Early Childhood Education, A.S. 102
General Requirements for Credentials 102
Subject-Matter Program for Elementary Education (SPEED) 105
Liberal Studies, B.A. 106
Non-Degree Fifth-Year Program 107
Education, M.Ed. 107
Off-Campus Teacher Credential Programs (CAPE) 193

Degree-Completion Program
Early Childhood Education Degree Completion 195

The Early Childhood Education major prepares for teaching or directing in a center for children from infancy to six years of age. Combining this major with prescribed courses in education can qualify the candidate for a California State preliminary teaching credential.

The Teacher Education Program is approved by the California Commission on Teacher Credentialing and by the Office of Education, General Conference of Seventh-day Adventists. Students may choose to complete a Crosscultural, Language, and Academic Development (CLAD) emphasis program for both the California multiple-subject and single-subject credentials. The Credential Analyst can provide additional information.

The second stage of credentialing to earn professional credentials may be met by an approved 45-quarter-hour fifth year or by a Master of Education degree, which can be completed in four quarters. A Master of Education in Instructional Leadership is available to students who would like to earn a master’s degree in the certification process (see “Master of Education Degree” in this catalog). The nondegree fifth year includes 18 hours of professional education core courses and 27 hours of approved post-baccalaureate electives (see page 107). Students must consult the Credential Analyst in the Education department prior to enrollment in either fifth-year option.

Off-Campus Credential Programs
In an off-campus program the Education department offers multiple-subject and single-subject CLAD-emphasis credential programs approved by the California Commission on Teacher Credentialing. The five-quarter programs of coursework are available evenings in Napa. The programs are designed for adults with bachelor’s degrees from accredited institutions. Student teaching is arranged at the end of the five quarters of coursework. Information about admissions requirements and program schedule and location is available at the Education department. See Center for Continuing and Professional Education (CAPE) in this catalog.

Degree-Completion Program
Pacific Union College also offers an off-campus degree-completion program leading to the Bachelor of Science in Early Childhood Education (B.S.C.E.). See the Center for Continuing and Professional Education (CAPE) section of this catalog for further information.
Major in Early Childhood Education, B.S.

This major meets the course requirements for the California Child Development Permit Matrix. Students interested in a B.S. in Early Childhood Education and also wishing to obtain the California State and the SDA Standard Credential in Elementary Education may do so by combining the Early Childhood Education requirements with those for Elementary Education. Students may qualify for the California State preliminary teaching credential by passing the Multiple Subjects Assessment for Teachers (MSAT).

► In addition to the requirements for the A.S. degree in Early Childhood Education, a minimum of 33 hours (30 upper division) including the following:

- ECED 314 Art for Children 3
- ECED 330 Literature for Children 4
- ECED 359 Psychology of Exceptional Children 3
- ECED 361-363 Administration and Supervision of Early Childhood Programs 3-3-3
- ECED 365 Parent-Child Relationships 3
- ECED 480-481 Student Teaching Seminar 1-1
- ECED 482L Directed Teaching, Early Childhood 6
- EDUC 238 Computer Technology for Teachers 2
- EDUC 238L Computer Technology for Teachers Lab 1
- MGMT 261 Introduction to Management 3

► Required Cognate Courses:
- ACCT 114 Small Business Accounting 3
- SOCI 214 The Family 3

Associate Degree in Early Childhood Education, A.S.

A two-year program designed to meet the requirements for the California Child Development Permit Matrix.

► A minimum of 36 hours including the following:

- ECED 181 Introduction to Early Childhood Education 3
- ECED 182 Creative Activities for Early Childhood 3
- ECED 183 Play and Environments 3
- ECED 184 Health, Safety and Nutrition 2
- ECED 189 Behavior Management of Young Children 2
- ECED 250 Speech and Language of Young Children 3
- ECED 255 Curriculum Planning 2
- ECED 260 Field Experiences Practicum (6 quarters)* 6
- ECED 262 Music and Movement for Early Childhood 2
- ECED 265 Child Study 1

ECED 266 Field Observation in Early Childhood Education 1
ECED 267 Observation and Evaluation 1
ECED 280 Infant/Toddler Care 3
ECED 334 Child Development** 4

► Required Cognate Courses:
- BIOL 227 Natural History of California 4
- COMM 105 Speech Communication 3
- FDNT 235 Nutrition 4
- PSYC 121 General Psychology 4
- A valid American Red Cross Standard First Aid certificate
- A valid certificate in Basic Life Support Cardiopulmonary Resuscitation

General Requirements for both Elementary and Secondary Credentials

1. Select a baccalaureate degree with an appropriate teaching major.

Elementary

Complete the Subject-Matter Program for Elementary Education (SPEED) outlined in the following pages, which includes the Liberal-Studies major (fulfills requirements for California Multiple Subject and Seventh-day Adventist Elementary Credentials). Students who do not complete this approved subject matter program must pass the MSAT examination (Multiple Subject Assessment for Teachers).

Secondary

Complete an approved subject-matter program in one of the following areas as outlined in the respective sections of this publication or pass the PRAXIS/SSAT in an approved subject-matter area. In most cases specific and/or additional courses are required for a teaching credential that may not be needed for a bachelor’s degree. In addition, a student is normally expected to have a second teaching endorsement. To qualify for a state credential, majors in theology or religion must demonstrate subject-matter competence in a second area. They may do so by completing an approved subject-matter program or by passing the PRAXIS/SSAT examinations in a state-approved area. Interested students should consult the Education department adviser for further details.

- English
- Mathematics
- Modern Language: French

*Fulfills the work-experience requirement for the Permit Matrix.

**Qualifies as a general education elective course.
Modern Language: Spanish  
Music Education  
Physical Education  
Science (Biology/Chemistry/Physics)  
Social Science  
Theology/Religion

Students qualifying for Seventh-day Adventist teaching credentials with majors other than those listed above should consult with the Credential Analyst. It is possible to earn additional teaching endorsements for both California and SDA credentials. Consult the Credential Analyst for specific course requirements.

2. Apply for Admission to the Teacher Education Program (see prerequisites listed in next section).
3. Pass a test of minimum competency in reading, writing, and mathematics (CBEST). Students must pass this test prior to regular admission into the Teacher Education program and before their enrollment in curriculum and instruction (C/I) courses.
4. Pass the U.S. Constitution examination or complete one of the following: (a) HIST 134-135, (b) HIST 356, or (c) PLSC 124.
5. Complete HLED 166 Health Education or FDNT 175 Personal Nutrition with a grade of C- or better.
6. Complete 16 hours of religion (9 upper division) with at least a 2.0 grade-point average and with no grade lower than C-: 6 hours of RELB prefix courses; 3 hours of Doctrinal Studies (RELT 331, 332, or 333); 4 hours of HIST 340 (or RELT 381-382); and 3 hours of electives. A student in the SPEED program must select 3 hours of these electives from RELT 315, RELH 311, RELT 216, 218, 320, 355, and 440.
7. For elementary credential: Provide documentation of a four-week laboratory experience in a multigrade classroom of at least three grades. This should be done at the beginning of the junior or senior year from approximately August 26 to September 20. Prerequisites: cumulative GPA of 2.5; major upper-division GPA of 2.7; completion of Education 482L.
8. For elementary credential: Pass the Reading Instruction Competence Assessment (RICA). This should be done before completing student teaching.
9. After completing the first PUC C/I course with a lab: Apply for midprogram review by the Education department faculty for approval to continue in the Teacher Education program. The faculty review will incorporate the following evaluations, as applicable:
10. Complete professional education courses as outlined below with a grade of C- or better in each course and a grade of B or better in each lab.

**Elementary**

EDUC 484-485  Student Teaching Seminar  1-1
EDUC 485L  Student Teaching  16
  9 hrs. Junior High—9 weeks
  9 hrs. Senior High—9 weeks
ENGL 335  Survey of Linguistics  4
ENGL 337  ESL Teaching Methodology  4
  Language requirement (optional; required for CLAD)
ANTH 124  Cultural Anthropology  3-4
  (or COMM 330 Intercultural Communication
  or SOCI 121 Introduction to Sociology
  or SOCI 355 Racial and Ethnic Relations)

Criteria for Preliminary Admission to the Teacher Education Program
1. Complete EDUC 101 Introduction to Teaching and EDUC 101L, preferably in the freshman year.
2. Submit an application to the Education department.
3. Submit to the Education department a Certificate of Clearance application to the California Commission on Teacher Credentialing (prerequisite to C/I courses with field components).
   Application includes fingerprinting and fee.
4. Make appointments for interviews with the chair of the Education department and the assigned Education department adviser.
5. Arrange for an employer, a teacher or the academic adviser to complete the recommendation form and return it to the Education department.
6. Meet cumulative GPA requirement: 2.5.
7. Satisfy residence requirement: One quarter at PUC or acceptance into a Teacher Education Program in another accredited college or university.

Criteria for Regular Admission to the Teacher Education Program
1. Items 1-6 above.
2. Pass CBEST (California Basic Educational Skills Test) and submit a Permanent Verification Card. This test, given at PUC six times each year, covers reading, writing, and mathematics. One can retake it if necessary. Candidates must pass the CBEST before achieving regular admission and clearance to register for curriculum and instruction (C/I) courses. Application packets are available at the Education department (fee required).
3. Have a Certificate of Clearance on file in the Education department.
4. Verify prerequisite computer skills via high school or college transcript or a performance waiver.
5. Maintain a cumulative GPA of 2.5 to retain regular status.

Restrictions on Accepted Courses
1. C/I courses with fieldwork may not be taken by correspondence or directed study. C/I courses with fieldwork being transferred will require the fieldwork to be completed at Pacific Union College.
2. C/I courses without fieldwork may be taken by correspondence or directed study if approved by the department. Limit of one approved course.
3. Limit of 12 approved hours for transfer toward a master's degree or Reading/Language Arts credential program.
4. All core courses in the fifth-year program must be taken at Pacific Union College with the following exceptions: PSYC 359/L and EDUC 538/L.

Prerequisites for Student Teaching
1. Regular acceptance into the Teacher Education program.
2. A minimum cumulative grade-point average of 2.5 and of 2.7 in upper-division courses in the major.
3. Satisfactory completion of adequate preparation in the teaching areas. (Secondary: 80% of subject-matter courses, or pass PRAXIS/SSAT examinations; elementary: 101 hours in the SPEED waiver program, 80% of subject-matter program, or pass MSAT.) Competency examinations must be passed by March 1 when application is made for student teaching.
4. Complete the U.S. Constitution and health-education requirements (or their inclusion in the Senior Contract).
5. Meet PUC residence requirement: two upper-division courses in the major and two courses in Education.

* Not to be taken before the junior year.

8. Submit a Student Teaching Application by March 1 prior to the school year during which full-time student teaching will take place, including the following:
   a) Application form
   b) Major department recommendation
   c) Employer recommendation (or equivalent)
   d) Health clearance (including TB)
   e) Résumé
   f) Verification of subject-matter competency
   g) Approval of the major department

9. Receive clearance from the Vice President for Student Life Administration

Subject-Matter Program for Elementary Education (SPEED)

The Subject-Matter Program for Elementary Education with the Liberal Studies major as its core has been designed in harmony with the educational philosophy of Pacific Union College to meet the objectives of SDA and public education at the elementary level. It has been approved by the California Commission on Teacher Credentialing as the multiple-subject-matter program for students who plan to teach in a self-contained elementary-school classroom. The program requires a minimum of 126 quarter hours (including the Liberal Studies major of 60 hours, 38 of which must be upper-division).

Students should consult with credential advisers in the Education department in developing their program of studies. General-education requirements, the Subject-Matter Program for Elementary Education, the Liberal Studies major, and the professional education courses must be carefully scheduled if one is to complete the graduation requirements and qualify for both the California Preliminary and the SDA Basic credentials within the normal four-year bachelor's degree program.

General Education Foundation Courses

The courses listed below fulfill general-education requirements for all B.A. degree programs. All may also be applied to SPEED. Specific courses or course options required by general education or by SPEED are listed by course number. The 92-95 hour total assumes a full year each of biology, chemistry, physics, and two years of a foreign language at the secondary level and an ACT Standard Score of 19 or a satisfactory score on a Mathematics department placement test. Students lacking these college-preparatory courses will have to use elective hours to make up the deficiencies in their foundational course work.

I. Foundations of Learning

ENGL 101-102 College English (8)

One of the following Communication courses:
   COMM 105 Speech Communication (3)
   COMM 225 Oral Interpretation (3)
   COMM 226 Public Speaking (3)
   COMM 336 Advanced Public Speaking (3)
   COMM 327 Argumentation (3)
   COMM 427 Persuasive Communication (3)

MATH 222 Introduction to Statistics (4)

II. Human Identity in Cultural Contexts

HIST 101-102 A History of World Civilizations (8)
PHIL 101 Introduction to Philosophy (4)
PSYC 121 General Psychology (4)
PLSC 124 Introduction to American Government (3)

Foreign language: intermediate level or first year of a second foreign language (9-12)

III. Insights of the Imagination

ENGL 301 Great Books (4)

One of the following:
   ART 105 History of Western Art (4)
   ART 107 American Art (3)
   ART 108 History of Far Eastern Art (3)

One of the following:
   MUED 104 The Christian and Music (3)
   MUED 105 Survey of Music (3)

IV. The Natural World

GSCI 205 Scientific Revolutions (3)
Laboratory course in chemistry or physics (not PHYS 105) (4-6)

One of the following:
   BIOL 345 Environmental Science (3)
   BIOL 355 Philosophy of Biology (3)
   HIST 390 History and Philosophy of Science (3)

V. Revelation, Belief, and Action

Any RELB courses (6)
RELT 331, 332, or 333 (3)
RELT 381-382 or HIST 340 (4)
RELT 216, 218, 320, 355, or 440; or RELB 315; or RELH 311 (3)
Any REL__ (2)
VI. Health and Fitness

ESAC (3), including one aerobics course
ESTH 476 (3)
HLED 166 or FDNT 175 (2)

VII. Skills for Daily Living

Applied Arts (see page 26-27) (2)
One of the following:
- CPTR 105 Introduction to Computers (3)
- GRPH 153 Introduction to Macintosh (2)
- OFAD 201 Word Processing (2)
- EDUC 238/L Computer Technology for Teachers (3)

Total General Education Hours

Liberal Studies Major, B.A.

This diversified major provides the baccalaureate degree major for candidates seeking the elementary teaching credential. Requirements are stated here with special applications for SPEED students.

1. A minimum of 60 hours (38 in the upper division) selected with the approval of a department adviser to satisfy the following requirements:

   All students must complete a minimum of 15 hours excluding courses used to satisfy general-education requirements from each of the three areas listed. The required courses for SPEED candidates are listed in each area. The recommended courses and options listed may be used to fulfill the 15 hours required or to complete the concentration as described under (2) below.

   **Arts and Humanities**
   Art, Drama, Ethics, Foreign Language, Linguistics, Literature, Music, Philosophy, Religion, and Rhetoric
   - DRMA 229 Fundamentals of Dramatic Performance (3)
   - ENGL 335 Survey of Linguistics (4)
   
   ➤ **Recommended Courses:**
   - ART 124 Design and Composition (3)
   - ART 314 Art for Children (3)
   - COMM 328 Small Group Communication (3)
   - COMM 330 Intercultural Communication (3)
   - COMM 480 Classroom Communication (3)
   - ENGL 330 Literature for Children (4)
   - ENGL 331 Literature for Adolescents (4)
   - ENGL 337 ESL Teaching Methodology (4)
   - ENGL 405 Advanced Expository Writing (3)
   - ENGL 434 Advanced English Syntax (4)
   - ENGL 484 Literature of the Bible (4)
   - MUED 338 Music for Children (2)

   - RELT 440 Christian Bioethics (3)
   - PHIL 485 Issues in Science and Religion (3)
   - RELH 311 World Religions (3)
   - RELT 355 Christian Ethics in Society (3)

   **Natural Science and Mathematics**
   Astronomy, Biology, Chemistry, Computer Science, Geology, Mathematics, and Physics. Required: at least one biology course and one earth science course in the major or in general education.
   - MATH 211-212 Foundations of School Mathematics 3-3
   
   One of the following:
   - BIOL 227 Natural History of California (4)
   - BIOL 321 Ornithology (field oriented) (3)
   - BIOL 323 Vertebrate Natural History (3)
   - BIOL 325 Flowering Plants (3)

   ➤ **Recommended Courses:**
   - ASTR 115 Astronomy (5)
   - BIOL 345 Environmental Science (3)
   - BIOL 355 Philosophy of Biology (3)
   - HIST 390 History and Philosophy of Science (3)

   **Social and Behavioral Science**
   Anthropology, Economics, Geography, History, Political Science, Psychology, and Sociology
   - ANTH 124 Cultural Anthropology (4)
   - HIST 134-135 History of the United States (4-4)
   - HIST/ENGL 365 Seminar in American Slavery and Freedom (3)
   - HIST/ENGL 485 The Classical World (5)
   - PSYC 234 Human Development (4)
   - (or PSYC 334 Child Development (4))

   ➤ **Recommended Courses:**
   - HIST/ENGL 365 Seminar in American Slavery and Freedom (3)
   - HIST/ENGL 485 The Classical World (5)
   - PSYC 359 Psychology of Exceptional Children (4)
   - PSYC 390 Gender Issues (3)
   - PSYC 490 Issues in Psychology and Religion (3)
   - SOCI 121 Introduction to Sociology (4)
   - SOCI 232 American Social Problems (4)
   - SOCI 355 “Racial” and Ethnic Relations (3)
   - SOCI 435 The Sacred and Profane in Society (3)

2. A concentration in a field of knowledge consisting of a minimum of 27 hours in a discipline or from courses from the areas listed above that relate to a well-defined theme, chosen in consultation with a department adviser.

SPEED students must also meet the following concentration requirements:
A. A minimum of 18 upper-division hours of the concentration must be selected from courses that relate to a subject area of the elementary school curriculum (i.e., language, literature, mathematics, science, social science, history, humanities, the arts, and human development.)

B. None of the required 18 upper-division hours may include a course required of all candidates in the elementary education credential program.

C. The concentration must include the completion of a research project, independent study, production, performance, project or similar significant activity involving independent creative effort.

3. At least one interdisciplinary or integrative course of at least three credit hours involving the examination of relationships between two or more disciplines, the synthesis of major themes, and the comparison of various forms of inquiry. Courses qualifying as interdisciplinary or integrated include the following:

   | Course Code | Course Title                                           | Credits |
---|-------------|--------------------------------------------------------|---------|
   | ENGL 352    | Theme Courses                                         | 3       |
   | HIST 340    | Adventist History and the Ministry of Ellen G. White  | 4       |
   | HIST 365    | Seminar in American Slavery and Freedom (ENGL 365)    | 3       |
   | HIST 485    | The Classical World (ENGL 485)                        | 3       |
   | ESTH 490    | Ethics in Physical Education                          | 2       |
   | PHIL 390    | History and Philosophy of Science*                    | 3       |
   | PHIL 485    | Issues in Science and Religion**                      | 3       |
   | PSYC 435    | Psychology of Religion                                 | 3       |
   | PSYC 490    | Issues in Psychology and Religion                     | 3       |
   | SOCI 435    | The Sacred and Profane in Society                     | 3       |

4. A student choosing the Liberal Studies major develops the program of studies in consultation with an academic adviser. The program must be approved by the Teacher Education Council. Because the major is largely comprised of courses offered by other departments, the student should apply for approval of the course program no later than the beginning of the junior year.

Non-Degree Fifth-Year Program

A program leading to professional certification is available as a nondegree fifth year. The fifth-year program results in SDA Professional and/or California Professional Clear credentials. Completion of the program does not culminate in a post-baccalaureate degree.

Applicants must meet the following prerequisites before being considered for admission:

1. Hold a bachelor’s degree from an accredited institution
2. Hold either a SDA Basic or Standard Certificate and/or a California Preliminary Credential

3. Have a cumulative GPA of 2.5 and an upper-division GPA of 2.7
4. Have passed the CBEST
5. Have two satisfactory recommendations on file
6. Have a satisfactory interview with the chair of the Education department

General requirements for program completion include a minimum of 45 hours of upper-division and 500-level post-baccalaureate credit from an accredited college or university. Specific requirements are listed below:

**Professional education core requirements (18 hours; 7-year recency requirement):**

| Course Code | Course Title                                                                 | Credits |
---|-------------|------------------------------------------------------------------------------|---------|
   | EDUC 359/L  | Psychology of Exceptional Children/Lab (3+1)                                 |         |
   | EDUC 514    | Advanced Learning Theory                                                     | 3       |
   | EDUC 515    | Educational and Psychological Evaluation                                     | 3       |
   | EDUC 516    | Curriculum and Instruction: Historical Perspectives                          | 3       |
   | EDUC 517    | Current Issues in Education                                                  | 2       |
   | EDUC 538/L  | Computers in the Classroom/Lab (2+1)                                         |         |

   Electives (27 hours; no recency requirement)

   Approved upper-division/graduate electives chosen in consultation with departmental adviser

   Health Education + Infant/Child/Adult CPR

   Additional requirements are mandated for those who seek the California Professional Clear credential but who have not previously held a California credential. Further information on the fifth-year program is available from the Credential Analyst in the Education department.

Master of Education Degree

A program leading to a Master of Education in Instructional Leadership is available. Students interested in this degree should see the section in this catalog describing the Master’s Degree Program. Specific questions should be referred to the Chair of the Department of Education.

---

* Listed in the History section of this catalog.
** Listed in the Physics section.
Early Childhood Education

**Lower-division courses:**

**ECED 181**  
*3 W*
**Introduction to Early Childhood Education**  
The history, types of programs, facilities, teacher qualifications and duties, career opportunities, and issues in Early Childhood Education. Recommended concurrent course: ECED 260.

**ECED 182**  
*3 A*
**Creative Activities for Early Childhood**  
The creative and aesthetic development of young children; planning and implementing activities that promote this development; practical experience with various materials used in art and craft centers. Two lectures and one laboratory weekly.

**ECED 183**  
*3 S*
**Play and Environments**  
The importance of play in the learning and development of the young child. Methods useful in setting up materials and centers which facilitate a learning environment. ECED 260 required concurrently.

**ECED 184**  
*2 A*
**Health, Safety, and Nutrition**  
Prepares students working in a child-care setting to assist young children to develop good habits and attitudes affecting their health and safety. Helps meet State requirements for specified training in preservative health practices. Odd years.

**ECED 189**  
*2 A*
**Behavior Management of Young Children**  
Methods and techniques that lead to the successful management of young children.

**ECED 250**  
*3 S*
**Speech and Language of Young Children**  
(See SPPA 250.)

**ECED 255**  
*2 A*
**Curriculum Planning**  
Early childhood curriculum philosophies, organizational methods, developmentally appropriate practices, and teaching methods. Development of yearly, unit, and daily working lesson plans. Prerequisites: ECED 260 (three quarters) and ECED 183.

**ECED 260**  
*1 A, W, S*
**Field Experience Practicum**  
Offers a variety of supervisory and teaching experiences in the College’s child-care center. Required each of six consecutive quarters. The final quarter must be of concentrated hours and consecutive days. Some holiday or summer sessions are available. Arrangements in advance must be made with the instructor. One hour required concurrently with each of the following courses: ECED 181, 182, 183, 255.

**ECED 262**  
*2 W*
**Music and Movement for Early Childhood**  
Review of music, rhythm, and movement activities appropriate for young children. Includes available resources, practice, and implementation in the early childhood curriculum. Odd years.

**ECED 265**  
*1 A*
**Child Study**  
Knowledge of the young child’s behavior and growth that can help the teacher meet the needs of each child. Practice in different methods of observation.

**ECED 266**  
*1 W*
**Field Observation in Early Childhood Education**  
Analytical observation of a variety of off-campus preschool environments.

**ECED 267**  
*1 S*
**Observation and Evaluation**  
Evaluation techniques for charting a child’s development and using this information to build a developmentally appropriate curriculum.

**ECED 280**  
*3 W*
**Infant/Toddler Care**  
The environment, curriculum, and management of infant/toddler programs. Includes observation of children between the ages of birth and three years. Even years.

**Upper-division courses:**

**ECED 314**  
*3 S*
**Art for Children**  
(See ART 314.)

**ECED 330**  
*4*
**Literature for Children**  
(See ENGL 330.)

**ECED 334**  
*4 A*
**Child Development**  
(See PSYC 334.)

**ECED 338**  
*2 A*
**Music for Children**  
(See MUED 338.)
ECED 338L 1 A, W, S
Music for Children Lab
(See MUED338L.)

ECED 359 3 A
Psychology of Exceptional Children
(See PSYC 359.)

ECED 359L 1 A
Psychology of Exceptional Children Laboratory
(See PSYC 359L.)

ECED 361-362-363 3-3-3 A-W-S
Administration and Supervision of Early Childhood Programs
An in-depth study of the administrative and supervisory responsibilities of the early childhood program director. Odd years.

ECED 365 3 S
Parent-Child Relationships
Parenting and child-rearing in today’s society. Family structure, parenting styles, family disruptions, family values and self-esteem, symptoms and causes of child abuse, and its lasting effects on the child. Meets the child, family, and community requirement for ECED.

ECED 480-481 1-1 A-W, A-S
Student Teaching Seminar
See EDUC 480-481.

ECED 482L 6 S
Directed Teaching, Early Childhood
Full-time participation in an off-campus early childhood classroom. Application and arrangements must be made at least one quarter before registering for the course. Students must have transportation to and from teaching assignment. Graded S/F. Prerequisites: A minimum overall GPA of 2.25 and upper-division GPA of 2.5.

---

Education

Service Course:
(May not be used for major or minor in this department)

GNST 103 3 A, W, S
College Success Skills
Techniques to develop critical-thinking skills, comprehension of texts, test-taking strategies, speaking, writing, and study skills. Includes memory improvement, note-taking and time management.

General Courses:

EDUC 101 1 A, W, S
Introduction to Teaching
A general overview of the history of education and teaching as a profession. Effective teaching techniques, including the fundamental steps in presenting a lesson. Concurrent enrollment required in EDUC 101L required.

EDUC 101L 1 A, W, S
Introduction to Teaching Lab
A 25-hour field experience in the PUC area that provides practical information for the student deciding about teaching; affords opportunity for the student to imagine himself or herself in the role of teacher. Students who wish to apply credit for this course toward the requirements for a teaching credential must earn a grade of B or better. Concurrent enrollment in EDUC 101 required.

EDUC 238 2 A
Computer Technology for Teachers
An introduction to the use of computers in the elementary and secondary classroom. Emphasis on using computers to manage records, collaborate with other teachers, communicate through printed media, and enhance student learning. Concurrent enrollment required in EDUC 238L. Prerequisite: Computer skills verified by high school or college transcript or a performance waiver.

EDUC 238L 1 A
Computer Technology for Teachers Lab
Opportunity to demonstrate a basic understanding of how computer technology can be used to support teaching and learning. Students create a multimedia presentation, manage a gradebook, and develop an Internet project for use in an elementary or secondary classroom. Concurrent enrollment required in EDUC 238.

EDUC 333 2 W
Educational Psychology
A survey course applying psychological principles to the classroom setting. Effects on learning of such student characteristics as intelligence, personality, cognitive and moral development, sex, and exceptionality. Major learning theories, motivation, information processing, classroom management, educational objectives, evaluation, and measurement.

EDUC 335 2 A
Ethical Dimensions of Teaching
Examination of the ethical and moral components of the teaching profession. Emphasis on ideals and principles of Christian education and their application in Seventh-day Adventist schools. Philosophy of American and Adventist education compared and contrasted. Emphasis on integrating faith and learning.
EDUC 336 2 S
Social and Multicultural Education
Designed to help present and future educators acquire the concepts, paradigms, and explanations needed to be effective practitioners in a culturally diverse society. Concepts, strategies, and resources are examined that contribute to building an atmosphere of positive human relations and removing negative stereotypes and prejudices from the classroom.

EDUC 359 3 A
Psychology of Exceptional Children
(See PSYC 359.)

EDUC 359L 1 A
Psychology of Exceptional Children Laboratory
(See PSYC 359L.)

EDUC 390 2 W
K-12 Curriculum and Instruction: Bible
Development of teaching objectives, materials, and strategies in biblical education. The SDA Bible curriculum with special attention to spiritual development and the teaching methods of Christ the Master Teacher. Includes teaching in multigrade classrooms. Fulfills requirement for elementary or junior-academy endorsement as well as an additional secondary Bible endorsement.

EDUC 495 1-3 A, W, S
Independent Study

Elementary Courses:
Prerequisite for the courses listed below: Regular Admission Status in the Teacher Education program, which includes EDUC 101/101L, passing the CBEST, a Certificate of Clearance, and maintaining a cumulative GPA of 2.5 and an upper-division major GPA of 2.7.

EDUC 345 4 S
Elementary School Curriculum and Instruction: Mathematics/Science
The teaching of mathematics in the elementary school with emphasis on problem solving and the use of manipulatives. Covers the application of observation, inquiry, discovery, and problem solving in the sciences. Includes teaching in the multigrade classroom. Concurrent enrollment for one hour of credit in EDUC 482L required. Prerequisite: MATH 211-212.

EDUC 353 3 A
Elementary School Curriculum and Instruction: Beginning Reading and Writing
A balanced, comprehensive approach to teaching reading and writing in pre-kindergarten through grade three, including research on how children learn to read, diagnosis of reading difficulties, phonics, stages of writing development, and planning and delivery of appropriate reading and writing instruction based on assessment and evaluation. Emphasis on CLAD and early prevention of failure in literacy for at-risk children. Requires regular observation in a diverse K-3 classroom.

EDUC 355 2 A
Elementary School Curriculum and Instruction: Reading/Language Arts
A basic course defining the nature of language acquisition and the principles related to beginning and intermediate reading/language arts instruction. Includes instructional strategies for developing ability to transmit meaning through talking and writing and to comprehend meaning through listening and reading. Also emphasizes assessment and management techniques. Concurrent enrollment for one hour of credit in EDUC 482L each quarter required.

EDUC 356 4 W
Elementary School Curriculum and Instruction: Reading/Social Studies
A basic course defining the nature of language acquisition and the principles related to intermediate reading/language arts instruction. Includes instructional strategies for developing ability to transmit meaning through talking and writing and to comprehend meaning through listening and reading. Emphasis on using the content of social studies to develop instructional objectives and activities. Also emphasizes assessment and management techniques and teaching to diverse groups of students. Includes multigrade teaching. Concurrent enrollment required in EDUC 482L for 1 credit.

EDUC 480-481-482 1-1-1 A-W-S
Student Teaching: Elementary School Seminar
Register for one hour each quarter of the senior year. Presentation and discussion of topics of current interest, such as school law, classroom discipline, comparative teaching styles, staff, administrative and parent relationships, and other topics relating specifically to the student-teaching experience.

EDUC 482L 1-16 A-W-S
Student Teaching, Elementary
Student teaching is divided into two components:
a) Three hours: one hour concurrent registration for student teaching with each of three methods course—EDUC 345, 355, 356.
b) Twelve hours full-time participation in an elementary-school classroom during one quarter of the senior year. Requirements include weekly participation in the student-teaching seminar (EDUC 482). Application is required by March 1 prior to the school year during which one’s student teaching is scheduled. Graded S/F basis. See prerequisites for
student teaching beginning on page 107 of this catalog. Students must provide their own transportation to and from the teaching assignment. In-Progress (“IP”) grade until course is completed.

Secondary Courses:
Prerequisite for the courses listed below: Regular Admission Status in the Teacher Education program, which includes EDUC 101/101L, passing the CBEST, a Certificate of Clearance, junior class-status, and maintaining a cumulative GPA of 2.5 and an upper-division major GPA of 2.7.

EDUC 358 3 A
Curriculum and Instruction: Teaching of Reading in the Secondary School
Major emphasis on teaching vocabulary, comprehension, and study skills in grades 7-12. The role of reading in the secondary school, the reading process, language acquisition, needs of students from various cultural and ethnic backgrounds, adaptation of content to reading abilities of students, motivation, diagnosis, and evaluation. Concurrent enrollment in EDUC 358L required.

EDUC 358L 1 A
Curriculum and Instruction: Teaching of Reading in the Secondary School Lab
Thirty hours of laboratory experience tutoring students with reading difficulties and/or ESL students. The purpose of this fieldwork is to demonstrate reading skills learned in EDUC 358.

EDUC 360 2 A
Curriculum and Instruction: Secondary Methods I
Introduction to the secondary school curriculum. Curriculum characteristics, instructional objectives, teaching methods, lesson planning, classroom management, audio-visual materials, and grouping and evaluation.

EDUC 361 2 W
Curriculum and Instruction: Middle-School Methods
Introduction to the middle-school curriculum. Middle-school teaching methods, classroom management skills, lesson and unit planning. Critical thinking and problem-solving skills directly related to the intellectual, physical, psychological and social development of middle-school students. Concurrent enrollment in EDUC 361L required. Prerequisite: EDUC 360; major upper-division GPA of 2.7.

EDUC 361L 1 W
Curriculum and Instruction: Middle School Methods Lab
Field experience giving candidates an opportunity to observe, help, and teach at the middle-school level for thirty class periods, with six class periods of solo teaching. Concurrent enrollment in EDUC 361 required. Prerequisite: EDUC 360; major upper-division GPA of 2.7.

EDUC 362 2 S
Curriculum and Instruction: Secondary Methods II
Specific teaching skills, methods, and strategies for the following majors: Business Education, English, Home Economics (see Family and Consumer Sciences), Mathematics, French, Spanish, Music Education, Physical Education, Religion, Science (Biology, Chemistry, and Physics), Social Science, and Technology Education. Topics include writing appropriate objectives, current instructional materials, curriculum guides, methods of subject presentation, preparation of lesson plans, and use of computers. Concurrent enrollment required in EDUC 362L. Prerequisite: EDUC 360; major upper-division GPA of 2.7.

EDUC 362L 1 S
Curriculum and Instruction: Secondary Methods II Lab
Thirty hours of laboratory work with a grade of B or better is required. The lab experience includes observing in local schools and developing content-area instructional materials in one of the disciplines listed under EDUC 362. Concurrent enrollment required in EDUC 362. Prerequisite: EDUC 360; major upper-division GPA of 2.7.

EDUC 484-485 1-1 A-W-S
Student Teaching, Middle- and Senior-High School: Seminar
Register for one hour two quarters of the senior year. Presentation and discussion of topics of current interest, such as school law, classroom discipline, comparative teaching styles, staff, administrative, and parent relationships, and other topics relating specifically to the student-teaching experience.

EDUC 485L 1-17 A-W-S
Student Teaching, Middle and Senior High School
Student teaching in junior and senior high schools is organized on a semester basis and includes nine weeks of full-time work at each level. Requirements include weekly participation in the Student Teaching Seminar (EDUC 485). Application is required by March 1 prior to the school year during which student teaching is scheduled. Graded S/F. See prerequisites for student teaching beginning on page 107 of this catalog. Students must provide their own transportation to and from the teaching assignment. Concurrent enrollment is required in EDUC 485 Student Teaching Seminar. In-Progress (“IP”) grade until course is completed.
Graduate Courses:  
Prerequisite: Admission to M.Ed., fifth-year program, or departmental approval.

EDUC 510 2 A  
Leadership in Education  
Participants in this course examine insights concerning themselves and their relationships with colleagues, stakeholders, and students that can make a real difference in their subsequent classroom attitudes and behavior.

EDUC 514 3 S  
Advanced Learning Theory and Instructional Strategies  
An in-depth examination of major theories of learning and their application to a wide variety of instructional strategies available to the classroom teacher. Analysis of instructional strategies based on the theories, identification of strategies that fit the student’s personal teaching style, and application of the major theories and strategies in evaluation of case studies. Prerequisite: EDUC 333 or permission of the instructor.

EDUC 515 3 A  
Educational Assessment and Evaluation  
A multifaceted study emphasizing (a) the process of collecting information as an aid in understanding and making educational plans for pupils and (b) integrated processes for determining the nature and extent of pupil learning and development. In addition to authentic assessment, commonly used teacher-made and standardized tests are studied.

EDUC 516 3 W  
Curriculum and Instruction: Historical Perspectives  
Analysis and interpretation of events and issues in curriculum and instruction that have shaped American schools from the nation’s founding until the present. Competing philosophies of education; how diverse ideologies influence policy-making decisions.

