

General Catalog Addendum

Instructional Facilities

The aircraft and AATD used are owned and operated by Pacific Union College (PUC). All flight instruction is provided by college employees. No part of any flight instruction is offered under contract with an outside entity.

All aircraft are based at Parrett Field (2O3) in Angwin, CA.

Instructional Schedule

Flight training is to be completed within the quarter which the AVIA course was registered for. Students will be given an in-progress (IP) if training is not completed within the quarter. Students will have one additional quarter to complete all course work. If the work is not completed within this time frame, a failing grade will replace the IP. For veteran students, any unused funding must be returned to the VA at this time.

Student's funds will be sent to PUC in increments, per the approved course cost sheet, to avoid misuse of VA funding. The approved cost sheet outlines the hours of flight training as prescribed in each course syllabus. Additional hours needed above the approved amount, must be paid by the student. Any unused funding will be returned to the VA at the end of the term. The aviation curriculum, including flight training coursework, adheres to PUC's policies regarding grading, refunds, withdrawal, attendance, and academic progress.
