**Occupational Information**

**What can I do with this major?**

Graduates of this program work as pilots giving flight instruction, flying for aerial photography, sky diving, crop dusting, sight seeing tours, flying cargo, airlines, and charter. Most of these pilot jobs are based on the amount of flight hours the pilot has accumulated.

**Additional Education Required?**

Most flight jobs will require a flight checkout in the type of aircraft to be flown.

**Public Sector vs. Denominational**

While most jobs are in the public sector, there are opportunities for mission aviation through denominational organizations, such as Adventist World Aviation (AWA).

**Job Outlook**

Favorable. The need for pilots is expected to increase in the coming years as more and more pilots reach retirement age. However, in the short term, employment opportunities for pilots are sensitive to changes in the economy.