EDUC 517 2 W  
Current Issues in Education  
Contemporary controversial issues in public and private education. Students are challenged to understand controversial educational issues better, to become aware of possible alternatives in handling the issues, and to use their creativity to search for alternate solutions.

EDUC 523 2 Su  
Strategies for Authentic Literacy Assessment and Instruction  
Principles and practices of selecting methods and materials for literacy instruction and ongoing assessment for all ages. Prerequisites: teaching credential or permission of the instructor. Corequisite: Concurrent enrollment in EDUC 523L.

EDUC 524 2 Su  
Seminar in Language and Literacy Instruction  
A critical analysis and development of learner-centered language and literacy instructional techniques, including evaluation and selection of printed materials and computer software. Prerequisite: EDUC 523. Corequisite: Concurrent enrollment in EDUC 524L.

EDUC 524L 1 Su  
Fieldwork

EDUC 530 3 W  
Brain Research and Learning  
A critical examination of current investigations of cognitive aspects of learning.

EDUC 538 2 S  
Computers in the Classroom  
This hands-on course uses electronic media to communicate through collaborative tools, multimedia, web pages, and print media. Emphasis on how technology can be used to plan, locate, evaluate, select, and use information to solve problems and draw conclusions. Corequisite: EDUC 538L. Prerequisite: EDUC 238L or permission of the instructor.

EDUC 538L 1 S  
Computers in the Classroom Lab  
Students use cutting-edge technologies to enhance teaching and learning. Applications include Hyperstudio, Powerpoint, web-page design, videoconferencing, and desktop publishing. Corequisite: EDUC 538.

EDUC 595 1-3 A, W, S  
Independent Study  
Individual studies open to students with adequate preparation in the area of proposed study. Maximum of three hours credit.

EDUC 596 1 A  
Methods in Research  
Principles of disciplined inquiry and an introduction to the methods of research including planning, using resources, reviewing literature, developing methodology, and communicating evidence verbally and visually.
EDUC 597  1-6 A, W, S
Graduate Project Practicum
The culmination of the master’s degree program, involving a practical application of theoretical concepts in an actual classroom situation. Research methods and literature review presented at the beginning of the winter quarter. After receiving formal project approval, students implement the project and, upon completing the implementation, prepare a formal written report to be shared orally with the Education faculty and other graduate students during the spring or summer quarter. Prerequisite or corequisite: EDUC 596. In-Progress (“IP”) grade until completion of the course.

Degrees and Programs
English, B.A. ................................................................. 115
TESL Certificate .............................................................. 116
Teaching Credential ......................................................... 116
English as a Second Language .......................................... 117

English majors discover a great variety of literature, including traditional English and American texts as well as newly appreciated works by women and minority writers. They explore all the genres from many perspectives: recent critical approaches, history of ideas, classical studies, and Christianity and literature. They develop and refine their writing in both critical and creative writing courses.

English majors may select one of four emphases: British and American Literature, English-Education, Teaching English as a Second Language, and Writing.

The Department of English also maintains a four-level English Language Program for students whose native language is not English and who have a score below 525 on the TOEFL (Test of English as a Foreign Language).

Major in English, B.A.
A minimum of 53 hours, except for the Emphasis in English Education, which must meet State requirements:

- Required core courses for all majors in English (35-37 hours):
  - ENGL 224 Literary Theory 4
  - ENGL 335 Survey of Linguistics 4
  (Prerequisite: ENGL 134)

- One of the following writing courses: 3-4
  - ENGL 346 Creative Writing (4)
  - ENGL 405 Advanced Expository Writing (3)

- These two courses in British and American literature:
  - ENGL 465 English Medieval and Renaissance 4
  - ENGL 355 American Colonial and Romantic Periods 4

- Three of the following period courses including one American Literature course 12
  - ENGL 356 American Realism and Naturalism (4)
  - ENGL 357 American Modernism (4)
  - ENGL 466 The Enlightenment (4)
  - ENGL 467 The Romantic Age (4)
  - ENGL 468 The Victorian Age in Britain (4)
  - ENGL 469 The Modern Age in Britain (4)
  - ENGL 470 Contemporary Literature (4)

- One of the following context courses: 4-5
  - ENGL 484 Literature of the Bible (4)
  - ENGL 485 The Classical World (5)

- Emphases (choose one):

  1. Emphasis in British & American Literature (18 hours)
     - ENGL 389 Junior Seminar 1
     - ENGL 474 Shakespeare 4
     - ENGL 490 Senior Seminar 2

To complete the 18 hours, select from upper-division literature courses in British periods, American periods, or genre and theme courses; at least one genre or theme course is required.
2. Emphasis in Writing (18 hours)
ENGL 389 Junior Seminar 1
ENGL 490 Senior Seminar 2
Optional alternative to ENGL 389 and 490:
ENGL 494 Writing Internship (3)
Additional selections from the following (at least nine hours from courses with ENGL prefix):
ENGL 346 Creative Writing (4-16)
ENGL 348 Literary Genres (4)
ENGL 405 Advanced Expository Writing (3)
JOUR 141 Newswriting and Reporting (3)
JOUR 244 Copyediting (2)
JOUR 443 Investigative Reporting (3)
(Note: Some journalism courses list JOUR 141 as a prerequisite.)

3. Emphasis in English Education (38 hours)
COMM 225 Oral Interpretation* 3
ENGL 101-102 College English* 4-4
ENGL 141 Newswriting and Reporting I 3
ENGL 301 Great Books: Global Perspectives* 4
ENGL 307 Composition Theory 3
ENGL 330 Literature for Children 4
(or ENGL 331 Literature for Adolescents)
ENGL 336 Second Language Acquisition 4
ENGL 434 Advanced English Syntax 4
ENGL 474 Shakespeare 4
ENGL 493 Senior Education Seminar 1

4. Emphasis in Teaching English as a Second Language (18 hours)
ENGL 336 Second Language Acquisition 4
ENGL 337 ESL Teaching Methodology 4
ENGL 443 ESL Curriculum Development and Classroom Management 4
ENGL 444 ESL Testing 2
ENGL 445 Cultural & Psychological Learner Differences 2
ENGL 491 ESL Teaching Practicum 2

TESL Certificate (26-31 hours)
ENGL 336 Second Language Acquisition 4
ENGL 337 ESL Teaching Methodology 4
ENGL 443 ESL Curriculum Development and Classroom Management 4
ENGL 444 ESL Testing 2
ENGL 445 Cultural and Psychological Learner Differences 2

ENGL 491 ESL Teaching Practicum 2
From the following courses, 8 hours:
ENGL 291 ESL Tutoring Practicum (1)
ENGL 434 Advanced English Syntax (4)
ANTH 124 Cultural Anthropology (4)
COMM 330 Intercultural Communication (3)
SPPA 264 Phonetics and Speech Science (3)
Students seeking the TESL Certificate but not majoring in English will also take ENGL 134 Review of English Syntax (1) and ENGL 335 Survey of Linguistics (4).

Teaching Credential
Students desiring to enter a program of studies leading to a California teaching credential in English should take the English Education Emphasis. This program meets established standards of quality and effectiveness and has been approved by the State of California Commission on Teacher Credentialing. A brochure describing the new program and its requirements is available in the English department.

Those planning to teach English on the secondary level should consult with the Credential Analyst in the Department of Education and should become acquainted with the specific requirements for admission to and successful completion of the Teacher Education Program as outlined in the Education section of this catalog.

Minor in English
A minimum of 30 hours (12 upper division) including the following:
ENGL 224 Literary Theory 4
ENGL 355 American Colonial and Romantic Periods 4
ENGL 465 English Medieval and Renaissance 4

A minimum of twelve hours from the following:
ENGL 356 American Realism and Naturalism (4)
ENGL 357 American Modernism (4)
ENGL 466 The Restoration & the Eighteenth Century (4)
ENGL 467 The Romantic Age (4)
ENGL 468 The Victorian Age in Britain (4)
ENGL 469 The Modern Age in Britain (4)
ENGL 470 Contemporary Literature (4)

*Also satisfies general studies requirements.
Minor in Writing

A minimum of 30 hours (12 upper division) including the following:

<table>

Optional alternative to ENGL 389 and 490:

ENGL 494 Writing Internship (3)

Selections from the following: 12-20

ENGL 348 Literary Genres (4)
JOUR 141 Newswriting and Reporting I (3)
JOUR 244 Copy Editing (2)
JOUR 443 Investigative Reporting (3)

English Language Program

Intensive English language study for international students who need to improve their English-language skills before entering a college degree program or before working or traveling in the United States. Also for American residents whose primary language is not English and who need to improve their second-language skills in English. (See “Admission of International Students,” page 20.)

Students who wish to enter the English Language Program should have completed beginning English before coming to the College. Instruction is given at the low-intermediate, intermediate, high-intermediate and advanced levels of proficiency. The lower and intermediate levels emphasize the development of social communication skills as well as reading and composition. The advanced level emphasizes the academic skills of reading selected literature, writing a library research paper, lecture note-taking, academic communication and test-taking.

Because the English Language Program is intensive, students enrolling in it should expect to take other college courses only after they have completed the advanced level of language proficiency. Advanced students who show adequate proficiency may enroll in supplementary college courses with the permission of the program director/adviser while they complete their language requirements. Students with TOEFL scores of 500–524 are required to plan their programs with two advisers, ESL and academic major; to take ESL support courses; and to take the TOEFL at the end of each quarter in residence. They may enroll for selected regular academic courses as approved by both the ESL adviser and the academic major adviser.

English as a Second Language

Service courses:
(May not be used for major or minor in this department)

ENSL 020 1 A, W, S, Su
**ESL Laboratory**

Practical language support in a laboratory setting customized according to the ESL student’s needs and interests in the following areas: personal and academic listening (L), pronunciation (P), vocabulary and idioms (V), test-taking practice (T), ESL computer practice (C). Three hours per week. May be repeated for credit.

ENSL 042 4 A, W, S, Su
**Grammar II**

For low-intermediate ESL students who need to review basic grammatical structures, word classes, verb tenses, and basic sentence patterns of the English language. Emphasis on accurate grammar usage in sentences and basic paragraphs.

ENSL 043 4 A, W, S, Su
**Grammar III**

For ESL students at the intermediate level of grammar proficiency. Intensive classroom instruction and homework provide a broad foundation of functional English grammar. Practice in identifying and writing various sentence structures.

ENSL 044 4 A, W, S, Su
**Grammar IV**

A high-intermediate course providing the ESL student instruction and experience in more complex grammatical structures of English in various types of composition.

ENSL 045 4 A, W, S, Su
**Academic Grammar V**

An advanced course providing intensive guidance in understanding and applying appropriate patterns of English grammar for academic purposes. Emphasis on self-editing.
ENSL 062  4 A, W, S, Su
Reading and Composition II
A course introducing the student with low-intermediate English skills to reading simplified literature for comprehension, vocabulary development, and various reading strategies. Selected topics motivate ESL students to improve their reading, to discuss what they have read, and to write simple essays about it.

ENSL 063  4 A, W, S, Su
Reading and Composition III
An intermediate reading course that develops the ESL student's appreciation for literature in English. In-class discussions and intensive homework assignments strengthen reading skills and develop the student's skill in writing in response to the literature.

ENSL 064  4 A, W, S, Su
Reading and Composition IV
A high-intermediate course that provides a challenging variety of reading that allows the ESL student to develop reading techniques. Encouragement of reading literature for pleasure and a focus on writing a variety of compositions, such as comparison-contrast, cause and effect, and persuasion in response to the literature.

ENSL 065  4 A, W, S, Su
Academic Reading and Composition
An advanced ESL course that further develops reading, writing, and discussion skills needed for success in college. Covers a variety of literature to improve reading comprehension and speed. Advanced writing of college essays in response to the literature.

ENSL 082  4 A, W, S, Su
Communication II
A low-intermediate course providing intensive classroom practice and homework exercises focusing on pronunciation, speaking and listening for practical needs in an English-speaking environment.

ENSL 083  4 A, W, S, Su
Communication III
An intermediate course providing intensive classroom practice and functional homework exercises to improve pronunciation, intonation, and fluency; to improve the ability to understand conversational English spoken at normal speed; and to develop speaking and listening skills for daily social needs and communication requirements at school, at work, and in common business interaction.

ENSL 084  4 A, W, S, Su
Communication IV
A high-intermediate course offering intensive classroom practice, homework exercises and projects, and cassette recordings; develops listening and speaking skills dealing with practical, social, professional, and academic topics.

ENSL 085  4 A, W, S, Su
Academic Listening and Speaking
An advanced course providing intensive classroom practice and outside exposure to academic communication situations such as lecture note-taking, asking and answering questions, making academic requests, negotiating, and clarifying. Prepares the precollege ESL student through role-playing of academic situations and visiting college classes.

ENSL 098  3 A, W, S, Su
English Language Test Preparation
Designed especially for ESL students preparing to pass the Test of English as a Foreign Language (TOEFL). A review of test-taking strategies and practice in testing in the following skill areas: listening comprehension, structure, written expression, reading, and vocabulary.

ENSL 100  1-3 A, W, S, Su
English for Special Purposes
Practical language application for ESL and other international students. Customized in response to student needs and interests in the following areas: advanced ESL composition, academic skills, foundations in general education, professional pronunciation, American culture and institutions, and understanding the Christian culture. May be repeated for credit under different subtitles.

English

Service courses:
(Not applicable toward a major or minor in this department)

Course Placement
The Department of English places students according to ACT scores and reserves the right not to place a student without ACT scores.

International students with a score of at least 500 on the TOEFL will be placed in English by means of a placement test given by the department. Placement may be in either ENGL or ENSL courses.

In either placement, students with language difficulties may need to take more than one English course each quarter, since College policy requires completion of ENGL 102 by the end of the sophomore year (see page 24).

ENGL 012  4 W
Developmental Reading
Emphasis is on reading for significant details, reading for the main idea, scanning, critical reading, rate flexibility, and vocabulary development.

ENGL 100  4 A, W, S
Introduction to Composition
For students shown by national test scores, secondary-school grades, and diagnostic testing to need strengthening in
their command of basic reading and writing skills. Emphasis on analytical reading, writing, and usage. Required of students who do not meet minimum standards for admission to ENGL 101.

**ENGL 101-102 4-4 A-W, W-S, Su**

**College English**

An integrated course in composition and reading. ENGL 101 emphasizes critical reading of thematic units, examining expository essays, short stories, and poetry. Writing includes the personal and expository essay but culminates in the use of library source materials and standard documentation. Course includes study of one full-length book in addition to other readings. ENGL 102 continues the critical reading of thematic units, including study of short stories, drama, and poetry. Use of library source materials is expanded and refined in the production of a research paper. ENGL 101 or equivalent is prerequisite to ENGL 102.

**ENGL 301 4 A, W, S**

**Great Books**

Thematically organized courses in works generally recognized as distinguished explorations and expressions of significant issues. Literature is selected from several genres, countries and time periods. Readings, lectures, discussions, reports and papers. May be repeated for credit under different subtitles. Prerequisites: ENGL 102 or equivalent; enrollment limited to juniors and seniors. Current subtitles include the following:

- **Boundaries**
- **Class and Gender**
- **Global Perspectives**
- **Heroes and Scapegoats**
- **Literature and Film**
- **Quest**

---

**LOWER-DIVISION COURSES:**

(ENGL 101-102 or equivalent is prerequisite to ENGL 224 and courses beyond.)

**ENGL 134 1 A**

**Review of English Syntax**

The classification and application of English grammar. Covers the following sentence components: subjects, objects, verbs, adverbs, adjectives, prepositions, connectors, phrases, clauses, etc.

**ENGL 141 3 A**

**Newswriting and Reporting I**

(See JOUR 141.)

**ENGL 142 3 W**

**Newswriting and Reporting II**

(See JOUR 142.)

**ENGL 224 4 A**

**Literary Theory**

Major literary theories of the twentieth century and their application to selected texts. Students begin developing a writing portfolio that is continued throughout the major and is presented during the Senior Seminar, ENGL 490.

**ENGL 291 1 A, W, S, Su**

**ESL Tutoring Practicum**

Methods in assisting ESL learners one-on-one in listening, speaking, pronunciation, reading, vocabulary, grammar, writing and American customs.

---

**UPPER-DIVISION COURSES:**

**ENGL 307 3 A**

**Composition Theory**

Emphasizes contemporary theories of composition and the writing process: inventing, composing, revising, and editing. Also includes developing assignments, designing writing courses, and assessment of student writing. Odd years.

---

**ENGL 330 4 W**

**Literature for Children**

(See also ECED 330.)

A survey of literature for children from infancy through grade six. Emphasizes literary quality and a broad knowledge of the best that has been written for children. Even years.

**ENGL 331 4 W**

**Literature for Adolescents**

(See also ECED 331.)

A survey of literature for children and adolescents from grade seven through senior high school. Emphasizes literary quality and a broad knowledge of the best that has been written for young readers. Odd years.

**ENGL 335 4 W**

**Survey of Linguistics**

Survey of linguistic concepts and methods: language development and second language acquisition; physiology of human speech; elementary phonology, morphology, syntax, and semantics; language change; dialectology; language and thought; ethical issues in language use. Prerequisite: ENGL 134 or permission of the instructor.

**ENGL 336 4 W**

**Second Language Acquisition**

How English is learned as a second language. Examination of each aspect of language learning: speaking, pronunciation, listening, grammar, reading, writing, and vocabulary development. Includes attention to cultural and individual learning differences. Opportunities are provided to tutor students of English as a Second Language. Required in Concentration in English Education and Concentration in ESL. Prerequisites: ENGL 134, 335. Odd years.
ENGL 337  4 S
ESL Teaching Methodology
Overview of current methods of teaching English as a Second Language. Concentrates on practical, innovative techniques that foster development of the ESL student’s listening, speaking, pronunciation, grammar, reading, writing, and vocabulary.

ENGL 336  4 A, W
Creative Writing
(See also JOUR 346 and MDIA 346.)
Techniques of and practice in writing various literary forms. May be repeated for up to twelve credits under different subtitles:
- Poetry
- Short Story
- Introduction to Screenwriting*
- Writing for Children**

ENGL 348  4
Literary Genres
May be repeated for credit under various subtitles: drama, novel, modern poetry, epic, myth and fairy tale, and the novel. Each course includes representative works from the genre under study. (May not be available every year. See each year’s Class Schedule for current offerings.)

ENGL 352  3
Theme Courses
Courses with an interdisciplinary focus, which may be repeated for credit under different subtitles: Northern California “Local Color” Writers; Twentieth-Century Christian Writers; and Women and Literature. (May not be available every year. See each year’s Class Schedule for current offerings.)

ENGL 355  4 A
American Colonial and Romantic Periods
A survey of American authors from colonial times through the romantic era, emphasizing historical context.

ENGL 356  4 S
American Realism and Naturalism
Selected authors from American realists and naturalists. Even years.

ENGL 357  4 W
American Modernism
Selected twentieth century American authors to 1950. Odd years.

ENGL 365  3 W
Seminar in American Slavery and Freedom
(See HIST 365.)
Even years.

ENGL 389  1 S
Junior Seminar
Techniques of literary research; choice of research topic for completion in ENGL 490 Senior Seminar.

ENGL 405  3 W
Advanced Expository Writing
(See also JOUR 405.)
Instruction and practice in different expository forms used in academic writing; workshop/seminar format. For students planning study in graduate or professional school. Odd years.

ENGL 434  4 S
Advanced English Syntax
A review of traditional English grammar, with an introduction to transformational-generative techniques. Prerequisites: ENGL 134, 335, or permission of the instructor. Odd years.

ENGL 443  4 S
ESL Curriculum Development and Classroom Management
Assessing and adapting current ESL teaching materials that meet specific learner needs. Includes techniques in successful ESL classroom management. Prerequisites: ENGL 336, 337. Odd years.

ENGL 444  2 A
ESL Testing
Techniques for assessing all ESL skill areas. Language program placement testing; emphasis on classroom evaluation techniques. Prerequisites: ENGL 336, 337. Even years.

ENGL 445  2 A
Cultural and Psychological Learner Differences
Effects on language learning of customs, values, language aptitude, motivation, learner strategies, personality, and interaction between learner characteristics and types of instruction. Even years.

The Period Courses in English Literature, ENGL 465-470

These courses explore a variety of genres and authors representing each literary “period” listed. Though the emphasis is on the reading of primary works, students also apply a variety of interpretive approaches to the literature.

ENGL 465  4 A
English Medieval and Renaissance
Selected British writers from the major authors in Medieval through Renaissance Ages, excluding Shakespeare.

ENGL 466  4 W
The Enlightenment
Selected British writers from the Restoration and Neoclassic tradition. Even years.
ENGL 467  4 S
The Romantic Age
  Selected British writers of the first third of the nineteenth century. Odd years.

ENGL 468  4 S
The Victorian Age in Britain
  Selected British writers from 1830 to 1880. Even years.

ENGL 469  4 S
The Modern Age in Britain
  Selected British writers from 1880 to 1950. Even years.

ENGL 470  4
Contemporary Literature
  Selected literature in English since 1950. Even years.

ENGL 474  4 W
Shakespeare
  A selection of Shakespeare’s histories, romances, tragedies, comedies, and poetry in the context of his times. Odd years.

ENGL 484  4 S
Literature of the Bible
  A study of the literary forms and themes in the Bible. Odd years.

ENGL 485  5 S
The Classical World
  (See HIST 485.)

ENGL 490  2 A
Senior Seminar
  Research and writing begun in ENGL 389 is completed during the fall quarter of the student’s senior year. Senior majors in English also complete and present the writing portfolios begun in ENGL 224 and continued throughout their major courses. In-Progress (“IP”) grading system.

ENGL 491  2
ESL Teaching Practicum
  Guided exposure to the ESL classroom through observation and supervised teaching. Prerequisites: ENGL 336 and 337.

ENGL 493  1 A
Senior Education Seminar
  Senior majors with a concentration in English Education prepare an edited portfolio of papers written for their major courses.

ENGL 494  3
Writing Internship
  Supervised experience in writing on the job. A student may apply for an internship for one quarter in a department-approved workplace (examples: a college public relations office, a hospital department of communications or development, or other nonprofit organization or public relations firm). From this supervised experience in writing the student presents a portfolio containing a variety of finished documents. This course may substitute for ENGL 389 and 489 (Junior and Senior Seminars) in the Writing Emphasis.

ENGL 495  1-3 A, W, S
Independent Study
  Maximum of three hours.

Drama

Service courses:
(May not be used for major or minor in this department)

Lower-division courses:

DRMA 229  3 W
Fundamentals of Dramatic Performance
  (See also COMM 229.)
  Fundamentals of improvisation, voice, movement, and acting. Development of stage presence. Introduction to character-

Upper-division course:

DRMA 492  1-2 A, W, S
Practicum in Drama
  Supervised experience directed by a professional in drama, involving work on a dramatic production. Approval of the departmental faculty required in advance. Thirty clock hours of experience required for each hour of credit. Prerequisite: DRMA 229.

Degrees and Programs
Physical Education with Teacher Education
   Emphasis, B.S. ............................................................... 123
Physical Education with Emphasis in Commercial
   Fitness Management, B.S. .............................................. 124
Foods and Nutrition, B.S. .................................................. 124
Foods and Nutrition, A.S. .................................................. 125

The Department of Exercise Science, Health and Nutrition serves the Pacific Union College community by providing opportunities for career development in sports professions, for instruction, and for participation.

The department has the following objectives:
• to give thorough instruction in the requirements for participation and leadership in sports activities,
• to develop a knowledge and understanding of health and safety concepts,
• to offer a wide variety of suitable activities, in and out of the classroom, in an environment that supports Christian values,
• to encourage each individual to achieve a high level of total fitness and neuromuscular coordination supporting a wholesome lifestyle, and
• to encourage daily vigorous exercise for everyone in all stages of life.

The Physical Education degree with emphasis in Teacher Education is designed for students wishing to become sports teachers. The Physical Education degree with emphasis in Commercial Fitness Management prepares students for employment in sports businesses. Each curriculum consists of core courses and emphases defining areas of specialization. Students are further assisted in career preparation through advising materials and personal counseling.

The major in Foods and Nutrition combines courses in food science, nutrition and food service administration with a strong foundation in chemistry, biology and the social sciences. The curriculum includes a Didactic Program in Dietetics, approved by the American Dietetic Association, completion of which is required for competitive placement in a dietetic internship and for taking the national Registered Dietitian (RD) examination. This major also provides a comprehensive foundation for pre-medicine, pre-dentistry, and institutional management practice in the food service and hospitality industries.

Major in Physical Education with Teacher Education Emphasis, B.S.
› 68 hours of professional and theory courses (39 upper division):
› Required Core Courses:
   ESAC 368   Water Safety Instructor 2
   ESAC 370   Lifeguard Training 2
   ESTH 166   Historical Foundations of Physical Education 2
   ESTH 170   Care and Prevention of Athletic Injuries 2
   ESTH 181   Basic Movement 2
   ESTH 182   Theory and Technique of Gymnastics 2
   ESTH 183   Theory and Technique of Track and Field 2

MGMT 261  Introduction to Management  3

Minor in Physical Education

A minimum of 30 hours (12 upper division) including the following:
ESTH 166  Historical Foundations of Physical Education  2
ESTH 170  First Aid and Personal Safety/CPR  2
ESTH 470  Management of Physical Education Programs  3
ESTH 471  Evaluation in Physical Education  3
ESTH  Theory and Technique courses chosen in consultation with ESHN department adviser  10
ESTH  Electives chosen in consultation with ESHN department adviser  10

Teaching Credential

The State of California Commission on Teacher Credentialing mandates that all teacher-education programs in Physical Education meet established standards of quality and effectiveness. The Department Exercise Science, Health and Nutrition maintains its physical education program for the secondary credential in harmony with the mandated standards.

Students are invited to discuss the requirements for a teaching credential with the Teacher-Education Adviser in the department. Those who plan to teach on the secondary level should consult the Credential Analyst in the Department of Education and should become acquainted with specific requirements outlined in the Education section of this catalog.

Major in Foods and Nutrition, B.S.

This major constitutes a Didactic Program in Dietetics (DPD) approved by the American Dietetic Association.

A minimum of 61 hours (36 upper division) including the following:

FDNT 132  Careers in Foods and Nutrition  1
FDNT 135  Food Science  3
FDNT 136  Gourmet Entertaining  3
FDNT 230  Food, Culture and Society  2
FDNT 235  Nutrition  4
FDNT 331  Quantity Food Management  4
FDNT 334  Food Systems Administration  4
FDNT 335  Nutritious Lifestyles  1
FDNT 336  Nutrition Throughout the Lifecycle  3
FDNT 337  Advanced Food Science  4
To become a Registered Dietitian (R.D.), one must complete a B.S. degree that includes a Didactic Program in Dietetics curriculum (the B.S. in Foods and Nutrition meets this requirement); complete an American Dietetic Association-accredited Dietetic Internship; and pass the national registration examination administered by the Commission on Dietetic Registration. Since placement in dietetic internships is highly competitive, and since many internships are associated with graduate school programs, a strong academic record and thorough preparation in basic sciences are necessary. As a minimum, the candidate should complete CHEM 111-112-113, 371-372-373, and 381.

Most nutrition-related careers within health care require Registered Dietitian credentials. Most food-service management careers in health care, school food service, and commercial food service do not require these credentials.

**Associate Degree in Foods and Nutrition, A.S.**

A progressive program leading to the A.S. degree after two years, following which the student may continue with the four-year Foods and Nutrition major or complete the Coordinated Program requirements (CP) at an ADA-accredited university*.

Students electing to take an A.S. degree can pursue professional careers in hospital, restaurant, and school nutrition and dietary departments.

**A minimum of 31 hours including the following:**

- **FDNT 132** Careers in Foods and Nutrition 1
- **FDNT 135** Food Science 3
- **FDNT 136** Gourmet Entertaining 3
- **FDNT 235** Nutrition 4
- **FLHD 490** Issues in Contemporary Society 2
- **FDNT 230, FDNT 331, FDNT 334, FDNT 335, FDNT 336, FDNT 337, FDNT 435, FDNT 436, FCSC 415, CLTX 321, MGMT 160.**

---

*a To meet the requirements of the Loma Linda University ADA-accredited Coordinated Program, the following cognate courses must be taken, bringing the total number of hours for the major plus electives and general education to 102 hours:

- **ANTH 124** Cultural Anthropology 4
- **BIOL 101** Human Anatomy 4
- **BIOL 102** Human Physiology 5
- **CHEM 111-112-113** General Chemistry 4-4-4
- **COMM 105** Speech Communication 3
- **MICR 134** General Microbiology 5
- **PSYC 121** General Psychology 4
- **SOCI 121** Introduction to Sociology 4

Additional hours in humanities 8
Exercise Science, Health and Nutrition

Minor in Foods and Nutrition

- A minimum of 30 hours (12 upper division) including the following:
  - FDNT 135  Food Science  3
  (or FDNT 136 Gourmet Entertaining)
  - FDNT 235  Nutrition  4
  - FDNT 334  Food Systems Administration  4
  - FDNT 336  Nutrition Throughout the Life Cycle  3
  (or FDNT 437 Community Nutrition)

Health

HLED 162  2 A, W, S
Fitness for Life
  An introduction to the philosophy of health, aimed at lasting nutritional and physical conditioning patterns that promote a high level of well-being. Emphasis on the prevention of heart disease, obesity, and stress. Laboratory evaluation in body composition, blood analysis, stress testing, and the treadmill.

HLED 166  2 A, W, S
Health Education
  A course designed to encourage the development of self-awareness and to promote “wellness” as a life-long personal investment. Emphasis on protection and effective use of human and ecological resources, acquiring skills for individual responsibility, and decision-making for health. Emphasis on Seventh-day Adventist health principles. Treats substance abuse and nutrition as required for SDA and California teaching credentials.

HLED 169  2 W
Current Health Concerns
  Emphasis on the background and cause of common health problems of the adult as well as prevention and treatment. Designed to promote physical vitality and a sense of well-being.

Physical Education Activity

ESAC 100
Adaptive Physical Education
  Requires physician’s certification of need.

Noncredit courses:

ESAC 458
Noncredit Work Activity
  Supervised vigorous outdoor work such as woodcutting, rock hauling, etc. Satisfactory completion satisfies one quarter of the general-education activity requirement.

ESAC 459
Noncredit Recreational Activity
  Supervised independent participation in a variety of recreational activities arranged in consultation with the physical education faculty. Satisfactory completion satisfies one quarter of the general-education activity requirement.

Aerobics

Lower-division courses:

ESAC 101A
Jogging

ESAC 103A
Physical Fitness

ESAC 105A
Fitness for Women

ESAC 107A
Swim and Stay Fit

ESAC 109A
Hydro-Aerobics

Upper-division courses:

ESAC 302A
Road Racing
  Prerequisite: ESAC 101A or permission of instructor.

ESAC 304A
Cycling

ESAC 305A
Intermediate Mountain Biking
  Even years.

ESAC 308A
Aerobics

Aquatics

Lower-division course:

ESAC 158
Elementary Swimming

Upper-division courses:

ESAC 358
Intermediate Swimming

ESAC 360
Advanced Swimming
ESAC 368  
Water Safety Instructor  
Prerequisite: ESAC 370D.

ESAC 370  
Lifeguard Training  
Prerequisite: ESTH 170 or CPR and FA certificates.

Individual and Dual Sports

Lower-division courses:

ESAC 133  
Mountain Biking  
1

ESAC 171  
Pickleball  
1

ESAC 174  
Elementary Badminton  
1

ESAC 176  
Elementary Weight Training  
1

ESAC 178  
Canoeing  
1

ESAC 180  
Elementary Golf  
1

ESAC 190  
Elementary Self-Defense Activities  
1

ESAC 192  
Elementary Skiing  
1

ESAC 194  
Elementary Tennis  
1

ESAC 196  
Advanced Beginning Tennis  
1

ESAC 199  
Elementary Tumbling  
1

ESAC 374  
Intermediate Badminton  
1

ESAC 376  
Intermediate Weight Training  
1

ESAC 378  
Intermediate Golf

Professional and Theory

Lower-division courses:

ESTH 166  
Historical Foundations of Physical Education  
2 A

History of physical education, health and recreation. Effects of social expectations and world events on views of physical education and sports. An introduction to careers in these and related fields.
**Exercise Science, Health and Nutrition**

**ESTH 170 2 A**  
Care and Prevention of Athletic Injuries  
Care and prevention of injuries associated with coaching and teaching sport and game activities in a school setting. Topics include sprains, bleeding, fractures, exposure to heat and cold, seizures, heart attacks, accidental exposure to poisons and chemicals, and other injuries requiring immediate medical attention.

**ESTH 181 2 A**  
Basic Movement  
Fundamentals of body movement, posture, conditioning exercises, self-testing activities; selection, evaluation, and organization of social recreational activities. Odd years.

**ESTH 182 2 W**  
Theory and Technique of Gymnastics  
Analysis of and practice in elementary stunts in tumbling, pyramid building, apparatus, and methods of spotting for safety. Odd years.

**ESTH 183 2 S**  
Theory and Technique of Track and Field  
Practice sessions and drills for developing fundamental skills and special abilities; study of rules and officiating techniques; consideration of practice scheduling and strategy. Odd years.

**ESTH 260 2 A**  
Theory and Technique of Football  
Practice in and theory of flag football. Development of fundamental skills of the game; analysis of skills, techniques, team strategy, and rules. Even years.

**ESTH 261 2 A**  
Theory and Technique of Volleyball  
Practice in and theory of volleyball. Development of fundamental skills of the game; analysis of skills, techniques, team strategy, and rules. Even years.

**ESTH 262 2 W**  
Theory and Technique of Basketball  
Analysis and practice of skills and team play; interpretation of rules; strategy and techniques of teaching. Even years.

**ESTH 263 2 S**  
Theory and Technique of Softball  
Practice in and theory of softball. Development of fundamental skills of the game; analysis of skills, techniques, team strategy, rules and officiating procedures. Even years.

**ESTH 264 2 S**  
Theory and Technique of Soccer  
Practice and theory of soccer. Development of fundamental skills of the game; analysis of skills, techniques, team strategy and rules.

**ESTH 265 3 S**  
Outdoor Experience  
Theory and practice in camping, hiking, backpacking and canoeing techniques. Ecological considerations; equipment and food selection, outdoor cooking and orienteering.

**ESTH 266 3 S**  
Sports, Culture, and the Individual  
The implications of sports in society and on individual development. Emphasis on analysis of sports phenomena with a view to understanding individual and group dynamics. Odd years.

**ESTH 267 3 A**  
Kinesiology  
A study of joints and muscular structure and their relation to physical exercise.

**ESTH 268 3 W**  
Physiology of Exercise  
A non-laboratory course emphasizing the physiological effects of muscular exercise, physical conditioning, and training. Significance of these effects for health and for performance in activity programs. Prerequisite: ESTH 371 or permission of the instructor. Odd years.

**ESTH 269 3 S**  
Corrective Physical Education  
Common deviations of posture and feet; functional disturbances and crippling conditions found in school children. Survey of source material needed to plan and conduct individual, developmental, and special courses in physical education in the schools. Odd years.

**Upper-division courses:**

**ESTH 360 3 A, W, S**  
Volunteer Service  
Supervised practical experience in a variety of settings.

**ESTH 365 3 S**  
Outdoor Experience  
Theory and practice in camping, hiking, backpacking and canoeing techniques. Ecological considerations; equipment and food selection, outdoor cooking and orienteering.

**ESTH 366 3 S**  
Sports, Culture, and the Individual  
The implications of sports in society and on individual development. Emphasis on analysis of sports phenomena with a view to understanding individual and group dynamics. Odd years.

**ESTH 371 3 A**  
Kinesiology  
A study of joints and muscular structure and their relation to physical exercise.

**ESTH 372 3 W**  
Physiology of Exercise  
A non-laboratory course emphasizing the physiological effects of muscular exercise, physical conditioning, and training. Significance of these effects for health and for performance in activity programs. Prerequisite: ESTH 371 or permission of the instructor. Odd years.

**ESTH 373 3 S**  
Corrective Physical Education  
Common deviations of posture and feet; functional disturbances and crippling conditions found in school children. Survey of source material needed to plan and conduct individual, developmental, and special courses in physical education in the schools. Odd years.
Exercise Science, Health and Nutrition

**ESTH 374**  
3 W  
**Motor Learning**  
Physiological and psychological instructional considerations for learning, skill acquisition, and performance as applied to motor skills. Prerequisites: PSYC 121, BIOL 101, 102. Even years.

