

# WHAT'S NEW

## AT PACIFIC UNION COLLEGE

**AVIATION STUDENT AIMS TO INSPIRE YOUNG WOMEN BEYOND AERONAUTICS** Taylor Webster is one of PUC's newest Pioneers. Coming from just down the hill in Napa, she chose to pursue aviation since she loves to fly. This passion began during the summer of 2023 when Taylor had the opportunity to join a free aviation program as an explorer. "I knew there was nothing I'd rather do," she shared. "Though I love flying, I want to be an advocate for young women looking to pursue careers that they may not feel is an option for them."

**AN ANSWERED PRAYER: PUC'S AVIATION PROGRAM RECEIVES REMARKABLE GIFT** Pacific Union College alum Jordan Wareham generously gifted the aviation program a Musketeer (N6066N). The number of students in the aviation program has more than doubled since last school year. This gift allows the program to accommodate the students and is essential to their timely and efficient flight lesson progression.

**SA OFFICER SPOTLIGHT: OLIVIA NEWMAN** Before Olivia Newman graduates from PUC, she wants to make a significant impact on campus.

That's why she decided to run for SA financial vice president and help be a voice for PUC students. "The opportunity to represent students and facilitate their happiness drove my interest in this position," shared Olivia. "Going into my last year of the accounting program at PUC, I am confident in my ability to contribute positively to student life."

**GLIMPING THEIR FUTURE: PUC STUDENTS ATTEND SOCIETY OF ADVENTIST COMMUNICATORS CONFERENCE** From October 17 to 19, five students from the communication department at Pacific Union College attended the 2024 Society of Adventist Communicators Conference (SAC) near Chicago, Illinois. This trip was made possible by the support of generous donors.

**PUC ALUMNI MOVES ARCHITECTURE FIRM TO NAPA** From the 1996 PUC class, Jarrod Denton is an architect, partner, and founder at Signum Architecture, LLP. When he and his business partner founded their firm, they chose "Signum" as it is a Latin term for design and reflects the center point of the firm. They opened their architecture

firm originally in St. Helena in May of 2011 and relocated to Napa on November 20, 2023.

**FROM HOWELL MOUNTAIN TO MISSION-DRIVEN HEALTHCARE: DR. RICHARD CHINNOCK HONORED FOR CAREER OF SERVICE AND LEADERSHIP** Countless student-turned-alumni are shining examples of that spirit of service—one of those alums being Dr. Richard Chinnock. Chinnock, '78, was recently honored in April with the 2024 Shirley N. Pettis Award by Loma Linda University Children's Hospital (LLUCH). The award recognized his work as a devoted pediatrician with more than 30 years of service at the hospital, impacting thousands of lives in the Inland Empire and far beyond.

**FACES OF PUC: JAYLEEN CASILLAS** Senior Jayleen Casillas is a social work major from Victorville, CA. She decided to attend PUC after having the opportunity to play soccer at the college and transferred during her sophomore year. "I figured a new start would be the best thing I could do for myself at that time, so I took the chance, and I do not regret it at all," shared Jayleen.

**PUC SIGNS GUARANTEED ADMISSION AGREEMENT WITH ANDREWS UNIVERSITY'S DOCTOR OF PHYSICAL THERAPY PROGRAM, PROMISING QUALIFIED STUDENTS A SEAT** Qualified Pacific Union College students may now be guaranteed admission to Andrews University's (AU) Doctor of Physical Therapy (DPT) program through the recently signed Guaranteed Admission Agreement. Effective October 1, this agreement ensures at least two PUC pre-physical therapy students will be accepted into AU's DPT program annually. To

support the partnership with AU, PUC has developed a robust curriculum meeting the admission requirements to the DPT program, including specific biology, chemistry, physics, statistics, and psychology classes.

**FACES OF PUC: BLESSING SIMAMORA** Coming from Littleton, Colorado, is junior pre-nursing student Blessing Simamora. Her favorite part about being a part of the pioneer family is the close-knit community. "Because the campus is small, more students and faculty are able to get to know one another and this makes our community stronger," she shared. "It's nice attending a school where everyone is comfortable with one another."

**THE PATH ALREADY TRAVELED: ALUMNI SEMINAR SERIES CONNECTS STUDENTS WITH ALUMNI'S EXPERIENCES AND ENCOURAGEMENT** Through valuable advice and personal stories from those who've walked the path before them, the School of Science's Alumni Seminar Series is helping Pacific Union College students navigate their academic journey and inspire their future career paths. The seminar series was the brainchild of Aimee Wyrick, dean of the School of Sciences and associate professor in the Department of Biology. She explained that the inspiration behind inviting PUC alumni to speak to current students included the desire to create connections and engage with seasoned perspectives.

**UPCOMING EVENTS:**  
Fri. **Dec. 6:** 8 p.m., and  
Sat., **Dec. 7:** 4 p.m.  
Christmas Candlelight Concert  
in the PUC Sanctuary
