----------	-------------------------------

Student Learning Outcomes

Students can:

- Demonstrate foundational knowledge in the functional areas of business.
- Evaluate the legal, social, and economic environments of business domestically and globally.
- Assess information and situations to make rational ethical business decisions.
- Demonstrate effective oral and written communication skills.
- Leverage decision-support tools and research to integrate business knowledge in applied settings.

Occupational Information

What can I do with this major?

This major is designed primarily for students who desire greater flexibility in their college program than that allowed by the B.B.A. degree program, such as students interested in pursuing graduate programs in law, business, dentistry, healthcare, or medicine.

Additional Training Required?

A bachelor's degree is required for many entry-level positions in business organizations and is usually required for advancement in management positions. Managers have found that the knowledge and perspective gained in earning a master's and/or doctoral degree enhance their competitive position considerably. To reach the highest ranks in college and university environments, a doctorate is essential.

Job Outlook

Graduates with this degree have been exposed to a wide array of business concepts, creating the flexibility to use this general knowledge to work in various areas within an organization. This degree is ideal for individuals who desire flexibility in their academic program, pre-professional students, and students considering graduate business education.

* Courses used to fulfill requirements in these sections may not also fulfill requirements in another emphasis or business program.

General Education Requirements

To view general education requirements for this major, please refer to page A-01, Summary of General Education Requirements: B.S. Degree.

The B.S. degree in Business Administration does not require a specialization within business and is often chosen by students pursuing professional graduate degree programs.

How to Construct Your Own Program

1. Consult with your academic advisor.
2. Consider your aptitudes, interests, and available courses.
3. Schedule major courses and cognates first.
4. Fill the rest of your schedule with G.E. requirements.
5. For the freshman year include English, Religion, and PE courses. Also include Basic Algebra I+II unless waived by previous work.

What the Degree Includes

A total of 192 quarter hours including:

1. A minimum of 60 upper division hours.
2. General Education requirements.
3. Major requirements.
4. Minimum 2.0 GPA, overall and major.