**ESTH 381**  
2 A  
**Theory and Technique of Racquet Sports**  
Analysis of and practice in strokes and tactics; rules, history and skill progression for various levels of instruction. Odd years.

**ESTH 384**  
2 W  
**Theory and Technique of Rhythmic Activities**  
Development of personal and teaching skills for theoretical and practical application of rhythms: the leadership of aerobic exercise, dramatic and creative play, folk rounds, and other activities. Development of skills for personal combative activities and techniques for teaching such skills. Odd years.

**ESTH 460**  
10 W  
**Internship**  
Advanced leadership training under supervision in a clinical setting.

**ESTH 461**  
2 W  
**Coaching I**  
Designed to develop skills for coaching athletic teams. Development of philosophies in harmony with Seventh-day Adventist principles concerning athletic events. Skills in team building and strategies. Practical experience included. Odd years.

**ESTH 461L**  
1 W  
**Coaching I Lab**

**ESTH 466**  
4 W  
**Legal and Financial Aspects of Physical Education Programs**  
Budgeting practices and law as it applies in sports professions. Even years.

**ESTH 467**  
1 W  
**CPR Instruction**  
Meets the American Red Cross requirements for Instructor of Cardiopulmonary Resuscitation. Odd years.

**ESTH 470**  
3 A  
**Management of Physical Education Programs**  
Relationship of physical education to modern education theory. The organization of physical education activities, organization and classification of pupils; emphasis on the arrangement and construction of equipment and planning of school programs suitable to denominational schools. Odd years.

**ESTH 471**  
3 W  
**Evaluation in Physical Education**  
Scientific testing in physical education: analysis and study of tests, diagnosis of physical efficiency, and physiological reactions to exercise. Evaluation of programs and student achievement through measurement technique. Odd years.

**ESTH 476**  
3 A  
**Physical Education for Children**  
Activity interests of children and appropriate materials for different age levels; selection of materials and methods of presentation. Satisfies one quarter of the general-education activity requirement. Two lectures and one laboratory weekly.

**ESTH 483**  
2 S  
**Theory and Technique of Weight Training and Developmental Physical Education**  
Theory and technique of weight training, analysis of exercises for the atypical student and correction of postural deviations. Open to department majors and minors. Prerequisite: ESTH 373 or permission of instructor. Even years.

**ESTH 490**  
2 W  
**Ethics in Physical Education**  
The power of religion in developing Christian professionals in health, physical education and recreation. Concepts of the way God, man and Spirit relate to one another; development of Christlike leadership qualities in both instructors and students.

**ESTH 495**  
1-3 A, W, S, Su  
**Independent Study**  
Open by permission of the department chair to advanced students with adequate background and experience. Maximum of three hours.

---

**Foods and Nutrition**

Lower-division courses:

**FDNT 132**  
1 S  
**Careers in Foods and Nutrition**  
The development, scope, and characteristics of professions associated with foods, nutrition, dietetics, and food-systems management; introduction to professional organizations and literature; awareness of career opportunities.

**FDNT 134**  
2 S  
**Creative Cuisine**  
Principles of food selection, preparation, and garnishing; service of dinner parties. One lecture and one laboratory weekly. Lab fee.
Exercise Science, Health and Nutrition

FDNT 135  3 A  
Food Science  
An experimental approach to the fundamentals of food production, composition, selection, and preparation. Emphasis on sanitation, energy conservation, and healthful preparation techniques. Two lectures and one laboratory weekly. Lab fee.

FDNT 136  3 W  
Gourmet Entertaining  
Basic principles of purchasing food and making menus; of preparing and serving family and entertainment meals, including receptions. Emphasis on nutritional, aesthetic, psychological, and economic aspects. Two lectures and one laboratory weekly. Lab fee. Prerequisite: FDNT 135 or permission of the instructor.

FDNT 175  2 A, W, S  
Personal Nutrition  
The basic principles of nutrition, drug use and abuse, and physical fitness. Provides a factual knowledge-base for the consumer of nutrition information to evaluate nutrition issues accurately. Seeks to motivate individual responsibility for a positive lifestyle. (Not applicable toward an A.S. or B.S. in Nursing. May not be substituted for FDNT 235.)

FDNT 187  3  
Catering Management  
Special-occasion catering, emphasizing costing and menu planning. Arranged laboratory involves catering a function, including planning through preparation and service of the meal. Even years.

FDNT 230  2 S  
Food, Culture, and Society  
The role of culture, religion, socioeconomic status, ethnicity, and psychological and symbolic factors that affect food and nutrition behavior. One lecture and one laboratory weekly. Lab fee. Prerequisite: PSYC 121 or permission of the instructor.

FDNT 235  4 A, W, S  
Nutrition  
Principles of nutrition, emphasizing nutritional requirements, dietary sources of nutrients, nutrient utilization, effects of nutrition on energy intake and weight control, fitness, disease prevention, and life cycle.

Upper-division courses:

FDNT 331  4 W  
Quantity Food Management  
Application of food-systems operation to include quantity food procurement, production planning, preparation, and evaluation in institutional settings; use and care of large equipment; HACCP sanitation principles; use of standardized recipes in quality assurance; computer-assisted food-service management. Three lectures and one laboratory weekly. Prerequisites: FDNT 135, 334, or permission of the instructor. Even years.

FDNT 334  4 W  
Food Systems Administration  
Organization, staffing, management, and administration of institutional food-service operations. Includes design, layout, and equipping of institutional food services. Three lectures and one laboratory weekly. Prerequisite: FDNT 135. Even years.

FDNT 335  1 W  
Nutritious Lifestyles  

FDNT 336  3 W  
Nutrition Throughout the Lifecycle  
A study of the nutritional needs of the individual from fetal development to old age. Prerequisite: FDNT 235 or permission of the instructor. Even years.

FDNT 337  4 S  
Advanced Food Science  
Scientific principles and procedures concerned with complex phases of food components, selection, preparation, and preservation. Includes individual experimentation. Three lectures and one laboratory weekly. Prerequisites: FDNT 135 and CHEM 102 or equivalent. Odd years.

FDNT 434  4 W  
Advanced Nutrition  
In-depth study of nutrients and their role in human metabolism, with application to meeting human needs under various world conditions. Includes the nutritional care process and assessment, care planning, methods of nutrition support, drug-nutrient interaction, and nutrition for health and fitness. Prerequisites: FDNT 235; majors in Foods and Nutrition must have BIOL 102 or 346 and CHEM 103 or 373. Odd years.

FDNT 436  5 W  
Medical Nutrition Therapy  
The effect of disease on body metabolism with emphasis on the dietary adjustments necessary to maintain or restore health. Prerequisites: FDNT 435, CHEM 103, BIOL 102, or instructor’s permission. Odd years.
**FDNT 437**

**Community Nutrition**

Survey of national and local nutrition needs and of programs designed to alleviate nutrition problems. Field experience in the local area. Two lectures and one laboratory weekly. Prerequisites: FCSC 415, FDNT 235, PSYC 121. Even years.

**FDNT 494**

**Seminar in Dietetics**

The laws, regulations, standards, and ethics affecting dietetics practice. Fundamentals of marketing food and nutrition services. Examination of recent research in dietetics practice. One lecture weekly. Prerequisite: FDNT 334, 436. Odd years.
Faculty

Degrees and Programs

History, B.A. ................................................................. 133
Teaching Credential ..................................................... 134
Subject Matter Program in Social Science ..................... 134

Students in the Department of History and Social Studies explore the civilizations of Africa, Asia, Europe, North America, and South America. Using original and secondary written sources, films, and other documents, and through field trips and summer study programs outside the United States, departmental faculty work with their students in the study of geography, history, and political science.

Scholarship is encouraged and recognized by membership in Phi Alpha Theta, the history honors society, and through debates, lectures, and student and faculty presentations sponsored by Pacific Union College’s Alpha Zeta Theta Chapter.

Students have access to the Utt Memorial Library in the department’s seminar room and the adjacent Honors Program Common Room. Faculty-student suppers and discussion groups complete the collegial and friendly atmosphere, the hallmark of the department.

Major in History, B.A.
➢ A minimum of 50 hours (30 upper division) including the following:

Basic Courses:
HIST 101-102 A History of World Civilizations 4-4
HIST 134-135 History of the United States 4-4
(Majors planning to take the sequence HIST 355, 356, 357, and 358 do not register for HIST 134-135.)
HIST 290 Seminar in the Study of History 2
HIST 320 Christian History: To 1500 3
(or HIST 321 Christian History: 1500 to the Present)
HIST 490 Seminar in Philosophy of History 3
HIST 499 Senior Seminar 2-2

Additional selections from courses offered by the department.
• A minimum of eight hours in upper-division World history 8
• A minimum of eight hours in upper-division American history 8
• Courses in geography and political science may apply toward the major after consultation with and approval by a faculty adviser.

Major in Social Studies, B.S.
➢ A minimum of 62 hours (27 upper division) including the following:

HIST 290 Seminar in the Study of History 2
HIST 490 Seminar in Philosophy of History 3
HIST 499 Senior Seminar 2-2

• Twenty-seven additional hours of history or 30 hours of political science 27-30
• Six hours each from three other areas of social studies: 18 (economics, geography, history, political science and sociology)
• Electives for those interested in social work, law, teaching, or medicine should be chosen in counsel with the major adviser.
Teaching Credential: Subject Matter Program in Social Science

The program leading to the teacher education credential in Social Science, which follows, satisfies the standards mandated by the Department of Education, State of California. The program includes a basic core of at least 53 quarter hours of course work in history and social science subjects that are commonly taught in California public schools (history and geography of the world, the United States and California; government; economics; and the behavioral sciences), and at least 34 additional quarter hours to provide breadth and perspective, for a minimum of 87 hours. Students completing the program will also have met the requirements for the B.S. degree in Social Studies offered by the department.

Subject-Matter Program in Social Science

- **Required core courses: a minimum of 53 quarter hours:**

Additional Requirements for the Subject-Matter Program in Social Science:

In addition to the specific courses that meet the requirements mandated by the State of California for single subject-matter programs in Social Science, the teacher-education program in Social Science includes teaching experience and the development of a portfolio.

Within the first two years of the program each student must complete EDUC 101 Introduction to Teaching and EDUC 101L Introduction to Teaching Lab.

Throughout the course of study each student under departmental supervision develops a portfolio demonstrating his or her knowledge and work in social science. The portfolio includes a research essay from HIST 290 Seminar in the Study of History; a critical essay from HIST 490 Seminar in the Philosophy of History; a research paper from HIST 499 Senior Seminar; a project from GEOG 301 World Regional Geography; and other selected work.

Minor in History

- **A minimum of 30 hours (12 upper division) including the following:**

Economics

(See Business Administration and Economics for course descriptions.)

Geography

Upper-division courses:

GEOG 301 3 W
World Regional Geography
A survey of regions of the world, demonstrating cultural, historical, climatic, and economic similarities or diversities. Emphasis on current developments. Even years.

GEOG 327 3 W
Geography of the Americas
A study of climate, natural resources, political, and economic geography of North and South America. Odd years.

History

Lower-division courses:

HIST 101-102 4-4 A-W, W-S
A History of World Civilizations
An examination, based on secondary and primary texts, of the major characteristics and developments in world civilizations. Also integral: discussion of history’s place in the liberal arts and of the problems of the historical method.

HIST 134-135 4-4 A-W, W-S
History of the United States
A survey of the United States from colonial beginnings to the present time. The central theme is the growth of American democracy with its implications for government and society, racial and religious minorities and the emergence of the nation as a world power.

HIST 290 2 A
Seminar in the Study of History
An introduction to writing history, featuring research techniques and use of style manuals and culminating in a paper based on original sources.

Upper-division courses:

HIST 320 3 W
Christian History: To 1500
Developments in the Christian Church from its pre-Christian origins to the Renaissance. Special emphasis on those social, political, intellectual, and religious pressures that brought significant change to the Church and its teachings. Detailed examination of significant works by major Christian figures.

HIST 321 3 S
Christian History: 1500 to the Present
Developments in the Christian Church from the beginnings of “the modern world” to the present day. Emphasis on the effects on the Church of major cultural movements, such as the Reformation, the Enlightenment, colonization and imperialism, modern warfare, and ecumenism. Detailed examination of significant works by Christians in response to “the modern world.”

HIST 334 4 A
Nineteenth-Century Europe
An examination of political, social, and religious trends during the century following the Treaty of Vienna, including the decline of absolutism and the rise of parliamentary democracy, socialism, and nationalism. Odd years.

HIST 335 4 A
Europe Since 1914
The contemporary world with Europe as the focal point. Problems of ideology and power politics in relation to the two world wars, as well as efforts at international organization and the impact of the Cold War. Even years.

HIST 337 3 S
History of California
An introduction to geographic, economic, social, and historical factors which have contributed to the development of California. Odd years.

HIST 340 4 S
Adventist History and the Ministry of Ellen G. White
An interdisciplinary course covering theological and historical issues important to an understanding of the Advent Movement and the ministry of Ellen G. White. Special treatment of an adequate hermeneutic for the writings of Ellen G. White. Meets the requirement in Prophetic Guidance and Denominational History for SDA teaching credentials.

HIST 355 4 W
Colonial America
A survey of the discovery, settlement, and growth of the European colonies in America, emphasizing those religious, political, and economic developments, particularly in the English colonies, that prepared the way for independence. Even years.

HIST 356 4 W
The New Nation: 1763-1845
A survey of the formative period of American national identity between 1763 and 1845. Includes intensive study of the creation and development of the U.S. Constitution. Odd years.
### History and Social Studies

**HIST 357**  
Division and Reunion: 1845-1917  
The basic issues of the nature of the Union and of slavery, the immediate and permanent effects of the Reconstruction on America’s society and government, industrialization, and the close of the frontier. Even years.

**HIST 358**  
America Since 1917  
A study of the rapid changes in American society, economy, and politics in the modern era, emphasizing the nation’s emergence as a world power. Odd years.

**HIST 364**  
Modern Asia  
A survey of historical, political, social, and cultural developments, emphasizing the nineteenth and twentieth centuries and the rise and decline of European imperialism. Odd years.

**HIST 365**  
Seminar in American Slavery and Freedom  
(See also ENGL 365.)  
A cultural and political study of African-Americans in the history of the United States. Primary texts, including novels, essays, poetry, and biography, are used to examine the impact of slavery, emancipation, and segregation upon American democracy. Even years.

**HIST 366**  
Modern Latin America  
A history of Latin America since the early nineteenth century. Emphasis on cultural, political, and economic trends. Odd years.

**HIST 380**  
History and Philosophy of Science  
The historical roots of modern science, the nature of scientific knowledge, its development and methodology, the impact of science on culture (and vice versa), and the influence of philosophical and theological concepts on science. Meets in part the college-level Science/Mathematics general-education requirement and is one of the electives of the Honors Program. Prerequisites: PHYS 105 or CHEM 105, or equivalent, and PHIL 101 or permission of the instructor. Even years.

**HIST 400**  
Religion in American Culture  
A survey of American religious history and its impact on American culture. Emphasis on how religious belief and practice have influenced and been influenced by the development of American identity. Odd years.

**HIST 420**  
Renaissance and Reformation Europe  
European history from the fourteenth to seventeenth centuries, when experiments in art, literature, political theories and systems, and religion were a prominent feature of society. The causes of such developments as the Renaissance and the Reformation; ideas about the classical world, the modern age, and European identity. Odd years.

**HIST 423**  
Medieval Europe  
The vital period from 300 to 1500 saw the creation of Europe. The priorities and characteristics of the civilization were determined in the emergence of a multifaceted medieval society, a discrete historical entity, and ancestor of the modern world. Even years.

**HIST 425**  
Reason and Revolution  
European history from 1648 to 1815, with special attention to the effect of the Age of Reason on the modern mind, the growth of the bureaucratic state, and the impact of the era of revolution. Even years.

**HIST 434**  
The History of Modern Russia  
A survey of Russian political, social, and intellectual development in the nineteenth and twentieth centuries. Odd years.

**HIST 440**  
Religion in American Culture  
A survey of American religious history and its impact on American culture. Emphasis on how religious belief and practice have influenced and been influenced by the development of American identity. Odd years.

**HIST 445**  
Modern Britain  
Survey of the political, social, and economic history of Britain in the nineteenth and twentieth centuries. Treats such major themes of the period as imperialism, the Irish question, the reform of Parliament, the changing role of women in society, the development of the Labour Party, the Welfare State, and the secularization of Britain. Even years.

**HIST 485**  
The Classical World  
(See also ENGL 485.)  
Ancient Greece and Rome studied through primary texts, including Greek and Roman epics, dramas, histories, and philosophical works. Even years.

**HIST 490**  
Seminar in the Philosophy of History  
A survey of various approaches to interpreting history and social studies. Designed to assist in the development of a Christian philosophy of history. Required for departmental majors. Two hours of credit may be applied toward the general-education requirement in religion. Odd years.

**HIST 495**  
Independent Study  
An individual research course open by permission of the department chair to advanced students with an adequate background. Maximum of three hours.
HIST 499 2 A, W, S
Senior Seminar
Continuation of the study of research methods introduced in HIST 290 combined with selected readings from historians representing different historical and critical methods. Requires completion of an individual research project based on primary sources and its presentation to students and faculty in the department. Enrollment limited to upper-division students.

Political Science

Lower-division courses:

PLSC 124 3 A
Introduction to American Government
The basic elements of the development and functioning of the American machinery of government and a study of the political processes, both formal and informal, in which the citizen is involved.

PLSC 274 3 A
Introduction to Political Thought
An introduction to the perennial questions and major thinkers in this area of philosophy.

Upper-division courses:

PLSC 328 3 S
Critical World Issues
An important issue is selected by the instructor, discussed in class, and studied as a research topic. May include one or more of the following: the elements of national power, the dynamics of state conflict, national traits and policy patterns, the role of ideologies or moral considerations in the decision-making process, and the relationship between a society’s world view and the realities of policy-making. May be repeated for credit when a new issue is studied. Even years.

PLSC 334 3 W
History of Political Thought I
A study of selected ancient and medieval political theorists. Prerequisite: PLSC 274. Odd years.

PLSC 335 3 S
History of Political Thought II
A study of the political philosophy of selected modern political thinkers. Prerequisite: PLSC 274. Odd years.

PLSC 344 3 W
Modern Comparative Government
The theory and function of typical governments, with special attention to their effects upon their citizens and the relative success with which they meet the needs of their societies. Even years.

PLSC 444 4 A
Constitutional Development of England
The growth of British institutions from Roman times to the present, with special emphasis on the development of parliamentary and legal systems. Odd years.

PLSC 485 3 A
Foreign Relations of the United States
A study in depth of episodes selected from the history of American foreign relations to illustrate the development of U.S. foreign policy. Odd years.

PLSC 495 1-3 A, W, S
Independent Study
An individual research course open only by permission of the department chair to advanced students with an adequate background. Maximum of three hours.

Sociology

Degrees and Programs
Actuarial Certification ............................................... 139
Teaching Credential .................................................... 139
Mathematics, B.S. ....................................................... 140

MATHEMATICS is a science of pattern and order. Its domain is not molecules or cells, but numbers, chance, form, algorithms, and change. As a science of abstract objects, mathematics relies on logic rather than on observation as its standard of truth, yet employs observation, simulation, and even experimentation as means of discovering truth. Modern mathematics is a creative counterpoint of computation and deduction, rooted in data while unfolding in abstraction.

The Department of Mathematics provides courses for future mathematicians, teacher education, general education, and programs in other departments. A common goal of each course is that each student, through mathematical reasoning, will solve problems with confidence.

Students majoring in mathematics will have experience with mathematical modes of thought which include modeling, abstraction, optimization, logical analysis, inference from data, and use of symbols. They will be prepared to solve mathematical problems, analyze abstract arguments, synthesize and write careful proofs, and apply mathematical reasoning to other settings.

Actuarial Certification
Students interested in passing the examinations for actuarial certification should confer with departmental faculty. The following courses are recommended: MATH 131-132-133, 222, 265, 267, 322, 331-332, 371-372, and INFS 470.

Teaching Credential
The State of California Commission on Teacher Credentialing mandates that all teacher-education programs in mathematics meet newly established standards of quality and effectiveness. The Mathematics department has received approval for its revised teacher-education program in mathematics. Students desiring to enter a program of studies leading to a California teaching credential in mathematics should take the Mathematics Education Emphasis. Students are invited to discuss the requirements for a teaching credential with the Teacher Education Adviser in the Mathematics department. A brochure describing the program and its requirements is available upon request.

Students who plan to teach on the secondary level should consult with the Credential Analyst in the Department of Education and should become acquainted with the specific requirements for admission to and successful completion of the Teacher Education Program as outlined in the Education section of this catalog.
Major in Mathematics, B.S.

A minimum of 60 hours (30 upper division) in mathematics and related electives including the following:

MATH 131-132-133 Calculus I-II-III 4-4-4
MATH 222 Introduction to Statistics 4
MATH 265 Elementary Linear Algebra 4
MATH 269 Elementary Differential Equations 4
MATH 275 Logic and Sets 4
MATH 331 Probability and Statistical Theory I 3
MATH 351 Introduction to Abstract Algebra I 3
MATH 390 Seminar 1
MATH 421 Elementary Real Analysis I 3
MATH 490 Senior Seminar 1

Elective hours may be selected from Mathematics courses, upper-division Computer Science courses, and courses listed in Required Cognate Courses (below).

Required Cognate Courses:

CPTR 115 Computer Programming 4
(or CPTR 131 Computer Science)

A minimum of 4 hours from the following courses, which use mathematical methods in other disciplines: 4

Biol 354 Genetics (4)
Biol 396 Seminar (may be repeated) (.5)
Chem 351-352 Physical Chemistry for Life Sciences (3-3)
Chem 396 Seminar (may be repeated) (.5)
Chem 451-452-453 Physical Chemistry (3-3-3)
Engr 211-212-213 Engineering Mechanics (3-3-3)
Fin 341 Finance (5)
Inf 470 Management Science (4)
Mktg 371 Marketing Research (3)
Phys 211-212-213 Physics (4-4-4)
Phys 396 Seminar (may be repeated) (.5)
Psy 322 Research Design (4)
Psy 323 Intro. to Experimental Psychology (4)

Emphas (choose one):

1. Pure Mathematics Emphasis

   This emphasis provides a theoretical background for advanced studies in mathematics and related areas, such as statistics, computer science, and physics. Such advanced studies serve as preparation for college and university teaching as well as mathematical and other scientific research.

   MATH 267 Vector Calculus 4
   MATH 352 Introduction to Abstract Algebra II 3
   MATH 422 Elementary Real Analysis II 3

Two of the following courses: 7-8
MATH 332 Probability and Statistical Theory II (3)
MATH 425 Complex Variables (4)
MATH 465 Linear Algebra (4)

2. Applied Mathematics Emphasis

   This emphasis is designed for mathematics-related careers in medicine, government, business, and industry. It provides appropriate background for further study leading to specialties in actuarial science, operations research, and applied statistics. Highly recommended: Completion of a minor in Biology, Business Administration, Chemistry, Computer Science, Physics, or Psychology.

   MATH 322 Statistical Methods 3
   MATH 332 Probability and Statistical Theory II 3
   MATH 355 Discrete Methods 4
   MATH 375 Numerical Analysis 4
   MATH 385 Mathematical Modeling 4

3. Mathematics Education Emphasis

   This emphasis satisfies the mathematics course requirements for a California secondary teaching credential. (For additional credential requirements, refer to the Teacher Education Program as outlined in the Education section of this catalog).

   MATH 341-342 Geometries I-II 3-3
   MATH 354 Number Theory 3
   MATH 355 Discrete Methods 4
   MATH 385 Mathematical Modeling 4
   MATH 451 History of Mathematics 3

Minor in Mathematics

A minimum of 30 hours (6 upper division) including the following:

MATH 131-132-133 Calculus 4-4-4
MATH 265 Elementary Linear Algebra 4

The following elective courses are especially recommended for those planning on secondary level teaching:

MATH 275 Logic and Sets (4)
MATH 341-342 Geometries (3-3)
MATH 351 Introduction to Abstract Algebra (3)

The following elective courses are especially recommended for those majoring in engineering or a physical science:

MATH 267 Vector Calculus (4)
MATH 269 Elementary Differential Equations (4)
Mathematics

Service courses:  
(May not be used for major or minor in this department)

MATH 019  4 A, W, S  
Introductory Algebra  
Basic concepts and techniques of algebra for students without recent experience in algebra. Integers, algebraic expressions, first-degree equations, simple rational expressions and proportions, integer exponents, scientific notation, polynomials and factoring, solving equations by factoring, graphing, and systems of linear equations.

MATH 096  4 A, W, S  
Intermediate Algebra  
For students needing additional experience with algebra before enrolling in MATH 106. Factoring, linear and quadratic equations, linear inequalities, functions, graphs, rational expressions, rational exponents and radicals, equations involving rational and radical expressions, complex numbers, and systems of equations. Prerequisite: MATH 019 or equivalent.

MATH 106  4 A, W, S  
College Algebra  
Beginns with a quick review of intermediate algebra, including rational exponents and radicals, complex numbers, linear and quadratic equations, and inequalities. Also includes binomial theorem, composition and inverse of functions, exponentials and logarithms, arithmetic and geometric progressions. Other topics may include further study of polynomials and/or linear programming. Prerequisite: MATH 096 or equivalent.

MATH 130  4 A, S  
Precalculus  
Functions and graphs emphasized as tools to prepare the student for calculus. Included are polynomial and rational functions, logarithmic and exponential functions, as well as a thorough treatment of the six trigonometric functions and their inverses. Prerequisite: MATH 106 or a strong background in algebra.

MATH 211-212  3-3 A-W  
Foundations of School Mathematics I-II  
The logic and structure underlying school mathematics. Concepts, procedures, problem-solving and applications at concrete, pictorial, and abstract levels.

MATH 211 includes problem-solving techniques, sets, logic and deductive reasoning, the arithmetic of whole numbers, fractions, decimals, integers, rational and real numbers, ratio and proportion, and percent. Prerequisite: MATH 019 or equivalent.

MATH 212 includes geometry and measurement. Prerequisite: MATH 211.

Lower-division courses:

MATH 131-132-133  4-4-4 A-W-S,  
Calculus I-II-III  
MATH 131: Introduction to the techniques of differentiation and integration. Includes the chain rule, fundamental theorem and maximizing/minimizing applications. Graphing calculators and mathematical software tools are used extensively. Prerequisite: MATH 130 or a strong background in algebra and trigonometry.

MATH 132: Further skills in integration and its applications. Includes inverse functions, integration by parts, partial fractions, trigonometric substitutions, surfaces of revolution, volumes, centroids, infinite series, and Taylor expansions. Prerequisite: MATH 131.

MATH 133: Includes plane curves, parametrizations, polar coordinates, solid analytic geometry, partial derivatives, and multiple integrals. Prerequisite: MATH 132.

MATH 222  4 A, W, S, Su  
Introduction to Statistics  
Descriptive statistics, graphical methods, basic concepts of probability, binomial and normal probability distributions, central limit theorem, hypothesis testing involving means, confidence intervals, introduction to correlation and regression, and chi-square testing. Examples from a wide variety of disciplines, including business, the social sciences, and the life sciences, to prepare students with varying backgrounds and interests to become intelligent consumers and users of statistics. Prerequisite: MATH 019 or equivalent.

MATH 265  4 A  
Elementary Linear Algebra  
Matrix algebra and determinants, applications to solving systems of linear equations, vector spaces, linear transformations, eigenvalues, and eigenvectors. Prerequisite: MATH 131.

MATH 267  4 S  
Vector Calculus  
Functions of more than one variable including the general chain rule, line and surface integrals, divergence, curl, gradient, and Stokes’ theorem. Prerequisite: MATH 133.
MATH 269 4 W
Elementary Differential Equations
Ordinary differential equations balancing analytic techniques, qualitative methods, and basic modeling. Topics include eigenvalue methods for linear systems, Laplace transforms, phase plane, nullclines, equilibria, harmonic oscillator, and population models. Prerequisites: MATH 132, 265.

MATH 275 4 W
Logic and Sets
A bridge to upper-division mathematics, developing the student’s ability to handle abstract concepts and careful proofs. Propositional and predicate logic, types of proofs such as induction, algebra of sets and functions, equivalence relations, and countable sets. Prerequisite: MATH 131.

Upper-division courses:

MATH 322 3 W, S, Su
Statistical Methods
Linear and multiple regression and correlation, analysis of variance, time series analysis and forecasting, and non-parametric methods. Prerequisites: MATH 222, INFS 148.

MATH 331-332 3-3 W-S
Probability and Statistical Theory I-II
MATH 331 introduces the theory and applications of probability theory. Probability distributions and densities including multivariate, marginal, and conditional distributions. Expected value, Chebyshev’s and Bayes’ theorems. Moment-generating functions and product moments. Special discrete and continuous distributions and densities. Prerequisites: MATH 133, 222, 275. Odd years.

MATH 332 studies theory and application of sampling distributions, transformation of variables, central limit theory, estimation, hypothesis testing, Bayesian inference, and decision theory. Prerequisites: MATH 222, 331. Odd years.

MATH 341-342 3-3 W-S
Geometries I-II
A two-quarter study of the development and history of Euclidean geometry, the discovery of non-Euclidean geometry and the subsequent reformulation of the foundations of geometry.

MATH 341 reviews basic Euclidean geometry, introduces non-Euclidean geometries, and investigates geometric applications through problems and projects.

MATH 342 focuses on the axiomatic method, logic, various axiom sets for Euclidean geometry, neutral geometry, history of the parallel postulate, discovery of non-Euclidean geometry, hyperbolic geometry, and philosophical implications.

Prerequisites: MATH 275 or permission of the instructor. Even years.

MATH 351-352 3-3 A-W
Introduction to Abstract Algebra I-II
MATH 351 is a basic introduction to groups, rings, integral domains, fields, and isomorphisms. Also included are mappings, equivalence relations, and modular arithmetic. MATH 352 is a continuation of MATH 351 that stresses applications. Topics studied include polynomials, elementary Galois theory, geometric constructions, algebraic coding, lattices, and Boolean algebras. Prerequisite: MATH 275. Odd years.

MATH 354 3 S
Number Theory
A selection of topics from Diophantine equations, theorems and conjectures about prime numbers, congruences, the theorems of Euler and Fermat, perfect numbers, Fibonacci numbers, continued fractions and Pythagorean triples. Prerequisite: MATH 275. Odd years.

MATH 355 4 A
Discrete Methods
Introduction to the theory and applications of combinatorics (counting methods) and graph theory. Topics included are permutations, combinations, generating functions, recurrence relations, principle of inclusion and exclusion, pigeonhole principle, Euler and Hamiltonian paths, chromatic number, trees, network flows, and optimization. Optimization algorithms include shortest distance, minimal spanning tree, maximal matching, and maximum flow. Prerequisite: MATH 275. Even years.

MATH 375 4 W
Numerical Analysis
Theory and techniques for finding approximate solutions to mathematical problems, including error analysis, interpolation, approximation, fixed-point iteration, nonlinear equations, systems of equations, integration, and ordinary differential equations. Prerequisites: MATH 132, 265. Some knowledge of computer programming would be helpful. Even years.

MATH 385 4 A
Mathematical Modeling
Mathematical modeling of problems selected from a variety of applied areas, including industry, biology, business, and the social sciences. Both deterministic and stochastic models are considered, with an emphasis on practical problem-solving. Includes exploration of the computer as a problem-solving tool. Prerequisite: MATH 269 or permission of the instructor. Odd years.

MATH 390 1 S
Seminar
Topics of current interest in mathematics and mathematics education, including applications of mathematics in other fields, introduced through lectures,
Mathematics

reports, and periodicals. Discussion of professional mathematics organizations, conferences, and publications. Prerequisite: upper-division standing. Graded S/F.

**MATH 421-422**  
3-3 A-W  
**Elementary Real Analysis I-II**

The fundamental definitions and theorems underlying single-variable calculus and related topics. MATH 421 includes the completeness property, limits of sequences and functions, and continuity. MATH 422 is a continuation that covers derivatives, the Riemann integral, and infinite series. Prerequisites: MATH 132, MATH 275. Even years.

**MATH 425**  
4 S  
**Complex Variables**

The elements of the theory of analytic functions including Cauchy's theorem, calculus of residues, conformality, and applications. Prerequisite: MATH 133. Recommended: a background in vector (multivariable) calculus and real analysis. Even years.

**MATH 451**  
3 S  
**History of Mathematics**

A survey of major developments in mathematics from antiquity to modern times. The course involves historically relevant problem sets, videos, class discussions, and presentations by students and teacher. Prerequisite: MATH 131. Odd years.

**MATH 465**  
4 S  
**Linear Algebra**

A deeper study than given in MATH 265, including Jordan form, inner product spaces, quadratic forms, Hamilton-Cayley theorem, and normal operators. Prerequisites: MATH 265, 351. Odd years.

**MATH 485**  
2-3 S  
**Special Topics in Mathematics**

Study of a selected topic not covered elsewhere in the curriculum. Course content varies from year to year, reflecting current interest. Topics studied in recent years have been Differential Geometry, Set Theory and Cardinal Numbers, Formal Logic and Godel's Theorem, Topology, Chaos and Fractals. May be repeated for credit. Normally offered every other year. Further information is available at the departmental office.

**MATH 490**  
1 S  
**Senior Seminar**

Topics of current interest in mathematics and mathematics education, including applications of mathematics in other fields. Under supervision of departmental faculty, each student prepares and presents a paper on a topic of interest. Prerequisite: MATH 390.

**MATH 491**  
0-2  
**Cooperative Education in Mathematics**

An individualized contract agreement involving student, faculty, and employer to provide practical experience in mathematics in a professional off-campus work setting. Prerequisite: Approval by the department chair. Graded S/F.

**MATH 495**  
1-3 A, W, S  
**Independent Study**
Faculty
Sylvia Rasi Gregorutti, chair; Charo Caballero-Chambers

Chair’s Office: 965-6510

Degrees and Programs
Spanish, B.A. ................................................................. 145
French, B.A. ...................................................................... 146
Teaching Credential ...................................................... 146
Adventist Colleges Abroad ........................................... 146

The Department of Modern Languages offers instruction in French, German, and Spanish. Majors are available in Spanish and French, and minors are available in French, German, and Spanish.

Pacific Union College participates in the Adventist Colleges Abroad Program (ACA), which provides opportunity for students to study the language of their choice in a foreign country. Participating campuses are in Argentina, Austria, Brazil, France, Greece, Hong Kong, Israel, Italy, Spain, and the Ukraine.

It will be necessary for a student majoring in French to spend one year in the Adventist Colleges Abroad Program in France and to take the courses prescribed by the major adviser.

A student majoring in Spanish will be asked to spend from one to three quarters, as needed, in the Adventist Colleges Abroad Program in Spain or in Argentina and to take the courses prescribed by the major adviser.

Major in Spanish, B.A.

A minimum of 48 hours (30 upper division)

All students majoring in Spanish must complete in residence at Angwin at least three upper-division Spanish courses (minimum of twelve hours).

Students with a background in the Spanish language will be placed in the program in accordance with their ability. Those who achieve advanced placement on a departmental proficiency examination may complete a Spanish major by taking 30 hours of upper-division Spanish and a minor in any field.

A student may choose from the following courses, all of which apply toward the major:

SPAN 151 Intermediate Spanish 4
SPAN 152 Intermediate Spanish 4
SPAN 153 Intermediate Spanish 4
SPAN 251 Spanish Conversation and Composition 3
SPAN 252 Spanish Conversation and Composition 3
SPAN 253 Spanish Conversation and Composition 3
SPAN 367 Spanish and Latin-American Culture and Civilization 4
SPAN 382 Applied Spanish Linguistics 4
SPAN 385 Business Spanish 4
SPAN 441 Readings in Spanish Literature 4
SPAN 442 Readings in Latin-American Literature I 4
SPAN 443 Readings in Latin-American Literature II 4
SPAN 495 Independent Study 1-6
SPAN 496 Directed Group Study 2-4

Upper-division electives taken at ACA Campus*

*See section entitled “Adventist Colleges Abroad (ACA).”
Modern Languages

Recommended Cognate Courses:
A full-year course in beginning French or German (12)
ART 105 History of Western Art (4)
ART 476 Nineteenth-Century Art (3)
(or ART 477 Twentieth-Century Art)
HIST 366 Modern Latin America (4)
MGMT 457 International Management (3)
PLSC 485 Foreign Relations of the United States (3)

In Spain or Argentina a student may select a program from a variety of courses that apply toward the major in Spanish. See the current Adventist Colleges Abroad Bulletin, available in the Modern Languages departmental office, for descriptions of these courses.

Major in French, B.A.
A minimum of 48 hours (30 in the upper division)

Students majoring in French must complete in residence at Angwin at least three upper-division French courses (twelve hours minimum). Selections are made from the following courses, all of which apply toward the major:

FREN 151 Intermediate French 4
FREN 152 Intermediate French 4
FREN 153 Intermediate French 4
FREN 367 French Culture and Civilization 4
FREN 381 Applied French Linguistics 4
FREN 385 Business French 4
FREN 441 Readings in 19th Century French Literature 4
FREN 442 Readings in Contemporary French Literature 4
FREN 443 Contemporary Francophone Literature 4
FREN 495 Independent Study 1-6
FREN 496 Directed Group Study 2-4

Upper-division electives at ACA Campus

Recommended Cognate Courses:
A beginning full-year course in Spanish or German (12)
ART 105 History of Western Art (4)
ART 476 Nineteenth-Century Art (3)
(or ART 477 Twentieth-Century Art)
HIST 335 Europe Since 1914 (4)
MGMT 457 International Management (3)
PLSC 485 Foreign Relations of the United States (3)

In France a student may select a program from a variety of courses that apply toward the major in French. See the current Adventist Colleges Abroad Bulletin, available in the departmental office, or at www.nadadventist.org/aca for descriptions of these courses.

Teaching Credential

The State of California Commission on Teacher Credentialing mandates that all teacher education programs in languages other than English meet newly established standards of quality and effectiveness. The Department of Modern Languages has received State approval of the new program. Students desiring a California secondary teaching credential are invited to discuss the teacher education program with the Credential Analyst in the Education department and with the Teacher Education Adviser in the Modern Languages department.

Courses are taken at both PUC and the appropriate ACA campus in Spain, Argentina, or France (see “Adventist Colleges Abroad” below).

Minors in French, German, and Spanish
A minimum of 30 hours at the intermediate level or higher (15 upper division)

A student desiring a minor in German usually spends one year studying abroad. French and Spanish minors usually require one or two quarters of study abroad.

Language Placement

Students who have had previous work in a given language and wish to take a beginning course in that language must obtain the consent of the department chair.

Students from a Spanish background taking Spanish will normally enroll in SPAN 251-252-253 Spanish Conversation and Composition. Those unsure of what course to enroll in may take a Spanish Language Placement test after consulting with the department faculty.

Adventist Colleges Abroad (ACA)

Pacific Union College is a member of Adventist Colleges Abroad (ACA), a consortium of colleges and universities operated by the Board of Higher Education of the North American Division of the Seventh-day Adventist Church. This consortium affords opportunity to qualified students for international study while completing the requirements of their programs at their home campus. The program allows students to immerse themselves in the culture and life of the host country and become conversant in the language; to mature socially, spiritually, and intellectually; and to develop sensitivity to cultural differences and a sense of responsibility for and mission to other peoples of the world. The following institutions are international affiliates of ACA offering academic-year programs of study:
Modern Languages

Argentina: Universidad Adventista del Plata, Libertador
San Martín: Spanish Language and Latin American Culture

Austria: Seminar Schloss Bogenhofen, St. Peter am Hart: German Language and Culture

France: Centre Universitaire et Pédagogique du Salève, Collonges-sous-Salève: French Language and Culture

Italy: Istituto Avventista Villa Aurora, Florence: Italian Language and Culture

Spain: Colegio Adventista de Sagunto: Spanish Language and Culture

In addition to academic-year programs, ACA offers six-week summer terms at the following international study centers:

Austria: Seminar Schloss Bogenhofen, St. Peter am Hart: German
Brazil: Instituto Adventista de Ensino, São Paulo: Portuguese
France: Centre Universitaire et Pédagogique du Salève, Collonges-sous-Salève: French
Greece: La Sierra University Study Center, Athens: Intermediate New Testament Greek
Hong Kong: Hong Kong Adventist College, Hong Kong: Chinese (Mandarin)
Israel: Jerusalem Center: Beginning Biblical Hebrew
Italy: Istituto Avventista Villa Aurora, Florence: Italian
Spain: Colegio Adventista de Sagunto, Sagunto: Spanish
Ukraine: Ukrainian College of Arts and Sciences, Kiev: Russian

Applicants for international study need not be language majors or minors. Students majoring in various disciplines that allow for one or more elective years within the four-year curriculum may study in the year-abroad and summer session programs without losing credits or prolonging time before graduation by carefully planning the year(s) preceding and following their international study experience. Prerequisites for admission to ACA study-abroad programs are as follows:

1. Admission as a regular student to Pacific Union College for the summer or academic year abroad.

2. Competence in the language of the host country for Argentina, France, and Spain (minimum: one year of college or two years of secondary study with a language GPA of 3.00). This level of language competence is prerequisite to one’s being considered for admission. Language competence not required of students enrolling in academic year programs in Austria, Italy, or Kenya or of students in summer programs.

3. An overall college or university GPA of 2.50.

4. A good citizenship record that gives evidence of better-than-average maturity, adjustability, and congeniality.

5. Presentation of the application with all required information and signatures (academic and financial arrangements) to the PUC Admissions office by April 1 (summer program deadline) or May 1 (academic year deadline).

6. Attendance at an ACA orientation meeting at PUC.

College freshmen with competence in the language are not specifically excluded from ACA academic-year programs, but the course of study is usually more beneficial to sophomores and juniors, especially those who plan to major or minor in the language or specialized area of study. Although enrolled on an international campus, students are registered at PUC; are considered in residence at this college; and are eligible for all external grants, loans, scholarships, and financial aid offered to students in attendance at PUC. Credit earned abroad is recorded each term in the PUC Records office.

The Adventist Colleges Abroad program offers a wide variety of language courses at intermediate and advanced levels concentrating on grammar, orthography, composition, phonetics, conversation, reading, pronunciation, literature, culture, civilization, and folklore as well as courses in art, education, geography, history, music, physical education, and religion.

Applicants must consult with their major professors, the Modern Language faculty, and the ACA Coordinator before enrollment. Pacific Union College personnel advise students about courses to take abroad and determine how the credits will apply toward graduation requirements. Those who carefully plan their academic-year programs with PUC advisers may earn up to 54 quarter hours toward a baccalaureate degree. ACA courses may apply toward the major, minor, general education, and elective requirements; credit is awarded on the basis of course prefix.

ACA courses are in high demand; applications are processed in the order received. Applications are available at the Admissions office and the Modern Language department. Deadline for summer applications is April 1; for the academic year, May 1.

Modern Languages

French

Service Course:
(Not applicable toward a major or minor in this department)

**FREN 111-112-113  4-4-4 A-W-S**

Beginning French
Designed to develop speaking, listening, reading, and writing skills in the language studied. Basic grammar and vocabulary presented through a proficiency-oriented approach emphasizing the practical use of the language. Individual laboratory work provides additional opportunity to practice and develop the communicative skills that can be expanded in subsequent study and use of the language. Introduction to selected elements of the cultures in countries where the language is used. (Not for students who have had two or more years of French.)

Lower-division course:

**FREN 151-152-153  4-4-4 A-W-S**

Intermediate French
See course description under FREN 111-112-113. Prerequisites: FREN 111-112-113, its equivalent, or permission of the instructor.

Upper-division courses:

*(Taught in French)*

**FREN 367  4 A**

French Culture and Civilization
Contemporary French culture and civilization dealing with social, political, and economic trends. Even years.

**FREN 381  4 A**

Applied French Linguistics
Introduces principles of phonetics, phonology, morphology, and syntax. Special reference to foreign language teaching methodology and the particular problems of teaching French. Odd years.

**FREN 385  4 W**

Business French
Practice and vocabulary-building in French as used in business, commerce, finance, and economics. Even years.

**FREN 441  4 W**

Readings in 19th-Century French Literature
Readings in representative poets, novelists, and playwrights. Odd years.

**FREN 442  4 S**

Readings in Contemporary French Literature
Readings in representative poets, novelists, and playwrights. Odd years.

**FREN 443  4 S**

Contemporary Francophone Literature
Readings in representative French-speaking authors from around the world. Even years.

**FREN 495  1-6 A, W, S**

Independent Study
Thirty-six hours of reading per hour of credit. A weekly conference with the instructor. Limited to French majors. Admission by permission of the instructor. Maximum of three hours in any quarter; may be repeated once for additional credit.

German

Service Course:
(Not applicable toward a major or minor in this department)

**GRMN 111-112-113  4-4-4 A-W-S**

Beginning German
See course description under FREN 111-112-113.

Lower-division course:

**GRMN 151-152-153  4-4-4 A-W-S**

Intermediate German
See course description under FREN 151-152-153. Prerequisites: GRMN 111-112-113, its equivalent, or permission of the instructor.

Spanish

Service Courses:
(May not be used for major or minor in this department)

**SPAN 111-112-113  4-4-4 A-W-S**

Beginning Spanish
See course description under French 111-112-113. This course is not for students who have had two or more years of secondary Spanish.

**SPAN 131  5 A**

Intensive Spanish Review
An intensive “bridge” course for students who have completed a beginning course in Spanish but need review and practice before beginning the intermediate level. Includes laboratory practice. Prerequisite: One or two years of high school Spanish.
Lower-division Courses:

**SPAN 132-133**  5-5 W-S
**Intensive Intermediate Spanish**
Continuation of SPAN 131, providing intensive study of Intermediate Spanish (see course description under FREN 151-152-153). Prerequisite: Passing grade in SPAN 131 or equivalent.

**SPAN 151-152-153**  4-4-4
**Intermediate Spanish**  A-W-S
See course description under FREN 151-152-153. Prerequisite: Two years of high-school Spanish or SPAN 111-112-113 or its equivalent.

**SPAN 251-252-253**  3-3-3 A-W-S
**Spanish Conversation and Composition**
Emphasis on oral and written expression in Spanish. For non-native students having completed more than two years of secondary-school Spanish or intermediate-level college Spanish; and for students whose native language is Spanish. Fulfills the intermediate-level language requirement for general education.

Upper-division Courses:

*(Taught in Spanish)*

**SPAN 367**  4 A
**Spanish and Latin-American Culture and Civilization**
A study of Spanish and Latin-American culture and civilization with emphasis on contemporary life. Even years.

**SPAN 382**  4 A
**Applied Spanish Linguistics**
Introduces principles of phonetics, phonology, morphology, and syntax. Special reference to foreign-language teaching methodology and the particular problems of teaching Spanish. Odd years.

**SPAN 385**  4 W
**Business Spanish**
Practice and vocabulary-building in Spanish as used in business, commerce, finance, and economics. Odd years.

**SPAN 441**  4 S
**Readings in Spanish Literature**
Readings in representative poets, novelists, and playwrights. Odd years.

**SPAN 442**  4 W
**Readings in Latin-American Literature I**
Readings in representative poets, novelists and playwrights. Even years.

**SPAN 443**  4 S
**Readings in Latin-American Literature II**
Readings in representative poets, novelists and playwrights. Even years.

**SPAN 495**  1-6 A, W, S
**Independent Study**
Thirty-six hours of reading per hour of credit. A weekly conference with the instructor. Limited to Spanish majors; admission by approval of the instructor. Maximum of three hours in any quarter; may be repeated once for credit.

Degrees and Programs:
Music, B.Mus. in Performance ............................................ 152
Teaching Credential, B.Mus. in Music Education ...............153
Music, B.S. .......................................................................... 154
Music, A.S. .........................................................................154

The Department of Music offers a two-year Associate of Science degree and two four-year curricula leading to the Bachelor of Music and Bachelor of Science degrees. Emphasis in the Bachelor of Music degree may be in Music Education or in Performance.

Entrance Requirements
Students in the B.Mus. programs must take a functional keyboard facility examination the first quarter in residence. Unsatisfactory performance mandates enrollment in MUSP 121 each quarter in residence until the examination is passed. Students must pass this test before they may receive upper-division credit in their primary area of performance.

General Performance Requirements
Study in the major performance area is required each quarter of residence for Bachelor of Music majors. Performance emphasis majors must take an additional 6 hours of secondary performance credit. Secondary performance studies are usually permitted only after the student has reached upper-division status in the major performance area. Credit is based upon a half-hour lesson and four hours of practice per week for each credit hour earned.

All new or transfer music majors must perform before a jury the first quarter of residence. In addition, juried performances are required periodically of all majors to evaluate progress and to determine eligibility for upper-division credit. A student preparing a required recital must perform the program for a faculty audition committee one month prior to the projected recital date.

Specific year-by-year requirements in the various performance areas and details regarding jury evaluations are available at the Music department office and in the Music Department Student Handbook.

Ensemble
All majors are required to register for ensemble credit each quarter in residence except while doing student teaching.

Recital Attendance
Attendance at a minimum number of concerts and recitals is required of all music majors during each quarter of residence. Details are available at the Music department office and in the Music Department Student Handbook.

Required Recitals
Performance emphasis majors present a half-hour recital (MUSP 390) during the junior year and a one-hour recital (MUSP 490) the senior year.

Music education emphasis majors present a half-hour recital (MUSP 489) in the senior year. Bachelor of Science majors present a half-hour recital (MUSP 489) the senior year or complete a special project (MUED 489) in an area of particular interest. The topic is chosen in consultation with the department chair and a teacher in the area of the project, and with the approval of the music faculty.

All majors must periodically perform in general student recitals. For details, see the Music Department Student Handbook.

The Major Field Achievement Test in music is required of all seniors during their final quarter before graduation. In addition, all music majors are required to take examinations prepared by departmental faculty during their first and last quarters in residence.

Certificate of Achievement
To encourage excellence in performance, the department may award the Certificate of Achievement to any outstanding music major who presents a recital or is soloist in a major performance of particularly high quality during each of the four years in residence. The student must apply to the music faculty for this award after giving the final recital.
Music

Required Core Courses

38 hours required for all baccalaureate degrees in music:

- MUED 241 Basic Conducting 2
- MUHL 131 Introduction to Vocal/Choral Literature 2
- MUHL 132 Introduction to Keyboard Literature 2
- MUHL 133 Introduction to Symphonic/Chamber Music Literature 2
- MUHL 331 Music from Antiquity through the Baroque 3
- MUHL 332 Music of the Classic and Romantic Eras 3
- MUHL 333 Music of the Twentieth Century 3
  (MUHL 336 for Music Education emphasis)
- MUTH 121-122-123 Theory I 3 3 3
- MUTH 202 Music Technology 3
- MUTH 221-222-223 Theory II 3 3 3

Bachelor of Music, B.Mus.

Besides baccalaureate degree requirements listed elsewhere in this catalog, students working toward the Bachelor of Music degree take the required core courses listed above and meet the requirements of one of the two emphases listed below.

General Education Requirements

The general-education requirements for the B.Mus. degree are the same as for other baccalaureate degrees except as indicated below. See the general-education section of this catalog.

- I. Foundations of Learning: MATH 222 not required.
- II. Human Identity in Cultural Contexts: II-B Philosophy not required; II-C Social Sciences: one course required; II-D Foreign Language: Voice performance emphasis majors are required to complete satisfactorily one year of either French or German. Teacher candidates take ANTH 124 (or SOCI 121 or COMM 330) and must pass a test or take a course in U.S. Constitution (this requirement is satisfied by HIST 134-135 or HIST 140-141 or HIST 356 or PLSC 124).
- III. Insights of the Imagination. Same as for B.S. degree
- IV. The Natural World: Select two of IV-B, IV-C, and IV-D. All students must meet the Introductory-Level Mathematics and Science requirements outlined in IV-A.
- V. Revelation, Belief, and Action: Same as for B.S. degree. Music education emphasis majors must complete 18 hours of religion (9 upper division): 6 hours of RELB prefix courses, 3 hours of Doctrinal Studies (RELT 331, 332 and 333), and HIST 340 (or RELT 381-382).
- VI. Health and Fitness: Same as for B.S. degree, except that music education emphasis majors must take HLED 166 or FDNT 175.
- VII. Skills for Daily Living: Not required.

Other Requirements: Teacher candidates must take ENGL 335.

Music Education Emphasis

- 93 hours including core courses and the following:

1. Music Education

- MUED 338 Music for Children 2
- MUED 338L Music for Children Lab 1
- MUED 342 Instrumental Conducting 3
- MUED 343 Choral Conducting 3
- MUED 381-382-383 Music in Elementary Schools 2 2 2
- Additional courses 10

- Select 10 hours from the following list of techniques and pedagogy courses. Exceptions are MUED 473-474, required of all piano majors, and MUED 475-476, required of all organ majors.

- MUED 370 Handbell Techniques and Methods (1)
- MUED 371* Trumpet Techniques and Methods (1)
- MUED 372* Trombone Techniques and Methods (1)
- MUED 373 Horn/Tuba Techniques and Methods (1)
- MUED 374* Flute Techniques and Methods (1)
- MUED 375* Single-Reed Techniques and Methods (1)
- MUED 376 Double-Reed Techniques and Methods (1)
- MUED 377* Percussion Techniques and Methods (1)
- MUED 378* Violin/Viola Techniques and Methods (1)
- MUED 379 Cello/Double Bass Techniques and Methods (1)
- MUED 473-474 Piano Pedagogy (1-1)
- MUED 475-476 Organ Pedagogy (1-1)
- MUED 477* Voice Pedagogy (2)

2. Music Ensemble

One large ensemble for each quarter n residence except the student-teaching quarter. Participation in both choral and instrumental ensembles for a minimum of three quarters each and in a small ensemble in the area of one’s specialty for a minimum of one quarter. For keyboard majors, three of the total hours must be in MUEN 359 Keyboard Ensemble. When MUEN 359 is taken, the large ensemble is not required.

* Unless they are in the major performance area, these courses are required.
3. **Music Performance**

MUSP 125-144  Performance Studies: Major  
MUSP 225-244  (maximum 6 hours lower division)  
MUSP 325-344  
MUSP 425-444  
MUSP 489  Senior Recital  
(or MUSP 489 Senior Project)

4. **Music Theory**

MUTH 331  Orchestration  
MUTH 332  Counterpoint  
MUTH 431  Form and Analysis  
MUTH 432  Composition

5. **Required Cognate Courses in Professional Education**

See the Education section of this catalog for further information about prerequisites and admission to the teacher education program.

EDUC 101  Introduction to Teaching (1)  
EDUC 101L  Introduction to Teaching Lab (1)  
EDUC 238  Computer Technology for Teachers (1)  
EDUC 238L  Computer Technology for Teachers Lab (1)  
EDUC 333  Educational Psychology (2)  
EDUC 335  Principles of Christian Education (2)  
EDUC 336  Social and Multicultural Education (2)  
EDUC 358  C/I Teaching of Reading—Secondary (3)  
EDUC 358L  C/I Teaching of Reading—Secondary Lab (1)  
EDUC 360  C/I Secondary Methods I (2)  
EDUC 361  C/I Middle-School Methods (2)  
EDUC 361L  C/I Middle-School Methods Lab (1)  
EDUC 362  C/I Secondary Methods (2)  
EDUC 362L  C/I Secondary Methods Lab (1)  
EDUC 485  Student Teaching Seminar (3)  
EDUC 485L  Student Teaching (15)

**Recommendation for Directed Teaching**

Before acceptance into the Directed Teaching program, students must have passed the Keyboard Proficiency and Keyboard Harmony Examinations as prerequisites for recommendation by the music faculty. For details, see the **Music Department Student Handbook**.

**Teaching Credential**

Students are invited to discuss the requirements for a teaching credential with the Teacher Education Adviser in the Music department. All students who plan to teach should also consult with the Credential Analyst in the Department of Education and should become acquainted with specific requirements outlined in the Education section of this catalog.

---

**Performance Emphasis**

* A minimum of 119 hours including core courses and the following:

1. **Music Education**

   MUED 342  Instrumental Conducting  
   (or MUED 343 Choral Conducting)

   Additional hours  
   Select four hours from the following list of techniques and pedagogy courses. Voice majors must take MUED 477; piano majors must take MUED 473-474; organ majors must take MUED 475-476; and all other majors must take two hours of MUED 495, studying the pedagogy and literature of their area of performance emphasis.

   MUED 370  Handbell Techniques and Methods (1)  
   MUED 371  Trumpet Techniques and Methods (1)  
   MUED 372  Trombone Techniques and Methods (1)  
   MUED 373  Horn/Tuba Techniques and Methods (1)  
   MUED 374  Flute Techniques and Methods (1)  
   MUED 375  Single-Reed Techniques and Methods (1)  
   MUED 376  Double-Reed Techniques and Methods (1)  
   MUED 377  Percussion Techniques and Methods (1)  
   MUED 378  Violin/Viola Techniques and Methods (1)  
   MUED 379  Cello/Double Bass Techniques and Methods (1)  
   MUED 473-474  Piano Pedagogy (1-1)  
   MUED 475-476  Organ Pedagogy (1-1)  
   MUED 477  Voice Pedagogy (2)

2. **Music Ensemble**

   One large ensemble for each quarter in residence  
   For keyboard majors, three of the twelve hours must be in MUEN 359, Keyboard Ensemble. When MUEN 359 is taken, the large ensemble is not required.

   Chamber music in the major area

3. **Music Performance**

   MUSP 145-164  Performance Studies: Emphasis Major  
   MUSP 245-264  (maximum of 18 hours lower division)  
   MUSP 345-364  
   MUSP 445-464  
   MUSP 365-384  Performance Studies: Secondary Area  
   MUSP 390  Junior Recital  
   MUSP 490  Senior Recital: Emphasis Major  
   MUSP 495  Independent Study in Performance  
   (in the major area; keyboard majors take one hour of MUSP 495, two of MUHL 337.)
4. Music Theory
MUTH 331  Orchestration  3
MUTH 332  Counterpoint  3
MUTH 431  Form and Analysis  3
MUTH 432  Composition  3

Major in Music, B.S.

- A minimum of 62 hours (21 upper division)
  In addition to music courses, the Bachelor of Science degree with a music major has general-education requirements as listed in this catalog under General Education for the Baccalaureate Degree. MUHL 105 and MUED 104 do not apply toward the degree requirements.

- Required Courses
  The core courses for all music majors, listed above, and the following:

1. Music Ensemble
   One large ensemble for each quarter in residence  6
   A maximum of six hours is applied toward the major (at least three must be upper division). The balance of credit is applied to general-education electives.

2. Music Performance
   MUSP 125-144  Performance Studies: Major  7
   MUSP 225-244 (maximum of six hours lower division)
   MUSP 325-344
   MUSP 425-444

3. Music Theory
   One course chosen from MUTH 331, 332, 431, 432  3

4. Music Electives
   MUSP 489  Senior Recital  1
   (or MUED 489 Senior Project)
   Additional hours  7
   Seven additional hours selected in consultation with the adviser and approved by the music faculty to develop a solid background in the area of the student’s recital or project.

Associate Degree in Music, A.S.

- A minimum of 37 hours including the following:

Required Core Courses
MUHL 131  Introduction to Vocal/Choral Literature  2
MUHL 132  Introduction to Keyboard Literature  2
MUHL 133  Introduction to Symphonic/Chamber Literature  2
MUTH 121-122- Theory I and Labs  3-3-123

In addition to the core courses listed above, Associate of Science in Music majors must complete 22 hours in music elected from the following modules:

Piano Pedagogy Module

1. Music Education
   MUED 338  Music for Children  2
   MUED 349  Directed Teaching: Piano  3
   MUED 473-474 Piano Pedagogy  1-1

2. Music Ensemble
   One ensemble each quarter in residence.  6
   Three hours must be in MUEN 159.

3. Music Performance
   MUSP 136  Performance Studies: Piano  3
   MUSP 236  Performance Studies: Piano  3

4. Electives
   3 hours chosen in consultation with the adviser and approved by the music faculty.

Church Music Module

1. Music Education
   MUED 106  Issues in Church Music  2
   MUED 241  Basic Conducting  2
   MUED 370  Handbell Techniques and Methods  1

2. Music Ensemble (6)
   One ensemble each quarter in residence (minimum of 1 hour instrumental and 1 hour choral).

3. Music Performance
   MUSP 125-144  Performance Studies  3
   MUSP 225-244  Performance Studies  3

4. Music History and Literature
   MUHL 206  Music in Christian Worship  2

5. Electives (3)
   3 hours elected from
   MUTH 331  Orchestration (3)
   MUTH 432  Composition (3)
   Required cognate course:
   RELP 210  Creative Church Participation  2

General Music Module

1. Music Education
   MUED 241  Basic Conducting  2
Music Education

Lower-division courses:

MUED 106 2 A
Issues in Church Music
Analysis of issues in church music. Acquaints students with traditional and contemporary worship practices. Odd years.

MUED 206 2 W
Music in Christian Worship
History and practice of the use of music in worship services. Emphasis given to the development of both liturgical and nonliturgical forms of worship. Odd years.

MUED 241 2 A
Basic Conducting
Foundation for the development of skill in the art of conducting various ensembles.

Upper-division courses:

MUED 338 2 A
Music for Children (See also ECED 338.)
Music for children from infancy through lower elementary school grades, based on Kodály method. Emphasizes development of child’s voice through folk materials and sol-fa and covers teaching methods for singing, rhythmic activities and listening skills.

MUED 338L 1 A, W, S
Music for Children Lab
(See also ECED 338L.)
Observation and practical experience with young children, using methods discussed in MUED 338. Highly recommended complement to MUED 338. May be taken any quarter. Prerequisite: MUED 338.

MUED 342 3 W
Instrumental Conducting
Practical work with instrumental groups. Baton techniques, score reading, methods of rehearsal and group administration. Prerequisite: MUED 241. Even years.

MUED 343 3 W
Choral Conducting
Conducting techniques, rehearsal procedures, tone quality, blend and balance, and diction appropriate for college, secondary school, and church choirs. Prerequisite: MUED 241. Odd years.

MUED 349 1 A, W, S
Directed Teaching: Piano
Lessons taught by students in studio or classroom. Supervised and evaluated. Usually taken in conjunction with MUED 473 and continued winter and spring quarters.

MUED 370 1 W
Handbell Techniques and Methods
Basic and advanced ringing techniques, handbell literature, group organization, solo and ensemble ringing, bell assignments, and bell maintenance. Even years.

MUED 371 1 A
Trumpet Techniques and Methods
Introduction to teaching and performing trumpet through the intermediate level. Performance techniques, pedagogical methods and materials, maintenance, and practical teaching experience. Two classes weekly. Odd years.

MUED 372 1 W
Trombone Techniques and Methods
Objectives similar to those of MUED 371. Odd years.

MUED 373 1 S
Horn/Tuba Techniques and Methods
Objectives similar to those of MUED 371. Odd years.

MUED 374 1 A
Flute Techniques and Methods
Objectives similar to those of MUED 371. Even years.

MUED 375 1 W
Single-Reed Techniques and Methods
Objectives similar to those of MUED 371. Even years.

MUED 376 1 S
Double-Reed Techniques and Methods
Objectives similar to those of MUED 371. Even years.
MUED 377 1 A
Percussion Techniques and Methods
Objectives similar to those of MUED 371. Emphasis on snare drum, timpani, and mallets. Solo and ensemble playing. Even years.

MUED 378 1 A
Violin/Viola Techniques and Methods
Ability to play and teach violin and viola at the beginning and intermediate levels. Elementary individual and class methods of instruction and basic maintenance. Odd years.

MUED 379 1 W
Cello/Double Bass Techniques and Methods
Objectives similar to those of MUED 378. Even years.

MUED 381 2 A
Music in Elementary and Secondary Schools I
Examination and evaluation of music-education philosophies and their practical applications for designing and building a dynamic secondary-school choral program. Topics include recruitment, administration, classroom management, and repertoire selection. Prerequisites: MUED 241, 338. Even years.

MUED 382 2 W
Music in Elementary and Secondary Schools II
Theories of and practice with musical development. Emphasizes the Kodály approach to teaching music in the elementary school. Deals with vocal development of children from the nonsinger to the junior-high chorister and other challenges related to the elementary music classroom. Prerequisite: MUED 338. Even years.

MUED 383 2 S
Music in Elementary and Secondary Schools III
Development and maintenance of instrumental programs in elementary, middle, and secondary schools. Behavioral objectives, evaluative techniques, motivation, administration, recruiting, scheduling, and technology. Prerequisite: MUED 338. Even years.

MUED 370, 480 2, 2 Su
Music Workshops
During the summer session various workshops are offered in piano, choral music and strings.

MUED 473-474 1-1 A-W
Piano Pedagogy
Science of piano teaching, including materials and methods of instruction. Concurrent registration in MUED 349 recommended. Odd years.

MUED 475-476 1-1 W-S
Organ Pedagogy
The science of teaching organ at beginning and intermediate levels. Survey of materials and methods of instruction. Odd years.

MUED 477 2 S
Voice Pedagogy
Proper voice development and methods of vocal production. Emphasizes pedagogical techniques. Even years.

MUED 478 1 A, W, S
Senior Project
Special project for B.S. majors and, in lieu of MUSP 489, for B.Mus. education emphasis majors in unusual circumstances. By permission of the music faculty and in consultation with the adviser and the department chair.

MUED 495 1-3 A, W, S
Independent Study
Advanced independent project in music education. Requires approval of the department chair. Three hours maximum.

Music Ensembles
The following satisfy the music major large-ensemble requirements: Bel Canto, Kantorei, Pro Musica, Orchestra, Symphonic Wind Ensemble, and Keyboard Ensemble. Additional small ensembles are also offered. Unless indicated otherwise, each ensemble is available any quarter and is repeatable.

Upper-division credit for juniors and seniors is determined by the student’s proficiency and previous experience in college-level music.

Lower-division courses:

MUEN 141 1 A, W, S
Bel Canto
The study and performance of selected choral literature for women’s voices. Performance opportunities are mostly on campus and include a major work each year with orchestra and combined choral ensembles. Auditions held each quarter.

MUEN 142 1 A, W, S
Kantorei
The study and performance of selected choral literature for men’s voices. Performance opportunities are mostly on campus and include a major work each year with orchestra and combined choral ensembles. Auditions held each quarter.

MUEN 154 1 A, W, S
Pro Musica
A carefully balanced choral ensemble that studies and performs a variety of challenging repertoire from the major stylistic periods. Students in Pro Musica are also members of either Bel Canto or
Kantorei. Performance opportunities include off-campus tours. Auditions are held at the beginning of Autumn quarter.

MUEN 155 1 A, W, S
Symphonic Wind Ensemble
Advanced instrumentalists rehearse and perform a wide variety of music in various settings. Tours and workshops on alternate-year basis. Members are selected by audition.

MUEN 156 1 A, W, S
Orchestra
Orchestral masterworks performed in quarterly concerts and other events. For advanced instrumentalists, both college students and community residents. Members are selected by audition.

MUEN 157 1 A, W, S
String and Piano Chamber Music
Experience with chamber music for piano with strings under the direction of a Music faculty member. Includes duos, trios, and larger groups.

MUEN 159 1 A, W, S
Keyboard Ensemble
Literature for keyboard duets, duos, and groups with instruments or voices and keyboard accompaniment. Three quarters required of all B.Mus. or A.S. Piano Pedagogy Module majors.

MUEN 175 1 A, W, S
Flute Quartet
Limited to members of Symphonic Wind Ensemble. By audition.

MUEN 178 1 A, W, S
Saxophone Quartet
Limited to members of Symphonic Wind Ensemble. By audition.

MUEN 179 1 A, W, S
Woodwind Quintet
Limited to members of Symphonic Wind Ensemble. By audition.

MUEN 180 1 A, W, S
Brass Quintet
Limited to members of Symphonic Wind Ensemble. By audition.

MUEN 181 1 A, W, S
Brass Ensemble
Limited to members of Symphonic Wind Ensemble. By audition.

MUEN 182 1 A, W, S
Trombone Choir
By audition.

MUEN 184 1 A, W, S
String Quartet
Limited to members of the Orchestra. By audition.

MUEN 185 1 A, W, S
Small Vocal Ensemble
Study and performance of various types of musical literature for small groups of vocalists. By audition.

MUEN 186 1 A, W, S
Beginning Handbell Choir
Open to any student with music reading skills.

Upper-division courses:

MUEN 341 1 A, W, S
Bel Canto
(See description of MUEN 141.)

MUEN 342 1 A, W, S
Kantorei
(See description of MUEN 142.)

MUEN 354 1 A, W, S
Pro Musica
(See description of MUEN 154.)

MUEN 355 1 A, W, S
Symphonic Wind Ensemble
(See description of MUEN 155.)

MUEN 356 1 A, W, S
Orchestra
(See description of MUEN 156.)

MUEN 357 1 A, W, S
String and Piano Chamber Music
(See description of MUEN 157.)

MUEN 359 1 A, W, S
Keyboard Ensemble
(See description of MUEN 159.)

MUEN 375 1 A, W, S
Flute Quartet
(See description of MUEN 175.)

MUEN 378 1 A, W, S
Saxophone Quartet
(See description of MUEN 178.)

MUEN 379 1 A, W, S
Woodwind Quintet
(See description of MUEN 179.)

MUEN 380 1 A, W, S
Brass Quintet
(See description of MUEN 180.)

MUEN 381 1 A, W, S
Brass Ensemble
(See description of MUEN 181.)

MUEN 382 1 A, W, S
Trombone Choir
(See description of MUEN 182.)

MUEN 384 1 A, W, S
String Quartet
(See description of MUEN 184.)

MUEN 385 1 A, W, S
Small Vocal Ensemble
(See description of MUEN 185.)
MUEN 386 1 A, W, S
Advanced Handbell Choir
By audition.

MUHL 105 3 A, W, S
Survey of Music
Music in western civilization, including music fundamentals and a brief history from antiquity to the present. Presented by recordings, visual aids, and lectures. Not applicable to music major. Meets the general-education requirement in music.

MUHL 131 2 A
Introduction to Vocal/Choral Literature
Listening skills developed by study of styles, terminology, notation, and performance practices of important vocal/choral works.

MUHL 132 2 W
Introduction to Keyboard Literature
Repertoire, style, terminology, notation, and performance practices in music for harpsichord, piano and organ.

MUHL 133 2 S
Introduction to Symphonic/Chamber Music Literature
Instrumental repertoire studied to develop listening skills, understanding of style, terminology, notation, and performance practices.

MUHL 206 2 W
Music in Christian Worship
History and practice of the use of music in worship services. Emphasis on both liturgical and nonliturgical forms of worship. Odd years.

Upper-division courses:

MUHL 331 3 A
Music from Antiquity Through the Baroque
Music history through the Baroque Era. Development of forms and styles, cultural backgrounds and biographies, and analysis of basic musicological methods. Prerequisite: MUTH 123.

MUHL 332 3 W
Music of the Classic and Romantic Eras
Music history of the Classic and Romantic Eras. See description of MUHL 331.

MUHL 333 3 S
Music of the Twentieth Century
Music history from the Post-Romantics to the present. See MUHL 331.

MUHL 336 3 S
Popular Music in the Twentieth Century

MUHL 337 2 W
Keyboard Literature
The development of keyboard instruments; forms and literature pertaining to teaching and performance. Even years.

MUHL 495 1-3 A, W, S
Independent Study
Advanced, independent project in music history. Requires approval of the department chair. Three hours maximum.

Music Performance
(Each course is available any quarter and, except for recitals, is repeatable.)

Lower-division courses:

MUSP 101-119 1-2 A, W, S
Performance Studies: General
Elementary instruction in voice, harpsichord, organ, piano, guitar, orchestral, and band instruments. Not applicable toward the principal performance area of a music major.

MUSP 120-124 1 A, W, S
Performance Studies: Class Instruction
Lessons for groups of four or more students in voice or instruments. Meets one clock hour per week. Not applicable toward the principal performance area of a music major.

MUSP 125-144 1-2 A, W, S
Performance Studies: Major
Private lessons in voice, harpsichord, organ, piano, guitar, orchestral, and band instruments. Applicable to all majors except B.Mus. performance emphasis. One hour is usually taken each quarter.

MUSP 145-164 1-3 A, W, S
Performance Studies: Emphasis Major
Private lessons in voice, harpsichord, organ, piano, guitar, orchestral, and band instruments. Applicable to B.Mus. performance emphasis. Three hours are usually taken each quarter.

MUSP 225-244 1-2 A, W, S
Performance Studies: Major
(See description of MUSP 125-144.)
MUSP 245-264 1-3 A, W, S
Performance Studies: Emphasis Major
(See description of MUSP 145-164.)

Upper-division courses:

MUSP 301-319 1-2 A, W, S
Performance Studies: General
(See description of MUSP 101-119.)

MUSP 320-324 1 A, W, S
Performance Studies: Class Instruction
(See description of MUSP 120-124.)

MUSP 325-344 1-2 A, W, S
Performance Studies: Major
(See description of MUSP 125-144.)

MUSP 345-364 1-3 A, W, S
Performance Studies: Emphasis Major
(See description of MUSP 145-164.)

MUSP 365-384 1-2 A, W, S
Performance Studies: Secondary Area
Private lessons for majors in secondary areas. Performance majors take 6 hours; music education majors, up to 6 hours by request. Available to students with upper-division status in the major performance area. Normally limited to one area and one hour credit per quarter. Selected in consultation with the major adviser.

MUSP 390 1 A, W, S
Junior Recital
Required of performance emphasis majors in the junior year. Minimum of 30 minutes.

MUSP 425-444 1-2 A, W, S
Performance Studies: Major
(See description of MUSP 125-144.)

MUSP 445-464 1-3 A, W, S
Performance Studies: Emphasis Major
(See description of MUSP 145-164.)

MUSP 489 1 A, W, S
Senior Recital
Required of music-education emphasis and B.S. music majors, the final quarter of lessons culminating in this recital. (See MUED 489 for exception.) Minimum of 30 minutes.

MUSP 490 1 A, W, S
Senior Recital: Emphasis Major
Required of performance emphasis majors, the final quarter of lessons culminating in this recital. Minimum of 60 minutes.

MUSP 495 1-3 A, W, S
Independent Study in Performance
Advanced, independent research project in music performance. Requires approval of department chair. Three hours maximum.

MUSP 425-444 1-2 A, W, S
Performance Studies: Major
(See description of MUSP 125-144.)

MUTH 202 3 S
Music Technology
Selected technological aspects of music: acoustics, MIDI applications, synthesis, and software for learning, notation, performance, sampling, and sequencing. Odd years.

MUTH 221-222-223 3-3-3 A-W-S
Theory II
Continued, more-advanced study of musical parameters begun in Theory I. Movement toward more complex forms and textures. Singing, listening, and keyboard skills. Three classes and one laboratory per week.

Upper-division courses:

MUTH 326 2 W
Keyboard Harmony
For pianists and organists. Learning to transpose, modulate, and harmonize melodies; developing ability to improvise. Admission by permission of the instructor. Odd years.

MUTH 331 3 A
Orchestration
Technical aspects and sound qualities of instruments. Arranging for a variety of instrumental groups. Prerequisite: MUTH 123. Odd years.

MUTH 332 3 W
Counterpoint
Basic contrapuntal principles as generally illustrated in music of various historical styles. Prerequisite: MUTH 123. Odd years.

MUTH 431 3 A
Form and Analysis
Form and structure of music from plainchant to the present. Prerequisite: MUTH 223. Even years.
MUTH 432 3 W
Composition
Composing the smaller forms of music for a variety of vocal and instrumental combinations. Prerequisite: MUTH 223. Even years.

MUTH 495 1-3 A, W, S
Independent Study
Advanced independent project in composition or theory. Requires approval of the department chair. Three hours maximum.
Nursing Associate of Science Degree in Nursing, A.S.
The Mission of the Associate of Science Program in Nursing is to prepare students to provide competent nursing care for patients of all ages by utilizing the nursing process while functioning in the role of the associate degree nurse in the context of Christian faith and human service. This mission is fulfilled by provision of the following to students:

- opportunities to develop a Christian philosophy of life that conveys tolerance of others and concern for them
- a curriculum based on scientific principles, current concepts of nursing, community health needs, and trends in nursing education.
- a curriculum that provides students the knowledge and competencies to meet successfully the established standards required for Registered Nurse licensure
- a foundation for upward mobility in nursing education
- experiences that stimulate students toward optimal personal and professional growth through lifelong learning
- an environment that fosters critical thinking and instills a desire for ongoing inquiry

Admission Requirements:
Admission requirements are those published in the General Catalog in effect during the year of the student’s admission to the nursing program.

1. ENGL 101 College English (4)
2. BIOL 101 Human Anatomy (5) or BIOL 102 Human Physiology (5) (If there has been a lapse of more than five
years since science courses were taken, the student may be evaluated to determine current proficiency.)

4. Secondary-school chemistry or physics or CHEM 101 or PHYS 105 and 106 with no grade lower than a C. Both physics and chemistry are recommended.**

5. Mathematics skills (0-7 hrs.). These skills, normally acquired through three years of mathematics at the secondary level, may be verified by satisfactory scores on national or Mathematics department tests. An ACT standard score of 19 (or SAT score of 500) in mathematics ensures satisfaction of this requirement. Students lacking this score may need to complete one or both of MATH 001 Essential Mathematics and MATH 019 Introductory Algebra, as indicated by other test scores.

6. Admission is based upon ACT scores, college GPA, and other factors. All general-education and cognate courses required for the A.S. degree in Nursing must be completed with no grade lower than C.

7. Current certification in cardiopulmonary resuscitation for the professional rescuer.

8. Documentation certifying completion of a full physical examination within the past twelve months and indicating acceptable health. Documentation showing proof of currency must be provided for the following:
   a) Immunization for Rubella, or Rubella titer if immunization is not within ten years.
   b) Tuberculosis skin test within the last twelve months or appropriate chest X-ray documentation (available at the PUC Health Service).
   c) Hepatitis B immunization series should be started upon acceptance into the program.

9. TEAS (Test of Essential Academic Skills). Applicants must pass the TEAS at the departmentally approved level.

10. An admissions interview with the Admissions Committee.

11. Acceptable recommendation from a residence-hall dean, as appropriate. Nonresident students should provide a personal reference.

12. One professional reference.

13. Current malpractice insurance ($45).

**Admission Procedure for Nursing:**

1. File applications for admission to both the College and the Department of Nursing. The nursing program application fee is $20. (Note: R.N. licensure may be denied for crimes, abusive behavior, or any illegal acts that are substantially related to the practice of nursing. Before applying to the nursing program, any applicant who has ever been convicted of a crime should ask the department secretary for a copy of the Board of Registered Nursing Regulations Relating to Denial of Licensure.)

2. File application and all supporting documents for admission to the nursing program with the Department of Nursing. Applicants should file early; applications are processed in the order in which they are received.

3. Provide to both the Office of Enrollment Services and the Nursing department ACT (or SAT) scores and transcripts from high school or academy and each college or university attended.

4. Send a copy of both sides of a current cardiopulmonary resuscitation certification card.

5. Arrange to take the TEAS at the Counseling and Career Center.

6. Provide the Nursing department evidence of a physical examination completed within the last twelve months, including the required immunizations and chest X-ray or T.B. skin-test results.

7. Provide one professional reference and (for resident students) a reference from a residence-hall dean; (for nonresident students) a personal reference. Recommendations written by relatives and those presented directly to the Nursing department by the applicants themselves are not acceptable.

After the applicant has filed all the pertinent documents (see items 1-7) with the appropriate department, has completed the TEAS, and all grades have been received for prerequisite work, the application will be processed and the student notified of the action taken.

**Readmission Procedure for Nursing:**

Students who withdraw from the program in good academic standing may apply for readmission as follows:

1. Reapply for admission to the College, if necessary.

2. Present completed reapplication form to the Nursing Admissions Committee (forms are available at the Nursing department office).

3. Provide one professional reference.

4. Those requesting readmission after an absence of one through three years will be required to validate their current knowledge of nursing at the level of the last nursing course completed. Definitions of current requirements are available at the department office.

5. Students requesting readmission after an absence of more than three years will be required to validate their current nursing knowledge for each nursing course they have completed.

The following policies apply to the above category of reapplicants:

**If there has been a lapse of more than five years since science courses were taken, the student may be evaluated to determine current proficiency.**
1. Knowledge validation results determine appropriate course-level placement.
2. A per-hour fee is charged for knowledge validation testing.
3. Students must meet all other “Requirements for Continuation in and Graduation from the Associate Degree Program in Nursing.”
4. Readmission is on a space-available basis.*
   Students who withdraw from the nursing program because of failing performance, or who fail a nursing course, may apply for readmission as follows:
   1. Reapply for admission to the College, if necessary.
   2. Submit completed reapplication form to the Nursing Admissions Committee. (Forms are available at the Nursing department office.)
   3. Provide evidence that any identified problems have been corrected.
   4. Provide one professional reference.
   5. Those requesting readmission after an absence of one through three years will be required to validate their current knowledge of nursing at the level of the last nursing course completed. Definitions of current requirements are available at the department office.
   6. Students requesting readmission after an absence of more than three years will be required to validate their current nursing knowledge for each nursing course they have completed.

The following policies apply to students reapplying after failing academic performance:
1. Knowledge validation results determine appropriate course-level placement.
2. A per-hour fee is charged for knowledge-validation testing.
3. Students will be limited to one nursing course repeat in the program, including withdrawals for failing performance.
4. Before progressing in the nursing course sequence, the student must repeat any nursing course in which a grade lower than C (2.0) was earned.
5. Students must show evidence for potential success by having corrected identified problem areas.
6. Students must meet all other “Requirements for Continuation in and Graduation from the Associate Degree Program in Nursing.”
7. Readmission is on a space-available basis.*

* Because of enrollment limits in clinical sections, students may experience delays of one quarter or more before they are readmitted to the program or before they may repeat a nursing course.

** Specific information and materials about transfer, challenge, waiver, and the 30-semester/45-quarter unit option are available in the Department of Nursing and will be sent upon request.
Associate degree L.V.N. applicants must have had at least one year of clinical experience.

Applicants meeting admission and degree requirements through transfer, challenge, or waiver will all have equal access for open space in all clinical nursing courses.

Requests for acceptance by transfer from another nursing program are evaluated on an individual and space-available basis. Transfer courses must be equivalent to the courses in the Pacific Union College generic program.

Students who have not been continuously enrolled in an academic program may have previous course work, knowledge, and skills evaluated to determine current proficiency levels. Those desiring evaluation or placement may schedule arrangements with the Admissions Committee of the Department of Nursing and may buy selected copies of course outlines at the College Bookstore. Nursing examinations will include both written and “practical” sections.

Proficiency evaluations in nursing are available to:
1. Students transferring from another program for educating registered nurses.
2. Students transferring from programs educating licensed vocational nurses.
3. Those individuals already licensed as vocational nurses.
4. Those individuals having developed skills during previous employment that are similar to those expected of students in the required nursing courses.

Requirements for Continuation in and Graduation from the Associate Degree Program in Nursing:
1. Satisfaction of the requirements for the Associate of Science degree as specified in the current Pacific Union College catalog.
2. (Angwin Campus) Before entering the second year of the Associate Degree program, completion of all general education and cognate requirements (with the possible exception of religion).
3. A minimum grade of C (2.0) in the required nursing, cognate, and general-education courses.
4. No more than one nursing course repeat.
5. Maintenance of current certification in cardiopulmonary resuscitation for the professional. (The certification must be presented at registration every quarter.)

7. Acceptable physical and mental health.*
8. Compliance with all policies and procedures in the Nursing Department Student Handbook.

Required Standardized Testing
Subject tests are administered during NURS 125, 154, 221, 222, 252, 253, 254, and 262.

Associate of Science Degree in Nursing, A.S.

A minimum of 104 hours including the following**:

Required Core Courses:
- NURS 121 Nursing I 7
- NURS 124 Nursing II 6
- NURS 125 Nursing III 7
- NURS 154 Mental Health Nursing I 1
- NURS 221 Nursing IV 7
- NURS 222 Nursing V 7
- NURS 252 Maternal-Newborn Nursing 5
- NURS 253 Pediatric Nursing 5
- NURS 254 Mental Health Nursing II 5
- NURS 262 Nursing VI 8

Required Cognate Courses:
- BIOL 101 Human Anatomy 5
- BIOL 102 Human Physiology 5
- FDNT 235 Nutrition 4
- MICR 134 General Microbiology 5
- PSYC 121 General Psychology 4
- PSYC 234 Human Development 4
- SOCI 121 Introduction to Sociology 4

Required General Education Courses:
- ENGL 101 (College English), 4 hours; COMM 105 or 226 (Speech Communication or Public Speaking), 3 hours; Religion, 9 hours, including four with RELB prefix.

* See Board of Registered Nursing Guidelines on substance abuse and mental illness, available in the Department of Nursing.

** Nursing fees are charged each quarter. See FINANCIAL INFORMATION in this catalog for details.
Nursing

Service course

Note: In addition to the content described in each nursing course, the concepts of aging, communication, pharmacology, and therapeutic nutrition are integrated throughout the curriculum.

NURS 141 2 A, S
Venipuncture
Introduction to basic procedures and equipment in the medical laboratory emphasizing the techniques of venipuncture. With skills gained in this class the student is employable on a part-time or summer basis in a medical laboratory.

Lower-division courses:

Course Evaluation: Each nursing course is composed of both theory and clinical hours. Passing the course and progressing to the next nursing course require passing grades in both the theory and clinical components. If the clinical portion of a course is failed, a grade of F is recorded for the entire course. See the Clinical Evaluation Policy in the Nursing Department Student Handbook.

NURS 121 7 A, W, S
Nursing I
Basic nursing theory, with a focus on concepts of wholeness. The nursing process as a framework for meeting needs of patients and their families. The concept of functional health patterns. Opportunity to apply theoretical concepts and skills in acute care and community settings. Four theory units (40 clock hours) and three clinical units (90 clock hours). Prerequisites: ENGL 101; BIOL 101 or 102.

NURS 124 6 A, W, S
Nursing II
Application of the nursing process and the concept of wholeness to care for patients with variations in functional health patterns. Concepts focus on age-related changes that affect the functioning and quality of life of older adults. Clinical experiences include acute medical-surgical and skilled-nursing patient care. Three theory units (30 clock hours) and three clinical units (90 clock hours). Prerequisites: NURS 121, BIOL 101, and 102. Corequisite: NURS 154.

NURS 125 7 A, W, S
Nursing III
Application of the nursing process and the concept of wholeness to caring for adult clients with acute alterations of functional health patterns. Opportunity to apply theoretical concepts and skills in acute care and community settings. Four theory units (40 clock hours) and three clinical units (90 clock hours). Prerequisites: NURS 124.

NURS 154 1 A, W, S
Mental Health Nursing I
Builds on basic behavioral, interpersonal, and communication concepts. Focuses on normal and variations of interpersonal functional health patterns. One theory unit (10 clock hours). Prerequisite: NURS 121. Corequisite: NURS 124.

NURS 221 7 A, W, S
Nursing IV
Application of the nursing process to adult clients experiencing acute/chronic alteration in functional health patterns. Clinical practicum includes acute care and outpatient settings. Four theory units (40 clock hours) and three clinical units (90 clock hours). Prerequisites: NURS 125. Corequisite: NURS 254.

NURS 222 7 A, W, S
Nursing V
Applications of the nursing process with adult clients with increasingly acute and chronic alterations in functional health patterns. Clinical practicum includes acute care and outpatient settings. Three theory units (30 clock hours) and four clinical units (120 clock hours). Prerequisite: NURS 221. Corequisite: NURS 252.

NURS 252 5 A, W, S
Maternal-Newborn Nursing
Application of the nursing process to the childbearing family with normal and variations in functional health patterns. Experiences in acute and community settings. Three theory units (30 clock hours) and two clinical units (60 clock hours). Prerequisites: NURS 221. Corequisite: NURS 222.

NURS 253 5 A, W, S
Pediatric Nursing
Nursings concepts of functional health patterns applied to the child with normal, acute, and chronic needs from one month through adolescence. Emphasis on meeting the needs of the child within the family unit. Clinical practicum includes inpatient and community settings. Three theory units (30 clock hours) and two clinical units (60 clock hours). Prerequisite: NURS 222. Corequisite: NURS 262.

NURS 254 5 A, W, S
Mental Health Nursing II
Nursing care of patients with psychiatric disorders. Theory and clinical application with geropsychiatric patients and in inpatient psychiatric units of an acute-care medical center. Two theory units (20 clock hours) and three clinical units (90 clock hours). Prerequisite: NURS 125. Corequisite: NURS 225.
NURS 262 8 A, W, S  
Nursing VI  
Builds on basic concepts and introduces new concepts to enable direct management of care for a group of patients by a nurse in a beginning staff position. Focuses on self-management and leadership skills necessary in the R.N. role. Preceptorship experience in selected units in an acute-care medical center. Three theory units (30 clock hours) and five clinical units (150 clock hours). Prerequisites: NURS 221, 222, 252, 254. Corequisite: NURS 253.

NURS 271 1-2 A, W, S; 1-6 Su  
Field Experience  
A work-study course offered through the Department of Nursing in cooperation with selected clinical agencies. Students apply previously learned theory and clinical skills in assigned patient-care settings under direct supervision of selected RN preceptors. One quarter unit of academic credit requires 75 clinical hours. Maximum credit available is 8 quarter units. Prerequisite: NURS 125 and approval by Nursing department faculty.

Bachelor of Science in Nursing, B.S.N.  
(Second-Step Program in Nursing)  
The mission of the baccalaureate program is to prepare registered nurses for professional practice within a broad liberal education in a context of Christian faith and human service. The second-step program fulfills this mission by providing students with the following:

- Opportunity to care for clients, families, and communities within the context of Christian values and human service.
- A broad liberal and professional education that will serve as the basis for professional growth, career mobility, and graduate education.

This upper-division program for registered nurses leading to the Bachelor of Science in Nursing degree is designed to articulate with a two-year associate degree program. A registered nurse graduate of an associate degree or diploma program will normally have completed the nursing prerequisites for the program and may transfer in a maximum of 57 lower division nursing credits. A student enrolled in full-time study may sequence general education and nursing courses to complete degree requirements in three to six quarters. A flexible class schedule helps to accommodate the needs of those with limited access to nursing programs or who are unable to coordinate with traditional baccalaureate programs.

Admission Requirements:  
In addition to the requirements for admission to the College, the following criteria must be met:

1. Junior academic standing.
2. Completion of an associate degree, or its equivalent, in nursing.
3. Possession of a current registered nurse license.
4. Completion of the following:
   - Communication (oral and written): 9 hours
   - Sciences (natural, including Introductory Chemistry, and behavioral): 24 hours
5. Students accepted for full-time enrollment will lack no more than 12 hours of general education required for the baccalaureate degree in nursing. Students accepted for part-time enrollment will lack no more than 33 hours of general education required for the baccalaureate degree in nursing.
6. At the discretion of the nursing faculty, and pending both NCLEX results and completion of prerequisites, students may enroll in up to 12 units of upper-division nursing theory courses (excluding NURS 393, 431, 461) before admission to the B.S.N. program.

Requirements for registration for clinical courses:  
1. Current certification in cardiopulmonary resuscitation for the professional.
2. Proof of current malpractice insurance.
3. Documentation certifying completion of a full physical examination with T.B. skin test or chest x-ray within the past 12 months and status of current immunizations.

Clinical placement is evaluated and approved by the nursing faculty.

Transportation Policies:  
Students are expected to provide their own transportation to, during, and from off-campus clinical labs. Faculty will not provide transportation. Students are advised not to transport clients in their own vehicles under any circumstances. This policy protects both the client and the student. State law requires proof of automobile liability insurance.

Admission Procedure:  
1. File applications for admission both to the College and to the Department of Nursing.
2. Official transcripts from schools of nursing and all colleges or universities attended are to be sent to the Office of Enrollment Services on the Angwin campus.
3. A personal interview is required, either by office appointment or telephone, with a faculty member of the Department of Nursing.
4. Two recommendations regarding professional performance in nursing from the applicant’s current or recent place of employment and/or from a former instructor are to be sent to the Department of Nursing.
5. Notification of acceptance to the College will be in writing from the Office of Enrollment Services.
6. Notification of acceptance into the Bachelor of Science in Nursing program will be in writing from the Department of Nursing.

- Academic Requirements for Continuation in and Graduation from the Second-Step Program in Nursing:
  1. The general-education requirements for the B.S.N. are the same as for the B.S. degree (see pages 23-27 of this General Catalog) except for the following changes: II-A, Historical Contexts: 8 hours (transfer students who have not taken college courses in history are advised to meet this requirement by taking two sequential courses). II-B, Philosophy: not required. II-C: PSYC 121, PSYC 234, SOCI 121, and a course in cultural diversity. III-A, B, C: 8 hours selected from two areas. IV-A-2, IV-A-4, and IV-B: not required. IV-C requires BIOL 101, BIOL 102, and MICR 134. IV-D: not required.
  2. Students who receive a grade lower than a C- in a nursing course must repeat the course. Students are limited to a total of two nursing-course repeats in the program, including withdrawals for failing performance, with no course repeated more than once.

Bachelor of Science in Nursing, B.S.N.
- A total of 192 quarter hours (60 in the upper division) including specified nursing courses, cognates, general education, and electives. A maximum of 108 community college credits may be transferred, with up to 57 credits in nursing.

  Cognates, general-education, and elective courses are to be selected in consultation with the nursing faculty advisers. All nursing theory courses and corequisite practicums are to be taken concurrently.

- Required Core Courses:
  - NURS 349  Professional Issues in Nursing 6
  - NURS 335  Health Assessment 3
  - NURS 384  Health Care Delivery System 3
  - NURS 390  Pathophysiology of Human Responses 3
  - NURS 393  Health Education, Promotion and Self-Care 3
  - NURS 394  Health Education Promotion and Self-Care Practicum 3
  - NURS 420  Social Issues in Health Care 3
  - NURS 431  Community Health Nursing 3
  - NURS 432  Community Health Nursing Practicum 3
  - NURS 461  Health Care Management 3
  - NURS 462  Health Care Management Practicum 3
  - NURS 485  Introduction to Nursing Research 3

- Required Cognate Courses:
  - BIOL 101  Human Anatomy 5
  - BIOL 102  Human Physiology 5
  - CHEM 101  Introductory Chemistry 4
  - FDNT 235  Nutrition 4
  - MICR 134  General Microbiology 5
  - PSYC 121  General Psychology 4
  - PSYC 234  Human Development 4
  - SOCI 121  Introduction to Sociology 4
  - A course in cultural diversity 4

Upper-division courses:
The sequence of course offerings may vary on satellite campuses.

NURS 335  Health Assessment
Enhancement of health assessment skills and history-taking techniques by theory and practice. Complete health history and integrated physical examination. Includes laboratory.

NURS 349  Professional Issues in Nursing
- Issues in development of the nursing profession: historical influences, theory development, changing professional roles, evolution of expanded practice.

NURS 373*  Hospice Nursing
Care of terminally ill clients and their families in the hospice experience.

*Offered on sufficient demand.
NURS 374* 2 A, W, S
Nursing and Epidemiology in Vaccine-Preventable Diseases
Vaccine-preventable diseases, recommended immunization practices, and the Childhood Immunization Initiative. Integration and application of concepts of immunity, pathogenesis, and levels of prevention.

NURS 376* 2 A
Transcultural Nursing
Models and issues in assessing, planning and implementing nursing care of clients and families from diverse cultures.

NURS 378* 2 S
Grief Process
Nursing clients and families who have experienced a recent significant loss. Models of grief recovery in recent literature, with therapeutic approaches to grief resolution.

NURS 384 4 S
Health Care Delivery Systems
National health-care issues and the impact of health-care systems on the delivery of health services and on nursing practice. Emphasis on the nurse’s role in national health-care issues.

NURS 390 4 W
Pathophysiology of Human Responses
Responses to actual and potential health problems across the life span. Builds on the biophysical and psychosocial sciences and on the content of previous nursing courses. Emphasis on nursing interventions that address human responses related to acute and chronic illness.

NURS 393 4 W
Health Education, Promotion, and Self-Care

NURS 394 3 W
Health Education, Promotion, and Self-Care Practicum
Application of NURS 393 in a variety of settings. Corequisite: NURS 393.

NURS 420 4 A
Social Issues in Health Care
Exploration of current social issues that have implications for health-care professionals. Includes the origins, assessment and interventions associated with problems that affect the individual, the family, and society. Emphasis on the relationship between health care and related sciences and cultural-societal issues.

NURS 431 4 A
Community Health Nursing
Nursing roles in applying community health concepts in promoting and maintaining health and in preventing illness in individuals, families, and communities. Corequisite: NURS 432.

NURS 432 3 A
Community Health Nursing Practicum
Applications of NURS 431. Corequisite: NURS 431.

NURS 461 4 S
Health-Care Management
Theories of leadership and management related to the organization and delivery of nursing care in a variety of settings. Corequisite: NURS 462.

NURS 462 3 S
Health-Care Management Practicum
Applies leadership and management theories and concepts in selected clinical settings. Corequisite: NURS 461.

NURS 485 4 S
Introduction to Nursing Research
Introduction to the concepts and process of research and its implications for nursing. Designed to help students become consumers of nursing research by developing basic skills for interpreting and using nursing research. Recommended: MATH 222.

NURS 495 1-3
Independent Study
An individual research course for advanced students with adequate background in appropriate nursing studies. Three hours maximum. Prerequisite: Permission of chair or associate chair.

*Offered on sufficient demand.
Physics and Engineering

Faculty
Bruce Ivey, chair; Bill Mundy, Richard Webb
Departmental Office: 238 Chan Shun Hall; 965-7269

Degrees and Programs
Physics, B.S. ............................................................... 169
Biophysics, B.S. ............................................................ 170
Natural Science, B.S. ...................................................... 170
Teaching Credential ...................................................... 171

Physics is the search for the fundamental physical laws of nature. In particular, physics is the study of forces and motion of physical entities, seeking to find basic relations that synthesize these phenomena. The goal is to discover ways to control and predict natural occurrences and to understand and explain the physical universe. To achieve this goal involves observation and experimentation from which physical and mathematical models are developed that suggest concepts and theories. Although modern science limits itself to a naturalistic view of reality and to experimental ways of obtaining knowledge, this department takes the view that physical phenomena are consistent with the concept of an intelligent Designer and divine Creator.

Degrees offered in physics include a four-year B.S. with a variety of emphases to suit the graduate scholar, applied researcher, secondary-school teacher and those proceeding to professional education in medical and allied health fields. The department offers a minor in physics.

This department houses the first two years of the engineering program that is affiliated with the School of Engineering at Walla Walla College.

Major in Physics, B.S.

\[ A \text{ minimum of 60 hours (36 in the upper division) chosen from physics and astronomy courses including the following:} \]

Recommended Cognate Course:

CPTR 115 Computer Programming (4)

This program provides the additional emphasis in the physical sciences demanded for graduate study in biophysics, physiology, medicine, radiation biology and molecular biology, especially when a career in academic medicine or medical research is contemplated. This program is also recommended as a broad major for teaching at the secondary-school level.

Major in Natural Science, B.S.

This major satisfies the preconditions for science program subject-matter approval by the California Commission on Teacher Credentialing. The core requirement of 64 quarter hours corresponds to science subjects commonly taught in California public schools, and the concentrations available treat the subject matter at a depth more than adequate for teaching the higher secondary science courses in biology, chemistry, and physics.

- Required Core Courses:

Physics and Engineering

» Required Cognate Courses:
CHEM 102  Survey of Organic Chemistry (4)
CHEM 103  Survey of Biochemistry (4)

2. Chemistry Emphasis (33 hours)
CHEM 324  Analytical Chemistry 3
CHEM 324L Analytical Chemistry Laboratory 2
CHEM 351  Physical Chemistry for Life Sciences 3
or CHEM 451 Physical Chemistry (3)
CHEM 371-372-373  Organic Chemistry 4-4-4
CHEM 373L Advanced Organic Chemistry Laboratory 1
CHEM 381  Biochemistry 4

» Required Cognate Course:
MATH 131-132 Calculus 4-4

3. Physics Emphasis* (35 hours)
ENGR 117  Electronics 3
MATH 131-132-133 Calculus 4-4-4
PHYS 314  Elementary Modern Physics 4
One of the following courses:
ENGR 116  Circuit Theory 4
PHYS 256  Applied Optics 4

Additional hours (at least 12 upper division) selected from physics courses that carry credit toward a major in physics and from the following course:
CHEM 344  Nuclear Physics and Chemistry 3

Minor in Physics
» A minimum of 30 hours (12 upper division) chosen from physics, astronomy, and engineering courses (except ENGR 105).

Engineering
Engineering courses are offered for those who wish to begin studies in engineering that meet the requirements of the first two years of the engineering degree of Walla Walla College. PUC has an affiliation with the School of Engineering of Walla Walla College for this purpose. Faculty of the WWC School of Engineering visit PUC regularly for guidance and counseling of students. The Bachelor of Science in Engineering degree, of which this program is a part, prepares the student to enter professional practice in civil, mechanical or electrical engineering. The following courses may be taken at Pacific Union College to satisfy the requirements of the affiliation plan:

CHEM 111-112-113 General Chemistry 5-5-5
CPT 115  Computer Programming 4
ENGL 101-102 College English 4-4
ENGR 131  Engineering Drawing 3
ENGR 105  Introduction to Engineering 3
ENGR 211-212-213 Engineering Mechanics 3-3-3
ENGR 116  Circuit Theory 4
MATH 131-132-133 Calculus 4-4-4
MATH 265  Elementary Linear Algebra 4
MATH 267  Multivariable Calculus 4
MATH 269  Elementary Differential Equations 4
PHYS 211-212-213 Physics 4-4-4

Teaching Credential
Students desiring to enter a program of studies leading to a California teaching credential in science with a concentration in physics should take the B.S. degree in Natural Science. This program meets the newly established standards of quality and effectiveness and has been approved by the State of California Commission on Teacher Credentialing. A brochure describing the new program and its requirements is available in the Physics department office. Students are invited to discuss the program with the Teacher Education Adviser in the Physics department.

Those who plan to teach on the secondary level should consult with the Credential Analyst in the Department of Education and should become acquainted with the specific requirements for admission to and successful completion of the Teacher Education Program as outlined in the Education section of this catalog.

* Students electing the physics emphasis must take PHYS 211-212-213.
Physics and Engineering

Astronomy

Lower-division courses:

ASTR 115 5 A, W
Astronomy
An introduction for the general student to the basic elements of astronomy. Topics include models of the solar system, stars and their processes, clusters, galaxies, cosmology, and relevant physics topics such as light, spectroscopy, nuclear reactions, and relativity. Emphasizes the development of scientific ideas and models for the structure and contents of the universe and the effects of those ideas on western civilization. Laboratory activities emphasize personal observations of various astronomical objects, as weather permits. Four lectures and one evening laboratory weekly. Prerequisite: MATH 019 or equivalent.

ASTR 173 1 A
Meteorology
For a better understanding of the science of meteorology, this course helps explain various natural phenomena in the world around us. Beginning with the basics of physics that control the atmosphere, the discussion extends to the causes of weather patterns, frost, snow, rain, sleet, tornadoes, hurricanes, deserts, and polar ice caps.

Upper-division course:

ASTR 495 1-3 A, W, S
Independent Study
With the approval of the department chair, qualified students may undertake the independent, directed study of problems suited to their background and experience. Maximum of three credits.

Engineering

Lower-division courses:

ENGR 105 3 A
Introduction to Engineering
A survey of engineering as a profession: the main divisions; the work, functions and personal characteristics of the engineer; application of the sciences in engineering; design tools used by engineers; computer methods, basic skills for engineering problem-solving. Two lectures and one laboratory per week.

ENGR 116 4 S
Circuit Theory
A first course in circuit analysis for engineering and physics students. Circuit variables and parameters; Kirchoff’s laws and network solution; equivalent circuits, network theorems; natural and complete response; sinusoidal steady-state, phasors and impedance; frequency characteristics; power and power factor. Three lectures and one laboratory weekly. Prerequisite: PHYS 211-212-213

ENGR 117 4 W
Electronics
Basic DC and AC circuits, introduction to circuit analysis, characteristics and applications of discrete and integrated solid-state electronic devices and circuits; digital-logic circuit elements; transmission properties, amplifier circuits; practical applications. Three lectures and one three-hour laboratory weekly. Prerequisite: MATH 130.

ENGR 131 3 A
Engineering Drawing
Principles of and practice in engineering drawing. Applications to technical problems of CAD drafting techniques, orthographic, and pictorial views. Two lectures and one laboratory weekly.

ENGR 211-212-213 3-3-3 A-W-S
Engineering Mechanics
A basic course in statics and dynamics. Detailed analysis of equilibrium, kinetics and kinematics of particles and rigid bodies. Examples and problems relate to real engineering applications. Prerequisites: MATH 131-132-133, PHYS 211.

Geology

Lower-division course:

GEOL 233 4 S
Geology
The materials, structure, and internal conditions of the earth; the physical and chemical processes at work upon it. Three lectures and one laboratory weekly.

Physics

Service Courses:
(The following lower-division service courses may not be used for a major or minor in this department)

PHYS 105 5 S
Introduction to Physics
Emphasizes the ideas and concepts of conventional topics in physics with illustrations from everyday living. Assumes no previous physics course. (Students who need this course to meet a curricular requirement may also need to register for PHYS 106L.) Prerequisite: MATH 019 or equivalent.

PHYS 106L 1 S
Introduction to Physics Laboratory
A laboratory course emphasizing physical measurements for those curricula requiring an introductory physics course with laboratory. One three-hour laboratory weekly. Prerequisite or corequisite: PHYS 105.
PHYS 111-112-113  4-4-4 A-W-S
General Physics
An introduction to the fundamental natural phenomena of the physical universe. Topics include Newtonian mechanics, waves, sound, heat, electricity and magnetism, optics, atomic and nuclear physics, special relativity, and elementary particles. Emphasis on fundamental principles and methods of physics. Course is suitable for preprofessional students and also acceptable as part of the general-education requirement in basic science. Three lectures and one laboratory weekly. Knowledge of algebra and trigonometry is required at the level provided by MATH 106, 130.

(The following service course may be used for a major or minor in this department)

PHIL 485  3 A
Issues in Science and Religion
The relationship and interaction between science and religion: epistemology, the methods, languages, scope and limitations of science and religion: problems of ethics and science. Meets in part the college-level Science/Mathematics general-education requirement and is an elective in the Honors Program. Two hours of credit may be applied toward the general-education requirement in religion. Prerequisites: PHYS 105 or CHEM 105, or equivalent, and PHIL 101 or permission of the instructor. Odd Years.

Lower-division courses:

PHYS 211-212-213  4-4-4 A-W-S
Physics
A calculus-based introduction to the study of the physical universe. Intended primarily for students majoring in the physical sciences, engineering, or mathematics, but also appropriate for other students with the necessary background in mathematics. Topics include Newtonian mechanics, waves, electricity and magnetism, optics, thermodynamics, and an introduction to modern physics. Three lectures and one laboratory weekly. This sequence must be taken in order. Prerequisite or corequisite: MATH 131-132-133.

PHYS 256  4 S
Applied Optics
An intermediate-level treatment of theory and applications of electromagnetic waves in or near the optical region of the spectrum. Includes topics in geometrical, physical, and quantum optics and physical phenomena involved in laser action. Three lectures and one laboratory weekly. Prerequisite: PHYS 113 or 213. Odd years.

PHYS 299  1 Arr.
Mini-Course
A short course on a selected, physics-related topic of interest to the general student. Format and scheduling of the course depend on the topic selected but usually consists of several lectures over a period of two or three weeks on a subject of current interest. Credit may be applied toward a physics major by approval of the department chair.

Upper-division courses:

PHYS 314  4 A
Elementary Modern Physics
A continuation of PHYS 211-212-213, this course offers an overview of the fundamentals of relativity and quantum physics and selected topics such as atomic and molecular physics, statistical mechanics, solid state physics, nuclear physics, and elementary particles. Three lectures and one laboratory weekly. Prerequisites: MATH 269, PHYS 213.

PHYS 321-322  3-3 W-S
Biophysics
A course for the upper-division physics student with adequate preparation in biology, covering a variety of topics in which physical analysis is applied to living systems, and the interaction with living systems is studied. Prerequisites: BIOL 111-112-113, CHEM 111-112-113, PHYS 314. Even years.

PHYS 341-342  3-3 A-W
Classical Dynamics
A development of classical mechanics. Topics include Newtonian mechanics and Lagrangian dynamics, which are used to solve problems associated with central-force motion, rigid object dynamics, oscillations, and wave motion. The theoretical bases of problems are emphasized, together with the development of different problem-solving techniques. Prerequisites: MATH 265, 267, 269, PHYS 213. Even years.

PHYS 361-362-363  3-3-3 A-W-S
Electromagnetic Theory
A development of electromagnetic theory. Topics include electrostatics, magnetostatics, electromagnetism, electromagnetic radiation, and relativistic electrodynamics. The concepts of field and potentials are emphasized. Prerequisites: MATH 265, 267, 269, PHYS 213. Odd years.

PHYS 389L  1 A, W, S
Experimental Physics
The goal of this laboratory course is to give the student experience with real science apparatus such as lasers, high field magnets, detectors, radioactive sources, and sophisticated electronics. Activities include experiments in mechanics, electromagnetism, optics, heat, and atomic and nuclear physics. One laboratory weekly. May be repeated for up to six hours. Prerequisites: ENGR 116, 117; corequisite: PHYS 314.
PHYS 396  .5 A, W, S
Seminar
(See BIOL 396)
Single topics of current interest in mathematics and natural sciences are presented by guest lecturers. Graded on S/F basis. To pass, a student must be on time and attend four of five course sessions. Maximum: three hours.

PHYS 445  4 S
Thermal Physics
Development of a statistical description of a system of particles. Different ensembles and their associated partition functions are emphasized and applied to various thermal systems. Prerequisites: MATH 265, 267, 269; PHYS 314. Even years.

PHYS 461-462  3-3 W-S
Quantum Physics
A development of quantum mechanics and atomic physics. Topics include wave packets, Schrödinger’s equation and its solutions, operator methods, angular momentum, matrix representation, spin, perturbation theory, the hydrogen atom, and radiation by atoms. Prerequisites: MATH 265, 267, 269; PHYS 314. Odd years.

PHIL 485  3 A
Cooperative Education in Physics
An individualized contract agreement involving student, faculty, and employer to provide practical experience in physics in a professional off-campus work setting. Prerequisite: Permission of the department chair. Graded S/F.

PHYS 495  1-3 A, W, S
Independent Study
Properly qualified students majoring in physics may, with the approval of the department chair, undertake an independent, directed study of a topic suited to their background and experience. Maximum of three hours.

PHYS 499  1-3 A, W, S
Independent Research
Properly qualified students majoring in physics may, with the approval of the department chair, undertake a directed research problem suited to their background and experience. Maximum of nine hours.

Degrees and Programs:
Theology, B.A................................................................. 175
Teaching Credential...................................................... 176
Religion, B.A. ................................................................. 176
Lay Ministries and Bible Instructor Training, A.S. ............. 177

In a church-related Christian liberal arts college such as Pacific Union College, the Department of Religion is called upon to meet a variety of academic needs. In addition to providing a minimum of 18 hours of course credit for each four-year graduate of the College, the department offers majors and a minor for those who desire a more intensive study of the Bible and the Christian faith.

Students who seek an education to prepare themselves for successful service as ministers, church workers, or active Christian lay workers will find in their religion courses not only content but also inspiration, specific methods, and other practical helps. Students with specific career goals in mind should note carefully the particular careers for which each program of study is designed. Departmental advisers are prepared to assist the student in planning an academic program. The career listings are by no means exhaustive, and there is often more than one program of study suitable for a given career preparation.

Major in Theology, B.A.
▶ A minimum of 50 hours (28 upper division) including the following:

This major is designed for the student who is preparing for Christian ministry in one of its various forms, including pastoral ministry, youth ministry, chaplaincy, and teaching religion. The major is particularly suitable for the student who plans to seek professional education in a seminary. Students who desire to complete this major must apply to the Department of Religion for admission into the Ministerial Studies Program during the spring quarter of the sophomore year. Admission into the program requires meeting the following criteria:

1. Satisfactory completion of the prescribed battery of diagnostic tests and counseling process, which must be completed during the spring quarter of the sophomore year (a fee is assessed)
2. Regular academic standing
3. A grade-point average of 2.5 or better
4. No serious deficiencies in any given area on the evaluation by the departmental faculty

All applications are reviewed by the faculty of the department, and a letter of response is sent to each applicant before the autumn quarter of the junior year. Exceptions to these criteria are considered individually and may be approved by the Religion department faculty.

Each student successfully completing the Ministerial Studies Program and the academic requirements of this major is eligible for recommendation by the Department of Religion as a candidate for entrance into seminary and subsequent work in some branch of Christian ministry.

Teaching Credential

A B.A. with a major in theology is required. Students planning to obtain a teaching credential should consult with the Credential Analyst in the Department of Education to become acquainted with the specific requirements outlined in the Education section of this catalog.

Associate Degree in Lay Ministries and Bible Instructor Training, A.S.

A minimum of 90 total hours for graduation which includes the major, cognate, and general-education requirements. A minimum of 60 hours in the core and cognate courses is required in the A.S. degree program.

This two-year degree program has been established primarily for mature men and women who desire special education and training for a variety of church ministries including service as a Bible instructor. The specific curriculum is designed by the department chair in consultation with the student in terms of career objectives and requirements.

The regular college freshman planning on future service in some area of church ministries should enroll in one of the department’s four-year B.A. degree programs.

### Biblical Studies

**Lower-division courses:**

**RELB 100**

Methods of Bible Study

- An analysis of appropriate ways to approach the study of various types of written material found in the Bible.

**RELB 110**

Biblical Literature

- The setting and content of representative types of literature found in the Bible; a survey of the general nature and scope of the Old and New Testaments.

**RELB 114-115-116**

Bible Themes

- Selected themes related to the problem of sin and the plan of redemption as presented in the Old and New Testaments. Open to lower-division students only. Admission by permission of the instructor.

**RELB 120-**

Life and Teachings of Jesus

- The life, work, and teachings of Jesus from selected portions of Matthew, Mark, Luke, and John. (The two courses may be taken in either order.)

- RELB 120: Historical and geographical context; the birth of Christ through the early part of His earthly ministry

- RELB 121: The later period of Christ’s earthly ministry with emphasis on His crucifixion, resurrection, and ascension.

**RELB 125**

Books of Moses

- The literature, history, and theology of the first five books of the Old Testament.

**RELB 230**

Psalms and Writings

- Psalms, Proverbs, Song of Solomon, and other books of the Old Testament classified as “writings.” Emphasis on major themes and representative passages.

**RELB 240**

General Epistles

- An examination of selected chapters from the New Testament letters of James, Peter, John and Jude.

**RELB 246**

The Preaching of Israel’s Prophets

- Selected messages of the prophets of ancient Israel in the context of Israel’s history and their value for meeting the problems of society today.

### Upper-division courses:

**RELB 310**

Prophets of Israel

- The origin and nature of the prophetic movement followed by an examination of the message of the Old Testament prophetic books.

**RELB 315**

Biblical Ethics

- Major moral teachings of the Old and New Testaments in relation to contemporary moral issues.

**RELB 320**

Women of the Bible

- Women in the Bible, in the light of their cultures and times, with attention to theological themes and their relevance for today.

**RELB 328**

Jesus and the Gospels

- The theological insights presented by the gospels in the portrayal of the life, ministry and death of Jesus.

**RELB 341**

Jesus as Healer

- The role of Jesus as healer as seen in Matthew, Mark, Luke, and John. Enrollment limited to B.S.N. (nursing) students.

**RELB 342**

Studies in Bible Interpretation

REL 342H
Studies in Bible Interpretation (Honors)
Students participate in seminars dealing with issues of interpretation and theology in selected Biblical materials.

REL 370
Studies in Daniel
The book of Daniel, with in-depth study of its prophetic chapters.

REL 371
Studies in Revelation
The book of Revelation, with in-depth study of its prophetic messages.

REL 387
The Story of the English Bible
The history of the English Bible, including the production, canonization, transmission, and translation of the text as well as principles and methods for evaluating the text and modern English versions.

REL 460
Paul and His Letters
Analysis and interpretation of selected portions from the epistles of the Apostle Paul.

REL 495
Independent Study
With the approval of the department chair, properly qualified students may undertake an investigation of a problem suited to their background and experience. Maximum of nine hours.

Higher-Division Courses:

REL 311
World Religions
An introduction to selected great traditions of world religions and to concepts for the study and comparison of these traditions. Emphasis on non-Judeo-Christian traditions. Includes an examination of these religions in relation to the Christian revelation.

REL 320
Christian History: To 1500
(See HIST 320.)

REL 321
Christian History: 1500 to the Present
(See HIST 321.)

REL 329
American Denominations
A survey of major traditions in America. Includes both historical and theological dimensions of American religious identity, with a view toward broadening the contexts of Adventism.

REL 340
Biblical Archaeology
The Bible in its religious, cultural, and political environment as illuminated by discoveries of modern archaeology.

REL 495
Independent Study
With the approval of the department chair, properly qualified students may undertake an investigation of a problem suited to their background and experience. Maximum of nine hours.

Biblical Languages
Most of the courses in this area are required cognates for the theology major. No courses with the prefix RELL may apply as electives to the religion or theology major or to the religion minor except RELL 435 Greek Epistles of Paul and RELL 445 Hebrew Prophets.

Lower-Division Course:

REL 225-226
Beginning Greek
Basic grammar and translation of the Koine Greek of the New Testament, with attention to exegetical tools and methods.

Upper-Division Courses:

REL 325-326
Intermediate Greek

REL 427-428
Biblical Hebrew
An introduction to Biblical Hebrew, including selected readings from various portions of the Old Testament text.

REL 435
Greek Epistles of Paul
Exegesis of the Greek text of selected passages of Paul’s letters in the light of the historical background of his writings and his theological thought as a whole. Prerequisite: RELL 325-326.

REL 445
Hebrew Prophets
Exegesis of selected passages from the Hebrew text, and a study of the historical background, literature, and theology of selected Old Testament prophetic books. Prerequisite: RELL 427-428.
RELL 495  1-3 A, W, S
Independent Study
With the approval of the department chair, properly qualified students may undertake an investigation of a problem suited to their background and experience. Maximum of nine hours.

Professional and Applied Religion

Lower-division course:

RELP 210  3 S
Creative Church Participation
A “hands-on” course that seeks to bring deep joy to one’s worship of God. Students experience a variety of worship expressions, study the biblical and historical foundations for worship, and work in teams to create innovative ways of leading people into meaningful adoration of God. The “hands-on” portion also helps students understand contemporary culture and its worship patterns. Not applicable toward a theology major or minor.

Upper-division courses:

RELP 319  2 S
Church Missions in the Modern World
A survey of contemporary mission theology and methodology, emphasizing personal motivation and preparation, comparative religions, language teaching, and interpersonal skills. This course is prerequisite to student missionary appointment. Enrollment limited to student missionary appointees; exceptions only by approval of the instructor.

RELP 346  2 S
Spiritual Care for Patients
Development of knowledge and skills for meeting spiritual needs that arise in patient care. Includes a survey of religious backgrounds to inform the caring ministry of the health-care professional. Enrollment limited to B.S.N. students.

RELP 381-382  3-3 A-W
Biblical Preaching
The art, discipline, and process of sermon preparation and delivery focused on the basic questions of why, what, and how we preach. Must be taken in sequence. Two lectures and one lab weekly. Prerequisites: junior- or senior-year status; fulfillment of General Education requirement in oral communication. Odd years.

RELP 385  1-6 W
Field Evangelism
Participation in an approved Field School of Evangelism, or field experience, under an approved minister. Graded S/F.

RELP 391-392-393  1-1-1 A-W-S
Extern Program
The course includes field work in assigned churches and a weekly seminar. Limited to junior and senior theology majors who have been accepted into the Ministerial Studies Program. Graded S/F.

RELP 475-476  3-3 A-W
Pastoral Ministry
An introduction to the theology, theory, and practice of Christian ministry, with principal focus on the pastor’s role and ministry. Emphasis on understanding the biblical mandate and context for the local church and on learning how to lead effectively and build up the body of believers.

RELP 484  1-3
Field Practicum
Instruction and experience in specialized ministries: hospital chaplaincy, youth ministry, prison ministry, etc. Prerequisite: approval of the Religion faculty. Repeatable for credit. Graded S/F.

Theological and Philosophical Studies

Lower-division courses:

PHIL 101  4 A
Introduction to Philosophy
Basic issues of philosophy, including methods and values, from the perspective of Western civilization.

RELT 111-112  2-2 W-S
Introductory Bible Doctrines
The basic teachings of the Christian faith as held by Seventh-day Adventists. Enrollment limited to students who are not members of the Seventh-day Adventist Church.

RELT 124  1 A
Ministry Colloquium I
Lecture/discussion series for freshmen majors in theology. Graded S/F. In-Progress (“IP”) grading system.

RELT 216  3 A, W
Introduction to Christian Ethics
A basic course in moral decision-making involving the development and application of Christian principles to modern ethical issues.

RELT 218  3 A, S
Values: Formation and Clarification
Designed to facilitate the examination of one’s value system, assuming that values stem from one’s faith structure. The values-clarification model is used.

RELT 224  1 A
Ministry Colloquium II
Lecture/discussion series for sophomore majors in theology. Graded S/F. In-Progress (“IP”) grading system.
Religion

Relt 235  
Spiritual Formation  
A study of the centrality of religious experience in Christian life and of the devotional disciplines associated with the development of spiritual life.

Relt 244  
Introduction to Religious Faiths  
An orientation to the faith and practice of various religions; a course for nurses who desire to minister to the spiritual needs of their patients.

Relt 245  
Introduction to Personal and Medical Ethics  
Ethical issues that confront a Christian while engaged in medical technology and patient care.

Upper-division courses:

Phil 451  
History of Western Thought  
Survey of philosophy in Western civilization from the pre-Socratic era to the present. Prerequisite: Phil 101.

Phil 470  
Readings in Philosophy  
An analysis and critique of selected primary sources of Western philosophers from Plato to the twentieth century. Prerequisite: Phil 101 or permission of the instructor. Odd years.

Relt 320  
Philosophy of Religion  
An introduction to some of the issues raised by a rational analysis of religion. Emphasis on the nature and validity of Judeo-Christian world views.

Relt 324  
Ministry Colloquium III  
Lecture/discussion series for junior majors in theology. Graded S/F. In-Progress (“IP”) grading system.

Relt 331  
Doctrinal Studies  
In-depth study of the nature and purpose of Christian doctrine; the doctrines of inspiration and revelation, God, mankind, sin, and the remedy for sin.

Relt 332  
Doctrinal Studies  
In-depth study of the doctrine of Christ—His nature and His work; the doctrine of the church; the nature and purpose of the church; and the experience of its members.

Relt 333  
Doctrinal Studies  
In-depth study of the doctrines of the Christian’s lifestyle, standards, and worship; eschatology and last things; and the Sabbath.

Relt 335  
Salvation in the Sanctuary  
The plan of salvation as illustrated by Israelite sanctuary worship.

Relt 337  
Last Day Events  
Final events of earth’s history culminating in the return of Jesus Christ, with emphasis on how to be ready for His coming.

Relt 345  
Christian Ethics in Patient Care  
The study and application of ethical theory and Christian principles to ethical dilemmas facing the professional nurse. Enrollment limited to B.S.N. students.

Relt 350  
Issues in Christian Faith  
An in-depth study of a topic important to Christian faith. Consideration of the theological and spiritual dimensions of the topic. May be repeated for credit when the subtitle varies. Current subtitles: God and Human Suffering, Women and the Church, The Death and Resurrection of Christ.

Relt 355  
Christian Ethics in Society  
A study of the moral implications of Christian faith for the organization or transformation of social institutions.

Relt 381  
Ellen G. White and Adventism  
The Biblical teaching on the gift of prophecy, of the Millerite movement, and of Ellen G. White and her role in the early history of the Seventh-day Adventist Church.

Relt 382  
The Writings of Ellen G. White  
The writings of Ellen G. White, with special emphasis on current issues relating to them.

Relt 424  
Ministry Colloquium IV  
Lecture/discussion series for senior majors in theology. Graded S/F. In-Progress (“IP”) grading system.

Relt 440  
Christian Bioethics  
Contemporary ethical issues in the biomedical sciences from the perspective of Christian ethics. Topics include abortion, euthanasia, eugenics, new reproductive technologies, and human experimentation.
**RELT 464**  \textit{Seminar in Theology}  \hfill 3 S

Senior seminar for theology and religion majors. Others may be admitted with the consent of the instructor.

**RELT 495**  \textit{Independent Study}  \hfill 1-3 A, W, S

With the approval of the department chair, properly qualified students may undertake an investigation of a problem suited to their background and experience. Available every quarter. Maximum of nine hours.
**Faculty**
Verlyn Benson, chair; Colin Erickson, William Price, Nathan Tasker, Jon Wood
Departmental Office: 260 Fisher Hall; 965-6604

**Degrees and Programs**

Aviation, B.S. ................................................................. 183
Graphics Technology, B.S. .................................................... 184
Digital Video Technology, B.S. ............................................. 184

The Department of Technology offers the following curricula:
Aviation prepares students interested in positions in aviation.
Training includes theory, ground and flight instruction leading to pilot certificates and ratings from Private Pilot through Commercial Pilot and Flight Instructor. Graduates may take positions as private and commercial pilots, mission and medical pilots, and others.

Graphics Technology is designed to prepare students for professional competency and leadership in the computer-based graphics industry. The instructional core of this program is based on numerous professional computer applications to give students the opportunity to learn the most modern techniques and skills of graphic creations, manipulations, and output.

Digital Video Technology opens the exciting world of digital video production through training and hands-on experience with professional, industry-standard equipment, software, computers, and more. Instruction focuses on using the new digital format for broadcast, documentary, and short film production, and is designed to give the graduate the ability to work independently or to fill one of the many job descriptions in this fast-growing industry.

**Major in Aviation, B.S.**
Students transferring into the aviation program with previously earned FAA certificates or ratings should apply through the Technology department at the time of initial registration for course credit (see “Credit by Examination,” page 39). Course credit for FAA certificates or ratings earned earlier at other locations is not available and will not be awarded after the student has begun aviation courses at Pacific Union College. A copy of FAA certificates must be presented to the departmental representative at the Flight Center. Grades issued in recognition of FAA certificate validations are recorded as S (Satisfactory). For complete aviation policies and procedures, consult the Flight Policies and Procedures Handbook, available at the Flight Center. For financial information about flight training, see the financial information section of this catalog.

> A minimum of 68 hours (31 in the upper division).

</table>
Recommended Field Experience

It is recommended that all students majoring in Aviation should have completed, by the end of winter quarter of their senior year, 500 clock hours of commercial work related to the major field and performed under approved supervision. The College will help place students in qualifying positions.

The objective of this program is to prepare graduates for such positions in the aviation industry as the following: mission pilots, company pilots, medical evacuation, teaching positions, pipeline patrol, border patrol, police, pilot training, forestry, fishing industry, air taxi operator, accident investigation, FAA specialist, major airline pilot, commuter airline pilot, cargo operations (FEDEX, UPS), fixed-base operator, traffic controller, and airport manager.

Minor in Aviation

A minimum of 30 hours (9 upper division) to be selected in consultation with the Department Chair, from the requirements listed for the major in Aviation.

Major in Graphics Technology, B.S.

A minimum of 60 hours (30 in the upper division):

- ART 261 Graphic Design I 3
- ART 262 Graphic Design II 3
- ART 317 Design for the Web 2
- ART 363 Pre-Print Production I 2
- ART 464 Pre-Print Production II 3
- GRPH 151 Principles of Digital Imaging 3
- GRPH 153 Introduction to Macintosh 2
- GRPH 155 Introduction to Graphics Technology 1
- GRPH 158 WWW Portfolio Development 2
- GRPH 253 Publication Technology I 3
- GRPH 256 Publication Technology II 2
- GRPH 257 Publication Technology III 2
- GRPH 352 Digital Image Technology 3
- GRPH 353 Web Page Publication 3
- GRPH 354 Color Imaging 2
- GRPH 356 Doing Business on the Web 3
- GRPH 357 3D Digital Imaging 3
- MDIA 258 Digital Effects I 3
- MDIA 354 Digital Video Distribution 3
- TECH 491 Internship 3
- TECH 499 Senior Project 2

Electives (6 hours, 3 upper division):

Any GRPH or MDIA courses not listed above; chosen in consultation with adviser.

For students interested in owning or managing a business in the graphics industry, a minor in Business Administration is strongly recommended.

Recommended Field Experience

Students majoring in Graphics Technology should have completed, by the end of winter quarter of their senior year, 500 clock hours of commercial work related to the major field and performed under approved supervision. The College will help place students in qualifying positions.

The objective of this program is to prepare graduates for positions in the graphics and printing industry where an appreciation of both disciplines and competence in them are required.

Minor in Graphics Technology

A minimum of 30 hours (9 upper division) to be selected in consultation with the Department Chair, from the requirements listed for the major in Graphics Technology.

Major in Digital Video Technology, B.S.

A minimum of 68 hours (43 in the upper division):

- GRPH 158 WWW Portfolio Development 2
- GRPH 257 Publication Technology III 2
- GRPH 352 Digital Image Technology 3
- GRPH 357 3D Digital Imaging 3
- JOUR 434 Media Law and Ethics 3
- MDIA 152 Introduction to Digital Video Technology 1
- MDIA 158 Media Production Concepts 2
- MDIA 231 Digital Audio Concepts 2
- MDIA 241 Lighting and Exposure 2
- MDIA 253 Broadcast Production I 2
- MDIA 254 Broadcast Production II 2
- MDIA 255 Broadcast Production III 2
- MDIA 256 Digital Nonlinear Editing 3
- MDIA 258 Motion Graphics and Compositing 3
- MDIA 331 Elements of Cinema 4
- MDIA 346 Introduction to Screenwriting 4
- MDIA 354 Digital Video Distribution 3
Recommended Field Experience
All students majoring in Digital Video Technology should have completed, by the end of winter quarter of the senior year, 500 clock hours of commercial work related to the major field and performed under approved supervision. The college will help place students in qualifying positions.

The objective of this program is to prepare graduates for positions in the digital and/or interactive media industry. Segments include but are not limited to education, training, entertainment, and television.

Minor in Digital Video Technology

> A minimum of 30 hours (9 upper division) to be selected in consultation with the Department Chair from the requirements listed for the major in Digital Media Technology.

Aviation

Lower-division courses:

**AVIA 101 1 A, W, S**

**Introduction to Flight**
A basic introduction to the elements and science of flight. Includes flight instruction on basic maneuvers of flight and landings. Survey of aircraft types, design considerations, and role applications. Brief history of aviation and its safety programs. Not applicable to Aviation major or minor.

**AVIA 170 2 W**

**Professional Skills for Pilots**
Essential elements of professional pilot etiquette. Defines and develops personality traits required of professional pilots. Emphasizes excellence in physical fitness, decision-making, critical thinking, and writing. Includes discussion of various historical aviation landmarks from various perspectives.

**AVIA 172 2 W**

**Electronics and Fuel Systems**
The components of the charging system, electrical storage, and starting systems. Battery-driven ignition systems, magnetos, engine combustion principles, and diagnosis of failures. Wiring, fuses, bus bar and grounding systems. Fuel systems section covers storage, fuel formulation, pumping, carburetion, and electronic and mechanical fuel injection and turbo charging.

**AVIA 173 4 A**

**Meteorology**
An introduction, for those interested in science or aviation, to the causes of weather phenomena and patterns. Meteorological theory, the best ways to obtain current weather reports and forecasts, how to interpret meteorological reports, how to predict changes in weather, how to recognize dangerous weather patterns, and how to react to difficult situations caused by adverse weather. For both pilots and nonpilots. Recommended prior to Private Pilot Theory.

**AVIA 175 4 Su, A, S**

**Private Pilot Theory**
The theory necessary for safe flight in today’s environment. Includes aerodynamics, the airspace system, aircraft performance and design, basic weather, maps, navigation, and aeromedical factors. Prepares the future private pilot for the FAA private pilot written exam. Required prior to or concurrently with Private Flight Training. Prerequisite: AVIA 173.

**AVIA 176** 2 Su, A, W, S

**Private Flight Training**
Covers all flight training up through solo flight. Includes training in preflight, taxi, take-off, flight maneuvers, stalls, emergency procedures, normal and cross-wind landings, federal regulations, traffic procedures, and communications. Prerequisite or corequisite: AVIA 175. In-Progress (“IP”) grading system.

**AVIA 177** 2 Su, A, W, S

**Intermediate Private Flight Training**
Includes five hours of solo practice of take-offs, air maneuvers, and landings. Special training in short-field and soft-field landings, night landings, and cross-country flying techniques with a certificated flight instructor completing a minimum of two dual cross-country flights. Prerequisite: AVIA 176. In-Progress (“IP”) grading system.

**AVIA 178** 2 Su, A, W, S

**Advanced Private Flight Training**
Includes ten hours of solo cross-country flight in addition to various sessions with an instructor and solo practice in preparation for the FAA private pilot flight examination. Prerequisite: AVIA 177. In-Progress (“IP”) grading system.
AVIA 273  **1-6 Su, A, W, S**
**Practicum in Flight**
A minimum of forty hours of practice in cross-country flying as pilot-in-command to assigned destinations in preparation for the instrument pilot rating. Flights include practice with cockpit management skills and use of attitude instrument flying. Prerequisite: AVIA 178. In-Progress (“IP”) grading system. Repeatable to six times.

AVIA 275  **4 A**
**Instrument Pilot Theory**
From basic attitude instrument flying to getting around in the modern airspace system on an IFR flight plan. Preparation for the FAA instrument written examination and the instrument instructor written examination. Prerequisite or corequisite: AVIA 170, 273.

AVIA 276  **2 Su, A, W, S**
**Instrument Flight Training**
Basic attitude instrument flying theory and skills. Developing proficiency in scan of the attitude instruments, interpretation of the instruments, and control of the aircraft with an additional work load that includes such factors as communications, copying clearances, using a timing device, and reading charts in flight. Also includes VOR and ADF navigation, DME arcs, and holding-patterns of all types. Prerequisite or corequisite: AVIA 275. In-Progress (“IP”) grading system.

AVIA 277  **3 Su, A, W, S**
**Intermediate Instrument Flight Training**
Develops skills needed for executing VOR instrument approaches, ADF approaches, locatorizer approaches, ASR approaches, no-gyro approaches, and ILS precision approaches. Prerequisite: AVIA 276. In-Progress (“IP”) grading system.

AVIA 278  **2 Su, A, W, S**
**Advanced Instrument Flight Training**
Cross-country instrument flying making use of all former instrument training. Use of acquired instrument skills in cross-country flights to large airports. Includes a comprehensive review and preparation for the FAA instrument flight examination. Prerequisite: AVIA 277. In-Progress (“IP”) grading system.

AVIA 305  **4 W**
**Aircraft Systems**
Major aircraft systems on both small and large aircraft, including theory and troubleshooting techniques. Includes engine theory, propellers, governors, hydraulics, pneumatics, anti-ice and device systems, pressurization, flight controls and landing gear. Special emphasis on turbine engine theory and systems for transition to large transport category aircraft. Prerequisites: AVIA 170, 172; ELEC 141.

AVIA 375  **4 S**
**Commercial and Certificated Flight Instructor Theory**
Aircraft performance, weight and balance, theory of flight, the federal airspace system, air traffic control, and navigation. Prepares pilots for the Commercial, Fundamentals of Instruction, and Certificated Flight Instructor FAA written examinations. Prerequisites: AVIA 170, 278.

AVIA 376  **2 Su, A, W, S**
**Commercial Flight Training**
The systems, performance, and procedures necessary for operating a complex aircraft. Approximately fifty percent of the instruction treats flight competency in a complex aircraft. Includes high-performance flight experience in IFR and night operations. Prerequisite or corequisite: AVIA 375. In-Progress (“IP”) grading system.

AVIA 377  **2 Su, A, W, S**
**Intermediate Commercial Flight Training**
Instruction in the maneuvers and skills required for the commercial certificate. Involves instruction and practice in all types of operations essential for an advanced commercial pilot. Special emphasis on in-flight emergencies. Prerequisite: AVIA 376. In-Progress (“IP”) grading system.

AVIA 378  **2 Su, A, W, S**
**Advanced Commercial Flight Training**
How to work in remote areas and in foreign lands as a bush or mission pilot; operations in very cold weather; survival techniques. Conventional gear (tail-wheel) operations, mountain flying, off-airport procedures, very short field landings and take-offs. (Course offering depends on availability of aircraft.) Prerequisite: AVIA 377. In-Progress (“IP”) grading system.

AVIA 379  **2 W**
**Aerodynamics**
Aerodynamics and aerodynamic devices used on various types of modern aircraft. Encompasses the basic concepts of flight as well as more advanced studies than a pilot would normally receive in preparation for pilot certificates. Recommended prior to commercial and flight instructor flight classes. Prerequisite: AVIA 278. Even years.

AVIA 470  **1 S**
**Fundamentals of Flight Instruction**
Basic principles of education that may be applied to flight instruction. Practice ground instruction covering various private and commercial maneuvers. Discussion of the best teaching techniques and how to avoid the pitfalls common to many students and flight instructors during flight training. Required for instructor certification. Prerequisite: AVIA 278.
AVIA 471  4 Su, A, W, S
Flight Instructor Flight Training
Flight training and practice teaching in preparation for flight-instructor certificate. Requires perfecting teaching techniques for the flight instructor. Includes comprehensive review of private and commercial aeronautical knowledge; flight maneuvering skill from the right-hand seat. Awareness of obligations and privileges of a certificated flight instructor. Mastery of FAA documentation and certification procedures. Prerequisites: AVIA 273, 278. In-Progress (“IP”) grading system.

AVIA 472  3 Su, A, W, S
Instrument Instructor Flight Training
Preparation for the instrument flight instructor oral and practical examination. Review of skills and procedures required for instrument rating. Develops instrument flight proficiency from the right-hand seat and instructional skills necessary for teaching an instrument student in flight and on the ground. Prerequisites: AVIA 273, 278. In-Progress (“IP”) grading system.

AVIA 473  1-6 Su, A, W, S
Advanced Practicum in Flight
Additional involvement in instruction or advanced flight operations into high-density traffic areas under instrument conditions. Special reports or research projects may be required in conjunction with these assignments. Prerequisite: AVIA 471. Repeatable to six times. In-Progress (“IP”) grading system.

AVIA 476  2 Su, A, W, S
Multiengine Flight Training
Dual instruction in aircraft systems, maneuvers, and emergency procedures toward developing proficiency in multi-engine aircraft. Prepares student for the multiengine private or multiengine commercial practical test. Prerequisites: private pilot certificate; commercial certificate recommended. (Course offering depends on availability of aircraft.) Prerequisites: AVIA 170, 178, 305. In-Progress (“IP”) grading system.

AVIA 477  3 S
Human Factors in Aviation
The pilot’s thought processes enabling detection and prevention of potentially hazardous aeronautical decision-making. Emergency procedure planning and crew resource management are role-played to promote teamwork and redundancy for multicrew cockpits. Prerequisite: Commercial Multiengine Pilot Certificate or permission of course instructor.

AVIA 478  2 Su, A, W, S
Multiengine Instructor Flight Training
Prepares the applicant to meet the experience requirements and give flight instruction in a multiengine aircraft. Directed toward acquiring teaching skills and safety procedures to meet the demanding multiengine training environment. Prerequisites: instrument rating, commercial certificate. (Course offering depends on availability of aircraft.) Prerequisite: AVIA 476. In-Progress (“IP”) grading system.

Applied Skills for General Education

Lower-division courses:

ELEC 141  3 A, S
Applied Electronics
A nonmathematical approach to electronics. Electronic components and component combinations to make useful equipment. Experiments include building and testing burglar alarms, photo strobes, power supplies, light dimmers, intercom systems, electronic doorbells, timers, clocks, and other circuits. For the general student. Two lectures and one three-hour laboratory weekly.

AUTO 101  2 S
Auto Mechanics for Women
The mechanical operating principles of the entire car, basic service, the components of a car, how to buy a car, and how to find a good technician to service the car. Especially planned for women only. Two lectures and one laboratory weekly. Not applicable toward a technology degree.

AUTO 171  3 A
Auto Mechanics Fundamentals
Designed for the beginner. The general field of auto mechanics, emphasizing those facets of the field that relate to car service. Two lectures and one laboratory weekly.
Technology

**AUTO 172**  
**3 W**  
Automotive Electronics and Fuel Systems

The electrical, fuel, and smog systems of the modern automobile. Individual systems theory and methods of repair, their relationship to each other, and the way the central computer manages them. The course is divided into three sections: fuel, electrical, and emission controls and computers. Two lectures and one laboratory weekly. Prerequisite: AUTO 171.

**Graphics Technology**

**LOWER-DIVISION COURSES:**

**GRPH 151**  
**3 S**  
Principles of Digital Imaging

**GRPH 155**  
**2 A**  
Introduction to Graphics Technology

**GRPH 158**  
**2 W**  
WWW Portfolio Development

A unique approach to development of dynamic personal portfolios for persons in all disciplines. A practical guide to what to include; how to design, update and link electronic portfolios; their uses in job placement, self-promotion, and personal assessment. Prerequisite: computer competency.

**GRPH 253**  
**3 A**  
Publication Technology I  
(See also JOUR 253.)

Electronic typesetting and composition for formatting and interfacing word processing. The basics of importing text and graphics from other applications, including scanners; evaluation of desktop publishing software. Lab projects with Adobe PageMaker®. Lab fee. Two lectures and one laboratory weekly.

**GRPH 256**  
**2 W**  
Publication Technology II

Continuation of GRPH 253, using the Macintosh computer as hardware platform and Quark Express®. Emphasis on advanced page layout. Introduction to formatting long documents. Use of multiple master pages; building color pages. One lecture and one laboratory per week. Lab fee. Prerequisite: GRPH 253 or permission of the instructor.

**GRPH 257**  
**2 S**  
Publication Technology III

Continuation of GRPH 253 and 256, using the Macintosh computer and Adobe Illustrator®. Emphasis on using Illustrator as a means of creating special typographic effects and redrawing templates imported from a scanner. Introduction to Illustrator for creating original designs. One lecture and one laboratory per week. Lab fee. Prerequisite: GRPH 256 or permission of the instructor.

**GRPH 352**  
**3 W**  
Digital Image Technology

Introduction to Adobe PhotoShop®, Illustrator®, and Dimensions® as tools to create and edit images. Freedom for individualized techniques in developing images. PhotoShop® as a tool to scan and adjust continuous-tone photographs and illustrations for accurate reproduction by the graphics industry. Two lectures and one laboratory per week. Lab fee. Prerequisite: GRPH 253 or permission of the instructor. ART 121 or ART 124 strongly advised.

**GRPH 353**  
**3 A**  
Web-Page Publication

An elementary approach to creating a Web page. Includes choosing an application for easy and automatic HTML scripting, developing fast-acting Web pages, and creating user interactivity. Outline of basic Web rules and weaknesses. Prerequisite: GRPH 253; CPTR 105 or GRPH 153 or demonstrable computer competency (Mac or PC). Odd years.

**GRPH 354**  
**2 S**  
Color Imaging

Procedures for image generation and manipulation, including color proofing, photolithographic reproduction, laser printing and electronic publishing. Two lectures and one laboratory weekly. Prerequisite: GRPH 253. Even years.

**GRPH 356**  
**3 A**  
Doing Business on the Web

An overview of business activity on the Web. Includes ethics, confidentiality, security, and business practices. Lab activities include planning a pseudo-Web page for marketing that can be monitored and maintained remotely. Prerequisite: GRPH 353. Even years.
Technology

GRPH 357 3 S
3D Digital Imaging
Introduction to production of still and animated 3D images. Fundamentals of modeling in three dimensions. Development of simple choreography and movement of models, logos, and 3D text. Two lectures and one laboratory per week. Lab fee. Prerequisite: GRPH 352.

Video Technology

Lower-Division Courses:

MDIA 152 2 A
Introduction to Media Technology
An overview of multimedia, its effects on lifestyles, the workplace, education, training, entertainment, and communication. An examination of real-world applications, markets, and employment opportunities. Lectures, discussions, demonstrations, and field trips.

MDIA 158 3 W
Media Production Concepts
Survey of three types of media production from a Christian perspective: broadcast production, documentary production, and digital film production, with an overview of the positions that make up the production team; and the technologies that make it happen.

MDIA 231 2 A
Digital Audio Techniques
Introduction to audio recording theory and techniques for broadcast, film style, and studio environments. Concepts such as multitrack mixing, voice-over recording, sound effects, editing, and wave-form processing are studied and practiced using current industry-standard audio equipment. Focus on learning industry-standard audio editing software. Prerequisite: MDIA 158.

MDIA 241 2 S
Lighting and Exposure
Theory of and practice in using professional lighting equipment and natural lighting, along with camera exposure control, to achieve various moods and effects. Prerequisite: MDIA 158.

MDIA 253-254-255 2-2-2 A-W-S
Broadcast Production I-II-III
A three-part series in the technical and practical aspects of multi-camera production using professional broadcast equipment. Theory, use and function of broadcast equipment including setup, maintenance and operation. Includes extensive hands-on experience in various production environments including in-studio and local live events. Prerequisite: MDIA 158.

MDIA 256 3 W
Nonlinear Editing
Instruction and experience in logging, digitizing, editing, and preparing footage for exhibit using current industry-standard nonlinear editing systems. Focuses on understanding and using the computer-based nonlinear editing tools, with consideration given to the art of making the edit. Computer proficiency required. Prerequisite: MDIA 158.

MDIA 258 3 S
Motion Graphics and Compositing
Use of the latest desktop video graphics and effects software in creating motion graphics and compositing them on video. Prerequisite: GRPH 257, 352.

Upper-Division Courses:

MDIA 331 4 A
Elements of Cinema
Introduction to the basic elements of cinema and related motion-picture technologies. Emphasis on developing skills of critical analysis and appreciation of the “language” of cinema; craft, genre, style, and technique. Historical overview of cinema classics and innovative visionaries of the medium. Introduction to roles and responsibilities involved in a career in motion-picture technologies (e.g., scriptwriting, directing, cinematography, editing, lighting, sound direction, etc.). Lectures, discussion, and intensive viewing labs.

MDIA 346 4 A
Introduction to Screenwriting
(See ENGL 346.)
Fundamentals of screenwriting: structure, character and scene development; conflict, locale, theme, script outline and story conception. Includes practical development of the student’s knowledge of screenwriting software programs. Students produce one act of a feature-length screenplay. Prerequisite: ENGL 102. Even years.

MDIA 355 3 S
Digital Video Distribution
An exploration into the evolving world of digital distribution from interactive DVD-ROM development to World-Wide Web progressive multidata rate download and streaming video. Different compression algorithms are compared and evaluated. Computer proficiency required; Adobe Photoshop experience desirable.
MDIA 432 4 W
Documentary Production I
Foundation for nonfiction, documentary, and corporate motion-picture production. Research, preparation, and development of a detailed project outline. Students are encouraged to refine and actualize their vision (ideas, themes, and issues) into a workable documentary production. Emphasis on sound and comprehensive project design, teamwork, script planning and blocking, effective scheduling, and production planning. Labs include instructor-directed planning exercises and related fieldwork. Prerequisites: MDIA 158, 231, 241, 256, 331, 346.

MDIA 433 4 S
Documentary Production II
Intensive documentary production. Experience in all phases of the work of the technical associated with cinema/video production through final post-production. Participation in production of second-quarter documentary projects begun in MDIA 432. Must be taken in sequence with MDIA 432.

MDIA 452 3 A
Digital Film Production I
In this series the student creates his or her own short digital film. This first course of the series involves conception and writing the script, preproduction planning and organizing in preparation for production. Must be taken in sequence with MDIA 453, 454. Prerequisites: MDIA 231, 241, 256, 258, 331, 346.

MDIA 453 3 W
Digital Film Production II
Production and rough-cut of the student’s film created in MDIA 452. Must be taken in sequence with MDIA 452 and 454.

MDIA 454 3 S
Digital Film Production III
Completion of the short digital film done in MDIA 452, 453. “Picture-lock,” addition of sound effects and music, digital enhancement of image quality for final distribution. Must be taken in sequence with MDIA 452, 453.

MDIA 451 1 S
Professional Digital Media
Final preparation for entry into the job market. Polishing the demo reel, preparing the resumé, business cards, etc. Survey of the job market and available opportunities. Lectures, discussion, field trip. All major courses should be completed or final ones concurrent with enrollment in this course.

General Courses

Lower-division course:

TECH 291 1-6 A, W, S, Su
Internship
Planned, coordinated, and supervised work experience in an industry allied with the student’s technical areas of concentration. A minimum of fifty hours of verified work experience for each hour of credit. S/F basis. For instructions and requirements, see department chair before registering.

Upper-division courses:

TECH 491 3-6 A, W, S, Su
Internship
Continuation of TECH 291. A minimum of fifty hours of verified work experience required for each hour of credit. Repeatable to a total of 12 hours. In-Progress (“IP”) grading. For instructions and requirements, see department chair before registering.

TECH 492 1-3 A, W, S
Independent Project
Projects selected in any area in which a student desires greater proficiency. Requires approval of department chair. Maximum of three hours credit in any one quarter and a maximum of six hours credit (for TECH 492 and/or TECH 495) in any single program. In-Progress (“IP”) grading. Proposals must be received before the quarter of registration begins. See department chair for instructions.

TECH 493 3 W
Technology, Society and Culture
Current, historical, and future issues and their relationship to technology and systems in various world cultures. Emphasis on explaining technological behaviors and on showing how technology permeates all of human affairs.

TECH 495 1-3 A, W, S
Independent Study
Problems selected in any area in which a student desires greater depth of study. Requires approval of major adviser. Maximum of three hours credit in any one quarter; maximum of six hours credit (for TECH 492 and/or TECH 495) in any single program. Proposals must be received before the quarter of registration begins. See department chair for instructions.
TECH 499  2 A, W

Senior Project

An individual project required in some departmental majors during the senior year representing an area of concentration and the best efforts of the student. This is a service-oriented activity and is typically done for a nonprofit organization. Each project is properly identified and remains in the department. Must be completed by the end of the winter quarter of the senior year. Proposals must be received before the quarter of registration begins. See department chair for instructions.
Blank page
**Programs Offered**

Teacher Credentialing Programs, T.C.P. .......................... 193  
Bachelor of Science in Management, B.S.M. ...................... 195  
Bachelor of Science in Early Childhood  
Education, B.S.E.C.E. .................................................. 195

In harmony with its mission of excellence in Christian education, the Center for Continuing and Professional Education (CAPE) offers off-campus programs to meet the needs and interests of working adults. The Center currently offers the three programs listed above in Napa at the Napa Valley Community Resource Center; in Santa Rosa at the Redwood Christian Academy; and in Clearlake at Clear Lake Community College.

Applicants for professional degree programs are typically 22 (B.S.E.C.E.) or 23 (B.S.M.) years old, have completed at least two full years of college, have attained the equivalent of an associate’s degree, and have several years of full-time work experience (at least five recommended). Applicants with qualifying work and life experience may apply for academic Credit for Prior Learning through assessment of documentation appropriate to the discipline in which credit is sought.

Further information about the Multiple Subject and Single Subject Teaching Credential programs, about the professional Bachelor of Science degree in Early Childhood Education, and about the professional Bachelor of Science in Management is available from CAPE at 877-782-4637 (toll-free), via e-mail at cape@puc.edu, and from the CAPE Website at www.puc.edu/CAPE.

---

**Preliminary Multiple and Single Subject Teaching Credential Programs**

The Teacher Credentialing Program is designed for working adults who already hold a bachelor’s degree. The schedule allows interested persons to meet State of California teacher credentialing requirements while maintaining a day job. The program consists of course work and field experiences approved by the California Commission on Teacher Credentialing.

Cohorts begin in late summer or fall (August-September) and are scheduled for one night per week for approximately eighteen months. Credentialed teachers seeking an add-on credential may also be allowed to take needed courses without following the entire sequence. Entry in this mode is subject to available space and approval of the CAPE and Education departments.

🗹 Steps to completion of the program (apply at the CAPE office for a current schedule of program courses):

1. Individual interview with adviser/credential analyst for transcript evaluation and development of program

2. Application for admission to the program. Prerequisites: a bachelor’s degree; a cumulative GPA of 2.5 or better; passage of the CBEST and MSAT or PRAXIS/SSAT; criminal record clearance; and satisfactory recommendation. The application procedure includes the following:
   a. Application form  
   b. Interview with Education department chair  
   c. Recommendation (from teacher or administrator)  
   d. Official transcripts for all college-level work (for verification of cumulative GPA of 2.5 or better and of college degree, and for identification of applicable course work)  
   e. Verification of successful completion of CBEST (CBEST Verification Card)  
   f. Verification of successful completion of MSAT/ or PRAXIS/SSAT (score report)
Center for Continuing and Professional Education

3. Verification of completion of prerequisite courses:
   a. United States Constitution (approved course or examination)
   b. Foreign language (6 semester/9 quarter units)
   c. Introductory computer course

4. Completion of professional coursework (see outline below)

5. Presentation of exit competency portfolio for departmental approval (within one month of completing student teaching)

6. Application for credential

➤ Required courses for Multiple Subject Credential with CLAD (Crosscultural, Language, and Academic Development)*:

- EDUC 101 Introduction to Teaching 1
- EDUC 101L Introduction to Teaching Lab 1
- EDUC 238 Computer Technology for Teachers 2
- EDUC 238L Computer Technology for Teachers Lab 1
- EDUC 333 Educational Psychology 2
- EDUC 335 Ethical Dimensions of Teaching 2
- EDUC 336 Social and Multicultural Education 2
- EDUC 345 Elementary School C/I: Math and Science 4
- EDUC 353 Elementary School C/I: Beginning Reading and Writing 3
- EDUC 355 Elementary School C/I: Reading and Language Arts 2
- EDUC 356 Elementary School C/I: Reading and Social Studies 4
- EDUC 480 Student Teaching Seminar 1
- EDUC 481-482 Student Teaching Seminar 1-1
- EDUC 482L Student Teaching Lab in Reading 1
- EDUC 482L Student Teaching Lab in Math/Science 1
- EDUC 482L Full-Time Student Teaching 16
- ENGL 329 Literature for Children 1
- ENGL 335 Survey of Linguistics 4
- ENGL 337 ESL Teaching Methodology 4
- MATH 211-212 Foundations of School Mathematics I-II 3-3

➤ Required courses for Single Subject Credential with CLAD:

- EDUC 101 Introduction to Teaching 1
- EDUC 101L Introduction to Teaching Lab 1
- EDUC 238 Computer Technology for Teachers 2
- EDUC 238L Computer Technology for Teachers Lab 1
- EDUC 333 Educational Psychology 2
- EDUC 335 Ethical Dimensions of Teaching 2
- EDUC 336 Social and Multicultural Education 2
- EDUC 358 Curriculum & Instruction: Teaching of Reading in the Secondary School 3
- EDUC 358L C&I: Teaching of Reading in the Secondary School Lab 1
- EDUC 360 C&I: Secondary Methods 2
- EDUC 361 C&I: Middle School Methods 2
- EDUC 361L C&I: Middle School Methods Lab 1
- EDUC 362 Secondary Methods II 2
- EDUC 362L Secondary Methods II Lab 1
- EDUC 484-485 Student Teaching: Middle- and Senior-High School: Seminar 1-1
- EDUC 485L Student Teaching: Middle- and Senior-High School Lab 16
- ENGL 335 Survey of Linguistics 4
- ENGL 337 ESL Teaching Methodology 4

At least one 3-4 quarter unit course dealing with cross-cultural issues is required for the Single-Subject Credential. This requirement can be met by one of the following courses offered by Pacific Union College or by an equivalent course transferred in from another accredited institution:

- ANTH 124 Cultural Anthropology (4)
- COMM 330 Intercultural Communication (3)
- SOCI 121 Introduction to Sociology (4)

➤ Assessment of outcomes:

The College seeks through various means to measure its educational effectiveness in fulfilling its mission. A part of that effort involves one or more examinations to assess outcomes in the major field. All students are required to participate. The following are currently used for assessment purposes:

Prerequisites:

- a. California Basic Skills Test (CBEST)
- b. Multiple Subject Achievement Test (MSAT) for elementary teaching
- c. Single Subject Achievement Test (PRAXIS/SSAT) for secondary teaching

Mid-program review:

After completing the first PUC C/I course with a laboratory, apply for mid-program review by the Education department faculty for approval to continue in the program. The faculty review incorporates the following evaluations, as applicable:

- a. laboratory evaluations
- b. employer evaluation

*Course descriptions are also published in the Education, English, and Mathematics sections of this catalog.
Culmination:
  a. Reading Instruction Competence Assessment (RICA)
  b. Student Teaching Portfolio

**Bachelor of Science in Management, B.S.M.**

This major and these courses are available only through CAPE’s Degree-Completion Program.

The degree completion curriculum in Management builds on personal experience and previous college credit. The program is tailored to the needs of working adult students. Classes meet one evening a week for four hours and are tailored for a mature, interactive learning style. Qualified applicants are at least 23 years old and transfer at least 90 quarter (60 semester) credits of previous college course work that can apply toward general education and elective requirements.

The Management curriculum is a series of upper division courses that together last 20-23 months.

**Requirements: a minimum of 61 hours including the following:**

- **MGT 320** The Legal Environment of Business 4
- **MGT 330** Economics for Managers 4
- **MGT 340** Principles of Marketing 4
- **MGT 350** Data Presentation 2
- **MGT 375** Group and Organizational Behavior 3
- **MGT 390** Organizations and Environments 3
- **MGT 410** Accounting for Managers 5
- **MGT 420** Management 4
- **MGT 430** Human Resources Management in Public and Private Sectors 4
- **MGT 450** Financial Management 5
- **MGT 480** International Business 4
- **MGT 491** Strategic Management 4
- **RELB 305** Biblical Perspectives 4
- **RELT 310** Ethics and Personal Values 4

**A minimum of 7 hours from the following:**

- **ECE 311** Young Children’s Developmental Speech 4
- **ECE 330** Literature for Children 4
- **ECE 359** Exceptional Children 4
- **ECE 365** Parent/Child Relationships 4
- **ECE 380** Infant/Toddler Programs 4
- **ECE 383** Play and Environments 4
- **ECE 384** Healthy Child Care 2
- **ECE 386** Diversified Early Childhood Programs 2
- **ECE 389** Behavior Management and Observation 4
- **ECE 425** Adult Supervision and Management 4
- **ECE 431** Administration and Supervision I 4
- **ECE 432** Administration and Supervision II 4
- **ECE 460** Curriculum Development & Assessment of Young Children 4
- **RELB 305** Biblical Perspectives 4
- **RELT 310** Ethics and Personal Values 4

**A minimum of 4 hours from the following, as specified:**

- **ECE 362** Advanced Music and Movement (4)
- **ECE 382** Art and Creative Activities (4)
- **ECE 385** School-Age Child Care (4)
- **ECE 387** Cultural Diversity (4)
- **ECE 388** Science for the Young Child (4)

**Required cognate courses:**

An approved course in nutrition (3)

Word processing (0-3)

(This requirement may be met by completion of an approved course in word processing or by satisfactory performance on an approved waiver examination.)

---

**Bachelor of Science in Early Childhood Education, B.S.E.C.E.**

This major and these courses are available only through CAPE’s Degree-Completion Program.

The degree completion program in Early Childhood Education is designed to build on past experience and previous college credit. The program is geared to the needs of employed adults, with class sessions, tailored for a mature, interactive learning style, convening one evening a week for four hours. Qualified applicants are at least 22 years old and transfer a minimum of 90 quarter (60 semester) credits of previous college course work that can apply toward general education and elective requirements.

The Early Childhood Education curriculum is a series of upper division courses that together last approximately 18-20 months.

**Requirements: a minimum of 60 hours including the following core courses:**

- **ECE 311** Young Children’s Developmental Speech 4
- **ECE 330** Literature for Children 4
- **ECE 359** Exceptional Children 4
- **ECE 365** Parent/Child Relationships 4
- **ECE 380** Infant/Toddler Programs 4
- **ECE 383** Play and Environments 4
- **ECE 384** Healthy Child Care 2
- **ECE 386** Diversified Early Childhood Programs 2
- **ECE 389** Behavior Management and Observation 4
- **ECE 425** Adult Supervision and Management 4
- **ECE 431** Administration and Supervision I 4
- **ECE 432** Administration and Supervision II 4
- **ECE 460** Curriculum Development & Assessment of Young Children 4
- **RELB 305** Biblical Perspectives 4
- **RELT 310** Ethics and Personal Values 4

**A minimum of 4 hours from the following, as specified:**

- **ECE 362** Advanced Music and Movement (4)
- **ECE 382** Art and Creative Activities (4)
- **ECE 385** School-Age Child Care (4)
- **ECE 387** Cultural Diversity (4)
- **ECE 388** Science for the Young Child (4)

**Required cognate courses:**

An approved course in nutrition (3)

Word processing (0-3)

(This requirement may be met by completion of an approved course in word processing or by satisfactory performance on an approved waiver examination.)
Preliminary Single and Multiple Subject Teaching Credential Courses

EDUC 101 1
Introduction to Teaching
A general overview of the history of education and teaching as a profession. Effective teaching techniques, including the fundamental steps in presenting a lesson. Co-requisite: concurrent enrollment in EDUC 101L.

EDUC 101L 1
Introduction to Teaching Lab
A thirty-hour field experience that provides practical information for the student who is making a decision about teaching. Affords opportunity for the student to imagine himself or herself in the role of teacher. A grade of B or better is required for this course to apply toward the credential. Co-requisite: concurrent enrollment in EDUC 101.

EDUC 238 2 A
Computer Technology for Teachers
An introduction to the use of computers in the elementary and secondary classroom. Emphasis on using computers to manage records, collaborate with other teachers, communicate through printed media, and enhance student learning. Concurrent enrollment required in EDUC 238L. Prerequisite: Computer skills verified by high school or college transcript or a performance waiver.

EDUC 238L 1 A
Computer Technology for Teachers Lab
Opportunity to demonstrate a basic understanding of how computer technology can be used to support teaching and learning. Students create a multimedia presentation, manage a gradebook, and develop an Internet project for use in an elementary or secondary classroom. Concurrent enrollment required in EDUC 238.

EDUC 333 2
Educational Psychology
A survey course applying psychological principles to the classroom setting. Effects on learning of such student characteristics as intelligence, personality, cognitive and moral development, sex, and exceptionality. Major learning theories, motivation, information processing, classroom management, educational objectives, evaluation, and measurement.

EDUC 335 2
Ethical Dimensions of Teaching
Examination of the ethical and moral components of the teaching profession.

EDUC 336 2
Social and Multicultural Education
Designed to help present and future educators acquire the concepts, paradigms, and explanations needed to be effective practitioners in a culturally diverse society. Concepts, strategies, and resources are examined that contribute to building an atmosphere of positive human relations and removing negative stereotypes and prejudices from the classroom.

EDUC 345 4
Elementary School Curriculum and Instruction: Mathematics/Science
The teaching of mathematics in the elementary school with emphasis on problem solving and the use of manipulatives. Covers the application of observation, inquiry, discovery, and problem solving in the sciences. Includes teaching in the multigrade classroom. Co-requisite: concurrent enrollment for one hour of credit in EDUC 482L. Prerequisite: MATH 211-212.

EDUC 353 3
Elementary School Curriculum and Instruction: Beginning Reading and Writing
A balanced, comprehensive approach to teaching reading and writing in pre-kindergarten through grade three, including research on how children learn to read, diagnosis of reading difficulties, phonics, stages of writing development, and planning and delivery of appropriate reading and writing instruction based on assessment and evaluation. Emphasis on CLAD and early prevention of failure in literacy for at-risk children. Requires regular observation in a diverse K-3 classroom.

EDUC 355 2
Elementary School Curriculum and Instruction: Reading/Language Arts
A basic course defining the nature of language acquisition and the principles related to beginning and intermediate reading/language arts instruction. Includes instructional strategies for developing ability to transmit meaning through talking and writing and to comprehend meaning through listening and reading. Also emphasizes assessment and management techniques.

EDUC 356 4
Elementary School Curriculum and Instruction: Reading/Social Studies
A basic course defining the nature of language acquisition and the principles related to intermediate reading/language arts instruction. Includes instructional strategies for developing ability to transmit meaning through talking and writing and to comprehend meaning through listening and reading. Emphasis on using the content of social studies to develop instructional objectives and activities. Also emphasizes assessment and management techniques and teaching to diverse groups of students. Co-requisite: concurrent enrollment in EDUC 482L.
EDUC 358  3
Curriculum and Instruction: Teaching of Reading in the Secondary School
Major emphasis on teaching vocabulary, comprehension, and study skills in grades 7-12. The role of reading in the secondary school, the reading process, language acquisition, needs of students from various cultural and ethnic backgrounds, adaptation of content to reading abilities of students, motivation, diagnosis, and evaluation. Concurrent enrollment in EDUC 358L required.

EDUC 358L  1
Curriculum and Instruction: Teaching of Reading in the Secondary School Lab
Thirty hours of laboratory experience tutoring students with reading difficulties and/or ESL students. The purpose of this fieldwork is to demonstrate reading skills learned in EDUC 358.

EDUC 360  2
Curriculum and Instruction: Secondary Methods I
Introduction to the secondary school curriculum. Curriculum characteristics, instructional objectives, teaching methods, lesson planning, classroom management, audio-visual materials, and grouping and evaluation.

EDUC 361  2
Curriculum and Instruction: Middle-School Methods
Introduction to the middle-school curriculum. Middle-school teaching methods, classroom management skills, lesson and unit planning. Critical thinking and problem-solving skills directly related to the intellectual, physical, psychological and social development of middle-school students. Concurrent enrollment in EDUC 361L required. Prerequisite: EDUC 360; major upper-division GPA of 2.7.

EDUC 361L  1
Curriculum and Instruction: Middle School Methods Lab
Field experience giving candidates an opportunity to observe, help, and teach at the middle-school level for thirty class periods, with six class periods of solo teaching. Concurrent enrollment in EDUC 361 required. Prerequisite: EDUC 360; major upper-division GPA of 2.7.

EDUC 362  2
Curriculum and Instruction: Secondary Methods II
Specific teaching skills, methods, and strategies for the following majors: Business Education, English, Home Economics (see Family and Consumer Sciences), Mathematics, French, Spanish, Music Education, Physical Education, Religion, Science (Biology, Chemistry, and Physics), Social Science, and Technology Education. Topics include writing appropriate objectives, current instructional materials, curriculum guides, methods of subject presentation, preparation of lesson plans, and use of computers. Concurrent enrollment required in EDUC 362L. Prerequisite: EDUC 360; major upper-division GPA of 2.7.

EDUC 362L  1
Curriculum and Instruction: Secondary Methods II Lab
Thirty hours of laboratory work with a grade of B or better is required. The lab experience includes observing in local schools and developing content-area instructional materials in one of the disciplines listed under EDUC 362. Concurrent enrollment required in EDUC 362. Prerequisite: EDUC 360; major upper-division GPA of 2.7.

EDUC 360-481-482  1-1-1
Student Teaching: Elementary School Seminar
Presentation and discussion of topics of importance to student teaching, such as school law, classroom discipline, comparative teaching styles, staff, administrative and parent relationships. EDUC 480 is taken early in the program; EDUC 481-482 are taken concurrently with student teaching.

EDUC 482L  1-15
Student Teaching, Elementary
Student teaching is divided into two components:
a) Two hours: one hour concurrent registration for student teaching with each of the two C/I courses—EDUC 345, 356. Graded Satisfactory/Fail.  
b) Sixteen hours: Sixteen weeks of full-time participation in an elementary-school classroom. Requirements include weekly participation in the student-teaching seminar (EDUC 481-482). Application is required by March 1 prior to the school year during which one’s student teaching is scheduled. Graded Satisfactory/Fail.

EDUC 484-485  1-1
Student Teaching, Middle- and Senior-High School: Seminar
Register for one hour two quarters of the senior year. Presentation and discussion of topics of current interest, such as school law, classroom discipline, comparative teaching styles, staff, administrative, and parent relationships, and other topics relating specifically to the student-teaching experience.
EDUC 485L  
Student Teaching, Middle and Senior High School

Student teaching in junior and senior high schools is organized on a semester basis and includes nine weeks of full-time work at each level. Requirements include weekly participation in the Student Teaching Seminar (EDUC 485). Application is required by March 1 prior to the school year during which student teaching is scheduled. Graded S/F. See prerequisites for student teaching beginning on page 107 of this catalog. Students must provide their own transportation to and from the teaching assignment. Concurrent enrollment is required in EDUC 485 Student Teaching Seminar. In-Progress (“IP”) grade until course is completed.

ENGL 329  
Literature in the Elementary School

A survey of the literary genres as they relate to children, with an emphasis on multicultural literature.

ENGL 335  
Survey of Linguistics

Survey of linguistic concepts and methods: language development and second language acquisition; physiology of human speech; elementary phonology, morphology, syntax, and semantics; language change; dialectology; language and thought; ethical issues in language use.

ENGL 337  
ESL Teaching Methodology

Overview of current methods of teaching English as a Second Language. Concentrates on practical, innovative techniques that foster development of the ESL student’s listening, speaking, pronunciation, grammar, reading, writing, and vocabulary.

MATH 211-212  
Foundations of School Mathematics I-II

The logic and structure underlying school mathematics. Concepts, procedures, problem-solving and applications at concrete, pictorial, and abstract levels.

MATH 211 includes problem-solving techniques, sets, logic and deductive reasoning, the arithmetic of whole numbers, fractions, decimals, integers, rational and real numbers, ratio and proportion, and percent.

MATH 212 includes geometry and measurement. Prerequisite: MATH 211.

Degree-Completion Courses: Management

The following courses are available only in the Bachelor of Science in Management curriculum, an off-campus degree-completion program.

MGT 320  
The Legal Environment of Business

Laws regulating business activities, principles governing contracts, negotiable instruments, sales of goods, agencies, partnerships, and corporations.

MGT 330  
Economics for Managers

The market system and the structure and functioning of the economy in the United States. Macroeconomics concepts, including growth, inflation, employment, interest rates, fiscal policy and monetary policy, supply, demand, and opportunity costs. Microeconomic concepts and tools used to study market power (perfect competition, monopoly, monopolistic competition, and oligopoly), elasticity, income distribution, environment and other social areas.

MGT 340  
Principles of Marketing

Markets, consumer behavior, pricing, promotion, and distribution of products and services. Management issues related to enabling an organization profitably to acquire and satisfy customers and matching the wishes and desires of the customers with those of the organization.

MGT 350  
Data Presentation

MGT 375  
Group and Organizational Behavior

Primary emphasis on group and individual behavior and their influence on each other and on an organization’s effectiveness. Focus on human aspects in organizations, including leadership, groups, conflict, and decision-making.

MGT 380  
Database Analysis and Design

MGT 390  
Organizations and Environments

Emphasis on the organization as an open system. Organizational diagnosis, using a systems approach, examines organizational structure, design, governing regulations that shape business operations, contingency theory, and the impact of the environment on organizational effectiveness.
MGT 410  4  
**Accounting for Managers**  
How managers use accounting data in financial decision-making and in delineating alternative courses of action. Emphasis on both financial and managerial data and on preparing and using financial statements and reports.

MGT 420  4  
**Management**  
Basic concepts and theory of management with emphasis on planning, organizing, staffing, motivation, and control. Within these areas, vision, mission and objectives of organizations are covered. Also included: motivational theories and their application to individual and group functioning in organizations.

MGT 430  4  
**Human Resources Management in Public and Private Sectors**  
Objectives and problems relating to human resources management in public and private organizations. Includes recruitment, selection, performance appraisal, training and development, compensation, grievances, and discipline.

MGT 434  3  
**Entrepreneurship**  
A survey of what it takes to start and operate a business. Legal, managerial, accounting, marketing, and financial aspects of getting a business up and running. Development of a business plan for startup.

MGT 450  5  
**Financial Management**  
Principles of managing and controlling the finances of corporate enterprises. Includes financial institutions and markets, financial statement analysis, the time value of money, risk and return, cost of capital, valuation, capital budgeting, management of working capital, and financial planning. Prerequisites: MGT 330, 410.

MGT 456  3  
**Urban Planning**  
Ideological, political, legal, economic, social factors, and interest groups and how they interact with and affect planning for primarily urban environments. Underlying forces for growth and change; who benefits and who loses. Includes legal and social issues in planning, housing, homelessness, traffic, zoning, urban renewal, economic development, energy planning, and land-use planning.

MGT 460  4  
**Fiscal Administration**  
Financial administration and activities of public agencies. Includes principles of public finance, budgeting, revenue sources (including tax structures), revenue forecasting, debt administration, and fund management.

MGT 477  4  
**Electronic Commerce**  

MGT 480  4  
**International Business**  
Introduction to and summary of doing business in the international marketplace. Includes globalization, political economy, trade theory, investment in foreign countries, and global monetary systems; and entry, organizational strategies and business operations in the global environment.

MGT 482  4  
**Systems Analysis and Design**  
Concepts, skills, methodologies, techniques, tools, and perspectives essential for systems analysts to successfully develop information systems. Includes project identification and selection, project initiation and planning, analysis, logical design, physical design, implementation, and maintenance.

MGT 486  3  
**Information Systems Management**  
An overview of information systems in organizations. Strategic issues, organizational structure for information systems (IS), ethical and societal issues. Also included: hardware and software for business, data organization, telecommunications and networking, inter- and intranet, and IS system types in various organizations.

MGT 487  4  
**Management Science**  
Quantitative methods for managerial decision-making. Includes linear programming, integer programming, decision-making under uncertainty, utility theory, waiting line and inventory models, simulation, transportation and assignment problems.

MGT 491  4  
**Strategic Management**  
A capstone course integrating knowledge and theories from a variety of business disciplines; applications to a study of organizational problems, primarily through the case method. Prerequisites: MGT 320, 330, 340, 350, 375, 390, 410, 420, 430, 450.
Note: The following general-education courses are taught by members of the Religion faculty.

**RELB 305 4**  
**Biblical Perspectives**  
Designed to foster knowledge and understanding of those historical concepts and themes of the Bible that relate most directly to effectiveness in business practices and public life.

**RELT 310 4**  
**Ethics and Personal Values**  
Examination of how personal values in business and public life are shaped by worldviews, ethics, and spiritual formation.

---

**Degree Completion Courses: Early Childhood Education**

*Available only in the Bachelor of Science in Early Childhood Education curriculum, an off-campus degree-completion program*

**ECE 311 4**  
**Young Children’s Developmental Speech**  
Normal development of speech and language in children from birth to age six. An introduction to differential language diagnosis and treatment planning for children with delayed language development.

**ECE 330 4**  
**Literature for Children**  
A survey of literature for children from infancy through grade six. Emphasis on literary quality and a broad knowledge of the best that has been written for children.

**ECE 359 4**  
**Exceptional Children**  
Assessing children with such exceptions to “normal” as mental retardation, giftedness, emotional disturbance, speech, visual, and hearing problems. Includes handicaps and learning disabilities.

**ECE 362 4**  
**Advanced Music and Movement**  
A review of appropriate music, rhythm and movement activities for young children. Includes available resources, practice and implementation in early education.

**ECE 365 4**  
**Parent/Child Relationships**  
Issues in parenting and child-rearing in today’s society.

**ECE 380 4**  
**Infant/Toddler Programs**  
The environment, curriculum, and management of infant/toddler programs. Includes observation of children between six months and three years of age.

**ECE 382 4**  
**Art and Creative Activities**  
The creative and aesthetic development of young children: art, music, movement, and drama.

**ECE 383 4**  
**Play and Environments**  
The importance of play in the learning and development of the young child. Development, analysis, and evaluation of various learning centers intended to enhance the learning environment of a child-care center. Includes curriculum development necessary for integrated learning.

**ECE 384 4**  
**Healthy Child Care**  
How to keep children safe and healthy in a child-care setting; how to recognize symptoms of diseases; appropriate control methods; developing good health habits in young children through example and learning activities.

**ECE 385 4**  
**School-Age Child Care**  
The rationale, design, management and activities for implementing quality care for school-age children.

**ECE 386 2**  
**Diversified Early-Childhood Programs**  
The philosophy of a variety of early-childhood programs unique to the profession. Includes the Montessori and Reggio Emilia curriculum.

**ECE 387 4**  
**Cultural Diversity**  
Describes diversity in the classroom, including history and customs of various cultures. Delineates cross-cultural variations of child development, beliefs, and methods of multicultural education.

**ECE 388 4**  
**Science for the Young Child**  
An organized, sequential approach to creating a developmentally appropriate program for young children.

**ECE 389 4**  
**Behavior Management and Observation**  
Methods and techniques that lead to successful management of young children. Analysis and evaluation of case studies and experience to determine most effective methods of achieving positive outcomes. Includes observation assignments and techniques.

**ECE 425 4**  
**Adult Supervision and Management**  
Function and management of adults in child-care settings; values and goals,
making decisions, and solving problems; management process as applied to the individual and the organization. Principles and guidelines for developing a good mentor-teaching program.

**ECE 431**  
**Administration and Supervision I**  
Techniques and knowledge needed to start a child-care center including budgeting and financial planning, understanding appropriate licensing guidelines, board development, fund-raising, and community assessment.

**ECE 432**  
**Administration and Supervision II**  
Techniques involved in marketing, recruiting and enrolling children in a child-care center. Human resource processes including hiring and discharging staff and in-service training. Key skills such as grant writing and use of computers in administration of a child-care center.

**ECE 460**  
**Curriculum and Assessment Of Young Children**  
Exploring student differences in cultural, linguistic and economic background, language development, and general academic performance to design an authentic and appropriate curriculum. Child assessment strategies covered include clinical interviewing, ethnography, portfolio development and others.

Note: The following general education courses are taught by members of the Religion faculty.

**RELB 305**  
**Biblical Perspectives**  
Historical concepts and themes of the Bible that relate most directly to effectiveness in early childhood education practice and public life.
Rosemary Dibben, Coordinator; 965-6471

PUC CyberCourses is the door to Pacific Union College’s growing number of Internet-based courses. A changing and expanding list of available courses is included in the website (http://cybercourses.puc.edu/)

Registration for students not currently enrolled at PUC is online. (Currently enrolled PUC students register through Lantern.) All courses are for full college credit.

Anyone may register for a course through PUC CyberCourses. There are no admission requirements, no transcripts required, and no long application forms to fill out. But, though enrollment is not restricted, students should keep in mind that the courses are for college credit. Satisfactory completion of a course requires the same aptitude and dedication that success in on-campus college courses requires.

People who might benefit from enrolling in PUC CyberCourses include the following:
• Those seeking professional development
• Degree students at other institutions needing transfer credit
• Student missionaries
• Secondary school students wanting to get an early start on college

• Adventist Colleges Abroad students
• PUC on-campus students (go to Lantern to enroll)
• Those wanting to take a course for personal enrichment

Credit is transferable to other academic institutions. Whether you choose to take a PUC CyberCourse for personal enrichment, professional development, or degree completion at another institution, any credits earned are transferable according to the guidelines of the academic institution to which the credit is being transferred. (Courses numbered below 100 are generally not accepted for transfer credit at other institutions.) If you are intending to apply credit to a major at another academic institution, you need to get in touch with your major adviser and the records office at that other school.

Recent and current offerings include freshman through senior level courses in a variety of fields including sciences, physical education, computer applications in business, English, and mathematics. The list of courses offered changes and is growing. Visit the PUC CyberCourses website for more information and a current list of available courses: http://cybercourses.puc.edu/.
Pacific Union College is incorporated under the laws of the State of California as a nonprofit institution. A portion of its income is derived from gifts and grants. These sources of funding help keep your cost at the lowest possible level consistent with adequate facilities and competent instruction. Because of uncertain economic conditions, the College must reserve the right to increase tuition rates, rents, and fees during the school year.

**Room Deposit**

A $150 cleaning/damage deposit is required of all residence-hall students. To reserve a room for the coming year, both roommates must have paid this deposit. The deposit is refundable if a cancellation is received by September 1. No refunds are made for cancellations after September 1 or for failure to appear for registration.

If you are already in residence, you may designate a room preference before the end of the current school year, but no reservation will be made until the cleaning/damage deposit is received. Specific room assignments for new students are made on the basis of class standing and the date the deposit is received.

When an application to the College is withdrawn prior to the refund deadline, the cleaning/damage deposit is refunded in full upon written request to the appropriate residence-hall dean.

**Financial Requirements For 2002-2003**

**Tuition — Quarter Fee Schedule**

The tuition rates reflect a charge of $470 per quarter hour up to 11.5 hours. Tuition for 12 to 17 hours is $5,445. All hours over 17 are charged at $355 per hour.

**Miscellaneous Fees**

**Late registration fee** $25.00 (Payable in cash when you register $35 if billed to your account)

**Lost residence-hall key or replacement** $20.00

**Lost student I.D. or replacement** $12.00

**Private Music Lesson Fee**

(see Music Charges)

**Nursing Fees**

(see Nursing Fees)

**Senior Citizen (65 yrs. & older) Rates:**

- Non-Participation $N/C
- Audit Credit $55 per hour
- Full Credit $80 per hour

These special rates are available to senior citizens on an “empty-seat” basis. Regular degree students paying full tuition have priority.

**Skiing Fees:** Inquire at Physical Education department

**TEAS Assessment (Nursing)** $35.00

**Technology Fee (Angwin Campus)**

$40.00 per quarter

**Transcript of credits** $25.00

For this one-time fee, billed at first enrollment, a student may request up to twenty-five transcripts without additional charge. **Exceptions:** Express Mail processing is $15; Federal Express is $20.

*Note: A supplement with financial information for 2003-2004 will be available in spring 2003.
Financial Information

Payment Information

Payment for the tuition, room, and board expenses is to be made by:

<table>
<thead>
<tr>
<th>Month</th>
<th>Quarter</th>
</tr>
</thead>
<tbody>
<tr>
<td>September 15</td>
<td>Autumn Quarter</td>
</tr>
<tr>
<td>December 15</td>
<td>Winter Quarter</td>
</tr>
<tr>
<td>March 15</td>
<td>Spring Quarter</td>
</tr>
</tbody>
</table>

You may use your Visa, Mastercard, or Discover charge card to make your payment. To make arrangements, get in touch with your financial counselor.

Advance Payment

All U.S. and permanent-resident students are required to make an advance payment of $1,200 each year without regard to any other financial arrangement or financial aid. This payment, along with the first monthly payment, is due in the Student Financial Services office on or before September 15 for autumn quarter, by December 15 for winter quarter, and by March 15 for spring quarter.

Billing Procedure

As a student at PUC you have two accounts, your basic education account (which covers tuition, room and board) and your miscellaneous account (which picks up other charges through the year, such as meal costs in excess of the minimum, private music lessons for non-music majors, course-overload charges for each hour in excess of 17 hours, library fines, etc.).

You pay your basic education account charges on the basis of your payment plan with the school. Your miscellaneous account charges are to be paid each month upon receipt of the statement. A late charge is assessed for any account that remains unpaid beyond 30 days.

Financing College

The payment options listed below are available to students without financial aid. If you elect one of these plans, you should complete arrangements with your PUC financial counselor thirty days before the school term begins.

Tuition Guarantee Plan
Provisions of the Plan:

1. The tuition rate in effect during autumn quarter of your first contract will remain in effect until you graduate, provided that you maintain full-time, continuous registration. (Student missionaries and Taskforce workers may be granted a one-year leave of absence.)
2. Prior to or on September 15, you must pay total estimated costs for the year.
3. Any cash draws void the contract.
4. As a participant in this plan you are eligible only the first year of participation for a 2% cash discount on the total estimated costs.
5. The SDA Tuition Discount is available when applicable.
6. Any money you earn from campus employment is paid directly to you. These earnings do not qualify as a reduction in the amount to be paid.
7. Costs in excess of the total estimated costs paid will be billed monthly. You must pay them on a monthly basis.
8. Should your actual costs be less than the estimated amount paid, the credit will be refunded after June 25.

This plan guarantees only the tuition rate, not any other charges, including but not limited to the room and board charges and any fees assessed after the beginning of the school year. If you elect this plan, you (or your parents or sponsor) must prepay each year the total estimated costs, which include room and board and other fees at the current rate.

The Tuition Guarantee Plan is available only to students without financial aid.

Cash Discount
Provisions of the Plan:

1. Cash discounts will be applied as follows: 2% discount of the total advance payment for each quarter in residence.
2. Cash discounts will be applied if total estimated costs, less SDA Tuition Discount (if applicable), are remitted by:
   - June 15 for Summer Session
   - September 15 for Autumn Quarter
   - December 15 for Winter Quarter
   - March 15 for Spring Quarter
3. Any cash draws void the discount for that quarter.

Estimate of Expenses

The following amounts represent the estimated cost of full-time attendance during the autumn, winter, and spring quarters of the 2002-2003 school year:

</tbody>
</table>

* For students enrolled for six credit hours or more, tuition and fee charges include tuition, an accident and sickness medical expense assistance plan, Student Association fees, and graduation fees.

Books and school supplies are purchased on a cash basis at the College Bookstore.
Monthly Payment Plan
Provisions of the Plan:
1. After deduction of the advance payment, financial aid, and scholarships from the total estimated costs, this plan allows the remainder to be paid in nine equal payments beginning September 15th and on the 15th of each successive month through May.
2. The responsible party receives a monthly billing.

SDA Tuition Discount
Provisions of the Plan:
A subsidy toward the operation of the College is provided by the Seventh-day Adventist Church. Therefore:
1. Seventh-day Adventist students receive a tuition discount of $780 for the year ($260 per quarter) for full-time students. Three-quarter time students receive a discount of $585, and half-time students a discount of $390 for the year.
2. This discount is applied only to tuition charged at the rate of $470 per hour.
3. This discount is coordinated with other financial aid to fit into need determination.

Family Discount Plan
Provisions of the Plan:
1. For a family with two dependent students attending the College at the same time, a discount of $200 per student per quarter is given; for a family with three or more, the discount is $250 per student per quarter.
2. If you are in a family qualifying for this discount, you also receive the benefits of any of the other payment and discount plans offered by the College for which you qualify.

Financial Aid Programs
The basic premise of the federal and state financial-aid programs is that you and your parents have the primary obligation to meet your cost of attendance to the extent that you and they are able to do so. If you have further financial need, you may apply for financial aid, which is generally made available through grants, loans, and student employment.

The following definitions are given to clarify financial aid:
College Costs: Tuition, fees, room and board, books and supplies, personal expenses (laundry, clothing, etc.), and required travel.
Financial Aid: Financial resources available to meet financial needs, resources such as scholarships and grants, which are not repaid; loans, usually at favorable interest rates and with extended repayment periods; and part-time student employment.

Parents’ Contribution: The amount parents are expected to contribute toward the cost of education.
Family Contribution: A combination of parents’ contribution and student resources, such as savings or other assets, summer earnings, or G.I. Bill aid. For a married student, spouse’s earnings would also be included in family resources. The family contribution is determined by the federal government.
Financial Need: The difference between cost of attendance and the family contribution.
Scholarships: Outright gifts awarded for academic excellence and promise.
Grants: Outright gifts, based on financial need.
Loans: Financial assistance which must be repaid, usually with favorable interest and long-term repayment schedules.

Independent Student: For federal and state financial-aid program purposes, you are considered independent if you
• are 24 years of age or older on or before December 31 of the award year,
• are a veteran of the U.S. Armed Forces,
• are an orphan or ward of the court,
• have a legal dependent other than a spouse,
• are a married student, or
• are a graduate/professional student.

Free Application for Federal Student Aid (FAFSA): The application form used to determine your financial need. The FAFSA is available from PUC’s Student Financial Services Office.
Financial Aid Application (FAA): PUC’s supplemental form to apply for financial aid. This is available at the PUC Student Financial Services Office.

Eligibility for Financial Aid
To qualify for the federal financial aid programs, you must
1. be accepted to attend PUC to pursue a regular course of study leading toward a degree or certificate,
2. be a citizen of the U.S. or its Trust Territories, or have a permanent-resident visa, and
3. demonstrate financial need as determined by the FAFSA.

Satisfactory Academic Progress. To be eligible to receive federal, state, and/or institutional financial aid at Pacific Union College, you must maintain satisfactory academic progress, which is defined as follows:

Course Load. To be a full-time student, you must register for at least 12 hours and complete at least 10 hours per quarter. To complete a bachelor’s degree in four years, you must complete an average of 16 hours per quarter. (Financial aid is available during the summer if you are taking at least 9 hours and will graduate at the end of summer quarter.)
Grade-point average. You must earn a minimum quarter grade-point average of 2.0 and a cumulative grade-point average of 2.0 to qualify for financial aid. To be eligible for campus grant money, bachelor’s degree students must satisfactorily complete 39 hours in three consecutive quarters; two-year degree students must complete 36 hours in three consecutive quarters.

In calculating the grade-point average and evaluating progress toward completion of a degree:

“I” (Incomplete) is calculated as an “F” until the course has been satisfactorily completed according to provisions in this catalog.

“W” (Withdrawal) is not computed in the GPA, nor is the course considered to be completed satisfactorily.

A course repeated to improve the grade-point average is counted only once toward the total credit hours required for graduation. The original grade is not included in the grade-point calculation.

A maximum of nine quarter hours of remedial courses (001-099) is applicable toward the baccalaureate degree.

Time Frame for Progress Toward a Degree. If you receive financial aid, you should carefully adhere to the requirements of your major or other program to ensure completion on time. You must be in compliance with the following tables, which indicate the time for a first-year student to qualify for a degree. Financial aid for students in other classifications will be prorated.

Satisfactory Academic Progress Review. At the end of each quarter the Student Financial Services office reviews the academic progress of each student. If while receiving financial aid you are found to be in violation of the hour and/or grade-point average requirements, your financial aid could be immediately suspended. At the end of the third quarter, campus financial aid may be suspended if the 39/36 hour requirement has not been met.

If your financial aid is suspended, before it can be reinstated you must make arrangements with the Student Financial Services office and with the Records office to take the appropriate course load to satisfy the 39/36 hour and grade-point average requirements.

For any courses you take elsewhere, you must submit an official transcript to the Student Financial Services office and the Records office three weeks before the beginning of the quarter for which financial aid is sought, so that your eligibility may be determined.

Part-Time Students. Financial aid may be available to part-time students as follows: three-quarter time (9-11.5 hours) and half-time (6-8.5 hours). You must declare less than full-time status to your financial counselor prior to the beginning of the quarter. PUC Campus Grant money is available to full-time students only. Additional information is available from your financial counselor.

Transfer Students. Transfer students are eligible for financial aid during their first quarter at Pacific Union College and are subject to the same satisfactory academic-progress policies as other PUC students. Credits earned prior to enrolling at Pacific Union College are not considered when determining academic progress. Transfer credit may be accepted to make up a deficiency. Before registering as a transfer student, you must consult the Records office to determine whether or not PUC will accept your transfer credits.

Appeal Procedures. The following appeal procedures are available if you are ever deemed not to be making satisfactory academic progress. If you are in this category, you may receive aid for the coming quarter upon approval of a written petition to the Financial Aid Committee at the Student Financial Services office. This petition must

1. describe the reasons for not making satisfactory progress,
2. outline a program for correcting the problem, and
3. list an approved, attainable class schedule, signed by your academic adviser, for the following quarter.

Financial Aid Suspension. If you do not make satisfactory academic progress for the petitioned quarter, you will be placed on Financial Aid Suspension, a status that terminates financial aid. If your financial aid is suspended, you may appeal the suspension in writing to the Financial Aid Committee at the Student Financial Services office.

1. The Financial Aid Committee will review the appeal and determine whether the suspension is justified. You will be
advised of the decision in writing. 

1. You may appeal the decision of the Financial Aid Committee, in writing, to the Grants, Loans, and Scholarships Committee.

2. If the appeal is approved and aid is reinstated for one additional quarter, you must
   a. If you do not meet the above requirements, financial aid will be suspended without recourse until you are able to demonstrate your ability to succeed with the appropriate course load and achieve the appropriate grade-point average.

**Types of Aid**

Financial aid consists of gift aid and self-help aid. Gift aid includes scholarships and grants, which require no repayment. Self-help includes loans, which must be repaid, and your employment earnings.

**Gift Aid: Scholarships and Grants From the Federal Government**

**Federal Pell Grant.** The Pell Grant is a federally-funded grant program designed to help eligible undergraduates earn the first baccalaureate degree. The amount is based on your financial need and the number of hours for which you are enrolled.

**FSEOG.** The Federal Supplemental Educational Opportunity Grant program is a federal program for undergraduate students with the greatest financial need. An FSEOG award is automatically considered for students applying for financial aid through PUC.

**BIA.** Bureau of Indian Affairs grants help native American students meet their college costs. Applications for BIA grants and vocational assistance are available from the U.S. Bureau of Indian Affairs regional offices or from the Bureau’s Office of Indian Education, 2800 Cottage Way, Sacramento, CA 95825.

**From the State Government**

The California Student Aid Commission (CSAC) administers the California State Student Grant Program, which is funded by a combination of state and federal sources. Financial aid consists of gift aid and self-help aid. Gift aid includes scholarships and honor awards. The Student Financial Services office coordinates the process, interest rate, and loan amounts for the Federal Stafford Student Loan, provided by such private lending institutions as banks, savings and loan associations, and credit unions, and guaranteed by the federal or state government. To qualify, you must be a U.S. citizen or permanent resident enrolled at least half-time and must have completed the financial aid application process.

The interest rate is variable. Repayment begins six months after you complete college or drop below half-time attendance. The lender determines the repayment schedule. Borrowing limits are $2,625 for freshmen, $3,500 for sophomores, and $5,500 for juniors and seniors. Insurance and loan origination fees are charged by the lender.

If you have an undetermined financial need, you may apply for the Unsubsidized Federal Stafford Loan. The application process, interest rate, and loan amounts are the same as for the Subsidized Federal Stafford Loans. The difference between the two loan programs is that you are responsible for the interest accruing while in school if the loan is unsubsidized. You are not responsible for interest accruing for the subsidized loan.

**Parent Loans for Undergraduate Students (PLUS).** A PLUS loan is a federal loan with a variable interest rate available to parents who borrow on behalf of dependent students. Parents may borrow up to the full cost of education minus other financial aid. If a parent wishes the PLUS to be used for financial clearance, the completed PLUS application must be in the Student Financial Services office to be certified prior to registration. If the PLUS is to be used to pay the entire cost of education, the Student Financial Services office must have indication from the
Financial Information

Although your potential student earnings may be included in your financial aid award letter, the College cannot guarantee how much you will earn.

Campus employment is arranged through the Student Employment office in Financial Services. If you seek work on campus, you must file an application with the Student Employment office and be registered for at least eight hours of course work (except during the summer).

Electronic time clocks are used for recording hours worked. Student workers are paid by check or by electronic funds transfer every two weeks. Department heads employing students determine wage rates within ranges established by College management. Hourly rates are in compliance with state and federal laws.

You may assign a portion of your wages to your account by completing a form available at the Student Financial Services office. You may also request that tithe and/or church expense offerings be deducted from your paychecks.

Federal Work-Study Program. If you qualify, a portion of your wages may be subsidized through the Federal Work-Study Program. Federal Work-Study is designed to broaden the range of meaningful employment. In order for you to be employed on the Federal Work-Study Program, you must have applied for financial aid and must be receiving financial aid (i.e., a Federal PELL grant, a Federal Perkins Loan, a Federal SEOG, etc.) awarded by the Student Financial Services office, and must have an unmet financial need. (If you major in theology or religion, you will not be eligible to participate in the Work-Study Program.)

The type of financial aid offered to you depends upon the amount of financial need and the resources available. After family resources and outside resources (Cal Grants, Rotary Scholarships, etc.) are taken into consideration, a financial award is built in the following order:

1. Federal Pell Grant
2. Federal Supplemental Educational Opportunity Grant
3. Cal Grant/PUC Scholarships/Tuition Assistance, etc.
4. Loan (Federal Stafford Student Loan, Federal Perkins Loan, or Collegiate Loan)
5. PUC Campus Grant

Thus, if your award letter from the Student Financial Services office includes a PUC Campus Grant, you must take a loan in order to qualify for the grant.

Please note: It may be impossible for the College to fill your complete financial need. Also, it may be impossible for all of your PUC scholarship awards to fit into your FAFSA need figure.

Special Programs

Special programs are designed to help specially-qualified students finance their costs of attendance. It is your responsibility to investigate and, if you qualify, to pursue these financial sources.

Veterans' Benefits. The Cal-Vet Educational Assistance Program may pay fees and a monthly stipend to students who qualify. For more information on these programs or on G.I. benefits, veteran’s loans, or veteran’s employment, contact the Veterans Administration or the Veterans Coordinator at PUC.

State Aid to the Physically Handicapped. Through its Bureau of Vocational Rehabilitation, the State of California provides financial assistance to students who have physical disabilities. This assistance may include an additional amount to help cover living costs. Students who may be entitled to this assistance should apply to the State Bureau of Vocational Rehabilitation.
How to Apply for Financial Aid

1. Complete and mail the FAFSA. The FAFSA is necessary for determining financial need and applying for the Federal Pell Grant. Within four to six weeks after your FAFSA is processed, you will receive a Student Aid Report (SAR) in three parts.
2. To apply for a Cal Grant, legal residents of California must complete and mail the GPA Verification Form and the FAFSA by March 2. Obtain a Certificate of Mailing for each form to prove that you met the March 2 deadline. (Students currently receiving a Cal Grant do not need to file the GPA Verification Form.)
3. Complete a PUC Financial Aid Application (FAA) and return it to the Student Financial Services office, if requested.
4. Send signed copies of 2001 Federal income-tax returns and W-2s to the Student Financial Services office.
5. Apply for admission to the College.

March 2 is the filing deadline for the FAFSA and GPA Verification Forms. April 15 is the priority processing deadline for receipt of the items listed above by the Student Financial Services office, Pacific Union College, Angwin, California 94508-9707. Aid awards for applications received after these dates will be based on funds available, but may not cover the determined need.

Delivery of Financial Aid

Cal Grant A, B and C tuition awards are placed as credit on student accounts each quarter.

Financial aid is posted directly to student accounts. Grant aid is handled entirely by the College and is posted directly to individual accounts.

Students receiving Federal Perkins Loans will have an advance posted each quarter. Stafford Loan and PLUS Loan checks are processed via electronic funds transfer directly to the student account.

The practice of placing all monies on the student account provides an audit trail. Should any question arise regarding the account or the disposition of aid, the student account statements readily provide the necessary information.

If your aid exceeds the College charges, it is possible to arrange with the Student Financial Services office for a cash withdrawal from the account at the end of the quarter.

Each quarter the same procedure is followed. Ordinarily, financial aid is credited at the beginning of each quarter. However, if you should have unforeseen financial problems with documented increased financial need, supplemental aid may be given.

A financial aid award letter will be sent to you if you have
1. completed financial aid applications (FAFSA, FAA) on file at the Student Financial Services office;
2. been accepted for admission by the College;
3. sent requested supplemental financial documentation; and
4. responded to any further requests by the Student Financial Services office.

The payment agreement must be signed and returned to the Student Financial Services office. This acceptance serves as authorization to prepare the federal financial aid you are to receive.

If you are interested in applying for financial aid, or if you receive financial aid, should be aware of the following:
1. You are encouraged to discuss any financial problems with your financial aid counselor. Staff members want to help you achieve your academic goals.
2. Financial aid is not intended to help with financial obligations incurred prior to coming to the College. Thus, if you have car payments or substantial credit card or loan payments, it would be best to liquidate such obligations before applying for aid and coming to school.
3. You are encouraged to discuss academic problems with your academic advisers at an early date, or to seek special help from the Counseling Center and/or the Learning Resource Center.
4. Students receiving financial aid are responsible to do as well as possible in their classes. If you find it necessary to change or reduce your course load, you must consult with your financial counselor regarding the effect on your financial aid of the change in course load.
5. If you must withdraw from the College, first come to the Student Financial Services office for a determination of refunds to be made to the aid funds and for information regarding disposition of any loans you may have.
6. You are responsible, as long as there is an unpaid balance, to keep the Student Financial Services office informed of your address and to make the minimum monthly payments.
7. If you have NDSL, Perkins, or Collegiate loans and transfer to another school, or return to PUC after being out for more than six months, you may request the Student Financial Services office to defer your loan payments until you are not attending school again. A similar deferment is possible on Federal Stafford Student Loans, but you must contact the lender for the proper paperwork.
8. Completion of a two-year associate
Financial Information

degree or a four-year baccalaureate degree is based on an average of 16 hours of course work per quarter. Although you may take as few as 12 hours per quarter and still receive full aid, that aid could terminate before you complete your degree requirements if you average fewer than 16 hours per quarter.

9. Although you may take half- or three-quarter-time course loads, if you are receiving financial aid it is to your advantage financially to take a full academic load (average of 16 class hours per quarter). This is so because it costs no more to take 17 hours than 12 hours and the mandated reduction in financial aid for less than 12 hours of course work will generally be more than the reduction in tuition charges.

Refund Policy

Tuition Refunds are made upon the completion of either a Program Change Voucher (for a reduction in course load) or a Request for Withdrawal Voucher (when dropping all courses). These forms are available at the Records office.

The amount of tuition refund to students who withdraw from any or all courses during a quarter is determined from the date the completed withdrawal form is filed with the Records office.

The refund schedule is as follows:
1. first to fourth day of the quarter, 95%;
2. 3% less for each school day thereafter, up to the 29th school day;
3. after the 29th school day, no tuition refund.

Residence-Hall Room Refund

When a room is occupied less than one quarter, a charge is made for the actual number of days on a pro-rata basis. The double-occupancy daily rate is $15.00. The refund would thus be the difference between the number of days occupied times $15.00 from the charge per quarter of $965.

Financial Aid Refunds

Since tuition, room, and board refunds are a reduction in your costs, a corresponding reduction must be made in financial aid that you may have received. (You may get a copy of the policy on specific aid refund procedures from the Student Financial Services office.) Your account will be charged for the reduction in financial aid.

To be certain that all charges and credits have been entered on your account, the College reserves the right to withhold settlement of any balance due to you until the end of the next billing cycle (30 days after you leave campus).

G.I. Bill

Students qualifying for the G.I. Bill should make this fact known to the Veterans Coordinator in the Records office at the time of application to the College. The Veterans Coordinator, who maintains liaison between veterans and the VA, will supply the appropriate forms and will make proper arrangement with the VA.

By prior arrangement with the VA, veterans may have an advance payment check available on registration day. Monthly payments are made directly to the student around the first day of each month. Veterans are required to follow the regular payment plan as listed for other students. For further information, see the section entitled “Services for Veterans” in this catalog.

International Students

International students are required to pay all costs for the upcoming quarter in advance. A deposit of $1,200, paid to the Student Financial Services office, is required from these applicants prior to the issuance of an I-20 form for use in securing a U.S. student visa. (An additional $150 deposit is required from international students who plan to live in one of the residence halls. See “Room Deposit.”) Students receiving financial sponsorship from overseas divisions do not need the $1,200 (U.S.) deposit if a statement is received from the treasurer of the division assuming responsibility for tuition, room, and board.

International students on student visas do not qualify for loans and grants as detailed in the financial section. Campus employment, however, may be available. International students are expected to meet required payments at registration and throughout the quarter just as other students do.

To determine the parents’ or sponsor’s ability to meet the educational costs without the need for financial aid, the applicant must also submit for review the Finance Guarantee Form accompanied by a bank statement, which will be sent at the time of application. Further information is available from the Student Financial Services office.

Insurance for International Students

Because the cost of medical care in the United States is high in comparison to costs in other countries, all international students must have and maintain major medical insurance coverage while attending Pacific Union College. This insurance must have minimum coverage of at least $150,000. The insurance may not discriminate on the basis of sex or age. The policy must be written in English.

Pacific Union College has a major
medical insurance plan available for international students. At the time of registration, students must purchase the medical insurance available through the College or provide a copy of the schedule of benefits of their own medical insurance policy, meeting or exceeding the minimum requirements specified by the College.

Automobile insurance is required in the United States to cover liability for damages in the event of an accident. Severe penalties are imposed on the owner and driver of an uninsured vehicle should an accident occur. The international student adviser at Pacific Union College can provide information about purchasing automobile insurance.

**Food Service**

The Food Service is operated on the cafeteria plan. If you live in one of the College residence halls, you are expected to take your meals in the Dining Commons. The quarterly minimum charge for board is $637.

If you are a commuting student, or if you are enrolled in less than a half-time study load, you may pay cash or use your regular ID card when using the Food Service. (You may be asked to pay a deposit before your ID card is activated for use in the Dining Commons.) All meal charges must be paid by the end of the next billing cycle.

**Residence Halls**

Pacific Union College affirms the values to be gained from being primarily a residential college. Most students live in one of the seven gender-exclusive residence halls. Four women’s residence halls can accommodate approximately seven hundred students; three men’s halls, approximately six hundred.

By accepting admission, if you are an unmarried student aged 22 or younger you agree to live in a residence hall unless you apply for and are granted an exception (see “Student Housing”).

To apply for a room in a residence hall, complete and submit a Residence Hall Information Card along with a $150 room/cleaning/damage deposit. Room assignments for new students are made on the basis of class standing, the date the deposit is received, and the discretion of the residence hall dean. If you change your mind and do not enroll at PUC, your full deposit will be refunded, provided you notify your residence hall dean of your decision by September 1.

The standard room rate is $965 per quarter for double occupancy in each residence hall. When a student can be accommodated only through overcrowding, there will be a 25% reduction in the rental rate for each student in the room. If you choose to room alone, provided space is available, you will be charged an additional $482 per quarter.

When a room is occupied less than one quarter, a charge is made for the actual number of days on a pro-rata basis. (See Refund Policy.)

When you move out of the residence hall, the room will be inspected for reasonable cleanliness and normal wear. If necessary, charges for extra cleanup or repairs will be made at this time against your $150 damage deposit.

You will be issued a key upon occupancy of a residence-hall room and will be expected to return it when you move out. Should the key be lost or not returned upon departure, a $20 lost-key charge will be placed on your account.

Charges made to your long-distance telephone number cannot be billed on your monthly statement. (See “Telephone Information” in the STUDENT LIFE AND SERVICES section of this catalog.)

The College is not liable for loss of your personal belongings or damage to them. If you want insurance coverage for personal possessions, you should arrange for it with your personal insurance carrier.

**Apartments**

Housing for married students and single parents is available on campus in two areas: Court Place and Brookside Park. To qualify for residence in these areas, applicants must be taking a regular course load (and successfully complete no less than eight hours of class work each quarter).

The Court Place apartments include fourteen one- and three-bedroom duplex units with a one-car carport space adjacent. Brookside Park includes forty one- to three-bedroom apartments with carport. All apartments are furnished with stove, oven, refrigerator, window coverings and carpet.

Assignments are made on a first-come, first-served basis, established by a $10 nonrefundable deposit. Information about housing for married students or single parents is available from the Office of Student Services, Pacific Union College, Angwin, CA 94508-9707.

The College is not liable for loss of your personal belongings or damage to them. If you want insurance coverage for personal possessions, you should arrange for it with your personal insurance carrier.

**Health Service**

The College will assist you as a supplement to the medical protection provided by your own primary insurance policy (i.e., personal, family, automobile). Authorization must be obtained by the Health Service office.

If you are enrolled for at least six hours during each quarter of the regular school year, including the summer session, and if you are accepted for the autumn quarter and are working full time on campus during the summer recess, you are eligible
Financial Information

to receive assistance. (International students must meet special medical insurance requirements described in the section entitled “International Students,” above.) Assistance begins after records of the required physical examination and immunizations are received. Medical care is provided primarily by the College Health Service, the College physician, and the St. Helena Hospital.

Late Charge on Unpaid Accounts
If you have any account that remains unpaid beyond 30 days after the close of the quarter in which you left the College, a late charge will be assessed.

Late Registration Fee
A late-registration fee of $25 is assessed for failure to complete registration on time. This fee is paid to the Registrar in cash before you are considered fully registered. An additional $10 is charged if you do not pay at the Records office.

Flight Training Fees
After you register for flight training, the amount needed to pay for ten hours of instruction per credit hour is applied to your flight account at the Parrett Field Flight Center. Expenses for both the airplane and the instructor may be charged to that account. When the tuition credit has been used, additional funds must be applied to the account to maintain a positive balance until the course curriculum has been completed. You may inquire at the Flight Center for cost estimates for your course. Aviation majors may expect to pay approximately $2,000 per year, in addition to tuition, for flight laboratory fees. (If there is a significant change in the cost of fuel, insurance, etc., rates may be adjusted during the school year.) Because of reduced tuition for summer courses, one-half tuition credit is applied to the flight account for instruction during the summer session.

If you already have certain FAA certificates and wish to receive academic credit for them, there is a per-course recording fee. (See also “Credit by Examination” in the ACADEMIC INFORMATION AND POLICIES section.)

Music Charges
Private music lessons are offered on either a credit or no-credit basis. On a credit basis, all students except music majors and minors are charged the normal tuition charge as well as a private music lesson fee of $190 per credit hour.

Fee waiver. The private music lesson fee will not be charged to those majors and minors who are enrolled in Theory I (MUTH 121-122-123 ) or the Introduction to Music Literature sequence (MUHL 131-132-133) or who have already taken these courses and are continuing to enroll in courses normally expected of majors and minors.

This fee waiver normally applies only to the required number of hours of those lessons necessary to fulfill the degree requirements.

Private Music Lesson Fees Per Quarter
With credit:
Each credit hour of lessons $190
(tuition additional)
Without credit:
Each half-hour series of lessons $250

Each credit hour is based upon a minimum of nine one-half-hour private music lessons per quarter. Lessons missed because of a student’s irregular attendance may not be made up.

If a student withdraws within the first two weeks of the quarter, the refund is prorated; after that, however, no refunds are made.

Students enrolling as members of music organizations or ensembles register on a credit or audit basis. A limited number of ensemble scholarships are available through the music department for students who incur overload tuition charges as a result of enrolling in one of these courses.

Nursing Fees
A.S. Program, First Year:
NURS 121 (Nursing I): $120
NURS 124 (Nursing II): $75
NURS 125 (Nursing III): $65

In addition, see the Nursing section of this catalog for information about the application fee and premium for malpractice insurance.

A.S. Program, Second Year:
NURS 221 (Nursing IV): $50
NURS 222 (Nursing V): $50
NURS 252: $50
NURS 253: $50
NURS 254: $50
NURS 262: $35

B.S.N. Program:
NURS 394: $35
NURS 432: $35
NURS 462: $35

These fees cover Skills Lab equipment costs, ID badge, malpractice insurance, graduation nursing pin, and the initial testing and evaluation for the national tests given across the program. Nursing fee charges are generated when one registers for a course. Repeating a course, therefore, will also generate these fees.

Skiing Fees
For current rates, inquire at the Physical Education department at registration time. Recently the charges have been in the $200-250 range.

Auditing
Lecture-type courses that are audited are charged at the half-tuition rate. Independent study, ensembles, and participation-type courses may be audited, but full tuition is charged.

**Graduation in Absentia**

It is expected that all graduates will participate in the commencement services unless granted written permission by the Records office to be graduated *in absentia*. Written application for exemption should be made not later than one quarter prior to commencement. Permission is granted only in instances of obvious necessity. A fee of $25 is assessed any graduate who absents himself from graduation without permission.

**Technology Fee**

Students enrolled for one or more credits on the Angwin campus pay a $40 per-quarter technology fee. *Exceptions*: Faculty and staff and students enrolled in such “off-campus” programs as degree completion, extended nursing, and extension courses.

**Transcripts**

Each student at first enrollment is billed a one-time transcript fee of $25. For this payment the student may request up to twenty-five transcripts without additional charge. *Exceptions*: Any unusual costs incurred for such special requests as “rush processing” are added. Express Mail processing, for example, is an additional $15; Federal Express is $20.

**ID Cards**

Regular ID Cards provide identification for the following purposes: Dining Commons purchases, use of the College Library, transactions at the Business office and Records office, special functions on campus, purchases by personal check at local businesses, and identification of students for campus security purposes. Should a card be lost or stolen, notification must be made to the Student Financial Services office before the student’s obligation for any misuse of the card will end. A $12 fee is charged to replace lost or stolen ID cards.

**College Bookstore**

Books and supplies may be obtained at the College Bookstore on a cash basis. Purchases made with a personal check require two ID’s, one of which may be the PUC ID card, and the second a driver’s license or a DMV ID card. VISA, MasterCard, and the Discover group may also be used for Bookstore purchases. Students may not charge Bookstore purchases to their College accounts.

**Checks**

Checks for a student’s account should be made payable to Pacific Union College. Checks intended *for a student’s personal use* should be made payable to the student and not to Pacific Union College. Returned checks are subject to a $15 charge plus statutory penalties if action to collect becomes necessary.

**Cash Withdrawals**

Students are expected not to request cash withdrawals from their accounts. Exceptions are ordinarily considered only in emergency situations or when a credit balance exists.

**Banking and Security of Personal Possessions**

You are advised not to keep money in your residence hall room. *The College does not assume any responsibility for the loss of money or other personal belongings left in rooms or elsewhere on campus.* Provision is made for students to deposit money for safe keeping at the Business office. The College does not provide banking services, and no interest accrues. (A charge of $2 is made for reissuing lost passbooks.) You may use bank debit cards to get cash at the College Market.

The Silverado Federal Credit Union is conveniently located on campus; students are invited to take advantage of its wide variety of financial services. An ATM is located at the SFCU.

Integrity is expected of every student in all academic work. The guiding principle of academic integrity is that the work one presents as one’s own is one’s own.

Students shall not violate the Code of Academic Integrity and shall avoid situations likely to compromise academic integrity. Students shall observe the provisions of the Code of Academic Integrity whether or not faculty members establish special rules of integrity for particular courses. Failure of faculty to prevent academic dishonesty does not excuse students from compliance with the Code.

Those who engage in academic dishonesty diminish the quality and value of their education and bring discredit to the academic community.

Categories of Academic Dishonesty

Academic dishonesty includes, but is not limited to, the following:

1. Cheating—Using, or attempting to use, unauthorized materials in any academic exercise; or having someone else do one’s own academic work. Examples of cheating include looking at another student’s paper during a test, bringing notes to a test, obtaining a copy of a test prior to the test date, and presenting homework prepared by someone else.

2. Fabrication—Inventing or falsifying information. Examples of fabrication include “dry-labbing” (inventing data for an experiment not done or not done correctly), making references to sources not actually used in a research paper, forging advisers’ signatures on registration forms, forging letters of recommendation, and falsifying credentials in an application.

3. Facilitating Academic Dishonesty—Helping someone else to commit an act of academic dishonesty. This includes giving someone a paper or homework copy to from and allowing another to cheat from one’s test paper.

4. Plagiarism—Using the words or ideas of another writer without attribution, so that they appear as if they were one’s own. Plagiarism includes copying someone else’s work word for word, rewriting someone else’s work with only minor word changes, and paraphrasing or summarizing work without acknowledging the source.

5. Multiple Submissions—Presenting work done in previous courses as if it were new and original work. Although professors are sometimes willing for a student to use previous work as the basis for new work, they expect the student to do new work for the current course. A student who wants to submit a piece of academic work in more than one course should seek the approval of the instructors.

6. Abuse of Academic Materials—Harming, appropriating, or disabling academic resources so that others cannot use them. This includes removing tables and illustrations from books and journals to use in a paper, stealing books or articles, and deleting and damaging computer files intended for the use of others.

7. Misrepresentation—Lying about or misrepresenting one’s work, academic records, or credentials. Examples include claiming ownership of another’s work, several students submitting copies of the same computer document and taking credit for group work to which a student did not contribute significantly or fulfill his or her obligations.

8. Electronic Dishonesty—Using network access inappropriately, in a way that affects a class or other students’ academic work. Examples of electronic dishonesty include using someone else’s authorized computer account to send and receive messages, breaking into someone else’s files, gaining access to restricted files, disabling others’ access to network systems or files, knowingly spreading a computer virus, and obtaining a computer account under false pretenses.

These general definitions may be supplemented or modified by additional policies stated in course syllabi.

Procedures for Addressing Academic Dishonesty

1. When an instructor believes that a student has acted dishonestly, a conversation on the incident in question occurs between the instructor and the student. The instructor should notify the department chair of the incident and the conversation about it.

2. If the instructor is not satisfied with the student’s explanation, the instructor documents the incident in writing. The documentation includes definition of disciplinary action. The student receives a copy of the document. A copy is filed in the Academic Dean’s office.

3. The General Academic Studies and Policies Committee reviews serious first offenses and repeat offenses and may recommend to the Academic Dean disciplinary action beyond that defined by the course instructor.

4. Students who wish to appeal the decision of the instructor, the Academic Dean, or the General Academic Studies and Policies Committee may do so, following the grievance procedure outlined in the Student Handbook.

5. Students are entitled to add a written rebuttal to their personal files.
